That the contract for professional services with The Mannik & Smith Group, Inc., Canton, be increased $206,485.63 on a billing rate basis plus reimbursables.

Purpose/Business Case
The purpose of this modification is to provide professional architectural/engineering services for additional remedial investigation support services, including quarterly groundwater sampling, conducting an air sparging/soil vapor extraction (AS/SVE) pilot study, verification sampling, and evaluation. The professional will prepare environmental reports and technical memoranda to comply with environmental regulations.
Benefit
The State will benefit by protecting the environment and complying with environmental regulations.

Funding Source
100% Refined Petroleum Funds
Commitment
The professional services contract modification will be paid on a billing rate basis plus reimbursables. The amount of the contract is within the authorized budget.
Risk Assessment
Failure to approve this modification may result in noncompliance with environmental regulations.

LEASE FOR PRIVATE PROPERTY

3. DEPARTMENT OF STATE, GRAND RAPIDS - Renewal of Lease No. 10262 with Northtown Center, Inc., a Michigan Corporation, 2920 Fuller Avenue N.E., Grand Rapids, Michigan 49505, as Lessor, and the State of Michigan by the Department of Technology, Management & Budget for the Department of State, as Lessee, for 5,909 square feet of office space located at 3472 Plainfield Avenue N.E., Grand Rapids, Michigan 49505. The Lease is effective upon obtaining State Administrative Board approval and required signatures. The annual per square foot rental rate for this space beginning July 1, 2011 is $11.50 ($5,663 per month). This is a full service Lease. This Lease contains two 5-year renewal options with an annual per square foot rental rate of $14.50 ($7,138 per month). This Lease contains a Standard cancellation clause with 90-days notice. The Attorney General has approved this Lease as to legal form.

Purpose/Business Case
The Department of State is satisfied with the current location and the rental rate is well within market for comparable spaces. The Lessor has been very responsive to any needs and has kept the property in good condition.
Benefit
Renewing at the current location allows the agency to save on moving costs and will not confuse customers by changing to a new location.
Funding Source
66.1% Restricted Funds (1.2% Auto Repair Facility Fees; 4.1% Driver Fees; 0.3% Expedient Service Fees; 4.1% Parking Ticket Court Fines; and 56.4% Transportation Administration Collection Fund)
33.9% General Fund
Commitment
10-year lease with two 5-year renewals; however, this Lease contains a Standard cancellation clause with 90-days notice.
Risk Assessment
Non-approval of this Lease would cause the Agency to become a tenant at will.
Zip Code
49505

4. DEPARTMENT OF STATE, CHESTERFIELD TOWNSHIP - Renewal of Lease No. 10865 with Home-Field, LLC, a Limited Liability Company, 39525 13 Mile Road, Suite 250, Novi, Michigan 48377, as Lessor, and the State of Michigan by the Department of Technology, Management & Budget for the Department of State, as Lessee, for 4,000 square feet of office space located at 51305 Gratiot Avenue, Chesterfield Township, Michigan 48051. The Lease is effective upon obtaining State Administrative Board approval and required signatures. The annual per square foot rental rate for this space beginning October 1, 2011, or upon substantial completion, is $17.00 ($5,667 per month). This rate does not include utilities and janitorial. This Lease contains two five-year renewal options with an annual per square foot rental rate of $17.50 ($5,833 per month) for each. This Lease contains a Standard cancellation clause with 90-days notice. The Attorney General has approved this Lease as to legal form.

Purpose/Business Case
The Department of State is satisfied with the current location and the rental rate is well within market value for comparable spaces. The Lessor has been very responsive to any needs and has kept the property in good condition.
Benefit
Renewing at the current location allows the agency to save on moving costs and will not confuse customers by changing to a new location.
Funding Source
73% Restricted
27% General

Commitment
10-year lease with two 5-year renewals; however, this Lease contains a Standard cancellation clause with 90-days notice.
Risk Assessment
Non-approval of this Lease would cause the Agency to become a tenant-at-will.
Zip Code
48051

ADDENDUM TO LEASE FOR PRIVATE PROPERTY

5. DEPARTMENT OF CORRECTIONS, KALAMAZOO - Addendum No. 1 to Lease No. 11216 approved by the State Administrative Board on July 3, 2007, between Kalamazoo County, a governmental unit, 201 West Kalamazoo Avenue, Kalamazoo, Michigan 49007, as Lessor, and the State of Michigan by the Department of Technology, Management & Budget for the Department of Corrections, as Lessee, for 1,800 square feet of space located at 201 West Kalamazoo Avenue, Kalamazoo, Michigan 49007. This Addendum provides for adding 1,550 square feet for a total of 3,350 square feet. This Addendum is effective upon obtaining State Administrative Board approval and required signatures and continues to the termination date of the Lease, or any extension. The annual per square foot rental rate beginning April 1, 2011, or upon substantial completion, is $12.00 ($3,350 per month). This is a full-service Lease. Effective May 1, 2012, the annual per square foot rental rate for this space is $12.60 ($3,517.50 per month). This Lease contains a five-year renewal option beginning May 1, 2017, with an annual per square foot rental rate of $13.23 ($3,693.38 per month). This Lease contains a five-year renewal option beginning May 1, 2022, with an annual per square foot rental rate of $13.89 ($3,877.63 per month). This Lease contains a standard cancellation clause with 90-days notice. The Attorney General has conditionally approved this Addendum as to legal form and that condition has been met.

Purpose/Business Case
The Leased Premises serve as a parole office. However, the space is no longer large enough to manage increased parolee supervision requirements anticipated for the remainder of the current lease term and beyond.
Benefit
This additional space will allow the Department to properly manage the parolee population in southwest Michigan with increased waiting and interview space.
Funding Source
100% General Fund
Commitment
April 30, 2017; however, this Lease contains a Standard cancellation clause with 90-days notice.
Risk Assessment
Non-approval of this Addendum will hinder the Department from efficiently and safely supervising the parolee population in southwest Michigan.

Zip Code
49007

CONTRACT CHANGE ORDER

6. DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET, DETROIT - CCO No. 61 for Lease No. 10785 approved by the State Administrative Board on December 21, 1999, between New Center Development, Inc., as Lessor, and the State of Michigan by the Department of Technology, Management & Budget as Lessee. This CCO provides for upgrading the audio and visual equipment in the MSHDA conference room at Cadillac Place, as requested by the Department of Technology, Management & Budget at a cost not-to-exceed $23,137.40 The space is located at 3044 W. Grand Blvd., Detroit, MI 48202.

Purpose/Business Case
The purpose of this CCO is to upgrade audio and visual equipment and to retrofit the Detroit Board Room at Cadillac Place on the 4th floor. This upgrade and retrofit will help facilitate viewing and teleconferencing to enhance the operation of both small and large meetings.

Benefit
This CCO allows for reliable, quality audio and visual transmission during teleconferencing and will save time and travel expenses when conducting staff, divisional and board meetings.
Funding Source
100% General Fund; to be billed back to MSHDA, 100% Restricted Funds
Commitment Level
Present through September 30, 2031; however, this Lease contains a Legislative cancellation clause with 60-days notice.
Risk Assessment
Non-approval of this CCO will hinder the Department from having the use of reliable audio and visual equipment when conducting meetings. Non-approval will also hinder the agencies from saving travel costs when attending necessary staff, divisional and board meetings.
Zip Code
48292

7. DEPARTMENT OF ENERGY, LABOR AND ECONOMIC GROWTH, LANSING - CCO No. 7 for Lease No. 10521 approved by the State Administrative Board on July 19, 1988, between Victor II Partnership, as Lessor, and the State of Michigan by the Department of Technology, Management & Budget for the Department of Energy, Labor and Economic Growth, as Lessee. This CCO provides for electrical wiring as-needed to supply power to a new coffee brewing

station in the snack shop at a cost not-to-exceed $1,152. The space is located at 201 North Washington Square, Lansing, Michigan 48933

Purpose/Business Case
The purpose of this CCO is to provide for professional installation of electrical wiring and related fixtures to supply power to a new coffee brewing station in the snack shop.
Benefit
This CCO allows the agency's licensed snack shop operator to provide coffee service for larger meetings held to conduct state business.
Funding Source
100% Federal Funds.
Commitment
Present through January 31, 2020; however, this Lease contains a Legislative cancellation clause with 180-days notice.
Risk Assessment
Non-approval of this CCO will hinder the Department from having convenient on-site coffee service for larger group meetings to conduct department business.
Zip Code
48933

RECOVERY ACT FUNDS AGENDA

BUILDING COMMITTEE / STATE ADMINISTRATIVE BOARD

February 8, 2011 / February 15, 2011
11:00 A.M. Lake Superior Room 1st Floor
Michigan Library and Historical Center

This agenda is for general informational purposes only. At its discretion, the Building Committee may revise this agenda and may take up other issues at the meeting.

AWARD OF CONSTRUCTION CONTRACTS

1. DEPARTMENT OF CORRECTIONS, YPSILANTI – Huron Valley Women's Correctional Facility – Replacement of Domestic Water Storage Heater System
   File No. 472/10069.RAN
   Low Responsive Bidder: Daniels Building Co., Inc., Brighton; $270,883.00

Purpose/Business Case
The purpose of this contract is to provide construction services for replacement of old inefficient steam-fired domestic water storage heater systems in housing Units 2 and 3 with new energy efficient water storage heater systems.

Benefit
The State will benefit by having new, more energy efficient and cost effective domestic water storage and heating systems in these housing units.

Funding
100% ARRA Energy Project Funds

Commitment
The contract cost is fixed based on competitive bids. The amount of the contract is within the authorized budget.

Risk
Failure to approve this contract will result in continued use of inefficient and expensive domestic water heating and storage units at Huron Valley Women's Correctional Facility.

Requests approval of the application for designation of a 15-year Renewable Energy Renaissance Zone commencing January 2, 2012 for Michigan Business Tax and income tax purposes and December 31, 2011 for property tax purposes as follows:

Grid Logic Incorporated - Lapeer Township/Lapeer County Renewable Energy Renaissance Zone

The Director of the Department of Technology, Management and Budget recommends approval by the State Administrative Board of the items contained in Sections I, II, III, IV, V, and VI of this agenda. Approval by the State Administrative Board of these award recommendations does not require or constitute the award of same. Award of contracts shall be made at the discretion of the DTMB Director or designee.

SECTION I - AGENCY SUBMITTED - NEW CONTRACTS

SECTION II - AGENCY SUBMITTED - CONTRACT CHANGES

SECTION III - AGENCY SUBMITTED - NEW GRANTS

1a. DEPARTMENT OF AGRICULTURE

1)	Michigan Technological University Houghton, MI	$ 40,000.00 Total **FY11-12** 100% Recovery Act Fund One-year grant for the Emerald Ash Borer Slow Ash Mortality project in Houghton County
2)	Michigan Technological University Houghton, MI	$ 70,000.00 Total **FY11-12** 100% Recovery Act Fund One-year grant to support project coordinator position for the Emerald Ash Borer Slow Ash Mortality project

SECTION IV - AGENCY SUBMITTED - GRANT CHANGES

2a. DEPARTMENT OF COMMUNITY HEALTH

1) Various Vendors
(Listing on file)

$ 241,000.00 Amendment
$128,291,755.00 New Total
FY11 60.58% Federal Fund
1.29% Recovery Act Fund
31.56% General Fund
2.27% Restricted Fund
See bid tab for list of funds
4.30% Private Funds
Additional funds for one-year grant agreements to provide funding for improved access to critical health services

2) Michigan Public Health Institute
Okemos, MI

$ 2,907,131.00 Amendment
$ 44,029,681.00 New Total
FY11 57.42% Federal Fund
29.53% General Fund
6.27% Recovery Act Fund
6.26% Restricted Fund
See bid tab for list of funds
0.52% Local Funds
Additional funding for one-year grant agreement to provide grant funding for various community health projects

3a. DEPARTMENT OF HUMAN SERVICES

1) Various DOES09-Series
(Listing on file)

$ 513,856.00 Amendment
$217,518,876.00 New Total
FY11 100% Recovery Act Fund
Additional funds to purchase mandatory statewide database system

2) FiveCAP
Scottville, MI

$ 15,000.00 Amendment
$ 4,370,803.00 New Total
FY11-12 100% Recovery Act Fund
Additional funds for temporary staff position to complete work on DOE National Evaluation

SECTION V - DTMB SUBMITTED - NEW CONTRACTS

SECTION VI - DTMB SUBMITTED - CONTRACT CHANGES

SECTION VII - RELEASE OF FUNDS TO WORK ORDER

SECTION VIII - REVISION TO WORK ORDER

SECTION IX - CLAIMS - PERSONAL PROPERTY LOSS

SECTION X - CLAIMS - PERSONAL INJURY LOSS

SECTION XI - SPECIAL ITEMS

The Director of the Department of Technology, Management and Budget recommends approval by the State Administrative Board of the items contained in Sections I, II, III, IV, V, and VI of this agenda. Approval by the State Administrative Board of these award recommendations does not require or constitute the award of same. Award of contracts shall be made at the discretion of the DTMB Director or designee.

February 15, 2011 No. 30

COMMITTEE REPORT TO THE STATE ADMINISTRATIVE BOARD

The Honorable Rick Snyder, Governor
and
Members of the State Administrative Board

A special meeting of the **Finance and Claims** Committee was held at 11:00 a.m. on **February 15, 2011**. Those present being:

Chairperson:	Mary G. MacDowell, representing State Treasurer Dillon	Approved Mary G. MacDowell
Member:	Mike Gadola, representing Governor Snyder	Approved
Member:	Iris Lopez, representing Attorney General Schuette	Approved Iris Lopez

Others: Carol Isaacs, Department of Attorney General; Janet Laverty, Department of Education; Mike Senyko, Department of State; Sherry Bond, Pat Mullen, Janet Rouse, Department of Technology, Management and Budget; Myron Frierson, Jean Ingersoll, Department of Transportation; Tom Saxton, Department of Treasury; Nat Forstner, Lt. Governor's Office; Abigail Totoraitis, House Republican Policy Office; Kristin Longley, The Flint Journal; Patrick Clawson

---

Ms. MacDowell called the meeting to order.

The Finance and Claims Committee special agenda was presented.

Following discussion, Ms. Lopez moved that the special agenda be recommended to the State Administrative Board for approval. The motion was supported by Mr. Gadola and unanimously adopted.

Ms. MacDowell adjourned the meeting.

SECTION IV - AGENCY SUBMITTED - GRANT CHANGES

SECTION V - DTMB SUBMITTED - NEW CONTRACTS

SECTION VI - DTMB SUBMITTED - CONTRACT CHANGES

1s. DEPARTMENT OF TECHNOLOGY, MANAGEMENT AND BUDGET

1) Client Network Services, Inc.
Rockville, MD

$ 7,699,021.00 Amendment
$137,655,786.00 New Total
FY11-12 75% Federal Fund
25% General Fund
071B6200168 Additional funding for Medicaid Services Administration for the Department of Community Health

SECTION VII - RELEASE OF FUNDS TO WORK ORDER

SECTION VIII - REVISION TO WORK ORDER

SECTION IX - CLAIMS - PERSONAL PROPERTY LOSS

SECTION X - CLAIMS - PERSONAL INJURY LOSS

SECTION XI - SPECIAL ITEMS

The Director of the Department of Technology, Management and Budget recommends approval by the State Administrative Board of the items contained in Sections I, II, III, IV, V, and VI of this agenda. Approval by the State Administrative Board of these award recommendations does not require or constitute the award of same. Award of contracts shall be made at the discretion of the DTMB Director or designee.

Ms. MacDowell presented the Finance and Claims Committee Reports for the regular meeting of February 8, 2011, and the special meeting of February 15, 2011. After review of the foregoing Finance and Claims Committee Reports, Ms. MacDowell moved that the Report covering the regular meeting of February 8, 2011, with the withdrawal of Item 30 (1) of the regular F&C agenda by the Department of Treasury at the State Administrative Board on February 15, 2011, and the Report of the special meeting of February 15, 2011, be approved and adopted. The motion was supported by Mr. Forstner and unanimously approved.

Mr. Senyko said we'll work through the Emergency Financial Manager process and it may be wise to consider what the Board's role will be.

Mr. Gadola said we'll do more due diligence to make sure Flint has a reasonable plan for the debt and this may be put on a future agenda.

APPROVED

FEB 15 2011

MICHIGAN STATE
ADMINISTRATIVE BOARD

COMMITTEE REPORT TO THE STATE ADMINISTRATIVE BOARD

The Honorable Rick Snyder, Governor
and
Members of the State Administrative Board

A Regular meeting of the **Transportation and Natural Resources** Committee was held at **3:30 p.m.** on **February 9, 2011**. Those present being:

Chairperson: Mike Senyko, representing Secretary of State Johnson — Approved

Member: Elizabeth Clement, representing Lt. Governor Calley — Approved

Member: James Shell, representing Attorney General Schuette — Approved

Others: Sherry Bond, Janet Rouse, Department of Technology, Management and Budget; Jean Ingersoll, Chad Rajala, Tom Simpson, Anu Taneja, Department of Transportation

---

Mr. Senyko called the meeting to order.

There was no Department of Natural Resources and Environment, Mineral and Land Management Section Agenda presented.

There was no Department of Natural Resources and Environment, Water Resources Division Agenda presented.

A retroactive letter was received from the Kirk T. Steudle, Director of the Department of Transportation, regarding Item 16 of the Regular Agenda.

The Department of Transportation Regular Agenda was presented.

Following discussion, Mr. Shell moved that the Transportation Regular Agenda be recommended to the State Administrative Board for approval.

Supported by Ms. Clement, the motion was unanimously adopted.

The Department of Transportation Supplemental Agenda was presented.

Following discussion, Mr. Shell moved that the Transportation Supplemental Agenda be recommended to the State Administrative Board for approval with the following:

1. Items 1, 2, 3, 4, 5, 6, 7, 9, and 33 of the Supplemental Agenda contingent upon approval by the Office of Commission Audit;
2. Items 7, 9, and 33 of the Supplemental Agenda contingent upon approval by the Department of Attorney General; and
3. Items 14, 22, and 38 of the Supplemental Agenda contingent upon receipt of the 10% over engineer's estimate justification letter.

Supported by Ms. Clement, the motion was unanimously adopted.

Mr. Senyko adjourned the meeting.

At the State Administrative Board meeting on February 15, 2011, Items 7, 22, and 38 of the Supplemental Agenda were withdrawn by the Department of Transportation.

AGENDA

DEPARTMENT OF TRANSPORTATION

TRANSPORTATION and NATURAL RESOURCES COMMITTEE
STATE ADMINISTRATIVE BOARD

T&NR Meeting: February 9, 2011 – Lake Superior Room,
1st Floor, Michigan Library and Historical Center, 3:30 PM
State Administrative Board Meeting: February 15, 2011 - Lake Superior Room,
1st Floor, Michigan Library and Historical Center, 11:00 AM

This agenda is for general informational purposes only. At its discretion, the Transportation and Natural Resources Committee may revise this agenda and may take up other issues at the meeting.

CONTRACTS

1. *AERONAUTICS AND FREIGHT (Aeronautics) - Increase Amount

Amendatory Contract (2010-0405/A1) between MDOT and Mayfield Township will increase the contract amount by $3,800 to cover higher than anticipated attorney costs associated with the condemnation of parcel E11. The original contract provides for the land acquisition final condemnation costs for parcel E11 at the Dupont-Lapeer Airport in Lapeer, Michigan. The contract term remains unchanged, August 19, 2010, through August 18, 2030. The revised contract amount will be $283,800. Source of Funds:

	Previous Total	Total Increase	Revised Total
Federal Aviation Administration (FAA) Funds	$266,000	$3,610	$269,610
State Bond Funds	$ 7,000	$ 95	$ 7,095
Mayfield Township Funds	$ 7,000	$ 95	$ 7,095
Total	$280,000	$3,800	$283,800

Criticality: Land acquisitions and easements allow airports to meet FAA safety requirements by controlling runway protection zones. The property acquisition will allow the airport to meet this federal requirement for safety.
Purpose/Business Case: To increase the contract amount by $3,800 to cover additional attorney fees associated with the condemnation for parcel E11.
Benefit: The court-ordered settlement will allow the easement to be purchased and the airport to keep the approaches to the runway clear of obstructions.
Funding Source: 95% FAA Funds; 2.5% State Bond Funds; 2.5% Mayfield Township Funds.
Commitment Level: The contract is for a fixed cost.
Risk Assessment: If the contract is not approved, the project may not proceed as planned, as the local sponsor cannot afford the cost without federal and state participation.
Cost Reduction: The amount was determined by a court-ordered settlement and is not negotiable.
Selection: N/A.
New Project Identification: This is not a new project.
Zip Code: 48446.

* Denotes a non-standard contract/amendment

2. AERONAUTICS AND FREIGHT (Aeronautics) – Design and Construction of Airport Improvements

Contract (2011-0095) between MDOT and the City of Grand Haven will provide federal and state grant funds for the design and construction of the approach clearing on runway 27, including box hangar and taxilane design; installation of taxiway reflectors; and replacement of an electrical vault door at the Grand Haven Memorial Airpark in Grand Haven, Michigan. This is a sub-grant issued pursuant to the conditions of the block grant given to MDOT by the Federal Aviation Administration (FAA). The contract will be in effect from the date of award through 20 years to comply with an FAA regulation that requires airports receiving federal funding for certain types of projects to remain fully operational for a period of 20 years. The airport sponsor will have from the date of award through three years to complete the project. The estimated project amount will be $194,000. Source of Funds: FAA Funds (via block grant) - $184,300; State Restricted Aeronautics Funds - $4,850; City of Grand Haven Funds - $4,850.

Criticality: This project will provide an obstruction-free approach to the runway, as mandated by the FAA, and will increase the safety margin for aeronautical activity.
Purpose/Business Case: To provide for the design and construction of the approach clearing on runway 27, including box hangar and taxilane design; the installation of taxiway reflectors; and replacement of an electrical vault door.
Benefit: Will enhance airport safety.
Funding Source: 95% FAA Funds; 2.5% State Restricted Aeronautics Funds; 2.5% City of Grand Haven Funds.
Commitment Level: The contract is for a fixed cost.
Risk Assessment: If the contract is not approved, the project may not proceed as planned, as the local sponsor cannot afford the cost without federal and state participation.
Cost Reduction: The construction will be bid through MDOT and awarded to the lowest bidder. The consultant contracts were reviewed by MDOT personnel for appropriateness and further cost reductions.
Selection: N/A.
New Project Identification: This is a new project.
Zip Code: 49417.

3. HIGHWAYS – Time Extension

Amendatory Contract (2007-0859/A1) between MDOT and McConnell Communications, Inc., will extend the contract term by one year to provide for the continuation of the as-needed communications services. The original contract provides for as-needed communications services to be performed within the project limits for the ongoing Ambassador Bridge Gateway Project in the City of Detroit, Wayne County (CS 82194 – JN 37795A). The work includes media relations, which may include crisis management, media monitoring, relationship building, and paid media buys. The revised contract term will be December 18, 2007, through February 28, 2012. The contract amount remains unchanged at $449,170. Source of Funds: 90% Federal Highway Administration Funds and 10% State Restricted Trunkline Funds.

Criticality: This amendment will provide for the continuation of as-needed communications services for the ongoing Ambassador Bridge Gateway Project in Detroit. The services provide a means of reaching out to communities in the project area and of addressing concerns that Metropolitan Detroit communities have not been able to participate in this MDOT project.
Purpose/Business Case: To extend the contract term by one year to provide for the continuation of the as-needed communications services. The consultant will continue to facilitate meetings with community organizations and interested parties to encourage community participation, gain community input, and provide information about the project.
Benefit: Will continue to provide opportunities for Metropolitan Detroit communities to participate in the project to allow community concerns to be addressed and to foster a better understanding of the project.

Funding Source: 90% Federal Highway Administration Funds and 10% State Restricted Trunkline Funds.
Commitment Level: The unit costs are fixed.
Risk Assessment: Some Metropolitan Detroit communities have voiced concerns about being excluded from participation in this project. Without these services, community concerns may not be addressed, and an opportunity could be lost to foster a better understanding of the project and build trust.
Cost Reduction: Costs are on a unit price basis not to exceed the maximum contract amount.
Selection: N/A for amendment; best value for original contract.
New Project Identification: This is not a new project.
Zip Code: 48075.

4. HIGHWAYS - IDS Time Extension

Amendatory Contract (2008-0194/A1) between MDOT and Northwest Consultants, Inc., will extend the term of the indefinite delivery of services (IDS) contract by one year to provide sufficient time for the consultant to complete ongoing projects, including design work under authorization (Z12). The original contract provides for engineering services to be performed on an as needed/when needed basis. No new authorizations will be issued under this IDS contract. The revised contract term will be April 2, 2008, through April 1, 2012. The maximum contract amount remains unchanged at $4,000,000. Source of Funds: Federal Highway Administration Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.

Criticality: The IDS contract will expire on April 1, 2011. If the IDS contract is not extended, authorizations issued under it cannot be extended, and design work under authorization (Z12) cannot be completed.
Purpose/Business Case: To extend the contract term by one year to allow authorizations issued under this IDS contract, including authorization (Z12), to be extended as needed. No new authorizations will be issued under this IDS contract.
Benefit: Will allow authorizations issued under this IDS contract to be extended, pending State Administrative Board approval, as applicable.
Funding Source: Federal Highway Administration Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this amendment is not approved, authorizations issued under the IDS contract cannot be extended as needed and the consultant will not be able to complete ongoing projects for which additional time is needed, including design work under authorization (Z12).
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: N/A for amendment and for original contract.
New Project Identification: This is not a new project.
Zip Code: 48150.

5. HIGHWAYS - IDS Engineering Services

Authorization Revision (Z12/R1) under Contract (2008-0194) between MDOT and Northwest Consultants, Inc., will extend the authorization term by one year to provide sufficient time for the consultant to complete the services. The additional time is needed because the original authorization did not provide sufficient time for the consultant to perform the design services. The original authorization provides for design services to be performed for the rehabilitation of Old M-14 from the east approach of structure B03 of 82101 to Farmington Road in the City of Livonia, Wayne County (CS 82101 – JN 55664C). The revised authorization term will be November 19, 2009, through April 1, 2012. The authorization amount remains unchanged at $501,309.59. The contract term will be April 2, 2008, through April 1, 2012. Source of Funds: 82% Federal Highway Administration Funds and 18% State Restricted Trunkline Funds.

Criticality: This authorization will expire on April 1, 2011. If this revision is not approved and the design services are not completed, the rehabilitation project could be compromised.
Purpose/Business Case: To extend the authorization term by one year to provide sufficient time for the consultant to complete the design services for the rehabilitation of Old M-14 from the east approach of structure B03 of 82101 to Farmington Road in the City of Livonia.
Benefit: The additional time will allow the consultant to complete the design services for the rehabilitation of Old M-14 from the east approach of structure B03 of 82101 to Farmington Road in the City of Livonia. The project will extend the life of the roadway and improve roadway safety.
Funding Source: 82% Federal Highway Administration Funds and 18% State Restricted Trunkline Funds.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this revision is not approved and the design work is not completed, the rehabilitation project may not be completed, costly maintenance services may be required, and a more costly reconstruction may be required in the future.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: N/A for revision; qualifications-based for original authorization.
New Project Identification: This is not a new project.
Zip Code: 48150.

6. HIGHWAYS – Inspection and Testing Services

Amendatory Contract (2010-0147/A1) between MDOT and Wade Trim Associates, Inc., will extend the contract term by three months to provide for an additional three months of the as-needed inspection and testing services. The additional time is needed to provide adequate construction engineering inspection and testing resources for scheduled 2011 projects and any unforeseen projects that may be constructed during this time period. The original contract provides for as-needed inspection and testing services to be performed for construction projects in the Port Huron Transportation Service Center (TSC) service area, St. Clair County. The revised contract term will be March 17, 2010, through June 30, 2011. The contract amount remains unchanged at $739,973.11. Source of Funds: Federal Highway Administration Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.

Criticality: Inspection and testing services are critical to ensuring that construction projects are completed in accordance with state and federal guidelines so that federal funding is not jeopardized for future projects.
Purpose/Business Case: To extend the contract term by three months to provide for an additional three months of the as-needed inspection and testing services for construction projects in the Port Huron TSC service area. Construction engineering services, including inspection and testing, are critical to the successful completion of MDOT projects.
Benefit: Will provide for continued as-needed inspection and testing services, as required by federal law, which will result in high quality products. The services will ensure that requirements are met to satisfy state and federal guidelines for construction oversight and the administration of highway construction projects.
Funding Source: Federal Highway Administration Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this amendment is not approved, the projects may lack adequate inspection and testing, which could result in substandard work. Failure to provide the services could result in the loss of federal funding for highway construction projects.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: N/A for amendment; qualifications-based for original selection.
New Project Identification: This is not a new project.
Zip Code: 48060.

7. *HIGHWAYS – Revise Scope, Reduce Amount

Amendatory Contract (2010-0233/A1) between MDOT and The Mannik & Smith Group, Inc., will revise the scope of services and will reduce the contract amount by $7,050. Non-destructive testing will be performed instead of a visual condition survey to determine the length and depths of the steel sheet piles and the structural condition of the seawall (necessary for global stability analysis). The new services are less costly than the originally planned services. The original contract provides for design services to be performed for the construction of a new non-motorized path and improvements to the existing path along the Detroit Riverfront (part of the Detroit Riverfront Conservancy project). The project limits are along the Detroit Riverfront from the southwest corner of Joe Louis Arena to Gabriel Richard Park in the City of Detroit, Wayne County (CS 82400 – JN 105721C). The contract term remains unchanged, October 4, 2010, through December 30, 2013. The revised contract amount will be $2,384,412.16. Source of Funds: 80% Federal Highway Administration Funds and 20% Detroit Riverfront Conservancy Funds.

Criticality: This amendment will revise the scope of services and will reduce the contract amount. MDOT is administering this federally-funded project on behalf of the Detroit Riverfront Conservancy.
Purpose/Business Case: This amendment will provide for a change in the scope of services for the project. Specialized non-destructive testing will be performed to determine the length and depths of the steel sheet piles and the structural condition of the seawall. The non-destructive testing will be performed instead of the originally planned visual condition survey, which uses diving inspection, and will be less costly.
Benefit: This amendment will provide for necessary changes to the scope of services and will reduce the contract amount. The project will provide connections between existing sections of the Riverfront, which will increase public access to the river.
Funding Source: 80% Federal Highway Administration Funds and 20% Detroit Riverfront Conservancy Funds.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this amendment is not approved and the needed changes to the scope of services are not made, the project could be compromised.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: N/A for amendment; qualifications-based for original contract.
New Project Identification: This contract is for design services for a new non-motorized path and improvements to the existing path.
Zip Code: 48207.

8. HIGHWAYS - Cost Participation for Local Agency Force Account Work

Contract (2010-5774) between MDOT and the City of Stephenson will provide for funding participation in the following construction improvements:

Relocation of utility and light poles along Highway US-41 from the south city limits to the north city limits.

Estimated Funds:

Federal Highway Administration Funds	$50,400
State Restricted Trunkline Funds	$11,200
Total Funds	$61,600

NH 55012 – 87551; Menominee County
Force account work

Criticality: Relocation of this work is required in order to allow maintenance of traffic during the US-41 reconstruction. Delaying this project would delay reconstruction work on US-41.
Purpose/Business Case: The City of Stephenson will perform or cause to be performed the removal and replacement of street lighting in preparation for MDOT's US-41 construction project.
Benefit: Having the City perform utility improvements will allow the US-41 construction project to commence without delay.
Funding Source: Federal Highway Administration Funds and State Trunkline and Bridge Construction funds.
Commitment Level: 81.85% federal; 18.15% state; based on estimate.
Risk Assessment: Without this contract, the US-41 road construction project cannot commence.
Cost Reduction: Estimate reviewed to make sure costs are reasonable and valid.
Selection: N/A.
New Project Identification: Utility relocation.
Zip Code: 49887.

9. HIGHWAYS - IDS Engineering Services

Authorization (Z2) under Contract (2011-0007) between MDOT and Wilcox Professional Services, LLC, will provide for as-needed quality assurance (QA) design review assistance to be performed for the Grand Region (CS 84913 – JN 109769C). The services will include assisting Region staff with QA reviews for projects currently in design for the Five Year Plan, providing assistance with project scoping, reviewing preliminary cost estimates, and performing early preliminary engineering tasks. The authorization will be in effect from the date of award through November 2, 2013. The authorization amount will be $135,869.84. The contract term is November 3, 2010, through November 2, 2013. Source of Funds: 81.85% Federal Highway Administration (FHWA) Funds and 18.15% State Restricted Trunkline Funds.

Criticality: To assist the Grand Region with QA reviews for projects currently in design for the Five Year Plan. The consultant will provide assistance in reviewing project design packages at various stages throughout the development process to help reduce errors and omissions and to ensure that quality design plans are produced. Without this assistance, projects may not receive the level of review necessary to reduce errors and omissions and improve plan clarity and quality.
Purpose/Business Case: To provide for as-needed QA design review assistance to be performed for the Grand Region. The services will include assisting Region staff with QA reviews for projects currently in design for the Five Year Plan, providing assistance with project scoping, reviewing preliminary cost estimates, and early preliminary engineering tasks.
Benefit: Will provide for in-depth project reviews. This work is necessary to assist MDOT staff in reducing errors and omissions in final design plans that could lead to cost overruns and delays during construction.
Funding Source: 81.85% FHWA Funds and 18.15% State Restricted Trunkline Funds.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this authorization is not approved, insufficient time will be available for project reviews, and the risk of errors will increase. Failure to provide in-depth project reviews could result in increased construction costs and construction delays.

Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Code: 49504.

10. HIGHWAYS – IDS Engineering Services

Authorization (Z1) under Contract (2011-0013) between MDOT and T-Concepts Corp. will provide for the performance of as-needed traffic and safety advanced simulation modeling in support of Metro Region maintenance of traffic (MOT) planning, construction staging, and incident and emergency response planning. The work will include the development of sub-area models, origin-destination traffic tables, and large network microscopic simulation models. The authorization will be in effect from the date of award through November 2, 2013. The authorization amount will be $375,000. The contract term is November 3, 2010, through November 2, 2013. Source of Funds: Federal Highway Administration Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.

Criticality: Projects involving lane closures require that work zone MOT plans be developed early in project development. MOT aids in construction staging and constructability reviews, which need to be performed before or at the beginning of the design stage.
Purpose/Business Case: To provide for as-needed traffic and safety advanced simulation modeling to be performed in support of Metro Region MOT planning, construction staging, and incident and emergency response planning.
Benefit: This authorization will allow the Metro Region to proactively address problems that may arise, to reduce traffic congestion, and to improve travel times in work zones.
Funding Source: Federal Highway Administration Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this authorization is not approved, MDOT may not be able to develop and evaluate plans for MOT in Metro Region work zones.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Code: 48075.

11. HIGHWAYS - IDS Engineering Services

Authorization (Z2) under Contract (2011-0050) between MDOT and Tetra Tech of Michigan, P.C., will provide for as-needed quality assurance (QA) design review assistance to be performed for the Grand Region (CS 84913 – JN 109769C). The services will include assisting Region staff with QA reviews for projects currently in design for the Five Year Plan, providing assistance with project scoping, reviewing preliminary cost estimates, and performing early preliminary engineering tasks. The authorization will be in effect from the date of award through December 8, 2013. The authorization amount will be $145,460.09. The contract term is December 9, 2010, through December 8, 2013. Source of Funds: 81.85% Federal Highway Administration (FHWA) Funds and 18.15% State Restricted Trunkline Funds.

Criticality: To assist the Grand Region with QA reviews for projects currently in design for the Five Year Plan. The consultant will provide assistance in reviewing project design packages at various stages throughout the development process to help reduce errors and omissions and to ensure that quality design plans are produced. Without this assistance, projects may not receive the level of review necessary to reduce errors and omissions and improve plan clarity and quality.

Purpose/Business Case: To provide for as-needed QA design review assistance to be performed for the Grand Region. The services will include assisting Region staff with QA reviews for projects currently in design for the Five Year Plan, providing assistance with project scoping, reviewing preliminary cost estimates, and early preliminary engineering tasks.
Benefit: Will provide for in-depth project reviews. This work is necessary to assist MDOT staff in reducing errors and omissions in final design plans that could lead to cost overruns and delays during construction.
Funding Source: 81.85% FHWA Funds and 18.15% State Restricted Trunkline Funds.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this authorization is not approved, insufficient time will be available for project reviews, and the risk of errors will increase. Failure to provide in-depth project reviews could result in increased construction costs and construction delays.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Code: 49504.

12. HIGHWAYS - Design Services

Contract (2011-0081) between MDOT and Wilbur Smith Associates, Michigan will provide for the performance of early preliminary engineering services for the reconstruction of roadways and bridges located along I-94, Sprinkle Road, and Cork Street in the City of Kalamazoo, Kalamazoo County (CS 39022 – JN 1105240). The work items will include all work needed to identify and analyze practical alternative design concepts to determine the best interchange style and associated environmental impacts to the surrounding area to improve vehicular mobility in this high traffic volume area. The contract will be in effect from the date of award through June 30, 2012. The contract amount will be $715,871.23. Source of Funds: 90% Federal Highway Administration Funds and 10% State Restricted Trunkline Funds.

Criticality: This route is a major commuter route for the City of Kalamazoo and serves as the primary access to I-94 for several major businesses. The roadway and structures along this route are deteriorating and must be reconstructed before they become unsafe.
Purpose/Business Case: To provide for the performance of early preliminary engineering services for the reconstruction of roadways and bridges located along I-94, Sprinkle Road, and Cork Street in the City of Kalamazoo to reduce congestion and improve mobility.
Benefit: Alternatives will be developed to reduce congestion in the area to improve long-term vehicular safety and roadway serviceability.
Funding Source: 90% Federal Highway Administration Funds and 10% State Restricted Trunkline Funds.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this contract is not approved and alternatives to improve interchange operations are not developed, safety and mobility will continue to be compromised.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Code: 49001.

13. HIGHWAYS - IDS Engineering Services

Contract (2011-0096) between MDOT and Hubbell, Roth & Clark, Inc., will provide for services for which the consultant is prequalified to be performed on an as needed/when needed basis. The contract will be in effect from the date of award through three years. The maximum contract amount will be $4,000,000, and the maximum amount of any authorization will be $1,000,000. Authorizations over $100,000 will be submitted to the State Administrative Board for approval. Source of Funds: Federal, Restricted State, or local funds, depending on the particular project authorized.

14. HIGHWAYS - Participation for Local Agency Construction Contract

Contract (2011-5013) between MDOT and the Mackinac County Road Commission will provide for funding participation in the construction of the following improvements utilizing State Transportation Economic Development Category D Funds, which are allocated for Local Agency projects (State Restricted TED Funds), and Federal Highway Administration Surface Transportation Program – Rural Funds, designated for Local Agency projects (FHWA STP – Rural Funds):

Aggregate resurfacing work along Charles Moran Road from approximately 1.95 miles west of Mackinac Trail westerly 0.55 miles.

Estimated Funds:

State Restricted TED Funds	$18,775
FHWA STP – Rural Funds	$75,099
Total Funds	$93,874

STL 49555 - 89952
Local Force Account

Criticality: Public Act 231 provides for the use of TED Funds to enhance the ability of the state to compete in an international economy, to serve as a catalyst for economic growth of the state, and to improve the quality of life in the state. These funds are being used in conjunction with this project to provide an incentive to create or retain jobs, relieve urban congestion, and create an all-season roadway network that supports commercial activities.
Purpose/Business Case: To financially assist and invest in roadway improvements related to economic development and the betterment of the state all-season road network under Public Act 231.
Benefit: Will support economic growth, reduce traffic congestion, and upgrade the state all-season road system.
Funding Source: Federal Surface Transportation Program Funds and State TED Funds.
Commitment Level: 80% federal; 20% state.
Risk Assessment: Without this contract, there could be a loss of development opportunities.
Cost Reduction: Local agency to perform work with its own forces at a cost determined to be at least 6 percent less than if it were contracted.
Selection: N/A.
New Project Identification: Improvement of existing roadway.
Zip Code: 49781.

SUB CONTRACTS

15. **Franks Landscaping**
26204 Doxtator
Dearborn Heights, MI 48127

Low Bid:	**$108,290.16**
1st Year:	**$36,096.72**
2nd Year:	**$36,096.72**
Optional Year:	**$36,096.72**

Description of Work: Mowing

Approval is requested to authorize the City of Dearborn to award a two-year subcontract for roadside mowing along state trunklines in the City of Dearborn. Language in the subcontract allows the subcontract to be extended for one additional year upon the mutual agreement of the parties. The project was advertised, and nine bids were received. The lowest bidder was selected. Costs are based on a set unit cost per mowing cycle. The City has found the costs to be reasonable and competitive with costs in surrounding counties. The subcontract will be in effect from the date of award through September 30, 2013. Source of Funds: 100% State Restricted Trunkline Funds.

Criticality: Roadside mowing is critical to prevent high grass from blocking roadway visibility for motorists, especially in high traffic areas such as intersections. Failure to mow the clear vision areas at intersections and inside areas of curves can reduce motorist vision and increase reaction time to approaching and/or passing vehicles. It is essential that clear vision areas be mowed.
Purpose/Business Case: To provide for roadside mowing and litter removal/disposal along state trunklines in City of Dearborn.
Benefit: Safer highways free from hazardous road obstructions.
Funding Source: 100% State Restricted Trunkline Funds.
Commitment Level: This contract is based on low bid. In cases of necessity, extra work and overruns may be authorized by MDOT without prior approval of the State Administrative Board (SAB) pursuant to the requirements of the SAB resolution.
Risk Assessment: If the roadsides are not mowed, tall weeds and grass will obstruct motorists' fields of vision, increasing chances of accidents.
Cost Reduction: The project was competitively bid and advertised; the low bidder was selected.
Selection: Low bid.
New Project Identification: This is routine maintenance and not a new project.
Zip Code: 48127.

16. **National Industrial Maintenance, Inc.** **Low Bid:** **$44,322.25**
P.O. Box 133
Lake, MI 48632

Description of Work: Street Sweeping & Pickup

Retroactive approval is requested to authorize the Monroe County Road Commission to award a subcontract for the sweeping of curbs and barrier walls on various trunklines throughout Monroe County (one year, 291 days retroactive). Costs are based on a set unit cost per mile. The contractor completed the FY 2009 sweeping services with the approval of the County and MDOT. Due to an administrative oversight, MDOT failed to process the subcontract for State Administrative Board approval before the services commenced. The County has found the costs to be reasonable and competitive with costs in surrounding counties. The subcontract term is April 30, 2009, through May 4, 2010. Source of Funds: 100% State Restricted Trunkline Funds.

Criticality: If the services are not performed, the debris on roadways will build up over time, disrupting proper drainage of state trunklines. The backup of drainage could lead to road flooding, which could result in costly future repairs and hazardous road conditions.
Purpose/Business Case: To provide for sweeping of curbs and barrier walls along state trunklines and for debris disposal on state trunklines in Monroe County.
Benefit: Safer highways that are free from hazardous road obstructions.
Funding Source: 100% State Restricted Trunkline Funds.
Commitment Level: This contract is based on low bid. In cases of necessity, extra work and overruns may be authorized by MDOT without prior approval of the State Administrative Board (SAB) pursuant to the requirements of the SAB resolution.
Risk Assessment: If work is not performed, the roadways could become hazardous.
Cost Reduction: The project was competitively bid and advertised; the low bidder was selected.
Selection: Low bid.
New Project Identification: This is routine maintenance and not a new project.
Zip Code: 48632.

EXTRA

17. **Extra 2011-17**

Control Section/Job Number:	82192-76897	MDOT Project
State Administrative Board -	This project has at least one extra or a group of related extras that exceed the $100,000 limit for reviewing extras.	
State Transportation Commission -	Does not meet criteria.	
Contractor:	Posen Construction, Inc. 50500 Design Lane Shelby Twp., MI 48315	
Designed By:	Alfred Benesch and Company	
Engineer's Estimate:	$16,504,431.89	

Description of Project:

1.74 mi of concrete reconstruction, concrete barrier replacement, impact attenuators, driveways, drainage, watermain, underdrain, sidewalk, curb and gutter, signals, signing, pavement markings, and pump station rehabilitation on M-39 from Porter Street to Pinecrest Avenue in the cities of Allen Park and Lincoln Park, Wayne County. This project includes a 5 year materials and workmanship pavement warranty and a 3 year pavement performance warranty.

Administrative Board Approval Date:	August 18, 2009	
Contract Date:	September 14, 2009	
Original Contract Amount:	$17,288,269.30	
Total of Overruns/Changes (Approved to Date):	2,082,203.88	+ 12.04%
Total of Extras/Adjustments (Approved to Date):	914,486.19	+ 5.29%
Total of Negative Adjustments (Approved to Date):	0.00	- 0.00%
THIS REQUEST	**101,138.54**	**+ 0.59%**
Revised Total	$20,386,097.91	+ 17.92%

SUMMARY:

The total of all Extras and Overruns approved to date, **before this request**, places this contract 17.33% over the original budget for an **Authorized to Date Amount** of $20,284,959.37.

Approval of this extra will place the authorized status of the contract 17.92% or $3,097,828.61 over the **Original Contract Amount.**

Extras Previously Approved by the State Administrative Board:

Item Number	Contract Modification Number	Amount	SAB Date
2010-057	2 r.1	$695,464.00	05/04/10

Contract Modification Number(s): 8

This contract modification requests payment for the following Extra(s)/Adjustment(s) to the contract:

CM 8		
_Adjust Utility Vault Cover	14.00 Ea @ $214.526/Ea	$3,003.36
_Force Account for DTE Vaults	54,035.18 Dlr @ $1.00/Dlr	54,035.18
_Reinforce the 10" Concrete Pavement around the Vault	14.00 Ea @ $3,150.00/Ea	44,100.00
Total		**$101,138.54**

Reason(s) for Extra(s)/Adjustment(s):

CM 8

The costs on this contract modification reflect the work performed by the contractor to adjust Detroit Edison's (DTE's) structures. Initially DTE informed MDOT they were going to adjust their structures down in our M-39 pavement section prior to paving, then adjust back up to the new pavement elevation during our paving operation. MDOT had gapped out six locations in order for DTE to adjust their own structures and then DTE was to pour concrete in the gapped areas. It was later agreed upon between MDOT and DTE that MDOT's contractor would adjust DTE's structures and pour concrete around them during our paving operations. The contractor had to remobilize to pour in the six locations that were initially gapped out and adjust DTE's structures at that time. This work was tracked by the managing office using the item of work, DTE Vaults. In addition, another 14 DTE structures had vault covers, which required a final adjustment to match the finished road elevation, and required the placement of a 10-inch reinforced concrete pavement section in those areas on M-39 during production paving. This work was discussed with the Federal Highway Administration area engineer assigned to the project. The extra cost for _Force Account for DTE Vaults was negotiated per Section 103.04 of the 2003 Standard Specifications for Construction. The time equipment, materials and costs necessary to complete the work were determined using a process similar to the force account work process. The costs were deemed reasonable based on comparison to the certified payrolls, the Blue Book equipment rental rates, actual costs for materials, and negotiation per Section 103.04 of the 2003 Standard Specifications for Construction. The extra cost for _Adjust Utility Vault Cover and _Reinforce the 10" Concrete Pavement around the Vault was negotiated per Section 103.04 of the 2003 Standard Specifications for Construction. The costs were deemed reasonable when compared with similar items in MDOT's Average Unit Price Index and compared with similar items in the contract. These items of work are non-participating and 100 percent funded by Detroit Edison private utility company.

Section 103.04 – EXTRA WORK – of the 2003 Standard Specifications for Construction was interpreted to authorize payment for this extra work.

This Extra is recommended for approval by the State Administrative Board on February 15, 2011.

Criticality: This extra is critical to the project ensuring that it meets the current standards and protects the safety and welfare of the motoring public.
Purpose/Business Case: This extra item is essential to the safe and timely completion of this contract.
Benefit: By adding these items, the state receives a project that has complied with all state and local laws and regulations, as well as a project that should reach its intended service life.
Funding Source: 76897A: FHWA, 81.85%; State Restricted Trunkline, 15.76%; City of Allen Park, 1.87%; City of Lincoln Park, 0.52%, unless otherwise noted.
Commitment Level: The project was advertised for bids, with the lowest bidder being awarded the contract. The bids are based on estimated quantities for various items of work to construct the project.
Risk Assessment: This item is required for the safe and timely completion of the project.
Cost Reduction: Economic assessment justifies the costs associated with this benefit to the public by including the items in this Extra.
Selection: Low bid.
New Project Identification: This is an existing project already under contract.
Zip Code: 48101.

OVERRUNS

18. **Overrun 2011-03**

Control Section/Job Number:	47007-102575	Local Agency Project
State Administrative Board -	This project exceeds the 10% limit for reviewing overruns.	
State Transportation Commission -	Does not meet criteria.	
Contractor:	C & G Myers Construction, LLC 53162 Pontiac Trail Milford, MI 48381	
Designed By:	OHM	
Engineer's Estimate:	$1,275,073.85	

Description of Project:

0.34 mi of roundabout construction including concrete and hot mix asphalt pavement, concrete curb and gutter, culvert work, deep concrete overlay, barrier replacement, structural steel repairs, painting, and related approach work on Hamburg Road at Winans Lake Road and over the Huron River, Livingston County.

Administrative Board Approval Date:	May 19, 2009	
Contract Date:	June 4, 2009	
Original Contract Amount:	$962,213.76	
Total of Overruns/Changes (Approved to Date):	96,221.37	+ 10.00%
Total of Extras/Adjustments (Approved to Date):	63,460.56	+ 6.60%
Total of Negative Adjustments (Approved to Date):	0.00	- 0.00%
THIS REQUEST	**32,436.28**	**+ 3.37%**
Revised Total	$1,154,331.97	+ 19.97%

SUMMARY:

The total of all Extras and Overruns approved to date, **before this request**, places this contract 16.60% over the original budget for an **Authorized to Date Amount** of $1,121,895.69.

Approval of this overrun will place the authorized status of the contract 19.97% or $192,118.21 over the **Original Contract Amount.**

Overruns Previously Approved by the State Administrative Board: None

This request allows payment for the following increases to the contract:

Conc, Grade D	14.131266 Cyd @ $1,800.00/Cyd	$25,436.28
Conc, Silica fume, Modified	20.00 Cyd @ $350.00/Cyd	7,000.00
Total		**$32,436.28**

* Denotes a non-standard contract/amendment

Reason(s) for Overrun(s):
These items of work were increased due unanticipated poor conditions of concrete located on the existing bridge deck. During the removal processes, the engineer was required to remove all de-bonded, spalled and unsound concrete for the repairs identified in the project plans. The increased quantities of concrete material type grade D was used to construct the increased removed depth and width areas on the outside of the bridge deck, underneath the railing, and specifically the deck fascia slab. Other areas that accounted for an increase in concrete silica fume were the in depth of the bridge deck surface. The removal depth increased in varying areas during the hydro-demolition process to "sound" concrete. The engineer was required to remove all poor concrete to obtain the proper bond to the old and newly placed concrete for project durability and longevity.

This Overrun is recommended for approval by the State Administrative Board on February 15, 2011.

Criticality: This original items increase is critical to the project ensuring that it meets the current standards and protects the safety and welfare of the motoring public.
Purpose/Business Case: This request is to compensate the contractor for the additional quantities of original contract items.
Benefit: The public benefits from the project being constructed to the published standards.
Funding Source:
102575A: State Restricted Trunkline, 83.91%; Livingston County, 16.09%, unless otherwise noted.
103484A: FHWA 100.00%, unless otherwise noted.
Commitment Level: The project was advertised for bids, with the lowest bidder being awarded the contract. The bids are based on estimated quantities for various items of work to construct the project.
Risk Assessment: The risk associated with not doing this work is that the motoring public will be driving on substandard roadway facilities.
Cost Reduction: The price has been fixed by contract.
Selection: Low bid.
New Project Identification: This is an existing project already under contract.
Zip Code: 48116.

19. **Overrun 2011-04**

Control Section/Job Number:	49097-89944	Local Agency Project
State Administrative Board -	This project exceeds the 10% limit for reviewing overruns.	
State Transportation Commission -	Does not meet criteria.	
Contractor:	Rieth-Riley Construction Co., Inc. Box 477 Goshen, IN 46527-0477	
Designed By:	Mackinac County	
Engineer's Estimate:	$1,901,854.92	

Description of Project:

13.10 mi of trenching, cold milling, hot mix asphalt paving, base crushing, and shaping, culvert replacement, pavement markings, and traffic control on Mackinac Trail north of M-134 northerly, on Hiawatha Trail from west of Black River Road easterly, and on Borgstrom Road from US-2 to Highway 40, Mackinac County.

Administrative Board Approval Date:	March 16, 2010	
Contract Date:	April 22, 2010	
Original Contract Amount:	$1,777,869.25	
Total of Overruns/Changes (Approved to Date):	177,786.92	+ 10.00%
Total of Extras/Adjustments (Approved to Date):	354.37	+ 0.02%
Total of Negative Adjustments (Approved to Date):	0.00	- 0.00%
THIS REQUEST	**51,385.39**	**+ 2.89%**
Revised Total	$2,007,395.93	+ 12.91%

SUMMARY:

The total of all Extras and Overruns approved to date, **before this request**, places this contract 10.02% over the original budget for an **Authorized to Date Amount** of $1,956,010.54.

Approval of this overrun will place the authorized status of the contract 12.91% or $229,526.68 over the **Original Contract Amount**.

Overruns Previously Approved by the State Administrative Board: None

This request allows payment for the following increases to the contract:

HMA, 13A	1,017.5324 Ton @ $50.50/Ton	$51,385.39
Total		**$51,385.39**

Reason(s) for Overrun(s):

The United States Department of Agriculture, Hiawatha National Forest Service (FS) located in Escanaba, Michigan, gave the Mackinac County Road Commission (MCRC) the authority to use the obligated American Recovery and Reinvestment Act (ARRA) funds, available through the FS cooperative project agreement number 09-RO-11094419-019. The MCRC placed an extra lift, up to 1.5-inches, of hot mix asphalt for the entire length, approximately 2.9 miles, on the Mackinac Trail. The project has been let and was awarded at a cost of $745,268, and the programmed amount of obligated ARRA funds is $1,000,000. The difference between as bid and programmed funds is $254,734. As requested, it is expected that the additional layer of asphalt will cost approximately $240,000. The FS and MCRC believe this extra layer will provide an improved wearing surface that is more durable and longer lasting than originally designed, particularly in the climate experienced in the project area. This work was discussed with MDOT's Superior Region Newberry TSC, MDOT Lansing support staff, the Federal Highway Administration, and the FS, and it meets the ARRA requirements. The additional quantity of hot mix asphalt constructed within the project limits will benefit the State of Michigan through the use of available ARRA funds.

This Overrun is recommended for approval by the State Administrative Board on February 15, 2011.

Criticality: This original items increase is critical to the project ensuring that it meets the current standards and protects the safety and welfare of the motoring public.
Purpose/Business Case: This request is to compensate the contractor for the additional quantities of original contract items.
Benefit: The public benefits from the project being constructed to the published standards.
Funding Source: American Recovery and Reinvestment Act funds, 100.00%, unless otherwise noted.

Commitment Level: The project was advertised for bids, with the lowest bidder being awarded the contract. The bids are based on estimated quantities for various items of work to construct the project.
Risk Assessment: The risk associated with not doing this work is that the motoring public will be driving on substandard roadway facilities.
Cost Reduction: The price has been fixed by contract.
Selection: Low bid.
New Project Identification: This is an existing project already under contract.
Zip Code: 49781.

In accordance with MDOT's policies and procedures and subject to concurrence by the Federal Highway Administration, the preparation and award of the appropriate documents approved by the Attorney General, and compliance with all legal and fiscal requirements, the Director recommends for approval by the State Administrative Board the items on this agenda.

The approval by the State Administrative Board of these contracts does not constitute the award of same. The award of contracts shall be made at the discretion of the Director-Department of Transportation when the aforementioned requirements have been met. Subject to exercise of that discretion, I approve the contracts described in this agenda and authorize their award by the responsible management staff of MDOT to the extent authorized by, and in accordance with, the December 14, 1983, resolution of the State Transportation Commission and the Director's delegation memorandum of October 31, 2006.

Respectfully submitted,

for Kirk T. Steudle
Director

February 15, 2011 No. 53

SUPPLEMENTAL AGENDA

DEPARTMENT OF TRANSPORTATION

TRANSPORTATION and NATURAL RESOURCES COMMITTEE
STATE ADMINISTRATIVE BOARD

T&NR Meeting: February 9, 2011 – Lake Superior Room,
1st Floor, Michigan Library and Historical Center, 3:30 PM
State Administrative Board Meeting: February 15, 2011 - Lake Superior Room,
1st Floor, Michigan Library and Historical Center, 11:00 AM

This agenda is for general informational purposes only. At its discretion, the Transportation and Natural Resources Committee may revise this agenda and may take up other issues at the meeting.

1. HIGHWAYS - IDS Engineering Services

Authorization (Z28) under Contract (2009-0426) between MDOT and Tetra Tech of Michigan, P.C., will provide for the performance of road design survey services, including environmental assessment and noise analysis work, for proposed road and bridge improvements along I-75 from Dixie Highway to Janes Road in Saginaw County (CS 73111 – JN 107497). The proposed improvements will reduce congestion and user delays and improve safety and mobility along the I-75 corridor. The authorization will be in effect from the date of award through May 5, 2012. The authorization amount will be $662,586.74. The contract term is May 6, 2009, through May 5, 2012. Source of Funds: 81.85% Federal Highway Administration (FHWA) Funds and 18.15% State Restricted Trunkline Funds.

Criticality: The environmental assessment must be approved by the FHWA before any design or construction work can begin. During the summer tourism season, motorists traveling north and south along I-75 experience congestion and delays. The road and bridge improvements will reduce user delays and improve mobility along the corridor.
Purpose/Business Case: To provide for the performance of road design survey services, including environmental assessment and noise analysis work, for proposed road and bridge improvements along I-75 from Dixie Highway to Janes Road in Saginaw County.
Benefit: Approval of the environmental assessment will allow the proposed road and bridge improvements along I-75 to move forward. The project will reduce congestion and user delays and improve safety and mobility along the I-75 corridor.
Funding Source: 81.85% FHWA Funds and 18.15% State Restricted Trunkline Funds.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this authorization is not approved and the services are not provided, the environmental document cannot be completed and submitted to the FHWA for approval and the project cannot move forward. Delaying the design and construction of the project would delay the anticipated improvements in safety and mobility along the I-75 corridor.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Codes: 48601 and 48602.

2. HIGHWAYS - IDS Engineering Services

Authorization (Z1) under Contract (2011-0005) between MDOT and Alfred Benesch & Company will provide for bridge load rating analysis to be performed for bridges at various locations statewide in accordance with the National Bridge Inspection Standards (NBIS). The work items will include holding project meetings, establishing and reviewing work plans, and performing structural analysis for steel, reinforced concrete, and prestressed concrete bridges. The authorization will be in effect from the date of award through November 2, 2013. The authorization amount will be $799,988.46. The contract term is November 3, 2010, through November 2, 2013. Source of Funds: Federal Highway Administration (FHWA) Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.

Criticality: The FHWA requires analysis of all highway bridges to determine load capacity. Failure to comply with this requirement could result in the loss of federal funding.
Purpose/Business Case: To provide for bridge load rating analysis to be performed on bridges at various locations statewide in accordance with the NBIS.
Benefit: The services will allow MDOT to meet federal requirements under the National Bridge Inspection Program and to maintain federal funding. Accurate load ratings will help to ensure public safety and to determine federal sufficiency ratings, which are used to determine the proper allocation of funds for the rehabilitation and replacement of bridges.
Funding Source: FHWA Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this authorization is not approved, MDOT may not be in compliance with the NBIS. Federal transportation funding is conditional upon compliance with the National Bridge Inspection Program. Accurate load ratings help to ensure public safety and are used to determine federal sufficiency ratings. The ratings are used to determine the proper allocation of funds for the rehabilitation or replacement of bridges.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Code: 48909.

3. HIGHWAYS - IDS Engineering Services

Authorization (Z1) under Contract (2011-0007) between MDOT and Wilcox Professional Services, LLC, will provide for bridge load rating analysis for standard structures to be performed for bridges at various locations statewide in accordance with the National Bridge Inspection Standards (NBIS). The work items will include holding project meetings, establishing and reviewing work plans, and performing structural analysis for steel, reinforced concrete, and prestressed concrete bridges. The authorization will be in effect from the date of award through November 2, 2013. The authorization amount will be $799,999.22. The contract term is November 3, 2010, through November 2, 2013. Source of Funds: Federal Highway Administration (FHWA) Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.

Criticality: The FHWA requires analysis of all highway bridges to determine load capacity. Failure to comply with this requirement could result in the loss of federal funding.
Purpose/Business Case: To provide for bridge load rating analysis to be performed on bridges at various locations statewide in accordance with the NBIS.
Benefit: The services will allow MDOT to meet federal requirements under the National Bridge Inspection Program and to maintain federal funding. Accurate load ratings will help to ensure public safety and to determine federal

sufficiency ratings, which are used to determine the proper allocation of funds for the rehabilitation and replacement of bridges.
Funding Source: FHWA Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this authorization is not approved, MDOT may not be in compliance with the NBIS. Federal transportation funding is conditional upon compliance with the National Bridge Inspection Program. Accurate load ratings help to ensure public safety and are used to determine federal sufficiency ratings. The ratings are used to determine the proper allocation of funds for the rehabilitation or replacement of bridges.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Code: 48909.

4. HIGHWAYS - IDS -Engineering Services

Authorization (Z1) under Contract (2011-0008) between MDOT and Williams & Works, Inc., will provide for bridge load rating analysis for standard structures to be performed for bridges at various locations statewide in accordance with the National Bridge Inspection Standards (NBIS). The work items will include holding project meetings, establishing and reviewing work plans, and performing structural analysis for steel, reinforced concrete, and prestressed concrete bridges. The authorization will be in effect from the date of award through November 2, 2013. The authorization amount will be $799,686.18. The contract term is November 3, 2010, through November 2, 2013. Source of Funds: Federal Highway Administration (FHWA) Funds, State Restricted Trunkline Funds, or local funds, depending on the particular project authorized.

Criticality: The FHWA requires analysis of all highway bridges to determine load capacity. Failure to comply with this requirement could result in the loss of federal funding.
Purpose/Business Case: To provide for bridge load rating analysis to be performed on bridges at various locations statewide in accordance with the NBIS.
Benefit: The services will allow MDOT to meet federal requirements under the National Bridge Inspection Program and to maintain federal funding. Selection: Qualifications-based.
New Project Identification: This is not a new project.
Zip Code: 48909.

7. *HIGHWAYS – Statewide Asset Management Study

Contract (2011-0052) between MDOT and Dye Management Group, Inc., will provide for the conduct of a survey of road agencies throughout the state to determine the cost per mile for a comprehensive list of activities, including basic operations, routine maintenance, and capital preventive maintenance. The information will be used to develop estimates of current and future costs of operating and maintaining public roadway facilities in Michigan. The contract will be in effect from the date of award through February 28, 2012. The contract amount will be $249,925.24. Source of Funds: 80% Federal Highway Administration Funds and 20% State Restricted Trunkline Funds.

WITHDRAWN AT SAB

Criticality: This project will identify the average cost per mile to maintain public roadway facilities in Michigan in fair to good condition. This information will help state and local road agencies and decision makers to make effective use of limited transportation funding.
Purpose/Business Case: To provide for the conduct of a survey of road agencies throughout the state to determine the cost per mile for a comprehensive list of activities, including basic operations, routine maintenance, and capital preventive maintenance, and the development of estimates of current and future costs of operating and maintaining public roadway facilities in Michigan.
Benefit: This project will identify the average cost per mile to maintain Michigan roads in fair to good condition. Material will be developed to communicate to state and local decision makers and the public the financial resources needed to efficiently and effectively manage Michigan's public roadway facilities now and in the future.
Funding Source: 80% Federal Highway Administration Funds and 20% State Restricted Trunkline Funds.
Commitment Level: The hourly costs are fixed; however, the number of hours to perform this work has been estimated.
Risk Assessment: If this contract is not approved, state and local road agencies and decision makers will not have a system to determine the cost per mile to maintain public roadway facilities, and an opportunity will be lost to identify the funding needed to preserve assets at different performance levels.
Cost Reduction: Costs in professional services contracts are on an actual cost plus fixed fee basis not to exceed the maximum contract amount. Hours are negotiated based on needed service.
Selection: Best value.
New Project Identification: This is a new project.
Zip Code: 48909.

Milbocker and Sons, Inc.			

6 Bidders

Criticality: This construction project will create or retain jobs within the State of Michigan. Delaying the project would adversely impact employment in the State. This construction project is adding improvements to the existing roadway system, thereby increasing the safety of the roadway, improving access to tourists visiting Michigan, and/or improving commerce across the State. Delaying the project will adversely impact these necessary components of Michigan's economy, as well as to the traveling public. Delays to the project would jeopardize federal funds that are allocated to the State of Michigan.
Purpose/Business Case: MDOT's Road Preservation Program goal focuses on repairing the worst roads first and extending the life of other identified roads to keep them in good condition.
Benefit: MDOT attempts to maximize the benefits of road preservation by using an asset management philosophy to develop programs that are prioritized based on such factors as traffic volume, cost/benefit, ride quality, pavement condition, safety, user savings, maintenance savings, and condition.
Funding Source:
103023A

Federal Highway Administration Funds	81.85 %
State Restricted Trunkline Funds	18.15 %

Commitment Level: The contract cost is not fixed. It is based on the engineer's best estimate of probable construction cost. The contract's final cost will be based on actual quantities built in the field and unit prices bid by the contractor.

Risk Assessment: The deterioration of the existing State trunkline network, reduced safety, and increased vehicle maintenance and operational costs to the motoring public.
Cost Reduction: Reduced roadway maintenance costs.
New Project Identification: Rehabilitation.
Selection: Low bid.
Zip Code: 49727.

Delays to the project would jeopardize federal funds that are allocated to the State of Michigan.
Purpose/Business Case: The Traffic and Safety Program preserves the integrity of MDOT's safety assets and addresses spot locations on the trunkline system exhibiting a correctable pattern through a strategy of cost-effective treatments.
Benefit: Treatments reduce traffic accidents and injuries, vehicle delay, fuel consumption, pollution, and operating costs by increasing the safety, efficiency, and capacity of the trunkline system.
Funding Source:
111142A
Federal Highway Administration Funds 100 %
Commitment Level: The contract cost is not fixed. It is based on the engineer's best estimate of probable construction cost. The contract's final cost will be based on actual quantities built in the field and unit prices bid by the contractor.
Risk Assessment: There is a greater risk of accidents and injuries by not implementing safety treatments.
Cost Reduction: Reduced motorists operating costs with increased safety, efficiency, and capacity. Reduced maintenance costs of MDOT's safety assets.
New Project Identification: Reconstruction.
Selection: Low Bid.
Zip Code: 49068.

Criticality: This construction project will create or retain jobs within the State of Michigan. Delaying the project would adversely impact employment in the State. This construction project is adding improvements to the existing roadway system, thereby increasing the safety of the roadway, improving access to tourists visiting Michigan, and/or improving commerce across the State. Delaying the project will adversely impact these necessary components of Michigan's economy, as well as to the traveling public. Delays to the project would jeopardize federal funds that are allocated to the State of Michigan.
Purpose/Business Case: The Capital Preventive Maintenance Program preserves the structural integrity and extends the service life of the State trunkline system through a planned strategy of cost-effective maintenance treatments to the existing roadway system.
Benefit: These treatments delay future deterioration, and maintain or improve the functional condition of the system resulting in longer pavement surface life, thereby delaying the need for more expensive rehabilitation or reconstruction treatments.
Funding Source:

Criticality: This construction project will create or retain jobs within the State of Michigan. Delaying the project would adversely impact employment in the State. This construction project is adding improvements to the existing roadway system, thereby increasing the safety of the roadway, improving access to tourists visiting Michigan, and/or improving commerce across the State. Delaying the project will adversely impact these necessary components of Michigan's economy, as well as to the traveling public. Delays to the project would jeopardize federal funds that are allocated to the State of Michigan.
Purpose/Business Case: Roadside landscaping is done to provide slope protection, screening, noise buffering, and visual enhancement of the roadside, streetscape, interchanges, rest areas, wetland mitigation, and along MDOT right-of-way. It is done to replace vegetation and dead plant material that was eliminated due to construction of new roadways. The program also mitigates the loss of wetlands or replaces vegetation that was damaged due to improvement projects. Landscaping is also performed in partnership with local units of government to enhance streetscapes and improve the quality of life.
Benefit: The benefit of this project will provide stabilization and prevent future deterioration of the roadside. The enhancements of this project will create visual and economic benefit in the surrounding area. Not only will the improvements add color and texture, the roadside landscape will provide noise buffering, physiological barriers, and decrease pollution odor levels.

Funding Source:
107867A

Federal Highway Administration Funds	90.00 %
State Restricted Trunkline Funds	10.00 %

Commitment Level: The contract cost is not fixed. It is based on the engineer's best estimate of probable construction cost. The contract's final cost will be based on actual quantities built in the field and unit prices bid by the contractor.
Risk Assessment: Projects such as wetland mitigation, visual screening, and noise abatement are requirements from other regulating agencies and mandated that MDOT perform these acts as part of our environmental review process. Failure to perform some projects may prevent other projects from moving forward.
Cost Reduction: Specific projects, such as evergreen planting to slow blowing snow across roadways in specific areas, can reduce maintenance.
Selection: Low bid.
New Project Identification: New construction.
Zip Code: 49738.

Scott Transportation, Inc.	$ 1,532,522.58	Same	2

2 Bidders

Criticality: This construction project will create or retain jobs within the State of Michigan. Delaying the project would adversely impact employment in the State. This construction project is adding improvements to the existing roadway system, thereby increasing the safety of the roadway, improving access to tourists visiting Michigan, and/or improving commerce across the State. Delaying the project will adversely impact these necessary components of Michigan's economy, as well as to the traveling public. Delays to the project would jeopardize federal funds that are allocated to the State of Michigan.
Purpose/Business Case: The Capital Preventive Maintenance Program preserves the structural integrity and extends the service life of the State trunkline system through a planned strategy of cost-effective maintenance treatments to the existing roadway system.
Benefit: These treatments delay future deterioration, and maintain or improve the functional condition of the system resulting in longer pavement surface life, thereby delaying the need for more expensive rehabilitation or reconstruction treatments.

Funding Source:
109503A

Federal Highway Administration Funds	81.85 %

By association with the above construction contract we are also asking for approval of the above-referenced cost participation agreement.

Criticality: This construction project will create or retain jobs within the State of Michigan. Delaying the project would adversely impact employment in the State. This construction project is adding improvements to the existing roadway system, thereby increasing the safety of the roadway, improving access to businesses and to tourists visiting Michigan's communities, and/or improving commerce across the State. Delaying the project will adversely impact these necessary components of Michigan's economy, as well as to the traveling public.
Delays to the project would jeopardize federal funds that are allocated to the State of Michigan.
Purpose/Business Case: This project is for the rehabilitation of a portion of highway under local jurisdiction. It was selected through a process outlined in the Safe, Accountable, Flexible, and Efficient Transportation Act: A Legacy for Users by the local agency regional planning authority, which was approved by MDOT and the Federal Highway Administration.
Benefit: By awarding this project, the transportation system is further preserved providing increased economic value and quality of life for the traveling public.

3 Bidders

By association with the above construction contract we are also asking for approval of the above-referenced cost participation agreement.

Criticality: This construction project will create or retain jobs within the State of Michigan. Delaying the project would adversely impact employment in the State. This construction project is adding improvements to the existing roadway system, thereby increasing the safety of the roadway, improving access to businesses and to tourists visiting Michigan's communities, and/or improving commerce across the State. Delaying the project will adversely impact these necessary components of Michigan's economy, as well as to the traveling public.
Delays to the project would jeopardize federal funds that are allocated to the State of Michigan.
Purpose/Business Case: This project is for the rehabilitation of a portion of highway under local jurisdiction. It was selected through a process outlined in the Safe, Accountable, Flexible, and Efficient Transportation Act: A Legacy for Users by the local agency regional planning authority, which was approved by MDOT and the Federal Highway Administration.
Benefit: By awarding this project, the transportation system is further preserved providing increased economic value and quality of life for the traveling public.
Funding Source:

106527A	
Wexford County	20.00 %
State Restricted Trunkline Funds	80.00 %
108669A	
Wexford County	20.00 %
Federal Highway Administration Funds	80.00 %

Commitment Level: The contract cost is not fixed. It is based on the engineer's best estimate of probable construction cost. The contract's final cost will be based on actual quantities built in the field and unit prices bid by the contractor.
Risk Assessment: If this project is not awarded, the federal funds must be returned to the federal government for use in another federal-aid project.
Cost Reduction: This is a construction contract. The low bidder is awarded the project. Any negotiations made prior to award of the contract are in violation of federal regulation and MDOT specifications.
New Project Identification: Road rehabilitation.
Selection: Low bid.
Zip Code: 49601.

In accordance with MDOT's policies and procedures and subject to concurrence by the Federal Highway Administration, the preparation and award of the appropriate documents approved by the Attorney General, and compliance with all legal and fiscal requirements, the Director recommends for approval by the State Administrative Board the item on this agenda.

The approval by the State Administrative Board of this contract does not constitute the award of same. The award of contracts shall be made at the discretion of the Director-Department of Transportation when the aforementioned requirements have been met. Subject to exercise of that discretion, I approve the contract described in this agenda and authorize its award by the responsible management staff of MDOT to the extent authorized by, and in accordance with, the December 14, 1983, resolution of the State Transportation Commission and the Director's delegation memorandum of October 31, 2006.

Respectfully submitted,

for Kirk T. Steudle
Director

Mr. Senyko presented the Transportation and Natural Resources Committee Report for the regular meeting of February 9, 2011. After review of the foregoing Transportation and Natural Resources Committee Report, Mr. Senyko moved that the Report covering the regular meeting of February 9, 2011, be approved and adopted with Items 7, 22, and 38 of the supplemental MDOT agenda withdrawn by the Department of Transportation at the State Administrative Board on February 15, 2011. The motion was supported by Ms. Isaacs and unanimously approved.

8. MOTIONS AND RESOLUTIONS:

NONE

9. ADJOURNMENT:

Ms. MacDowell moved to adjourn the meeting. The motion was supported by Mr. Senyko and unanimously approved. Mr. Gadola adjourned the meeting.

Subject: MPPOA Nominations

Hi Rebecca,

Where can I find the position descriptions – specifically "Memer-at-Large"? I need it for Agency support to serve.

kj

Karolyn Jones
Assistant Contract Manager
Genesee Health System

Subject: MPPOA - 2015 MPPOA Elections and Slate of Candidates

Can't see this message? Click here to view in a web browser.

The MPPOA Board Election is Now Open!

As an active member of MPPOA, you have the opportunity to cast your vote for the candidates you feel are best suited to represent you on the MPPOA Board of Directors beginning this inaguaral year (Terms begin in May).

You must place your vote for One (1) President-Elect Position, One (1) Secretary Position, and Three (3) Board of Director Positions. Your vote must be placed by March 27, 2015 at 5:00 p.m.

MPPOA offers the following slate of candidates for Board of Directors seat:

President Elect (3 year elected term) (Unopposed)

- Rachelle Hall, Buyer, Lansing Board of Water and Light

Secretary (2 year elected term) (Unopposed)

- Kelly Monico, Senior Buyer, City of Farmington Hills

Board of Directors at Large (2 year elected term) (Vote for no more than 3)

- Devin Adams, Purchasing Director/Controller: Finance, City of Westland
- Karolyn Jones, Assistant Contract Manager, Genesee Health System
- Amie Merren, Purchasing Agent, City of Grand Rapids
- Brian Swiecicki, Chief Administrative Officer, Genesee Health System

The ballot is available to MPPOA members as of today, Friday, March 20, 2015 through Friday, March 27, 2015 until 5:00 p.m. Please see below for more information on your slate of candidates:

President-Elect - Rachelle Hall, Buyer, Lansing Board of Water and Light

Rachelle Hall is a Buyer at the Lansing Board of Water and Light (BWL). She has worked for BWL as a Buyer for four years and is currently working on obtaining a Bachelor's Degree in Supply Chain Management from Baker College. At BWL, Rachelle works within the capacity of her job to procure multi-million dollar contracts for major capital projects, one of the most recent being a new cogeneration plant and headquarters. She also is the procurement trainer for BWL and works with all departments to ensure procurement policies and procedures are adhered to.

Rachelle is currently serving on MPPOA's Board of Directors as the Secretary. Her passion through MPPOA is member recruitment and retention by utilizing social media and outreach strategies. Rachelle's goal is to get current MPPOA members more involved with the organization, and reach out to college students to join MPPOA.

Secretary – Kelly Monico, Senior Buyer, City of Farmington Hills

Kelly started at the City of Farmington Hills in the mid 90s and is currently Senior Buyer. She established the first national contract by a State of Michigan lead agency and was part of the team that was instrumental in making the MITN system a reality and currently serves as secretary, coordinates meeting, distributes documentation, arranges for speakers and collaborates with participants. She is an active participant with MPPOA, helped out MPPOA on smaller volunteer opportunities and has participated in MPPOA's reverse trade fairs and actively attends regional meetings.

Board Member – Devin Adams, Purchasing Director/Controller, City of Westland

I am the Purchasing Director/Controller for the City of Westland. I have been serving the residents of Westland since December of 2012. Any/all purchases made by the City must go through my office for approval. Once purchases exceed $750, the City requires at least 3 competitive quotes before finalizing the purchase. For larger purchases that meet or exceed $5,000, we are required to go through the City's standard bid process. Once a bid is selected, it will need to be brought before council for approval. As the Controller my tasks include, enforcing the City's procurement policy, accounting for all payments to vendors, execute and carry out all City contracts, assist the Finance Director, Mayor, and Deputy Mayor upon request, and manage the Finance clerical staff.

Board Member – Karolyn Jones, Assistant Contract Manager, Genesee Health System

Karolyn Jones is currently an Assistant Contract Manager at Genesee Health System. She has been employed as a public procurement professional at GHS and

Genesee County Health Department for over 18 years with extensive experience in behavioral health services as well as sourcing, policy and procedure development. After raising her family and pursuing a MBA in Finance at Saginaw Valley State University, Karolyn is refocusing, with an eye toward developing initiatives to deliver procurement excellence in the public sector. Participating in MPPOA Board Meetings has already led her to opportunities to advise other members considering credentialing. MPPOA has ignited passion, commitment and a desire to serve as a Member-at-Large. Karolyn resides in Genesee County near her extended family, and 'parents' a fur-baby.

Board Member – Amie Merren, CPPO, CPPB, Purchasing Agent, City of Grand Rapids

I have worked for the City of Grand Rapids for Twenty Four Years. Seventeen years of my career with the City have been in the Procurement field with two years as a StoreKeeper, thirteen years as a buyer and in 2013 I was promoted to the Purchasing Agent/Director position.
In October 2009 I received my CPPB Certification and in October 2013 I received my CPPO Certification.

I have served on the MPPOA Board as an appointed Director-at Large Board member for the last year and would love the opportunity to continue as a board member to assist the MPPOA in meeting their goals and objectives and to help strengthen the procurement profession.

Board Member – Brian Swiecicki, Chief Administrative Officer, Genesee Health System

I have been working within the Public County Government systems for over 25 years. I also have held the position of President and CEO of a nonprofit company. Currently, I hold the position of Chief Administration Officer for Genesee Health System an authority and Public Unit. There I have worked as director and supervisor of Purchasing, Contracts, Billing and Claims department. As well as Provider Relations, Facility Management, Access Center and Utilization Management, Customer Services, Quality Management, Legal and Clinical Risk Management. I oversee a 145 million dollar budget with 87 million dollars in contract services and paid claims. In addition, I am responsible for an additional 20 million dollars in purchasing of goods and supplies for Genesee Health System. I manage over 875 contracts, leases, grants, amendments and 433 individual's providers as well as the process for Request for Proposals to secure services, providers and goods.

I have also been a lead staff in the development, design, Request for Proposals, Contracting and Purchasing for the First Crisis Residential Facilities and First Sobriety Facility in the State of Michigan. The First County Health Plan to integrated mental health services into their benefit plan and the merger of the

Coordinating Agency for Substance Abuse Services into Genesee County Community Mental Health. I have lead redesigns including the Request of Proposals and contracting of the Community Living Services/Respite programs for Genesee County which now assist over 900 individuals in living independently in their own homes or with family members. I also worked in developing the first Mental Health Court in the State of Michigan, the Jail diversion and Prison re-entry programs. I currently sit on the State of Michigan Mental Health Courts Advisory Counsel, Prisoner Re-Entry Committee and in the recent past, the Governor's sub task force committee on Jail Diversion. Recent I helped to open, under a Federal HRSA grant, a Federally Qualified Health Plan/Center operating in Genesee County.

As a director on the Board of MPPOA I would like to help shape our mission to ensure we promote and provide the best quality training and educational opportunities available to our membership, and assisting our members to be knowledgeable in the full array of regulations and codes governing out profession. This will showcase the State of Michigan as an example of excellence within the Nation's purchasing community. Furthermore, I believe I can bring a history of advocacy having been in the Mental Health system for over 25 years. I have presented at the local and State level on many topics and currently sit on a few State committees and counsels. Through these committees and as a presenter and speaker at many State and Annual conference, I have developed a network of relationships that will assist our organization in spreading our standards as benchmarks for all Public entities and Private companies and to establish uniformed principles under which to operate and manage all purchasing and procurement functions.

- Maintain a log of all activity related to the city of Flint and the emergency
- SEOC is coordinating
- FEMA – will they be quarterbacking? Regardless, the State must stay engaged

1. Contract Fundamentals Class 1:00 – 1:03
   - January 27, 2016 1-2:30 Michigan Historical Auditorium

   Genevieve Hayes
   1. FOIA Fundamentals – February 3 9-11:30, call in option, registration not necessary, only required if you did not attend last year
   2. New Employee Orientation – if you have any new employees who you want to attend contact Genevieve. This has not been scheduled yet.
   3. SOW 101 – handful on wait list – let Genevieve know if interested.
   4. Standard Contract Terms – last class held in late 2014 – conducted by AG. Tentative date is 3/21, only required if you did not attend last year
   5. Insurance Training – April 22 – 9:00 Con Con, only required if you did not attend last year

2. PLT Meeting Membership (Jeff B.) 1:03 – 1:15

   Considering allowing the procurement executive to change who is in the biweekly meetings. If your duties expand beyond "procurement" you may want to consider sending your procurement chief. Attendance is also open to you and your procurement chief. Please contact Jeff B if you would like to send someone.

   Plan is to begin quarterly meetings with the procurement executives.

3. Policy (Heather) 1:15 – 2:00
   a. Chapter 10 – modified version posted 1/13/2016
   b. Chapter 11 – final posted 1/13/2016
   c. Chapter 12 – Feedback was due 1/19 – Policy Review Team 1/22
      - Any input at this time?
      - Clarification requested and provided on administrative and substantive changes related to increase in contract value
   d. Chapter 5
      i. User Guide – finalized based on feedback (will provide with meeting notes- modifications to be made and sent out ASAP)
      ii. Request for Quote – solicitation method – phone quotes instead of written because of remote locations

      Phone quotes are not the most transparent. Chapter 5 as written will be effective February 1, 2016. Must make reasonable effort to obtain at least three written quotes for $2,500.01 - $10,000 purchases. Buy4Michigan is always an option.

iii. Buy4Michgian exemption – Chapter 5 - "Any deviation from the requirements identified in this Chapter must be approved by the Chief Procurement Officer." Chapter 5 updated and copy provided of language that is modified to address requests for CPO approval on posting requirements. Advised Chapter 5 would be updated.

Team member has recommendations for changes to Chapter 5. Communicated collection of recommended changes, and advised that updates would be made in the future.

4. Walk Ins 2:00 – 2:10

Sharon

- meetings with agencies scheduled throughout fiscal year
- surveys will be sent out soon requesting 1. contracto options, 2. Transition time, and 3. look at Chapter 5 and see if ITN should be used, or if the exception for extending a contract based on useful like can be used
- Process Team – a report will be provided to the PLT soon. Provided an example of some work that is being done such as Forms Team recommended out of 53 forms, 24 of them are to be eliminated or consolidated
- Ad Board – combine F/C and Ad Board agenda dates, and increase threshold
- Discussed invitation to negotiate solicitation method and that the result may be a direct solicitation

ChangePoint

- iTRAC replacement with ChangePoint – agency expressed concern with this change. It was communicated that it is understood that iTRAC is the primary way to communicate internally at agencies, and with that said Central Procurement is also looking at new technology. Communicated that every state employee would be able to link from iTRAC to SharePoint and that the information is more substantial than could be.
- Confirmed that this solution would be for all RFPs and not for all iTRACS. For change notices the office would have a report to include status/comments and planned finish dates.
- Currently business analysts assign the iTRAC request to buyers and then develop a schedule based on current SLAs. The byers will then finalize the agreed to schedule with the agency.
- If a schedule is not met the agency and buyer will get back together to reset the schedule and a formal change will be provided to increase transparency
- The system allows you to sort within your agency
- Expected to be implemented by April/May 2016 – possibly beforehand.

? How is the staffing going – what did you fill with the 19?

- Ran through general hires, and open vacancies

What is the role of the Business Analyst?

- Assisting division directors and buyers
- Will be critical to ChangePoint – reviewing status of projects and reporting to division directors
- Running reports/ assigning work
- Assist with processing change notices if demand is high/tight schedles
- Research
- Etc. continually developing

Natalie

- Moving depot to the GSB Warehouse in April. April 1 – 10 there may be impact on delivery and depot buys
- Anticipate that shipping will stop before April 1

FYI MMCC out for bid and expect award in summer–

- VMS – change to how vendor sent to Ad Board and informational meeting scheduled for 2/11/16 in State library. Notice will be sent.

Procurement Leadership Team
Agenda

Optional Attendees:	Fortino, Diane (DTMB)
Resources:	CH-1N-Glenn Allen

Flint Emergency Purchasing Pro...

AGENDA

Recent guidelines memo from CPO
Discuss how this memo may supersede the current SEOC protocol (where all purchases go through one person). Current protocols did not contemplate such a broad emergency of long duration
Discuss agency purchasing roles and responsibilities to support SEOC members
Discuss how funding source may play a role in which purchasing staff assist
Discuss who determines whether a purchase is an emergency

Jeff, Chris and Natalie

Jeff asked that I set up a meeting to discuss purchasing roles to support OIP/SEOC for Flint response. If this is not a convenient time, please let Diane or Kathy know, and they can assist in us scheduling at a more convenient time.

Chris – I see your calendar is blocked off. We can pick a meeting location close to where you'll be if that would be helpful.

Please contact me if you have questions.
Thank you.
Rebecca

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

Subject: Water filter purchase

Good afternoon,

Today we purchased:

2,000 – Brita filter faucet mounts – $17.47 each
2,400 – Brita filter replacements (1 pack) - $15.97
8,000 – Brita filter replacements (2 pack) - $24.87

Total of today's order - $272,228

The above product will be delivering tomorrow.

Below you will see the proposed next order to meet the quantities requested:

Faucet Mounts
10,000 – PUR Vertical faucet mount - $29.97
2,500 – PUR Vertical faucet mount - $29.97

Replacement Filters
10,000 – PUR replacement filters (3 pack) - $25.98
10,000 – PUR replacement filters (1 pack) - $16.97

PUR Combination Pack
10,700 – PUR combo packs - $35.00

Zero Water Pitcher (8 Cup)
1,300 – Zero Water pitchers - $29.99

No current Zero water replacement filters on hand

Total of proposed order : $1,217,613

I will place this order immediately for you and expedite all product in to assist with your distribution.

Thank you,

Too late no questions are allowed after the fact. Kidding of course. I have been I discussions with Denice today. We have a track to run on and I will be contacting DK on Monday as well. So think we are good.

Don't want to trouble you with details but let me know if you would like them

Thanks,
Jeff

> I'm asking this question after the fact I know. The rate seems outside of what DK normally charges. As a PO is created for the go forward, should we take a look at this? The other DK 071B contracts seem to be in the $17 - $35 range. Do we typically pay for drive time, or in certain scenarios? (Our security guard services buyer, Lymon, is on vacation this week, through Monday…) Are there aspects about this scope that drive the higher rate? If so, let's capture them in the file. Denice, please let me know if you need anything from me.

Hi Tara,

I just left you a voice mail. You should continue to go through your appropriate process. I just need to be informed so that I can put it in MiCIMS for tracking. Be sure to set it up specifically for the Flint Water Response and use project codes etc. to track it easily. Penny advised she will look into it to be certain but believes the costs will be reimbursable with Section 18 funds. She stated locals are reimbursed for contract employees when retained specifically for an incident and what you are doing is essentially the same.

Thanks! ~Jen

A temporary staff member is needed for the laboratory to process incoming water test samples. How should this be handled? I have an internal process for temporaries, but information below from Kirby states it has to go through SEOC. Please advise as soon as possible, as it will take time to find and background check a candidate.

Thank you.

Subject: Re: GOA Temp for the lab ITRAC C20160120-170519

I've written a needs assessment to forward on to the State's Emergency Operation Center and will go over it with Carol and Julia tomorrow. This temp position below could fit one of the four individuals being requested. Again, I've been told that requests for assistance outside of DEQ must go up to the SEOC. This is the description I have for the individual in the assessment. Note overtime may be required.

1 individual to work full time Monday through Friday 40hrs per week with possible overtime assisting sample receiving, sample transport and data coding. Individual may be receiving and setting up samples, moving samples to testing/storage locations in the lab and data coding sample demographic information into computer.

Thank for getting this going Mary Jo!!

Kirby

Subject: GOA Temp for the lab ITRAC C20160120-170519

Hi Julia

Pls review the itrac verbage and tweak if needed. This is an emergency request that speaks for itself, so don't spend a lot of time on it.

[redacted]
[redacted] (we'll rush it if you're ready for them to start next week)
End date through 6-17 (this takes us through the max 832 hrs. We can later extend contract or request another temp when this is exhausted.)
Temp Cost for this is 832 hrs x 11.34 = [redacted] (temp is pd $9 per hour, but are billed at 11.34)

When itrac is ok and questions are answered, I'll send on to OHR for approval. Once a candidate is selected, a background check will follow. If we want a start date next week I should have your approval tomorrow. Let me know if questions. Thanks, Mary Jo

Hi Tara,

I just left you a voice mail. You should continue to go through your appropriate process. I just need to be informed so that I can put it in MiCIMS for tracking. Be sure to set it up specifically for the Flint Water Response and use project codes etc. to track it easily. Penny advised she will look into it to be certain but believes the costs will be reimbursable with Section 18 funds. She stated locals are reimbursed for contract employees when retained specifically for an incident and what you are doing is essentially the same.

Thanks! ~Jen

Good Morning Chris,

I am working with J & B Medical on your request. Can you please confirm information for the following items on your attached list? Then J & B will confirm pricing and lead times.

1. Lead Care Test Kit for Blood Level Testing, Magellan Diagnostics -- need model no.
2. Lead Care Analyzer Labels, Magellan Diagnostics -- need model no.
5. Micro-cuvettes -- Need manufacturer and model no. There are a few manufacturers and they usually work with specific test kits.
7. Plastic Backed Table Cover -- these come in a wide variety of sizes, need approx. size.

Thank you.

Sue

Subject: GOA Temp for the lab ITRAC C20160120-170519

Hi Julia

Pls review the itrac verbage and tweak if needed. This is an emergency request that speaks for itself, so don't spend a lot of time on it.

Hours M-F 8-5 okay?
Start date of 1-23 okay? (we'll rush it if you're ready for them to start next week)
End date through 6-17 (this takes us through the max 832 hrs. We can later extend contract or request another temp when this is exhausted.)
Temp Cost for this is 832 hrs x 11.34 = [redacted] (temp is pd $9 per hour, but are billed at 11.34)

When itrac is ok and questions are answered, I'll send on to OHR for approval. Once a candidate is selected, a background check will follow. If we want a start date next week I should have your approval tomorrow. Let me know if questions. Thanks, Mary Jo

Importance: High

Good Morning Chris,

I am working with J & B Medical on your request. Can you please confirm information for the following items on your attached list? Then J & B will confirm pricing and lead times.

1. Lead Care Test Kit for Blood Level Testing, Magellan Diagnostics – need model no.
2. Lead Care Analyzer Labels, Magellan Diagnostics – need model no.
5. Micro-cuvettes – Need manufacturer and model no. There are a few manufacturers and they usually work with specific test kits.
7. Plastic Backed Table Cover – these come in a wide variety of sizes, need approx. size.

Thank you.

Sue

Attachments: MI_HPS_Sales_All_012516.xlsx; MI_HPS_Sales_Summary_012516.xlsx

Greetings Rebecca and Sue

Thanks for the opportunity to build on the MMCAP contracts available to the state of Michigan. The summary report is a good place to start, it shows trending annual purchases. I ran also an inclusive report of all MMCAP contracted sales filtered for fiscal 2015 and 16 and sorted by city and invoice date. This will give you a detailed look at who, what, when and how much is being purchased.

Thanks for taking the time to review. Please let me know when it works for you to schedule a call.

Thanks so much!
Michael

Subject: RE: Minnesota Multistate (MMCAP) Purchase History

Mr. Baumann

Thank you for your interest in doing business with the State of Michigan.

The Commodities Division oversees a statewide medical supplies contract, and the buyer, Sue Cieciwa is copied here. Can you please provide us with a line item detail usage summary by agency for the years included in your dashboard? In advance of a meeting we would like an opportunity to review the data and identify any questions for our discussion.

Dental supplies are currently decentralized, purchased by individual state agencies and you may wish to directly contact their purchasing staff. A directory of agency purchasing staff is available at www.michigan.gov/micontractconnect.

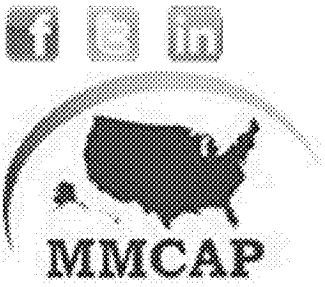
Subject: Minnesota Multistate (MMCAP) Purchase History

Hi Rebecca

So nice to finally meet you this week. Best of luck managing the water supply disaster in Flint. When the time is right, I'd like to learn more about the medical and dental supply procurement and contracting in MI.



Attached-MMCAP Contracts Utilized:

1. Pharmacy, some medical supplies-Department of Community Health, Lewis Cass Building
2. Dental Purchases-Department Technology, Management & Budget
3. State wide medical supply purchases

I can drill into the supporting data behind these dashboards for a deeper discussion. All the mental health facilities use the MMCAP pharmacy contracts. However, as far as I can tell none of them are using our contracted suppliers (McKesson Med-Surge and Medline). I'd like to explore if MMCAP can help out in this area.

Have a great weekend!

Michael Baumann
Senior Account Executive
Minnesota Multistate Contracting Alliance for Pharmacy
State of Minnesota, Department of Administration

Team

Thanks to all of you for being so understanding while the Flint response has taken up much of my time. I've broken many appointments and delayed responses, and am concerned how this is affecting you and your projects. I don't want to become disconnected from your questions and needs during this state of emergency. Please help me to keep your needs on my radar and ensure they are met. Leave a note on my door or whiteboard – your priorities matter too. You are also always welcome to use my cell phone 7 am to 8 pm. Sharon understands the situation and that you may approach her for help if I am unavailable.

You are a great team, and I'm grateful for your support.

Rebecca

And thanks to those also helping to support the Flint response – three of you so far (Steve/Melissa/Sue).

Measurement bill gets House Committee hearing - Senate Bill 507, aimed at requiring MRF's to report recycling data, was passed by the Michigan Senate late last year. On Tuesday, February 9th, the House Natural Resources Committee will hear testimony on the bill. The inititative has broad support from a variety of key stakeholders. Now is a good time to reach out to members of the House Natural Resources Commmittee and your local Representatives about the importance of the bill to recyclers in Michigan. Find your Representative here....

Reclaim Detroit begins long road to recovery - On the heels of a devastating warehouse fire in Highland Park, the nonprofit begins to rebuild. Reclaim Detroit, a program of EcoWorks, has gained national attention for its creative re-purposing of materials salvaged from homes that have fallen into disrepair. Trained workers remove valuable material from dozens of homes that are set for demolition, and then resell them. They have found Douglas fir and pine, antique windows, and sometimes even bubble-filled glass. Their work creates jobs and spares landfills millions of tons of debris. The nonprofit employed 25 people in late 2014, and has received grants from major banks as well as orders from places as far away as Japan. Help them rebuild...

Subject: RE: Flint Briefing

Rebecca – The initial order was placed for the lead test kits and supplies on 1/26/16, however there is no current pending activity relating to the medical supplies contract. I did follow up with Shirley Martin, DHHS this morning and she said that Chris Sanches said there is a possibility there may be another order, but they do not have specific information at this time.

Thanks.

Subject: Flint Briefing

All

I'm going to be out on Friday, and Jeff/Sharon have asked for a Flint briefing on Thursday.

You all have worked with one or more vendors involved in Flint response.
Can you please provide the following: 24/7 contact name, phone and email for applicable vendors. Please also describe any pending inquiries, issues or orders – or confirm none currently pending.

Melissa (Sci Spec, VWR, other?)
Lymon (DK Security)
Yvon (Hertz, other equipment rental?)
Will (Linquistica)
Steve (Home Depot, Grainger)
Sue (Have contact info already, thank you. Please just confirm no pending activity for medical supplies)

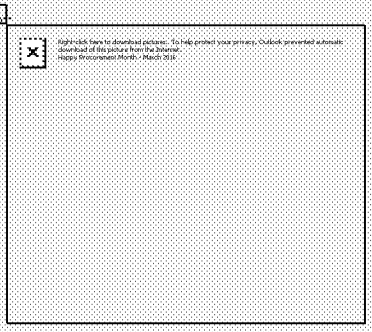
New Best Practice



The Place of Public Procurement Within The Entity

The placement of Procurement should be operationally distinct from other departments and divisions.

The 'Place of Procurement' refers to positioning Procurement within the entity to optimize the influence and impact of Procurement on internal and external stakeholders.

This best practice builds a case for the strategic placement of the Procurement function. This placement maximizes the effectiveness of Procurement within the entity and is critical for the entity to fully benefit from Procurement operations.

Preparing for pandemics could cost less than $1 each a year, review says

Investing less than $0.72 a year for each person would make the world far more resilient to potentially devastating pandemics, according to a global health expert group convened in the wake of the Ebola crisis.

A report by the Commission on Creating a Global Health Risk Framework for the Future, said infectious diseases are as potentially dangerous to human life, health and society as match wars and natural disasters.

Pandemics cost the world more than 40 billion pounds ($58 billion) each year, the report estimated, yet preparations are chronically underfunded compared with other threats.

"Few global events match epidemics and pandemics in potential to disrupt human security and inflict loss of life and economic and social damage," said Jeremy Farrar, director of the Wellcome Trust global health charity. "Yet for many decades, the world has invested far less in preventing, preparing for and responding to these threats than in comparable risks to international and financial security."

An Ebola epidemic killed more than 11,000 people and wreaked economic and social havoc when it swept through three countries in West Africa last year. The world has faced several other infectious disease crises in the last 15 years, the report noted, including Middle East Respiratory Syndrome (MERS), severe acute respiratory syndrome (SARS), and the HIN1 flu pandemic.

The commission's experts estimated that at least one new disease pandemic will emerge in the next 100 years, with a 20 percent chance of four or more in that time.

Farrar told a briefing in London that a crucial factor in preparing for disease epidemics would be the creation of a strong, independent center under the umbrella of the World Health Organization (WHO), which would lead outbreak preparedness and response. The new center, which he said could be set up within a year if supported by the WHO and its 194 member states, should be a permanent part of the WHO system but also have "considerable operational independence and a sustainable budget".

U.S. health officials consider travel warning as Zika virus spreads

U.S. health officials are considering a travel warning about Zika virus, the once obscure virus rapidly spreading across Latin America and the Caribbean that experts fear may cause birth defects.

It's not clear what the officials will tell people just yet, because so little is known about the virus, which is spread by mosquitoes. But evidence is growing that it may cause a catastrophic birth defect called microcephaly.

What is clear is that it's likely to spread much more widely. It's also clear that it will take

Physician push vs. pull

Contact us:

email:
dailyupdate@hpnonline.com
phone: 941-927-9345
web: hpnonline.com

weeks, if not months, to get all the answers. In the meantime, there's no vaccine against Zika, a viral cousin of dengue fever, and no treatment for it.

"We are in the process of developing a travel warning not only for pregnant women, but for everybody," said Dr. Lyle Petersen, who heads the Center for Disease Control and Prevention's division on diseases carried by mosquitoes and other insects and animals.

Microcephaly - an abnormally small head and brain - can kill babies, cause miscarriages or cause severe and untreatable handicaps.

Until recently, Zika wasn't on the radar screens because it only caused very mild illness. It had also been suspected of causing Guillain-Barre syndrome, a rare and sometimes dangerous reaction that often occurs after viral infections. It had also been tied to Rubella, also known as German measles, which can cause microcephaly, learning disabilities, heart disease and other defects. And the most dangerous time is during the first trimester, when women might not yet realize they are pregnant. It's one reason why doctors stress rubella vaccination and why pregnant women are tested to make sure they're immune.

Other viruses related to Zika, dengue for instance, are not known to cross the placenta and affect a fetus. Petersen said there is now some evidence that Zika is doing this.

Brazil is experiencing an explosion of microcephaly, from a few hundred cases reported a year to close to 4,000 over the past year.

It's not easy to test for Zika. A quick blood test can get Zika mixed up with dengue, which is a longtime resident of the region and all tropical areas. A test called PCR is needed to detect Zika, and it takes longer and is more expensive that a quick test.

When another virus called Chikungunya started spreading across the Caribbean and Central America in 2013, the CDC issued a travel warning that simply cautioned people traveling to affected areas to take precautions against mosquito bites: staying inside, wearing long sleeves and using insecticide. So far, that's what the Pan American Health Organization (PAHO), an arm of the World Health Organization, has done.

CDC are now deciding what they should tell people about Zika, how wide an area to include in any warning and whether it should go beyond the standard cautions about mosquito-borne diseases.

Zika's been reported across the warm parts of Latin America, from Brazil to Mexico and even in Puerto Rico. Travelers have occasionally carried it to the U.S. and some experts believe it's only a matter of time before it settles into warm regions such as south Texas, Florida and Louisiana.

Hawaii just battled an outbreak of dengue carried by travelers. It's becoming clear that viruses carried by mosquitoes are a growing threat, said Dr. Anthony Fauci, head of the U.S. National Institute for Allergy and Infectious Diseases. "Zika is still a pandemic in progress," Fauci said. "We clearly need to up our game with broad and integrated research."

Doctors outraged as Florida dumps hospital standards

The state of Florida is putting thousands of children with heart defects at risk, a group of cardiac doctors say, because of a change in policy that came after Tenet Healthcare

contributed $200,000 to Florida Republicans.

In a widely publicized investigation in June, CNN revealed that a program at a Tenet hospital in Florida had failed to live up to state quality standards for children's heart surgery. Less than two months later, the state decided to get rid of those standards.

That decision came after the giant for-profit hospital chain made contributions to Republican Gov. Rick Scott and his party that dwarfed those the company made to candidates or parties in other states.

"The whole situation is outrageous. It's just outrageous," said Louis St. Petery, a pediatric cardiologist in Tallahassee and former executive vice president of the Florida chapter of the American Academy of Pediatrics.

Doctors from around the state say the decision came right from the governor's office. Representatives for Tenet and Scott deny conversations took place between them about getting rid of the standards.

In the fall, cardiac doctors implored the state of Florida to keep the hospital standards. The doctors argued that the quality standards have been in place since 1977, saved children's lives and had become a model for other states. When the standards were dropped anyway, the parents of four children with heart defects took the state to court.

Florida's Department of Health said the quality standards had to go because the Legislature had never given permission to put them in place. The standards have been in place and uncontested for 38 years.

At a hearing, Dr. William Blanchard, chairman of the division of pediatric cardiology at Nemours Children's Hospital in Orlando, said getting rid of the standards is "both poor public policy and poor politics."

Dr. Jeffrey Jacobs, a professor of surgery at Johns Hopkins, argued that the standards "are necessary to protect the vulnerable children with heart disease."

In 2014, Jacobs headed up the review by the state's expert panel that showed many vital tests and services for children's hearts were lacking at St. Mary's Medical Center in West Palm Beach. He wrote that the Tenet-owned hospital was not able to maintain proficiency in heart operations on children. Jacobs recommended the hospital stop performing heart surgery on babies younger than 6 months.

Even though the state defended St. Mary's mortality rate, in August the hospital closed its pediatric heart surgery program and the CEO resigned.

Pediatric heart doctors were relieved. But they weren't prepared for what was ahead. In July, the state announced it would repeal hospital standards for children's heart surgery.

Doctors outside the state said they were surprised that Florida would move to repeal its own safety standards for children.

"I can't think of anywhere else in the country where you have safety standards and someone doesn't like them, so you just have it repealed," said Dr. Peter Pronovost, senior vice president for patient safety and quality at Johns Hopkins Medicine.

One-hour diagnosis of heart attack possible with troponin T test from Roche

Results from the TRAPID-AMI clinical study have been published by the *Annals of Emergency Medicine*, confirming a novel approach for a more rapid diagnosis of heart attack in patients with acute chest pain.

The strategy is based on the cardiac troponin T high-sensitivity test from Roche and reduces the observation time needed to rule-in or rule-out a heart attack from 3-6 hours to just 1 hour. It is well established that a fast and reliable diagnosis of heart attack is critical because every hour of delay from the onset of symptoms to treatment increases the mortality risk.

"Thanks to this new approach, we can now shorten the time to heart attack diagnosis for millions of patients presenting in emergency rooms with acute chest pain all over the world," says Christian Mueller, professor of cardiology at the University of Basel, Switzerland, one of the study's principal investigators. "Patients no longer have to wait for three or more hours in the emergency department, not knowing whether they have an acute, life-threatening disease or if their chest pain is caused by other reasons."

Troponin is a heart muscle protein that is released into the blood stream during a heart attack. A limitation of the earlier generations of blood tests was the time required to detect the troponin release, sometimes requiring up to six hours with less sensitive troponin tests. The mortality rate of heart attacks is highest within hours of onset, so an early diagnosis and initiation of treatment greatly impacts outcome and potentially saves lives.

The European Society of Cardiology adopted this accelerated diagnostic concept at their annual meeting held in London (UK) in August 2015. Their new clinical practice guidelines (2015 ESC NSTEMI) now support the 1-hour diagnostic algorithm with high-sensitive troponin testing validated in the TRAPID-AMI study5.

New Ebola case emerges in Sierra Leone, day after WHO declared outbreak over

A corpse has tested positive for Ebola in Sierra Leone, an official said Friday, the day after the World Health Organization declared the outbreak over in West Africa.

Tests on a 22-year-old woman who died earlier this month in Sierra Leone's north proved positive for the virus, Francis Langoba Kellie, spokesman for the Office of National Security, told a local radio program.

She came from the Northern Kambia District and went to the Northern Tonkolili District for medical attention, he said. Authorities are tracing her contacts and have dispatched teams to the area for investigations. Certain areas will be quarantined, he said.

WHO declared an end to the deadliest Ebola outbreak ever on Thursday after no new cases emerged in Liberia. It had been at least two weeks since Ebola had been seen in Guinea or Sierra Leone. The three countries were most affected by the epidemic that began two years ago.

Nearly 4,000 people had died before Sierra Leone was declared free from transmission

of Ebola on Nov. 7. Guinea marked that day on Dec. 29.

Liberia was first declared free of the disease in May, but new cases emerged two times - forcing officials there to restart the clock. Thursday marked its third time 774being declared free from transmission.

Ebola has killed more than 11,300 people, mostly in West Africa, since it emerged at the end of 2013.

WHO declares Ebola transmission over when a country goes through two incubation periods - 21 days each - without a new case emerging. Countries are then placed on a 90-day heightened surveillance.

Flint learns of Legionnaires' disease spike as water crisis continues

Residents of Flint, MI, already reeling because of lead contamination in their drinking water, got more disturbing news on Wednesday.

Gov. Rick Snyder announced the number of cases of Legionnaires' disease has spiked in Genesee County in the two years since Flint switched its water supply from the Great Lakes to the Flint River.

From June 2014 to November 2015, at least 87 county residents developed Legionnaires' disease, compared to between six and 13 cases in the four preceding years, Lyon said. Ten patients died, he said.

Health officials are not changing recommendations about how Flint residents should deal with the water crisis. They should keep drinking bottled water and use water filters, Snyder said.

Flint, an economically depressed city of about 100,000 people, started getting its water from the Flint River about two years. It previously bought Lake Huron water through the city of Detroit. The state government made that change to cut costs. Soon after the switch, the water started to look, smell and taste funny. People complained. It was discovered the water had high levels of iron, from the Flint River, and contained lead from the connecting pipes. On January 5, Snyder declared a state of emergency for Genesee County as a result of the water crisis. He apologized for the state's actions, but residents and officials are furious. The state denied the problem existed for months and failed to use anti-corrosive treatment on the river water, which might have reduced the iron.

Flint switched back to Detroit water in October. "It will require more time and effort before the water is safe to drink again," the city of Flint website said. "Until that time, residents and water customers are urged to continue using water filters and bottled water."

Dr. Marc Edwards, a Virginia Tech researcher who studied Flint water and found high levels of lead, said it would be almost impossible to make a definitive link between the water source and Legionnaires' disease. To do so, he said, would require matching the strain of Legionnaires' in someone's body to the strain in the water. "What's clear is that there's an association, which means that the increase of the Legionnaires increased pretty dramatically," he said. "And there's a strong likelihood that it's related to the

water supply.

The U.S. Attorney's Office in Eastern Michigan is investigating the water crisis and a class- action lawsuit was filed against Snyder, the state government and the city of Flint.

Visit CNN for the story.

New study highlights the enormous impact of telemedicine for intensive care

Tele-ICU is the next big thing in the field of critical care nursing. It has been part of a model of care that has tremendous potential to positively affect patients and their families. However, the concept of tele-ICU still faces a few challenges, according to the national survey results published in the *American Journal of Critical Care*.

Lead author, Ruth Kleinpell, RN, PhD, APRN-BC, CCRN, and colleagues conducted a national survey of nurses specifically working in intensive care telemedicine facilities in the US to gather information on the impact of such care on nursing.

The United States has around 45 tele-ICUs that can monitor more than 6000 patients across 200 hospitals. This accounts for an estimated 12% of ICU patients in the country, according to the study. The number of nurses practicing in tele-ICUs is anywhere between 800 and 1000. These nurses work in collaboration with the 16,000 staff nurses that work on patients at the bedside, meaning physically being by their side.

A 2-phased study brings out some important results. In phase 1, out of the 1,213 respondents: 63% agreed telemedicine accomplishes tasks faster; 65.9% agreed telemedicine improves teamwork; 63.6% agreed it improves job performance and communication; and 60% agreed it is essential in nursing evaluations.

While a clear majority agrees on the widespread accomplishments of telemedicine, phase 2 put a spotlight on the challenges faced by nurses. The top 15 priority areas of care, as pointed out by 60 respondents included critical thinking skills, intensive care experience, skillful communication, mutual respect, and management of emergency patient care. Other barriers to better telemedicine care were largely technical such as audio and video interruptions.

The benefits of tele-ICU are manifold. It helps tremendously in detecting trends in vital signs and unstable psychological statuses. It also provides superior medical management and enriches patient safety. But the study also focuses on addressing the limitations in better telemedicine care to form the foundation for developing competencies for tele-ICU nursing.

Visit AJMC for the report.

Meaningful use program is ending, CMS chief says

The Centers for Medicare and Medicaid Services (CMS) is planning to end the Meaningful Use program, CMS acting administrator Andy Slavitt, MBA, said at a healthcare investors conference in San Francisco.

"The meaningful use program as it has existed will now effectively be over and be replaced with something better," Slavitt said Monday at the J.P. Morgan Healthcare Conference. The specifics of the new program will be revealed in the next few months,

he added.

"Now that we effectively have technology in virtually every place care is provided, we are now in the process of ending Meaningful Use and moving to a new regime culminating with the MACRA implementation," Slavitt explained, referring to the Medicare Access and CHIP Reauthorization Act, the law that repealed the Sustainable Growth Rate reimbursement formula. Most of MACRA's provisions take effect in 2019.

The new initiative's focus would not be on simply using technology, but on improving patient outcomes, he added. "Providers will be able to customize their goals so tech companies can build around the individual practice needs, not the needs of the government."

Slavitt also said the agency is looking to attract entrepreneurs by "leveling the technology playing field" in healthcare information technology (IT) through a requirement of open application program interfaces (APIs) -- making the coding used to build these programs available to anyone.

Finding innovative companies to invest in the Medicaid IT space will be another agency focus, Slavitt said. He announced the launch of a "one-stop shop" to help private-sector companies interested in joining the healthcare market connect with states seeking support.

CMS also wants to increase the number of Medicare accountable care organizations (ACOs), according to Slavitt. "In 2016 we will not only have more ACOs, we will have better ACOs," he said, referring to the 21 healthcare organizations registered to participate in the agency's new Next Generation ACO model.

The new design for ACOs requires provider groups to be fully financially responsible for patient care and allows physicians to conduct home visits, use telemedicine, and employ direct-to-consumer incentives.

Slavitt likened the next gen models to second-generation iPhones, explaining that "there will be progress, setbacks, and we will continue to improve."

Slavitt also addressed implementation of the Medicare Access and CHIP Reauthorization Act (MACRA), legislation that is famous for axing the Sustainable Growth Rate formula. The task here is to take three old payment and quality review programs and align them into one, he explained.

The new law will make paying for value a "mainstream" practice through the Merit-based Incentive Payment System (MIPS). MIPS, Slavitt said, rates physician performance on four factors: quality, cost, the use of technology, and practice improvement.

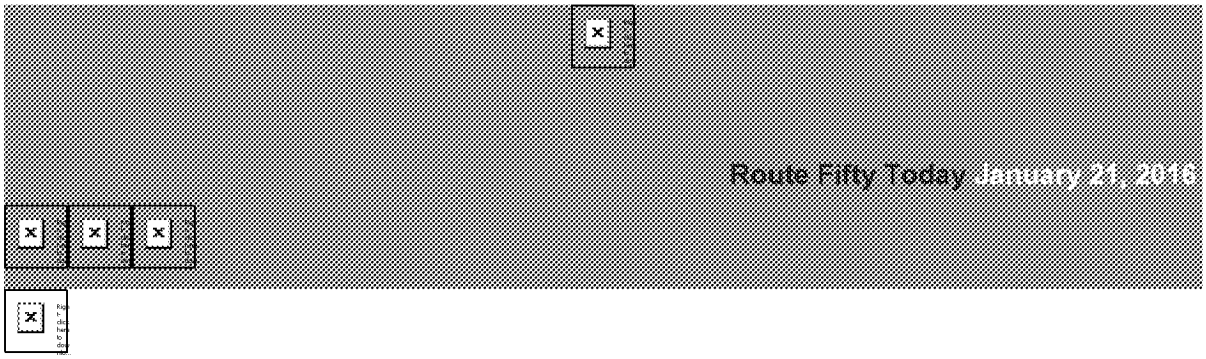
Sheryl,



David from Home Depot is still working on getting all current invoices from Citi Bank and says he should have them by the end of today. He has offered to come over to Lansing tomorrow and sit down with us and go through all of them to clarify everything so that payments can be processed. Would you and your purchasing staff taking care of these invoices be available tomorrow? I don't have a time yet when he could be here, but I can most certainly walk David over to your building so that we can go through these initial invoices and then come up with a process moving forward to take care future invoices. Let me know. Thanks.

Subject: FW: New Cell phone request - related to State emergency

Let's add Mindy to the list of DTMB employees rising to the challenge to serve. Phones will be here and activated tomorrow.

Unsure who Mindy's supervisor is, but would be happy to have compliments passed on to them.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe [redacted] Office hours 7:30 am to 4:00 pm

Melissa Sambiagio Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Jeff

I'm asking this question after the fact I know. The rate seems outside of what DK normally charges. As a PO is created for the go forward, should we take a look at this? The other DK contracts seem to be in the $17 - $35 range.

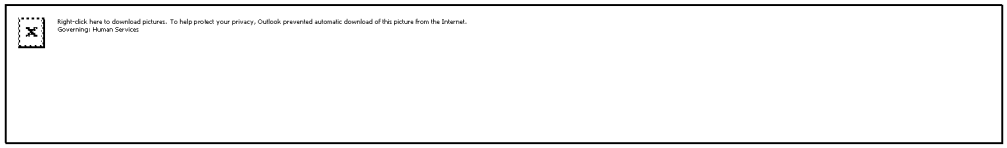
Subject: Flint Emergency Guard Request

Ladies,

On Sunday Jan. 17th we received a request from the State Emergency Operation Center to deploy an armed security guard in support of State emergency operations in Flint. The details of the deployment are contained in the attached MOU provided by DK Security. I am requesting your assistance with the creation and issuance of an emergency purchase order. We informed DK Security that the deployment would be on a month-to-month basis to start. The deployment commenced on Jan. 17th at 3:30pm. The hours of operations are 7p to 7a Sunday through Saturday.

Hopeful I have provided you with the appropriate details required for the PO. Please contact me if there is anything further you need or actions that I need to take.

Thanks,



Jeff

ADVERTISEMENT ... Content continues below

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

Subject: RE: Flint - agency purchasing managers

Jeanette

Both Wednesday and today I spoke with Amy Epkey in DEQ. She shared that George will continue to be the main point of contact on Flint related issues. You should already have his contact info, but please contact Amy if you don't. Please escalate any questions or requests for additional support to Amy, so that she can ensure they are promptly addressed. I understand from a previous conversation that you now have what you need at the moment.

Thank you for the feedback Jeanette, please do not hesitate to continue to share or request additional support.

Rebecca -

I spoke with the DEQ representative at the SEOC (Jen Wolf) and she is on board with you talking to Amy Epkey about someone within the executive office at DEQ taking ownership of the water bottle kits. Jen said to give her a call if you need 719-0023. She is in agreement that the response from DEQ group is oh well, it'll get done sooner or later.

Jeanette

My leadership is getting questions from agency purchasing managers regarding instructions and protocols to purchase for the emergency response.

I will be having conference calls - would one or both of you liked to be involved in a) developing the talking points to emphasize with them and b) being in the calls?

Rebecca

Questions/Discussions in PLT....

1. Do we Dtmb or other agencies always issue POs for purchases PRIOR to receiving goods or allowing ordering verbally....or are emergency pos been issued after the fact?
2. Is there any accountability or record keeping for all orders issued by agencies and us?
3. Is it true Home Depot we have $20M?
4. What is FEMAs role regarding purchasing?
5. How are we communicating to other agencies?
6. Has there been any direction re: what agencies are to be tracking.....including overtime? What have we tracked for Dtmb central.

Mdoc and DHHS asking questions.

May suggest quick call between Dtmb and mdoc DHhs, plus others? Thx.

Subject: RE: Minnesota Multistate (MMCAP) Purchase History

Mr. Baumann

Thank you for your interest in doing business with the State of Michigan.

The Commodities Division oversees a statewide medical supplies contract, and the buyer, Sue Cieciwa is copied here. Would MMCAP plan on responding to the State's next bid, or are you proposing to submit information via a different method? The current medical supplies contract is available online at www.michigan.gov/micontractconnect.

Dental supplies are purchased by individual state agencies and you may wish to directly contact their purchasing staff. A directory of agency purchasing staff is available at www.michigan.gov/micontractconnect.

Subject: Minnesota Multistate (MMCAP) Purchase History

Hi Rebecca

So nice to finally meet you this week. Best of luck managing the water supply disaster in Flint. When the time is right, I'd like to learn more about the medical and dental supply procurement and contracting in MI.

Attached-MMCAP Contracts Utilized:
1. Pharmacy, some medical supplies-Department of Community Health, Lewis Cass Building
2. Dental Purchases-Department Technology, Management & Budget
3. State wide medical supply purchases

I can drill into the supporting data behind these dashboards for a deeper discussion. All the mental health facilities use the MMCAP pharmacy contracts. However, as far as I can tell none of them are using our contracted suppliers (McKesson Med-Surge and Medline). I'd like to explore if MMCAP can help out in this area.

Have a great weekend!

Subject: Re: GOA Temp for the lab ITRAC C20160120-170519

I've written a needs assessment to forward on to the State's Emergency Operation Center and will go over it with Carol and Julia tomorrow. This temp position below could fit one of the four individuals being requested. Again, I've been told that requests for assistance outside of DEQ must go up to the SEOC. This is the description I have for the individual in the assessment. Note overtime may be required.

1 individual to work full time Monday through Friday 40hrs per week with possible overtime assisting sample receiving, sample transport and data coding. Individual may be receiving and setting up samples, moving samples to testing/storage locations in the lab and data coding sample demographic information into computer.

Thank for getting this going Mary Jo!!

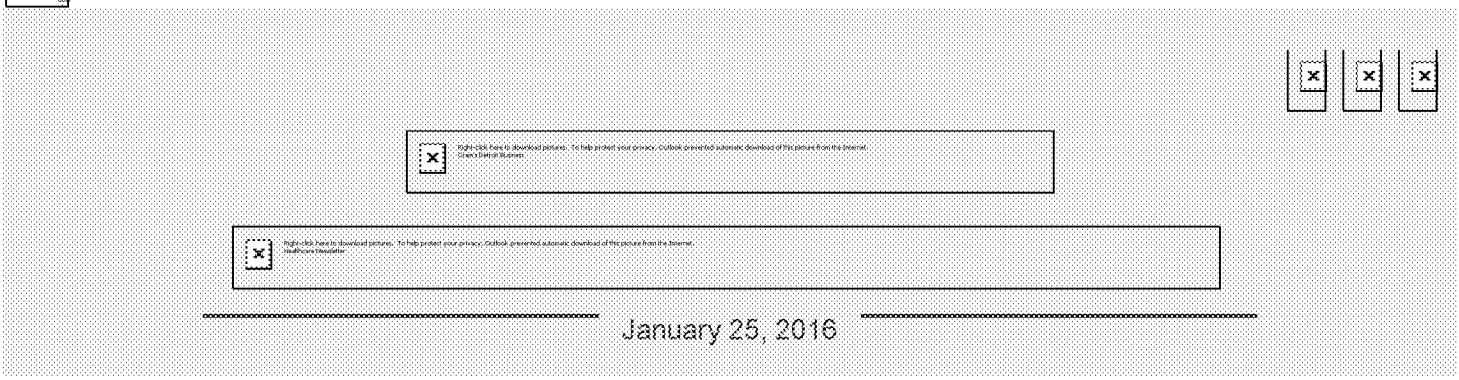
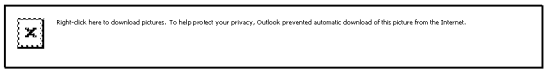
Cc: Shane, Kirby (DEQ)
Subject: GOA Temp for the lab ITRAC C20160120-170519

Hi Julia

Pls review the itrac verbage and tweak if needed. This is an emergency request that speaks for itself, so don't spend a lot of time on it.



Hours M-F 8-5 okay?
Start date of 1-28 okay? (we'll rush it if you're ready for them to start next week)
End date through 6-17 (this takes us through the max 832 hrs. We can later extend contract or request another temp when this is exhausted.) Temp Cost for this is 832 hrs x 11.34 = 9,434.88 (temp is pd $9 per hour, but are billed at 11.34)



When itrac is ok and questions are answered, I'll send on to OHR for approval. Once a candidate is selected, a background check will follow. If we want a start date next week I should have your approval tomorrow. Let me know if questions. Thanks, Mary Jo

Subject: Re: Flint Issue Questions from DTMB Procurement

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

Kim

To clarify, DTMB Procurement is not in a position to track usage and spend, so we are unable to assist in your response to MSP. Please work with Jeanette and Chris. The SEOC has asked everyone to track receipts and enter them into MySims software.

Buyer Steve Rigg is involved to the extent that Home Depot is asking questions about unpaid invoices, and Steve facilitated getting invoice copies and a meeting set up. The State is running close to its account credit limit with Home Depot and needs invoices cleared for payment.

We are still seeking clarification on the new FEMA process, and anticipate more information next week.

I'm happy to talk more on Monday, but thought you may also need an immediate response.

Please call my cell for any emergency requests, instead of or in addition to email.

Subject: FW: Flint Issue Questions from DTMB Procurement

Hi Sharon,

Would it be possible for Rebecca to include me in her communication on this important matter? It is not clear to me from the e-mail below if she is still seeking clarification on this issue or if I should contact to Jeanette Doll and Chris Christensen myself to obtain answers.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,
Penny Burger

Subject: Re: Flint Issue Questions from DTMB Procurement

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

On Jan 21, 2016, at 11:36 AM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:
Chris/Jeanette,

My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?

7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?
11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Attachments: BLU_CoroporateCatalog_JT_v15small.pdf

Jeanette

As we previously discussed, you are my contact to triage and route external inquiries. Bluewater called me this morning, and I requested an email with more information.

It is unclear to me whether this unit meets the standards used for the faucet water filter sourcing. Can a resource be identified to check? If not, someone may want to consider reaching out to the two locations that received donated units.

Thanks for routing this into the correct hands.

Subject: Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water

brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today http://healthycures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminates we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

Pro 400C-HF(high flow) (this is the model we donated to Flint) $1920 shipping
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)
- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor
- Calibration of cleanliness
- Advanced leak protection system
-Clean water per kWh: 433L/kWh (114.3gallon/kWh) -Clean water rate: 222L/hour (58.6 gallons/hour)
-Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)
-Weight: 29kgs (64lb)
-Water recovery rate: 60-70%

The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:

Spirit 300-HF(high flow) $1350 shipping
Compact design that fits into any contemporary kitchen
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Spirit 300Cp-HR(high rejection) $1500 shipping
Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

Turning tap water into healthier drinking water.

A better future
Tap water redefined

Bluewater

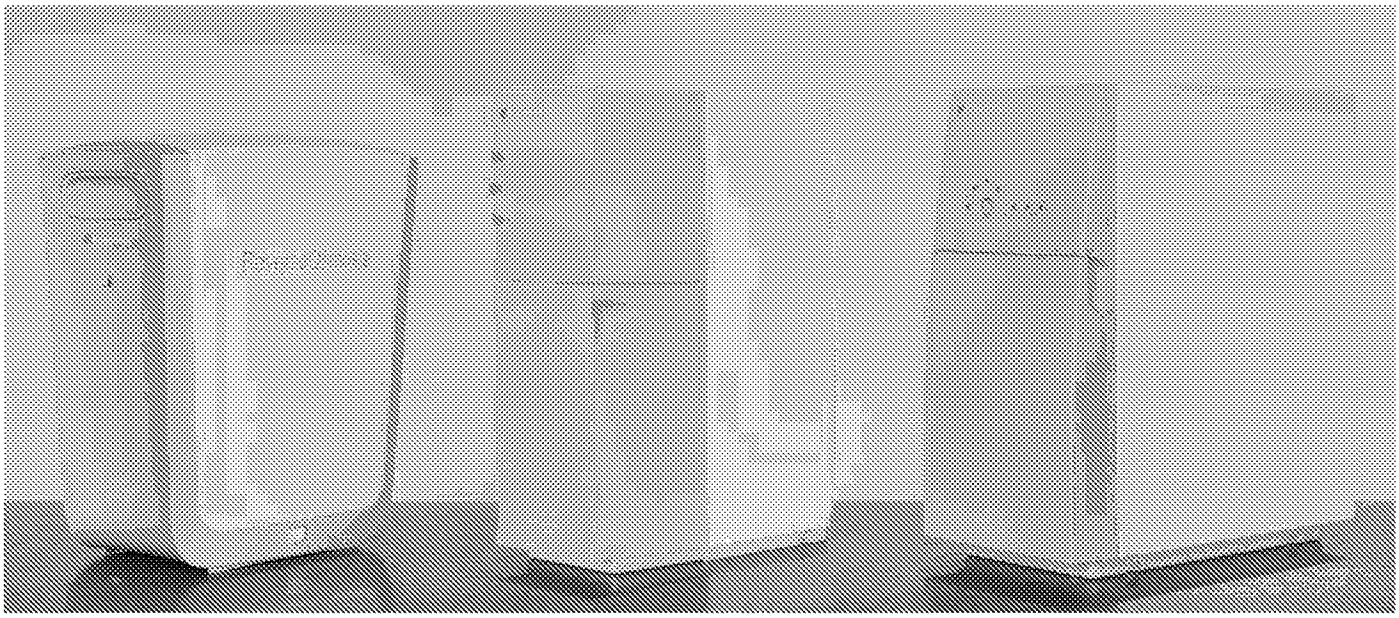
Turning tap water into healthier drinking water

Benefit of Bluewater

Our body is around 70% water, our brain is 90% water. So it clearly makes sense to make the most of the water we consume to stay well, battle fatigue, flush out toxins, improve complexion and boost immune systems.

Water is vital to our health and wellbeing. Yet, critically, many projections by institutions such as the International Food Policy Research Institute warn that the world is facing rapidly deteriorating water quality that will increase risks to human health. Data in 2015 from NASA reveals how the world is running out of water as the world's largest aquifers are being depleted at alarming rates.

The unavoidable truth is that there is not an infinite supply of water. If quality is deteriorating, then increasingly we must take greater individual responsibility to assure our drinking water is safe and healthy to consume. And does not force us to use highly costly solutions like bottled water delivered in plastic that also endanger our planet's fragile environment.



Bluewater's leading-edge technologies remove over 99% of most known pollutants from tap water, including micro-organisms, pesticides, heavy metals and other toxins that threaten human health and impact taste. Our water purifiers have been engineered to deliver unmatched premium filtration, high flow capacity and direct flow with no need for a tank – all from a compact, great looking design. Our unique water purifiers and filtration systems are designed to limit waste water to extremely low levels, while our Pro model even turns brackish water into great tasting drinking water.

Bluewater's premium water purifiers are innovated with love in Sweden to help deliver enhanced health, wellness and peace of mind at home and in working or business environments.

Niclas Wullt
Managing Director
Bluewater

Bluewater's lineup of super efficient resident water purifiers encompasses (left to right), the Cleone, Spirit and Pro, all geared to remove contaminants from tap water that can endanger health or impair taste.

What's REALLY in our tap water?

Many of us take the safety of our tap water for granted. But what's really flowing from our faucets? Hardly a month goes by without a news report somewhere detailing how bacteria, pharmaceutical residues such as antibiotics and hormones, nitrates, toxic metals and other contaminants can be found in tap water.

Public water management authorities do a good job of treating water destined for residential or commercial kitchens. Yet most use chlorine or similar to disinfect water of bacteria and parasites – and chlorine not only tastes bad, but is also poisonous in large amounts.

Germs are not the only problem. Lots of other nasty stuff can get into the water during its journey from the municipal works to the tap. WHO says just one-third of the world's fresh water can be used for human needs due to 'increased pollution from municipal and industrial waste and the leaching of fertilizers and pesticides in agriculture'.

Aging municipal water pipes are a serious issue. In the USA, as much as 30 percent of pipes in systems that deliver water to over 100,000 people are between 40 to 80 years old, according to the Environmental Protection Agency (EPA). And about 10 percent are even older.

The U.S. Water Quality Association (WQA) says 'water that leaves the treatment facility can become contaminated by the time it shows up at your tap'. The WQA view is supported by Consumer Reports that says 'dangerous contaminants such as lead, chloroform, arsenic, nitrate, nitrite, radon, and E. coli bacteria are common in tap water'.

Most of the world's municipal water treatment plants are simply not geared to remove all chemical and pharmaceutical residues. But ordinary citizens can help protect themselves – by using Bluewater's innovative reverse osmosis technologies.

Bluewater turns tap water into healthier, better tasting drinking water by removing the following contaminants:

Toxins

Bacteria & Viruses

Toxic Metals

Smells

Filter or Purify?

Consumers wary of drinking tap water are faced with a real dilemma when it comes to choosing between filtering what comes out of their kitchen taps or purifying it.

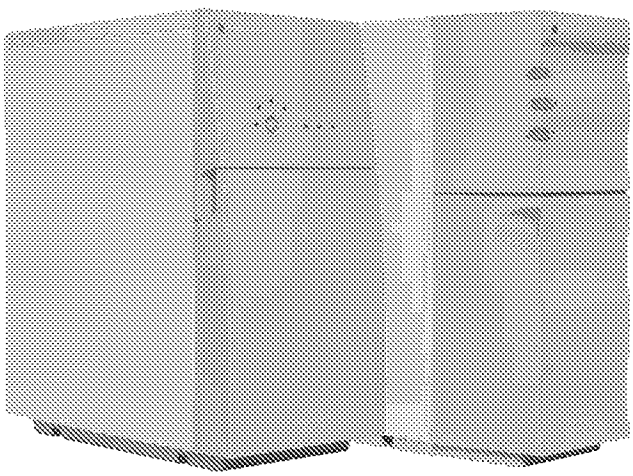
Many consumers believe they are making a healthier choice by choosing to filter their tap water using countertop pitchers with replaceable filter cartridges or buy bottled water. Yet, few people question the fact that most pitcher filter solutions do not remove contamination like lead, pesticide or pharmaceutical residues, bacteria or viruses. Nor do they query the inflated cost of bottled water, some of which comes from municipal water works anyway.

There is nothing intrinsically wrong with countertop or faucet water filters. However, such filters for the most part do not match the efficiency of reverse osmosis solutions that are designed to remove contaminants, including viruses, bacteria, pesticides, fluoride and different drugs and chemicals, to deliver really clean water as and when you want it.

At the end of the day, understanding the difference between water filtration and water purification is the big step towards being able to make an informed choice for a healthier lifestyle, not to mention better tasting coffee or tea.

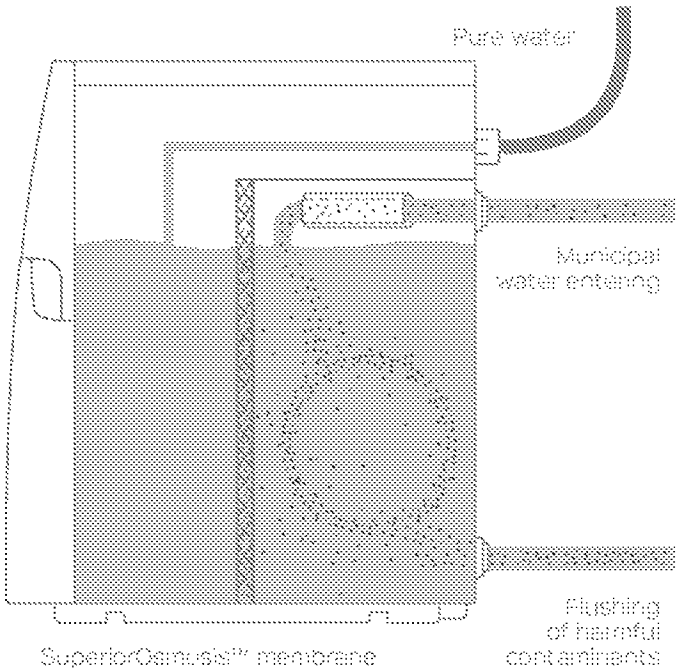
Slashing Water Wastage

A complaint regularly thrown at reverse osmosis technology is that it wastes water. Bluewater's patented second-generation SuperiorOsmosis™ technology uses 82% less water than a traditional RO water purifier to flush out contaminants, which is good for environments where fresh water is in short supply.



Bluewater SuperiorOsmosis™

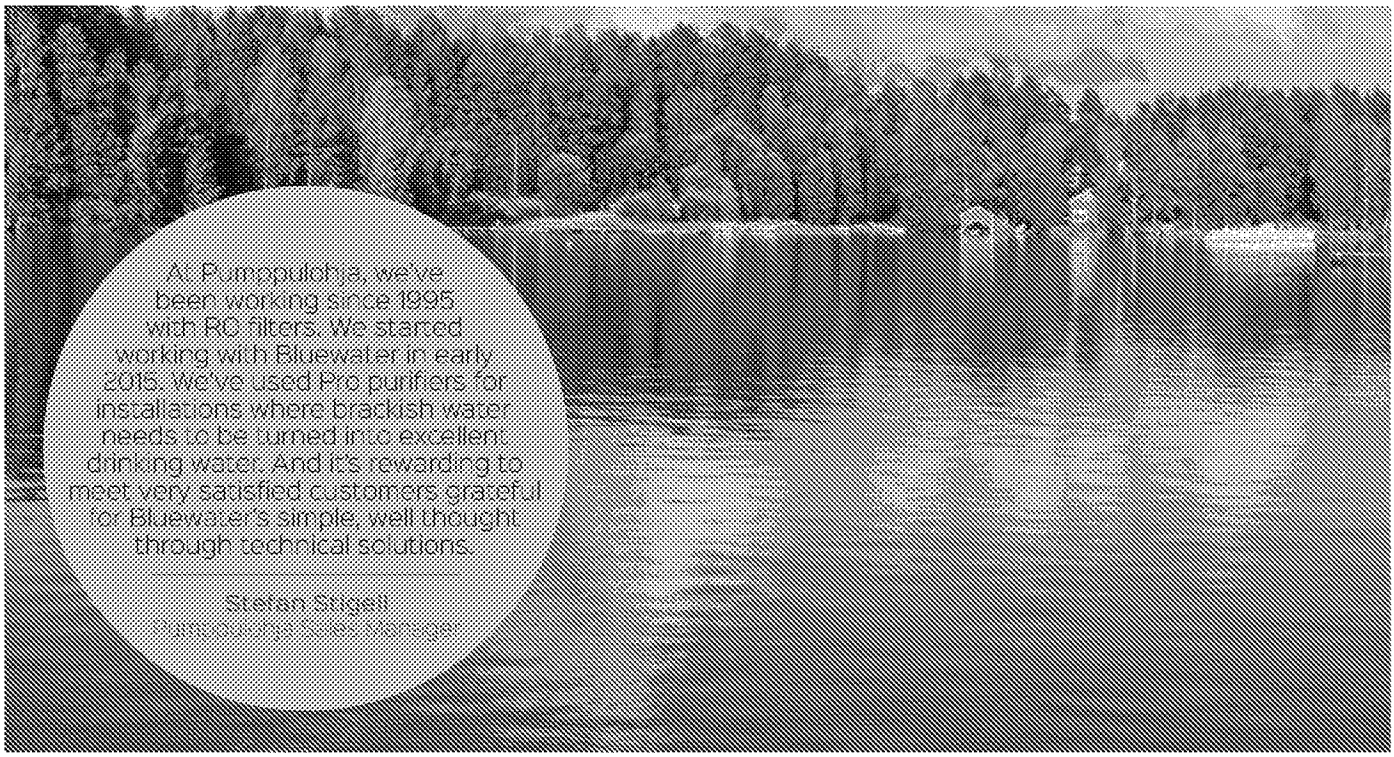
A super-efficient approach to purifying tap water



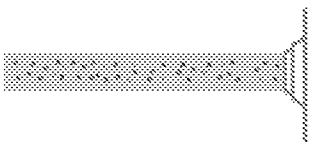
Reverse osmosis is widely considered the most effective method of purifying water due to the purification processes that remove virtually all pollutants including micro-organisms, pesticides, heavy metals and toxins – leaving safer, purer water.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or membrane. The membrane blocks chemical, and other contaminants as well as bad odors and tastes. The filter captures everything nasty down to 0.0001 micron (that's around 500,000 times less than the diameter of a human hair). Traditionally, a drawback to reverse osmosis filters is that they frequently use more water technology also ensures on-demand direct flow straight from the water mains to flush away the contamination filtered out than they provide for drinking, which is frankly wasteful.

However, Bluewater offers a superior, patented second-generation reverse osmosis solution that gets rid of unwanted contaminants, but doesn't waste water at the same rate as more traditional solutions. Bluewater SuperiorOsmosis™.

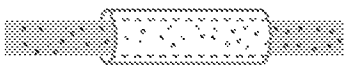


Bluewater's Spirit and Pro water purifiers harness the power of the patented SuperiorOsmosis™ technology.



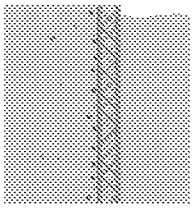
Benefits of SuperiorOsmosis™

- Environmentally conscious system
- Extends tap to faucet warranty
- Direct flow technology
- Fast delivery
- Fast clean water delivery rates
- Premium filtration levels
- Eco-friendly consumables
- Low cost maintenance
- Compact design
- Drinking freshness assured



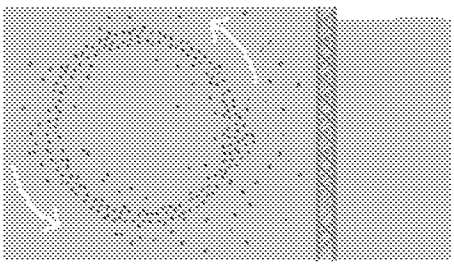
SuperiorOsmosis™

Step 1



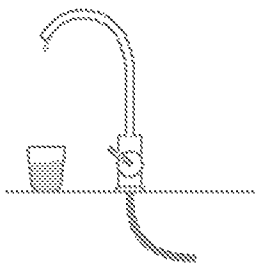
Water containing a variety of pollutants enters the system via inlet water

Step 2



The biggest particles are removed using high quality pre-filters

Step 3

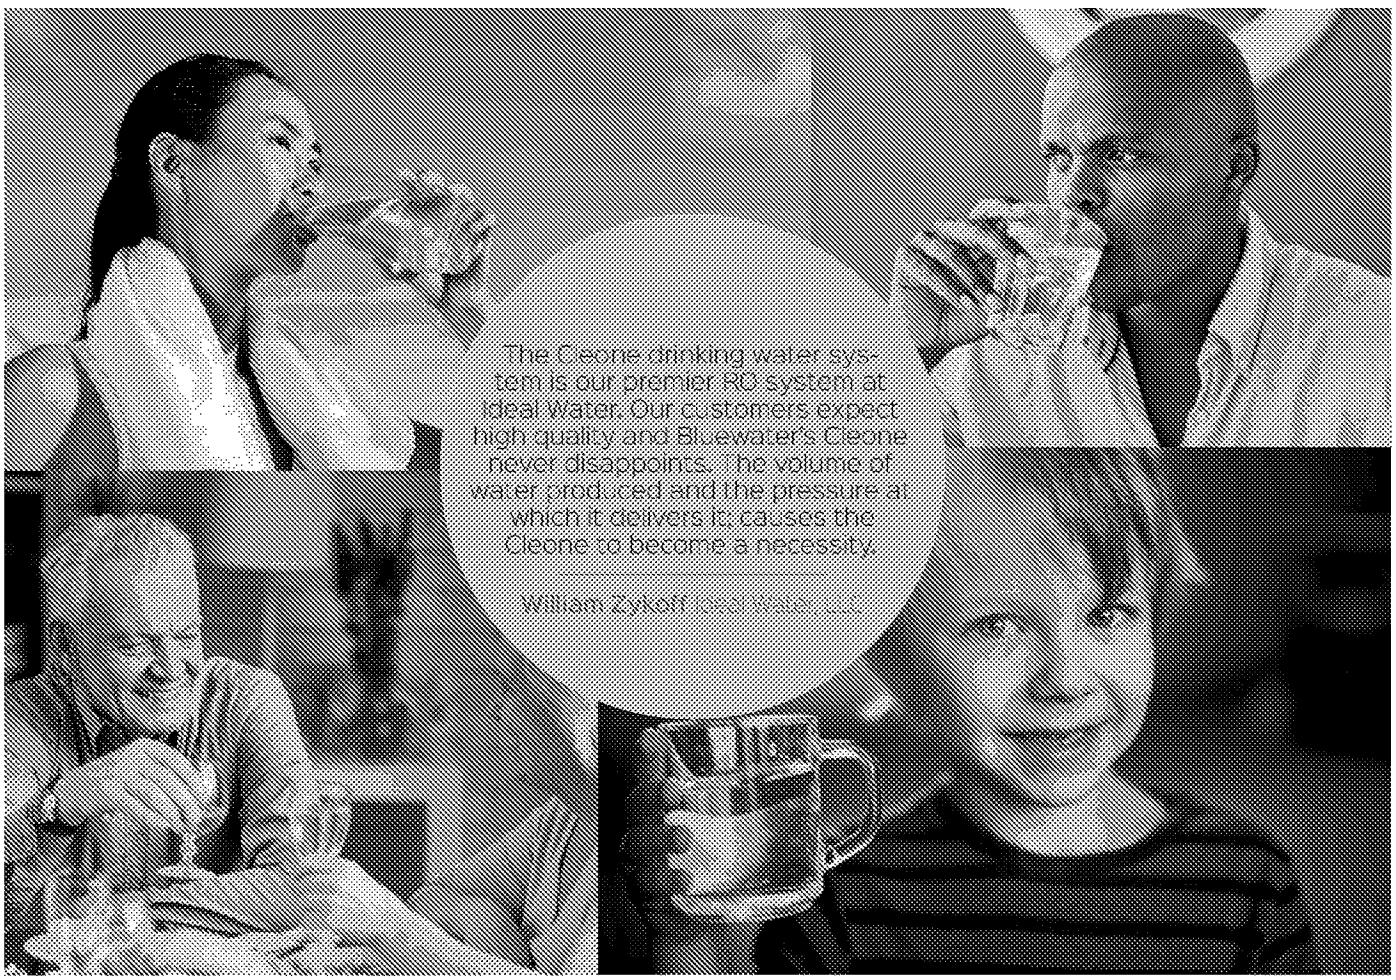


The premium membrane removes practically all known contaminants from the water

Step 4

The patented SuperiorOsmosis™ system continually cleans the membrane surface from harmful contaminants

Step 5



Bluewater's SuperiorOsmosis™ delivers pure drinking water directly to your faucet removing the need for a tank and ensuring healthier, tastier water that is always available.

Bluewater Cleone

Works great. Looks great. A high-performing classic, the Bluewater Cleone takes ease of water purification to the next level. Forget about chlorine tasting water or concerns about practically all chemical and biological contaminants. With proven function and built to last, the Bluewater Cleone is small in size but big on delivering cleaner, healthier water from the kitchen tap.

Harnessing the power of reverse osmosis, the Cleone fits snugly under your kitchen sink to reliably deliver pristine water for drinking or washing vegetables and fruits. Replacing filters and membranes every six months or so is straightforward and simple. In Italy, the Cleone is called 'the tank' because it never breaks down, working 24/7 all year round to deliver pure, fresh and tasty drinking water. In a market full of inefficient, water-guzzling, unattractive water purifiers, the Cleone reflects how our philosophy that there is no substitute for excellence when it comes to helping protect human health and wellbeing.

So why not join the hundreds of thousands of people worldwide who today rely on their Bluewater Cleone water purifiers for enhanced health and wellbeing at home. At the last count, Cleone's had a purification capacity of 24 million liters of water every day for people around the planet.

44.5% of householders globally say their tap water is contaminated, Bluewater study finds.

Bluewater Spirit

Powerful yet compact, the versatile Bluewater Spirit removes harmful pathogenic bacteria, unhealthy chemical contaminants and toxic metals from your drinking water. Probably one of the best investments you can make in your health and wellness, the Spirit turns municipal water into healthier drinking water. Beyond delivering on the highest performance expectations, Spirit's sleek, contemporary design means it will fit naturally into any kitchen environment. Easy to install and maintain, Spirit will deliver you 3 liters of direct flow pure water every minute (43.2 US gallons/hour) 24/7 all year around.

Living on a remote island in the middle of the Atlantic can have it's challenges. Water quality being the most important. Our company has been improving the islands drinking water for over fifteen years. Bluewater products have allowed us to add a whole new dimension to our many popular water filtration and Reverse Osmosis systems. Our short time with Bluewater has been very professional, open and honest. Our overseas dealings have gone smoothly and on time.

Kevin Lanchbery, General Manager
Lanchbery Marine Enterprises

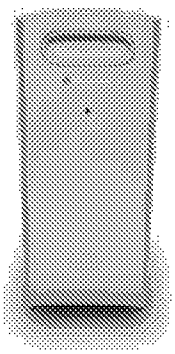
61.9% of respondents to Bluewater survey in key industrialized countries say they never receive information about their tap water quality.

Bluewater Pro

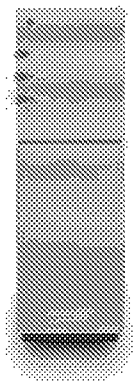
The Bluewater Pro is probably the most powerful compact water purifier available in the marketplace. Ideal for professional kitchens, hotels and hospitals, the Pro is also used to remove limescale from water to deliver pristine water for dishwashing, pressing and cooking. Pro can be used for steam generation and cold fog (atomization) applications like humidification in cheese factories or to create a whole house water purification system.

Installing, using and maintaining the Bluewater Pro is easy and straight-forward. And changing filters every six-months or so depending on water quality is a cinch.

Top chefs, wine makers and other professionals rely on the power of reverse osmosis to get pristine, clean tap water. For chefs, water is something they cannot work without, using it to boil, broil, sauté and bake with. Water provides body and texture and makes it easier for different ingredients to deliver a taste sensation. Chefs can also harness the powerful, on demand flow from the hardworking Pro to serve restaurant patrons exceptionally pure water free of harmful substances in high-end, reusable designer bottles rather than over-expensive bottled water.



It's said life started in the oceans covering over 70 percent of the surface of the planet. Most of that water is undrinkable, but the Bluewater Pro stretches the boundaries with its unique ability to turn brackish water into healthier drinking water. That's what we mean with 'innovated with love in Sweden'.



55% of American men and women are concerned about the quality of their tap water, Bluewater survey reveals. And one in six avoid directly drinking tap water.

GOOD DESIGN

PURE CLEAN WATER

HARD AS ICE AND SOFT AS SNOW, WATER IS LIFE!

MOST OF WHAT WE ARE IS WATER.

AND BECAUSE WE ARE WHAT WE DRINK, LET'S MAKE IT COUNT.

THE BLESSED JOY OF A COOL, REFRESHING GLASS OF WATER,

IN THE HEAT OF THE DAY OR NIGHT,

HELPS US FEAR LESS, HOPE MORE, HATE LESS, LOVE MORE.

WATER HELPS US RUN, DANCE AND MAKE LOVE.

WATER FIGHTS FATIGUE AND IRRITABILITY,

BRINGS LIFE TO OUR SKIN AND KEEPS EYES SPARKLY.

WATER SUSTAINS TREES, FLOWERS, FRUITS AND ECO SYSTEMS,

FUELS LIFESTYLES, AND HUMAN GROWTH.

CLEAN WATER IS COOL,

SEXY AND A BASIC HUMAN RIGHT. IT MAKES US

B E A U T I F U L.

OUR PASSION IS TO INNOVATIVELY DREAM,

LIVE AND DELIVER PRISTINE WATER.

THAT'S WHY WE DO WATER LIKE NATURE INTENDED, PURE & SIMPLE.

B L U E W A T E R

Purer, safer & healthier tap water
Innovated with love in Sweden

Bluewater's patented technology has been innovated with love in Sweden for a world where everyone has the right to drink water as pure as nature intended, free of bacteria, toxic metals and pharmaceutical and chemical residues.

Bluewater SuperiorOsmosis™ technology gives you cleaner, healthier water direct from your tap. Our second-generation reverse osmosis solutions help remove just about every known waterborne pollutant harmful to human health from tap drinking water.

Turning tap water into healthier drinking water, Bluewater innovates and markets premium water purifiers for consumers and businesses in Europe, the USA, China and elsewhere in Asia.

Subject: RE: Next Step

Hi Caleb –

I spoke with MSP and the recommendation is to continue to utilize the process DTMB has in place for anyone interested in doing business with the state. Providing a tab on the website that directs individuals to Procurement's information and processes would be great. This will ensure that any questions raised will be handled by employees familiar with the process and not someone in the SEOC.

When and if purchases are needed, DTMB's representative in the SEOC will contact the Procurement Office for assistance to ensure processes and protocols are followed. I will share this information with the SEOC's Logistics Chief as a reminder for future purchases.

Jeanette

Cc: Weiss, Kurt (DTMB); Brownlee, Jeff (DTMB)
Subject: RE: Next Step

Jeanette,
After talking this over with Jeff Brownlee, there does not seem to be any legal reason why they couldn't add a button, as was requested below. There are a few things that need to be considered though.

- Expectations need to be set for the response to these inquiries. It would be best if the receiver of these submissions was located at the SEOC, so they could review with the appropriate agency leads and determine an appropriate response. If it is expected that DTMB Procurement serve as the contact, the response to vendors will be severely delayed and in some cases they may not be able to get a response back at all.
- If it is determined that a submission is feasible, the SEOC should work with Procurement to make sure all proper procedures are followed.
- Shannon Banner has provided some language to the SEOC for the button that should be utilized.

Feel free to contact me if you need any further help. I've been working at the JIC in Flint today and am available by cell at 517-303-4038.

Thanks,

Caleb Buhs

Subject: FW: Next Step
Importance: High

Rebecca –

We received the following email and would like to make sure we are providing accurate information. Please review and we can talk.

Jeanette

From: MSP-SEOCPIO

Importance: High

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on www.helpforflint.com to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

Cc: Kuzera, Michelle (MSP); Ducharme, Mark (DEQ)
Subject: FW: Next Step
Can someone please address this. If there is going to be zero communication with 'vendors', then there needs to be a canned response indicating such. I spend an inordinate amount of time with these missives as they are coming into my work e-mail, calling the LEOC phones, and showing up at the LEOC doorstep pitching their solutions because nobody is communicating with them.

Subject: Thank you

Team

Thanks to all of you for being so understanding while the Flint response has taken up much of my time. I've broken many appointments and delayed responses, and am concerned how this is affecting you and your projects. I don't want to become disconnected from your questions and needs during this state of emergency. Please help me to keep your needs on my radar and ensure they are met. Leave a note on my door or whiteboard – your priorities matter too. You are also always welcome to use my cell phone 7 am to 8 pm. Sharon understands the situation and that you may approach her for help if I am unavailable.

You are a great team, and I'm grateful for your support.

Rebecca

And thanks to those also helping to support the Flint response – three of you so far (Steve/Melissa/Sue).

Subject: Flint response - feedback requested

Jeff

I'm summarizing our conversations from yesterday in an email in case you need it in a more convenient to share/escalate.

LARA PROJECT TO REPLACE FIXTURES AT ALL FACILITIES LICENSED BY MDE, DHHS OR LARA (includes k-12 schools, child care centers, nursing homes and youth detention facilities)

LARA is looking to source labor and supplies to conduct replacements. Per Karen Towne at LARA, Mike Zimmer is conducting independent negotiations for both. I infer no purchasing staff are involved.

· LARA does not have a list of items needed, quantities or lead times. We discussed pulling the parts lists from the recent pilot, so that Home Depot could begin assessing price breaks, alternate products & pricing, and lead times. Karen specifically asked me not to begin that work. I stated that some items have a lead time. Karen said that she understood, and reiterated she did not want Procurement to contact the State's contracted vendor, Home Depot, at this time. Karen did acknowledge that much of the supplies needed, outside of the faucets, may likely be sourced through Home Depot.

· On Friday, Mike will be meeting with MASCO to negotiate for either donated or discounted Delta faucets. Karen asked whether MASCO could be given a purchase order for faucets based on these negotiations, and I said no. LARA can purchase by emergency purchase order, obtain three quotes (with online bidding waived by you), or use a current state contract. We discussed that LARA determines when to use an emergency purchase order and then creates the back up documentation to support it. I discussed with Karen / LeAnn that there may be equivalent faucets available and Procurement can start due diligence, but Karen asked that we do not at this time. I stated that Home Depot would be happy to negotiate for bulk pricing with all manufacturers involved, as well as identify equivalent products and provide price points. Karen asked that Procurement not contact Home Depot to begin that work at this time.

· Today Mike Zimmer is meeting with the Plumbers Union to negotiate a contract to source potentially 200 plumbers, presumably by agreeing on scope and negotiated hourly rates. LARA would like the union to source the plumbers, verify credentials, oversee the work and alert LARA as work is completed. LARA may issue this as an emergency purchase order. LARA may also issue an announcement either to the public or to union members to contact the union if they would like to be considered for work.

I am requesting that you or your leadership have a conversation with Mike Zimmer, Karen Towne and LeAnn Droste to offer assistance and review purchasing protocols.

Please contact LARA if you would like any of the above to be handled differently.

Top Stories

JANUARY 30, 2016

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build

Most Popular

Creative Mapping: As government data collection expands, and as more of that data becomes publicly available, more people are looking to maps as a means of expressing the information. Depending on the type of application, a map can be useful for both the government and its constituents. Here are 7 ways local governments have gotten creative in mapping open data.

Editor's Choice

Civic Innovation's Next Phase: The public-sector technology market has evolved to be broader and more robust. Now known as the GovTech market, it has come into its own, emerging as a stand-alone industry composed of hundreds of startup companies even after no fewer than 23 acquisitions, and having attracted $1 billion in private capital investment. Our GovTech100 is a list of the top 100 companies focused on government customers.

Industry Resources from Our

toward an international program.

Looming Tech Bubble? Despite what mainstream headlines say, experts are divided as to whether there's a tech bubble that signals impending doom or a new opportunity for savvy business people. But for those on the ground in the valley, there is a strange sense of optimism, like the lurking clouds might hold a silver lining.

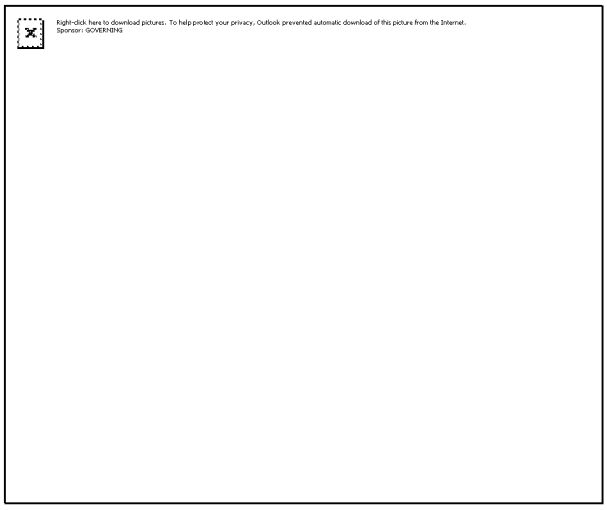
FEATURED STORY



In Sex Education, U.S. Schools Are Failing

BY MATTIE QUINN

Sex education can be an uncomfortable experience, and it turns out that as a country, we're pretty bad at teaching it. A December report by the Centers for Disease Control and Prevention (CDC) found that less than half of U.S. high schools and only one-fifth of middle schools are meeting the CDC's recommendations for educating kids about sex.

The CDC offers 16 benchmarks that fall under four subject areas: HIV prevention, STD prevention, pregnancy prevention and information on sexuality. The topic least likely to be covered in sex education, according to the report, is how to get and use condoms -- one of the CDC's major recommendations.

ADVERTISEMENT ... Story continues below

This year's findings represent the norm for sex ed in America, according to Stephanie Zaza, director of adolescent and school health for the CDC. She said the findings are "mostly flat" compared to previous years and show “a lack of increase in the topics being taught in schools throughout the country.”

Because educational standards are up to the states, there's a big gap in what students in America are learning about sex. **KEEP READING >>**

Subject: State of Michigan Contract Question

Good Morning,

I am reaching out today with a couple questions. Given the water issues in Flint, which have made national news, the State has additional translation needs. Various documents, including water filter instructions may need to be translated into a variety of languages for the residents of Flint. The State would need services provided with both standard and expedited lead times and a 24/7 contact for the Flint response teams. Are these items Linguistica could provide, and if so what languages could be provided? More details will be provided as we discuss further.

I look forward to hearing from you,

Yours,
Will Camp

Jeanette

Per our discussion tonight and Captain's request, here's a draft process for any inquiries regarding possible products for Flint coming through DTMB Procurement's new dedicated online portal http://michigan.gov/micontractconnect/0,4541,7-225-75359---,00.html.

- The submissions will come into a general DTMB Procurement email box
- The DTMB Vendor Outreach Coordinator, Jenni Riehle, or her back up will perform an initial review.
  - Any general "how to do business" questions will be answered by Jenni
  - Any suggestions regarding possible products that could be used in Flint will be referred to (either Jeanette, or Rebecca and then Jeanette – need input here. Current process is Rebecca and then Jeanette)
- Jeanette will log into SEOC for a technical evaluation to be performed, and a contact person to respond back to the vendor.

From our discussion, I understand that the Captain would like a weekly report to facilitate him obtaining status updates for the assigned referrals.

- You indicate that a spreadsheet format is acceptable.
- The Captain can provide feedback regarding content based on this week's report.
- Report headings should include: (need input here)
  - Date inquiry received
  - Company
  - Contact Name
  - Direct phone
  - Email
  - Description field
  - URL for product/service
  - Comment field in response to "Are you offering any free or in-kind products or services (if applicable)
  - Comments/questions field (filled out in vendor submission)
- The DTMB Vendor Outreach Coordinator will prepare a weekly report of vendor referrals. (This week's report should include the attached inquiry.)
  - Jenni – is there any report functionality from the portal, so that this does not need to be created manually? (need input here)

Turning tap water into healthier drinking water.

From: Lin Guo <ag@bluewater.se>
Date: Tuesday, January 26, 2016 3:25 PM
To: "cookr6@michigan.gov" <cookr6@michigan.gov>
Cc: Niclas Wullt <nw@bluewater.se>, David Noble <dn@bluewater.se>, Daniel Hertzberg <dh@bluewater.se>, Kim Börjesson <kb@bluewater.se>
Subject: Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today http://healthycures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminates we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

Pro 400C-HF(high flow) (this is the model we donated to Flint) $1920 + shipping
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)
- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor
- Calibration of cleanliness
- Advanced leak protection system
-Clean water per kWh: 433L/kWh (114.3gallon/kWh)
-Clean water rate: 222L/hour (58.6 gallons/hour)
-Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)
-Weight: 29kgs (64lb)
-Water recovery rate: 60-70%

The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:

Spirit 300-HF(high flow) $1350 + shipping
Compact design that fits into any contemporary kitchen
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Spirit 300Cp-HR(high rejection) $1500 + shipping
Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

Turning tap water into healthier drinking water.

A better future
Tap water redefined

Bluewater

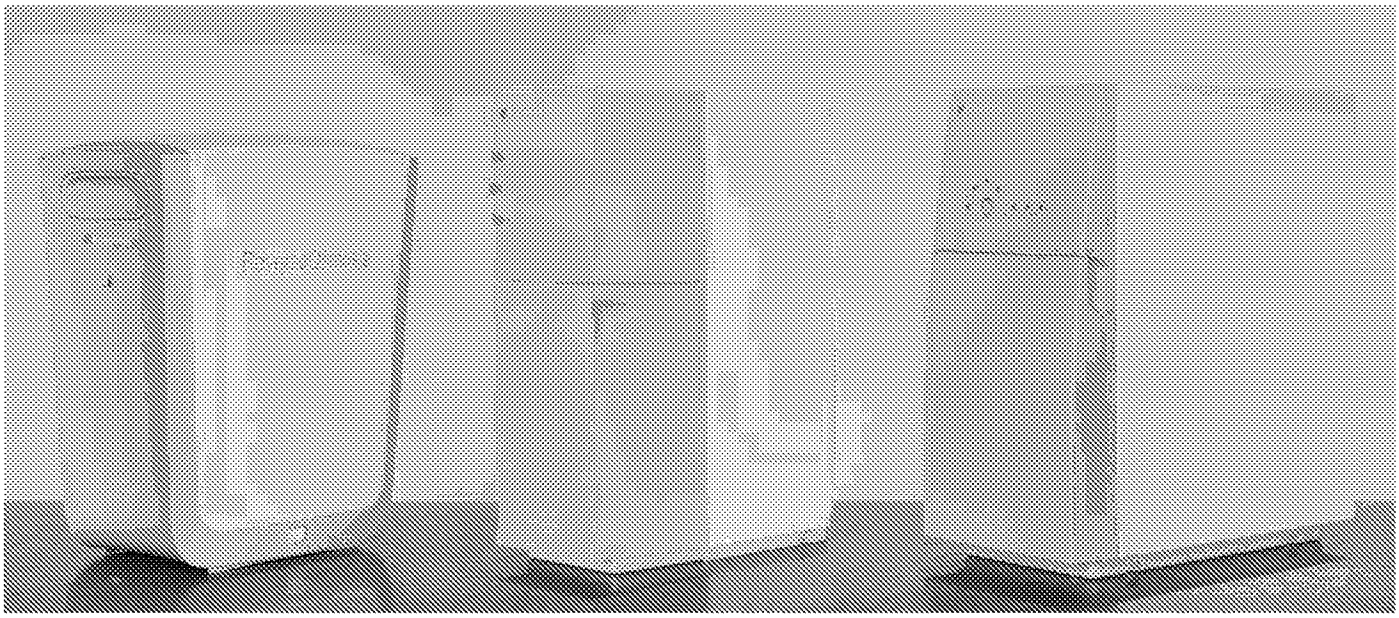
Turning tap water into healthier drinking water

Benefit of Bluewater

Our body is around 70% water, our brain is 90% water. So it clearly makes sense to make the most of the water we consume to stay well, battle fatigue, flush out toxins, improve complexion and boost immune systems.

Water is vital to our health and wellbeing. Yet, critically, many projections by institutions such as the International Food Policy Research Institute warn that the world is facing rapidly deteriorating water quality that will increase risks to human health. Data in 2015 from NASA reveals how the world is running out of water as the world's largest aquifers are being depleted at alarming rates.

The unavoidable truth is that there is not an infinite supply of water. If quality is deteriorating, then increasingly we must take greater individual responsibility to assure our drinking water is safe and healthy to consume. And does not force us to use highly costly solutions like bottled water delivered in plastic that also endanger our planet's fragile environment.



Bluewater's leading-edge technologies remove over 99% of most known pollutants from tap water, including micro-organisms, pesticides, heavy metals and other toxins that threaten human health and impact taste. Our water purifiers have been engineered to deliver unmatched premium filtration, high flow capacity and direct flow with no need for a tank – all from a compact, great looking design. Our unique water purifiers and filtration systems are designed to limit waste water to extremely low levels, while our Pro model even turns brackish water into great tasting drinking water.

Bluewater's premium water purifiers are innovated with love in Sweden to help deliver enhanced health, wellness and peace of mind at home and in working or business environments.

Niclas Wullt
Managing Director
Bluewater

Bluewater's lineup of super efficient resident water purifiers encompasses (left to right), the Cleone, Spirit and Pro, all geared to remove contaminants from tap water that can endanger health or impair taste.

What's REALLY in our tap water?

Many of us take the safety of our tap water for granted. But what's really flowing from our faucets? Hardly a month goes by without a news report somewhere detailing how bacteria, pharmaceutical residues such as antibiotics and hormones, nitrates, toxic metals and other contaminants can be found in tap water.

Public water management authorities do a good job of treating water destined for residential or commercial kitchens. Yet most use chlorine or similar to disinfect water of bacteria and parasites – and chlorine not only tastes bad, but is also poisonous in large amounts.

Germs are not the only problem. Lots of other nasty stuff can get into the water during its journey from the municipal works to the tap. WHO says just one-third of the world's fresh water can be used for human needs due to 'increased pollution from municipal and industrial waste and the leaching of fertilizers and pesticides in agriculture'.

Aging municipal water pipes are a serious issue. In the USA, as much as 30 percent of pipes in systems that deliver water to over 100,000 people are between 40 to 80 years old, according to the Environmental Protection Agency (EPA). And about 10 percent are even older.

The U.S. Water Quality Association (WQA) says 'water that leaves the treatment facility can become contaminated by the time it shows up at your tap'. The WQA view is supported by Consumer Reports that says 'dangerous contaminants such as lead, chloroform, arsenic, nitrate, nitrite, radon, and E. coli bacteria are common in tap water'.

Most of the world's municipal water treatment plants are simply not geared to remove all chemical and pharmaceutical residues. But ordinary citizens can help protect themselves – by using Bluewater's innovative reverse osmosis technologies.

Bluewater turns tap water into healthier, better tasting drinking water by removing the following contaminants:

Toxins

Bacteria & Viruses

Toxic Metals

Smells

Filter or Purify?

Consumers wary of drinking tap water are faced with a real dilemma when it comes to choosing between filtering what comes out of their kitchen taps or purifying it.

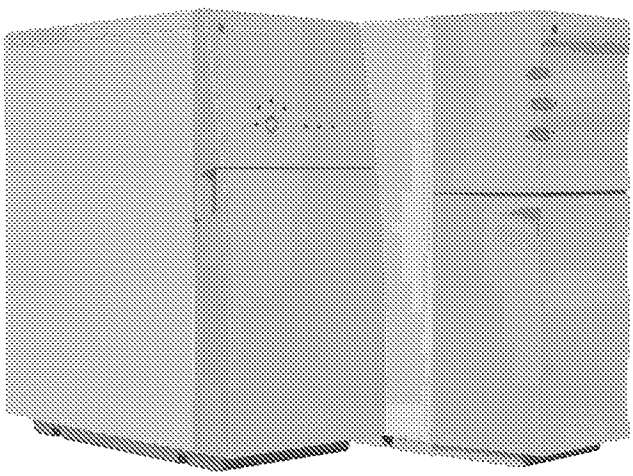
Many consumers believe they are making a healthier choice by choosing to filter their tap water using countertop pitchers with replaceable filter cartridges or buy bottled water. Yet, few people question the fact that most pitcher filter solutions do not remove contamination like lead, pesticide or pharmaceutical residues, bacteria or viruses. Nor do they query the inflated cost of bottled water, some of which comes from municipal water works anyway.

There is nothing intrinsically wrong with countertop or faucet water filters. However, such filters for the most part do not match the efficiency of reverse osmosis solutions that are designed to remove contaminants, including viruses, bacteria, pesticides, fluoride and different drugs and chemicals, to deliver really clean water as and when you want it.

At the end of the day, understanding the difference between water filtration and water purification is the big step towards being able to make an informed choice for a healthier lifestyle, not to mention better tasting coffee or tea.

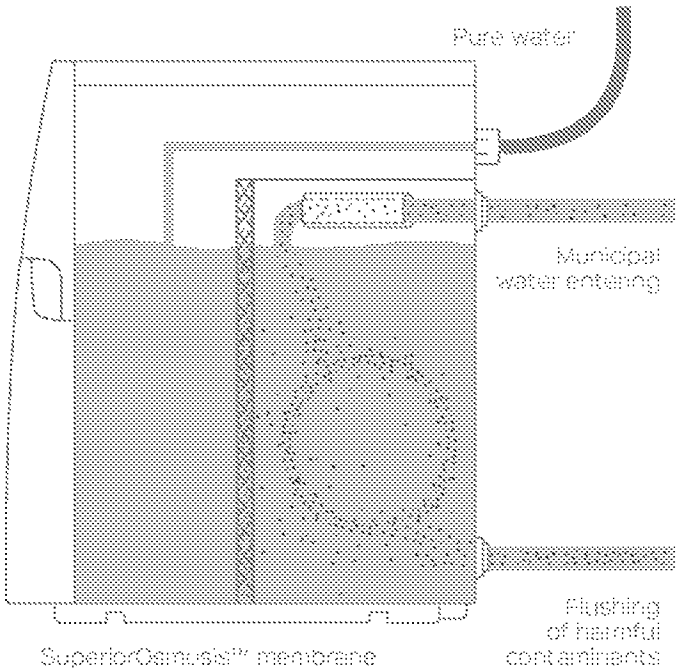
Slashing Water Wastage

A complaint regularly thrown at reverse osmosis technology is that it wastes water. Bluewater's patented second-generation SuperiorOsmosis™ technology uses 82% less water than a traditional RO water purifier to flush out contaminants, which is good for environments where fresh water is in short supply.



Bluewater SuperiorOsmosis™

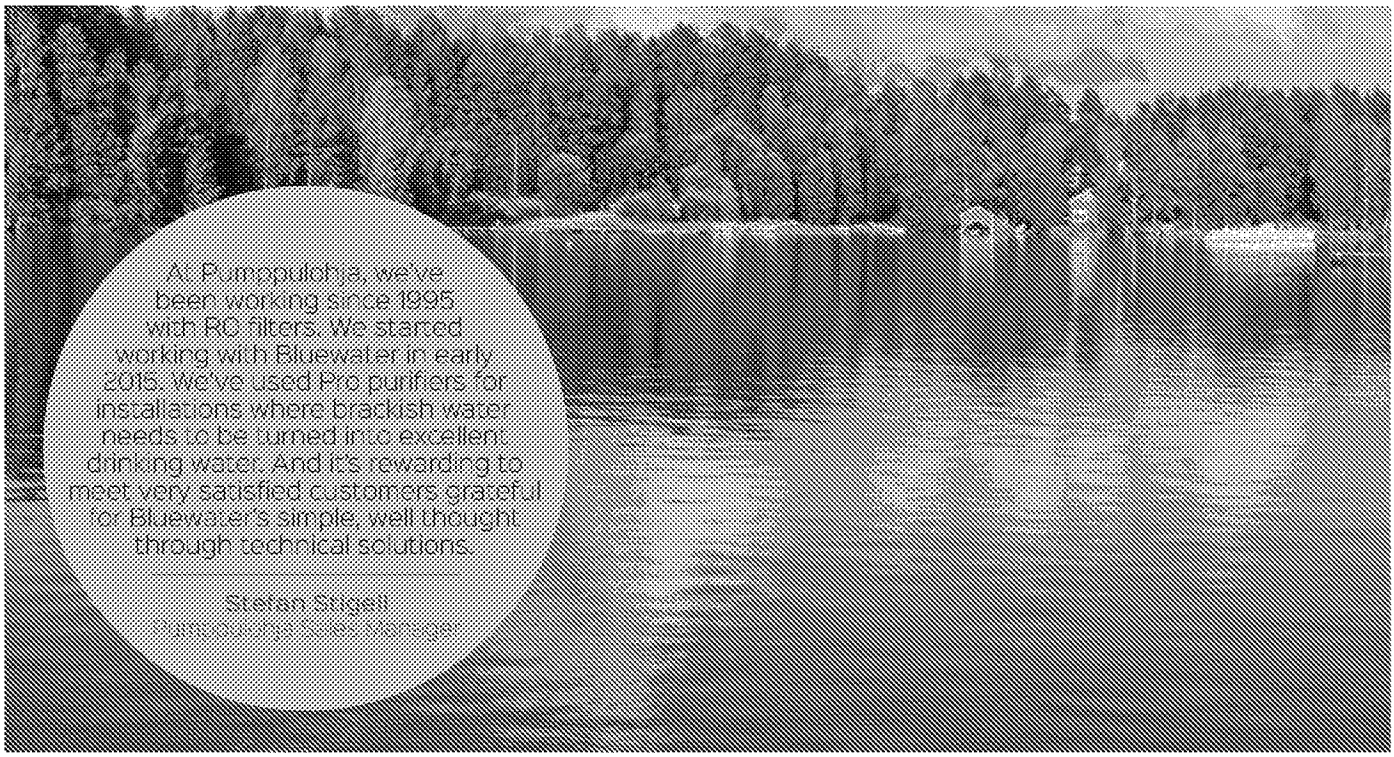
A super-efficient approach to purifying tap water



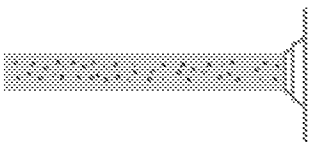
Reverse osmosis is widely considered the most effective method of purifying water due to the purification processes that remove virtually all pollutants including micro-organisms, pesticides, heavy metals and toxins – leaving safer, purer water.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or membrane. The membrane blocks chemical, and other contaminants as well as bad odors and tastes. The filter captures everything nasty down to 0.0001 micron (that's around 500,000 times less than the diameter of a human hair). Traditionally, a drawback to reverse osmosis filters is that they frequently use more water technology also ensures on-demand direct flow straight from the water mains to flush away the contamination filtered out than they provide for drinking, which is frankly wasteful.

However, Bluewater offers a superior, patented second-generation reverse osmosis solution that gets rid of unwanted contaminants, but doesn't waste water at the same rate as more traditional solutions. Bluewater SuperiorOsmosis™.

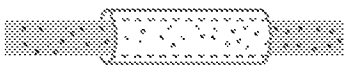


Bluewater's Spirit and Pro water purifiers harness the power of the patented SuperiorOsmosis™ technology.



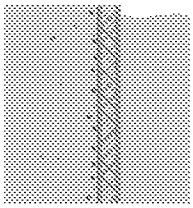
Benefits of SuperiorOsmosis™

- Environmentally conscious system
- Extends tap to faucet warranty
- Direct flow technology
- Fast delivery
- Fast clean water delivery rates
- Premium filtration levels
- Eco-friendly consumables
- Low cost maintenance
- Compact design
- Drinking freshness assured



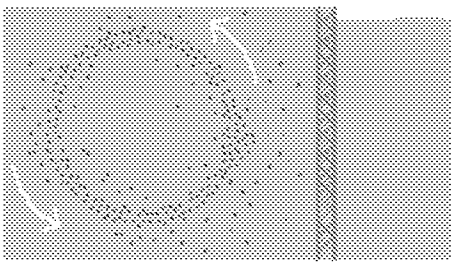
SuperiorOsmosis™

Step 1



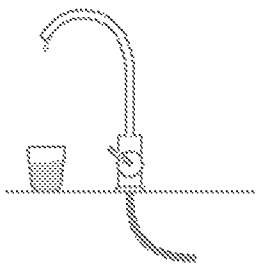
Water containing a variety of pollutants enters the system via inlet water

Step 2



The biggest particles are removed using high quality pre-filters

Step 3

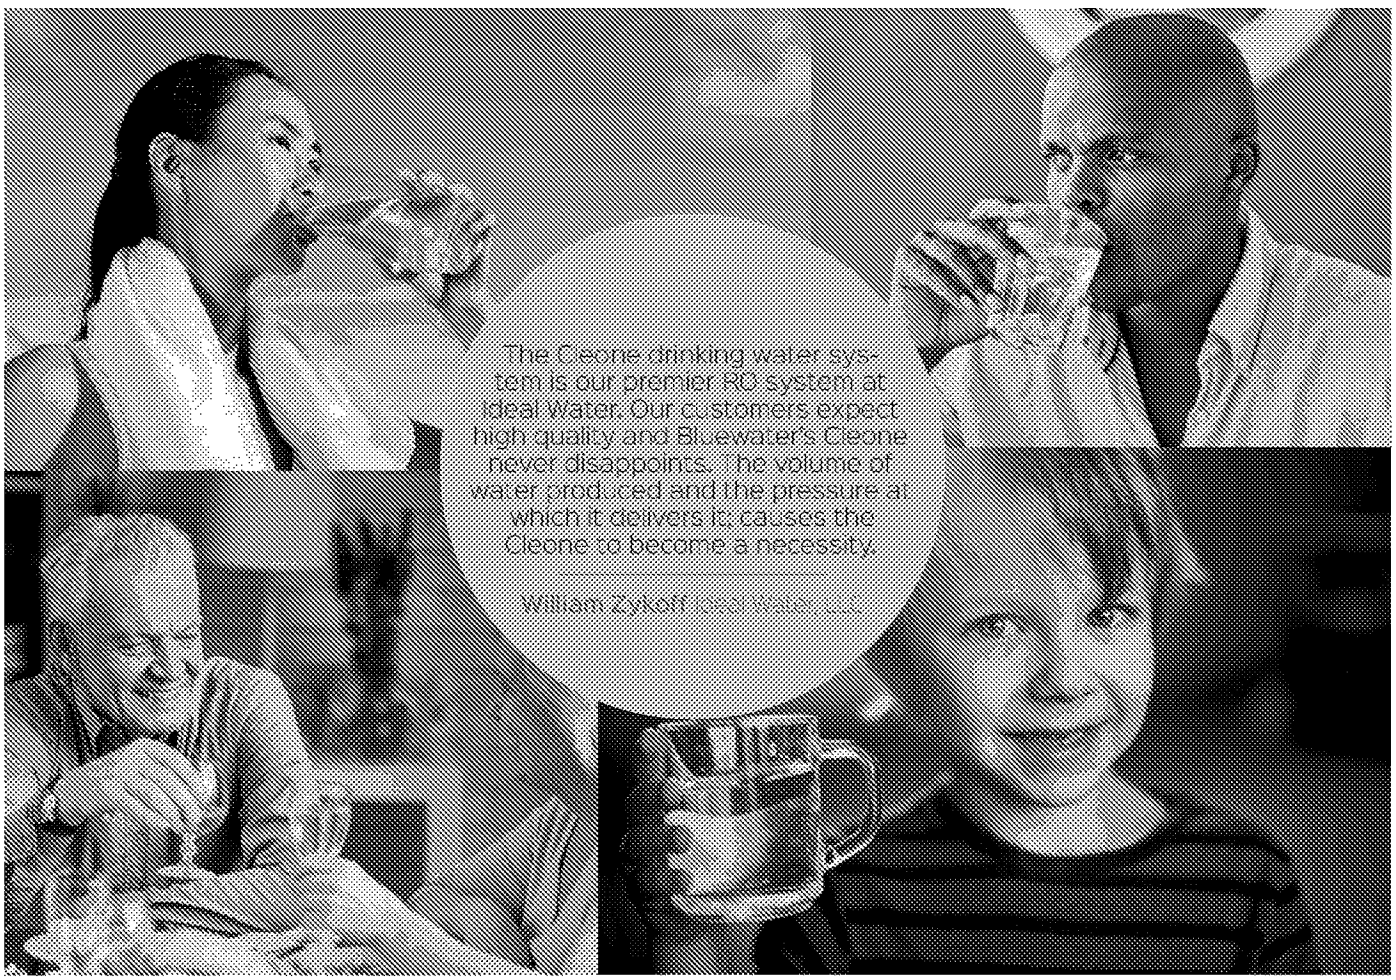


The premium membrane removes practically all known contaminants from the water

Step 4

The patented SuperiorOsmosis™ system continually cleans the membrane surface from harmful contaminants

Step 5



Bluewater's SuperiorOsmosis™ delivers pure drinking water directly to your faucet removing the need for a tank and ensuring healthier, tastier water that is always available.

Bluewater Cleone

Works great. Looks great. A high-performing classic, the Bluewater Cleone takes ease of water purification to the next level. Forget about chlorine tasting water or concerns about practically all chemical and biological contaminants. With proven function and built to last, the Bluewater Cleone is small in size but big on delivering cleaner, healthier water from the kitchen tap.

Harnessing the power of reverse osmosis, the Cleone fits snugly under your kitchen sink to reliably deliver pristine water for drinking or washing vegetables and fruits. Replacing filters and membranes every six months or so is straightforward and simple. In Italy, the Cleone is called 'the tank' because it never breaks down, working 24/7 all year round to deliver pure, fresh and tasty drinking water. In a market full of inefficient, water-guzzling, unattractive water purifiers, the Cleone reflects how our philosophy that there is no substitute for excellence when it comes to helping protect human health and wellbeing.

So why not join the hundreds of thousands of people worldwide who today rely on their Bluewater Cleone water purifiers for enhanced health and wellbeing at home. At the last count, Cleone's had a purification capacity of 24 million liters of water every day for people around the planet.

44.5% of householders globally say their tap water is contaminated, Bluewater study finds.

Bluewater Spirit

Powerful yet compact, the versatile Bluewater Spirit removes harmful pathogenic bacteria, unhealthy chemical contaminants and toxic metals from your drinking water. Probably one of the best investments you can make in your health and wellness, the Spirit turns municipal water into healthier drinking water. Beyond delivering on the highest performance expectations, Spirit's sleek, contemporary design means it will fit naturally into any kitchen environment. Easy to install and maintain, Spirit will deliver you 3 liters of direct flow pure water every minute (43.2 US gallons/hour) 24/7 all year around.

Living on a remote island in the middle of the Atlantic can have it's challenges. Water quality being the most important. Our company has been improving the islands drinking water for over fifteen years. Bluewater products have allowed us to add a whole new dimension to our many popular water filtration and Reverse Osmosis systems. Our short time with Bluewater has been very professional, open and honest. Our overseas dealings have gone smoothly and on time.

Kevin Lanchbery, General Manager
Lanchbery Marine Enterprises

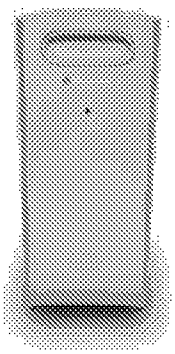
61.9% of respondents to Bluewater survey in key industrialized countries say they never receive information about their tap water quality.

Bluewater Pro

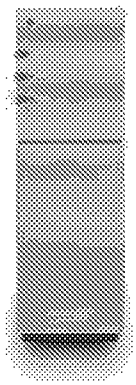
The Bluewater Pro is probably the most powerful compact water purifier available in the marketplace. Ideal for professional kitchens, hotels and hospitals, the Pro is also used to remove limescale from water to deliver pristine water for dishwashing, pressing and cooking. Pro can be used for steam generation and cold fog (atomization) applications like humidification in cheese factories or to create a whole house water purification system.

Installing, using and maintaining the Bluewater Pro is easy and straight-forward. And changing filters every six-months or so depending on water quality is a cinch.

Top chefs, wine makers and other professionals rely on the power of reverse osmosis to get pristine, clean tap water. For chefs, water is something they cannot work without, using it to boil, broil, sauté and bake with. Water provides body and texture and makes it easier for different ingredients to deliver a taste sensation. Chefs can also harness the powerful, on demand flow from the hardworking Pro to serve restaurant patrons exceptionally pure water free of harmful substances in high-end, reusable designer bottles rather than over-expensive bottled water.



It's said life started in the oceans covering over 70 percent of the surface of the planet. Most of that water is undrinkable, but the Bluewater Pro stretches the boundaries with its unique ability to turn brackish water into healthier drinking water. That's what we mean with 'innovated with love in Sweden'.



55% of American men and women are concerned about the quality of their tap water, Bluewater survey reveals. And one in six avoid directly drinking tap water.

Subject: FW: State of Michigan Contract Question

Jeanette

There is a statewide contract for translation services. The buyer (Will Camp) and the Services Division Director (Tom Falik) are copied. Will can confirm whether the phone number for rushes operates outside of business hours. Linguistica may be able to fulfill any future needs for the SEOC.

Did they already take care of the need over the weekend for Hmong and Mandarin?

Dear William,

Yes, we are able to assist with document translation for over 250 different languages.
Our services are available with advance notice as well as rush translations.

For both advance notice and rush translations please email your document to translations@linguisticainternational.com

For rush translations you should also call us at (866) 908-5744 option 1 and ask to speak with Francia Delgado (francia@mylinguistica.com) or Miguel Tenorio (Miguel@mylinguistica.com) the translation coordinators in charge of your account. By calling them you are ensuring that your expedited need is clearly understood and we can quickly give you a completion timeline.

Let me know if you have any questions. We will be happy to expedite any of your translation requests.

Thank you,

Sabrina Morales, MPA

Subject: State of Michigan Contract Question

Good Morning,

I am reaching out today with a couple questions. Given the water issues in Flint, which have made national news, the State has additional translation needs. Various documents, including water filter instructions may need to be translated into a variety of languages for the residents of Flint. The State would need services provided with both standard and expedited lead times and a 24/7 contact for the Flint response teams. Are these items Linguistica could provide, and if so what languages could be provided? More details will be provided as we discuss further.

I look forward to hearing from you,

Yours,
Will Camp

I'm not directly in that loop, but I infer that David's $1.8 billion of IT bids was still on his plate, and his customers are clamoring for his attention. He's already working overtime to serve them, and they got louder over the last week while his time was split. Bad timing.
Also, last Friday I did have a conversation with Jeff and encourage him to become more personally involved, and also to expedite the memo you two recently discussed. David and I can serve for many purposes, but some tasks or conversations may need to be at Jeff's level. I encouraged Jeff to be in the field at meetings to make contact with some of the key players, including but not limited to SEOC.

Sustainability Education Made Easy

Live and Online Training Opportunities Abound in 2016

By Randy Rodgers
Publisher & Executive Editor

Programming plans for the 9th annual Growing Sustainable Communities Conference are under way, and a variety of online training opportunities are available now to anyone interested in learning more about sustainability and networking with colleagues in the field.

The 9th annual Growing Sustainability Conference will be held Oct. 4-5, 2016 at the Grand River Center in Dubuque, Iowa.

Organizers recently issued a Call for Presentations seeking presentation proposals for the conference, which will be held this year on Oct. 4 and 5 at the Grand River Center in Dubuque, Iowa.

The conference, hosted by the City of Dubuque and Sustainable City Network, attracts about 500 attendees each year with 30 workshop sessions, two keynote luncheons, a networking reception, a vendor exhibition and optional mobile tours. The event is supported by Crescent Electric Supply Company and other corporate sponsors.

Online Training

Green Roofs... Biological-Engineered Stormwater Mitigation Systems

Learn the functionality of green roofs and the determining factors that impact their performance in this 10-hour online course beginning Feb. 23.

This online training will be presented in five 2-hour sessions on Feb. 23 & 25, and March 1, 3 and 4, 2016. Each session will be recorded on video, so if you have to miss a live session, you'll have access to the recording on the following day and for 30 days thereafter. Register for both courses by Feb. 1 to take advantage of all discounts. (Group rates are available.)

Millions of square feet of Green Roofs have been installed throughout the United States and Canada. They have been proven to be effective mitigators of stormwater when their

Leading Successful Projects

Sustainable City Network and NICC are presenting a 12-hour online course on project management, beginning March 15. The course will be held in six 2-hour sessions.

Organizations want team members at all levels to share a common language and process for defining, planning and executing projects and to deliver improved project results faster and more cost-effectively. Leading Successful Projects has been designed for project managers, project sponsors, project team leaders and project team members whether in title or function. The course goal is to provide participants with the skills to define, plan and execute projects for internal and external customers.

New Technologies Give Government Ample Means to Track Suspects, Study Finds

by David E. Sanger | www.nytimes.com

WASHINGTON — For more than two years the F.B.I. and intelligence agencies have warned that encrypted communications are creating a "going dark" crisis that will keep them from tracking terrorists and kidnappers.

The Evolution of Social Media Monitoring in Corporate Security

by Eric Klasson | www.securitymagazine.com

Organizations in almost every industry worldwide stand to benefit from employing social media monitoring, and many have already jumped on board. The world we live in is becoming increasingly digital, and social media has given people a place to meet, connect, converse, or just post their thoughts.

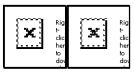
When It Comes to Event Security, Colleges Can Look to the Pros



by Melissa Odegaard | www.securitymagazine.com

The security landscape at colleges and universities constantly changes in response to events in the outside world. Campuses cannot simply be considered leafy sanctuaries, immune from danger. Security is no longer a nice-to-have; the horrors of the Boston Marathon bombing, or just recently at the Stade de France in Paris, make it an essential consideration.

Subject: Methane's Leaking Everywhere, North Sea Era Coming to an End, India's Energy Crisis

Morning Volt: Feb. 4, 2016

By Editors

METHANE IS LEAKING ALL OVER THE PLACE

Christie Aschwanden, FiveThirtyEight

It's now been 103 days since workers from the Southern California Gas Company discovered a natural gas leak coming from the Aliso Canyon underground storage field near the Porter Ranch neighborhood of Los Angeles.

INDIA'S ENERGY CRISIS

Richard Martin, MIT Technology Review

An old man wakes on the floor of a hut in a village in southern India. He is wrapped in a thin cotton blanket. Beside him, music wails softly on a transistor radio. A small wood fire smolders on the floor, filling the space with a light haze; above it, the bamboo timbers of the hut's roof are charred to a glossy black.

THE CONUNDRUM OF US LNG EXPORTS

Barbara Shook & Michael Sultan, Energy Intelligence

The highly anticipated start of US Gulf Coast exports of liquefied natural gas (LNG) in coming weeks is clearly not going to be the bonanza that was once expected. But odds are it won't be a complete disaster either -- like the two previous bids by the US to be a major player in LNG markets in the 1970s and early 2000s.

HOW TECHNOLOGY INNOVATION WILL SAVE CUSTOMER-OWNED SOLAR

Bill Roth, Triple Pundit

Nevada became just the latest state where a public utility commission crushed the

economics out of customer-owned solar. Their rational for doing so mirrors the utility industry's mantra that solar customers are avoiding their fair share of a utility's cost to serve.

ENOUGH WITH ETHANOL

Barry Ritholtz, Bloomberg View

With the Iowa caucuses now blessedly behind us, we can discuss a more serious subject: The engine-destroying, food-burning, anti-free-market program that is corn-based ethanol. Why we still subsidize turning food into an inefficient fossil-fuel substitute is anyone's guess -- but mine is that the first-in-the-nation Iowa caucus has been the main reason.

COLLAPSE IN CRUDE BRING NORTH SEA FIELDS NEAR END OF PRODUCTION

Christopher Adams, Kiran Stacey and Chris Tighe, Financial Times

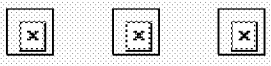
As many as 50 North Sea oil and gas fields could cease production this year after a collapse in crude prices to 12-year lows, industry experts have warned. This would accelerate the North Sea's decline, potentially bringing forward billions of pounds in spending on decommissioning.

IS THE SAUDIS MARKET SHARE STRATEGY STILL FEASIBLE?

Michael McDonald, OilPrice

Much of the rout in oil prices has been predicated upon the staying power of Saudi Arabia and other OPEC producers. As oil prices have continued to fall, virtually all of OPEC has been pumping oil as fast as possible to generate increased revenues at lower prices.

FLINT CRISIS THREATENS TO DERAIL ENERGY BILL



Jordain Carney, The Hill

A key Senate Democrat is warning that a wide-ranging energy reform bill could be in jeopardy without a deal on the Flint, Mich., drinking water crisis. "Well, if they don't work with us, I think it's a big question of whether they get cloture," Sen. Debbie Stabenow (D-Mich.) told reporters on Wednesday. "If they want an energy bill, then they need to help us."

FOR OIL COMPANIES, IT'S A YEAR OF SLASHING COST AND JOBS

Katie Fehrenbacher, Fortune

This year will be another hard one for the oil majors as they cut spending. Over the past several weeks, the world's biggest oil companies have posted earnings that show just how brutal it is these days to be an oil major. The industry is going through the biggest downturn since the 1990's.

MY SNL SUMMARY

News

TOP NEWS

Data Dispatch: Despite sagging coal market, top Illinois Basin mines produced more in 2015
2/4/2016 12:05 PM ET -- Despite slipping by nearly four million tons from the year-ago quarter, the top-producing mines in the Illinois Basin finished the year up slightly from 2014 in the face of sustained market pressure and waning demand.

SunZia approved as Arizona's first merchant-owned transmission project
2/4/2016 12:01 PM ET -- The Arizona Corporation Commission on Feb. 3 narrowly approved the SunZia Southwest Transmission Project, which will be the state's first merchant-owned transmission facility. As proposed, it will extend 200 miles across southeast Arizona with two 500-kV lines and five substations.

Natural gas bears gear up for more losses as key support looms
2/4/2016 11:51 AM ET -- Although establishing a "slightly bullish posture" with its Feb. 3 close, natural gas remains in a longer-term downtrend and waiting for the next signal that will push it past key support levels to hold below $2.00/MMBtu.

PPL targeting up to 6% CAGR through 2018, boosts common dividend
2/4/2016 11:11 AM ET -- The company is "well-positioned to continue to deliver competitive earnings growth and dividend yields, all supported by a low-risk business plan," PPL Chairman, President and CEO William Spence said in a statement.

EIA reports natural gas storage draw at low end of expectations
2/4/2016 11:08 AM ET -- The U.S. Energy Information Administration reported a net 152-Bcf withdrawal from natural gas inventories in the Lower 48 during the week ended Jan. 29 that was at the low end of the full range of expectations coming into the day.

Sabine Pass' 1st LNG export cargo could go to Brazil, report says
2/4/2016 10:55 AM ET -- Cheniere Energy's first LNG export cargo may be bound for Latin America, according to a January report from ICIS.

Analyst predicts further pain in coal; upgrades Cloud Peak, downgrades Peabody
2/4/2016 10:20 AM ET -- FBR & Co. analyst Lucas Pipes said in a Feb. 4 note that investors should expect accelerated metallurgical coal supply rationalization in 2016 and potential cyclical relief for thermal coal in the back half of 2016.

Foresight negotiations with bondholders pushed back even further
2/4/2016 9:42 AM ET -- Foresight Energy LP has extended the deadline to Feb. 8 for its negotiations with the trustee of its 7.875% senior notes due 2021.

Shell postpones investment decision on BC LNG export project
2/4/2016 9:35 AM ET -- In a blow to British Columbia's LNG export ambitions, Royal Dutch Shell announced Feb. 4 that it is postponing a final investment decision for the LNG Canada project.

CMS Energy raises 2016 EPS guidance as it sees growth from $17B CapEx plan

2/4/2016 9:07 AM ET -- CMS Energy raised its 2016 earnings guidance to $1.99 per share to $2.02 per share after expanding its 10-year CapEx plan and recording a year-over-year increase in fourth-quarter and full-year 2015 earnings.

JV prospects 'positive' for Kinder Morgan's Elba Island LNG project

2/4/2016 8:38 AM ET -- Kinder Morgan Inc.'s Elba Island LNG liquefaction and export project could be an attractive joint venture prospect for private equity firms.

The Daily Dose: Exelon discusses contingency plans for Pepco; CMS increasing 10-year CapEx plan to $17B

2/4/2016 8:26 AM ET -- Also in today's edition: Duke is considering sale of international business; Pennsylvania Environmental Quality Board passes revisions to oil and gas drilling rules; and a Wyoming agency gets more time to investigate Alpha Natural Resources and Arch Coal.

Duke Energy considering sale of international business

2/4/2016 7:32 AM ET -- The potential sale will not include Duke's 25% equity investment in Saudi Arabian methanol producer National Methanol.

March gas seeks direction overnight amid conflicting fundamentals

2/4/2016 7:11 AM ET -- After advancing 1.3 cents in the prior session to a close at $2.038/MMBtu, March natural gas futures drifted near unchanged overnight ahead of the Thursday, Feb. 4, open, amid mixed expectations for midrange weather and the forthcoming storage data due out at midmorning.

AM Power Report: Dailies to find demand support at most hubs

2/4/2016 6:57 AM ET -- Power prices at the daily markets could be mixed to higher Thursday, Feb. 4, as traders consider jumbled but predominantly rising demand outlooks for the close of the workweek alongside indecisive trading activity at the natural gas futures arena.

Flint, Mich., water crisis complicates Senate energy bill progress

2/3/2016 6:21 PM ET -- A fight over funding for the water crisis in Flint, Mich., is disrupting progress on the U.S. Senate's broad energy bill.

FERC rejects AEP's request for waiver of PJM capacity performance nonperformance charges

2/3/2016 6:16 PM ET -- Finding that granting the relief sought by the American Electric Power Service Corp. on behalf of four affiliates would "significantly weaken the incentives" established by PJM's capacity performance construct, FERC refused to exempt the companies from nonperformance charges during the 2019-2020 delivery year.

Mild weather had 'sharp impact' on power demand, head of TVA says

2/3/2016 6:12 PM ET -- President and CEO Bill Johnson said quarterly electricity sales were down 8% year-over-year, driven by the mild weather.

Exelon unveils new dividend policy, discusses contingency plans for Pepco

2/3/2016 6:11 PM ET -- As Exelon's economically challenged nuclear units continue to strain the unregulated side of its business, the company on Feb. 3 announced plans to raise its dividend by 2.5% each year for the next three years starting in June.

CAPITAL OFFERINGS

PPL subsidiaries extend, increase credit facilities

2/4/2016 12:57 PM ET -- Amendments include extending termination dates and increasing borrowing capacities.

Acciona Energia secures financing for 93-MW Texas wind farm

2/4/2016 11:28 AM ET -- The Acciona subsidiary will own and operate the Texas wind farm.

EARNINGS AND GUIDANCE

DCP Midstream Partners discloses 2016 financial, production forecast

2/4/2016 12:45 PM ET -- DCP Midstream Partners LP expects its 2016 adjusted EBITDA to be in the range of $565 million to $595 million and its distributable cash flow to be in the range of $465

million to $495 million.

Brookfield Renewable boosts dividend despite lower Q4, FY'15 earnings

2/4/2016 12:38 PM ET -- Brookfield Renewable Energy Partners raised its quarterly dividend by 7% to 45.5 cents per limited partnership unit despite recording a year-over-year drop in fourth-quarter 2015 earnings.

Spectra 3-year plan includes cash flow, dividend growth at $2.50 gas

2/4/2016 11:54 AM ET -- Spectra Energy Corp and Spectra Energy Partners on Feb. 4 outlined their financial plans for 2016-2018, raising their distributable cash flow guidance for 2016 and aiming for dividend and distribution increases annually.

TECO Energy's Q4, FY'15 earnings meet analyst estimates

2/4/2016 11:47 AM ET -- TECO Energy posted a year-over-year increase in fourth-quarter 2015 non-GAAP earnings from continuing operations to $52.5 million, compared to $45.0 million for the same quarter of 2014.

WEC Energy posts $179M in Q4'15 income

2/4/2016 11:15 AM ET -- WEC Energy Group was formed through Wisconsin Energy's acquisition of Integrys Energy Group.

Magellan Midstream posts lower Q4 profit but boasts record DCF

2/4/2016 10:13 AM ET -- Magellan Midstream Partners on Feb. 4 reported fourth-quarter 2015 net income of $207.1 million, or 91 cents per limited partner unit, compared to $252.1 million, or $1.10 per limited partner unit, in the fourth quarter of 2014.

EQT Q4 loss widens despite midstream gains from high volumes, contracted capacity

2/4/2016 9:29 AM ET -- EQT Corp. on Feb. 4 reported fourth-quarter net loss attributable to the company of $134.6 million, or a loss of 88 cents per share, compared to a net loss of $14.7 million, or a loss of 10 cents per share, in the prior-year quarter.

HIRES AND FIRES

Hydro One Inc. COO steps down

2/4/2016 10:19 AM ET -- Hydro One Inc. COO and Executive Vice President of Strategic Planning Sandy Struthers is stepping down from the company.

IN THE BOARDROOM

Eversource Energy boosts dividend by 6.6%

2/4/2016 12:01 PM ET -- The dividend is payable March 31 to shareholders of record March 2.

MARKETS

Nuclear update: Total availability falls below 95% after Beaver Valley 2 Outage

2/4/2016 11:49 AM ET -- Total U.S. nuclear plant availability slipped to 94.34% early Feb. 4, down from 95.56% on Feb. 3 and below the 95.75% reported on the same day in 2015.

OPERATIONS AND STRATEGY

EQT's proved developed reserves jump 30% YOY

2/4/2016 10:50 AM ET -- EQT Corp. on Feb. 4 reported that its proved developed reserves at year-end 2015 totaled 6.3 Tcfe, representing a 30% increase compared to 2014.

Alliant extends purchase agreements for Wis. gas-fired expansion project

2/3/2016 6:34 PM ET -- Alliant Energy Corp. said Feb. 3 that it has negotiated additional agreements for Wisconsin utilities and electric cooperatives to buy stakes in the natural gas-fired, combined-cycle power plant proposed as an expansion to the Riverside Energy Center near Beloit, Wis.

PRIVATE EQUITY

Houston-based Torrent Oil & Gas secures funding from Natural Gas Partners

2/4/2016 12:30 PM ET -- Torrent Oil & Gas secured a financing commitment and partnership with Natural Gas Partners through its private equity fund NGP Natural Resources XI LP.

PROJECT DEVELOPMENTS

PSE&G energizes NJ solar farm built on landfill

2/4/2016 12:37 PM ET -- Th facility represents PSE&G's 28th grid-connected centralized Solar 4 All project and the eighth built on a landfill.

RESEARCH ANALYST COVERAGE

FBR Capital Markets & Co. lowers Peabody Energy Corp. to 'underperform'

2/4/2016 11:58 AM ET -- FBR Capital Markets analyst Lucas Pipes downgraded their investment opinion of Peabody Energy Corp. to "underperform" from "market perform," with a price target of $1.

FBR Capital Markets & Co. raises Cloud Peak Energy Inc. to 'market perform'

2/4/2016 11:44 AM ET -- FBR Capital Markets analyst Lucas Pipes raised their investment opinion of Cloud Peak Energy Inc. to "market perform" from "underperform," with a price target of $1.50.

RRA NEWS

RRA Regulatory Focus: Cap ex, rate cases and mergers expected to continue to dominate utility landscape

2/4/2016 11:38 AM ET -- In a report issued on Feb. 3, 2016, RRA discusses the growing level of utility capital expenditures and the implications for utility ratemaking, changing market structures and their impacts on the utility business model, and the pace and drivers of mergers.

RRA Regulatory Focus: Indiana governor reappoints URC chairman

2/4/2016 10:26 AM ET -- On Feb. 1, Gov. Mike Pence reappointed Carol Stephan to a new term on the Indiana Utility Regulatory Commission; she is to remain commission chair.

RRA Regulatory Focus: RRAlert ---- ICC staff recommends conditional approval of Southern/AGL deal, finding "no negative impact" from the proposal

2/4/2016 10:26 AM ET -- On Feb. 3, the ICC staff recommended that Southern Company's proposed acquisition of AGL Resources be approved, subject to certain relatively minor conditions.

Brazil Zika cases raise concern of virus transmission beyond mosquitoes

Two cases of Zika being transmitted through blood transfusions were reported in Brazil on Thursday, adding to concerns over the virus that has been linked to severe birth defects and is typically spread through mosquito bites.

The disclosure of the blood transfusion cases in the industrial city of Campinas near Sao Paulo came two days after Texas authorities said a person became infected through sex. Concern over the virus is mounting as Brazil prepares to host the Olympic Games in August, with tens of thousands of athletes and tourists anticipated.

There is no vaccine or treatment for Zika, which has caused outbreaks in at least 26 countries in the Americas. Brazil researchers hope to develop a treatment that could be tested in humans in a year.

Dr. Marcelo Addas Carvalho, director of the blood center at the University of Campinas, said genetic testing confirmed that a man who received a blood transfusion from a Zika-infected man in March 2015 became infected with the virus, although he did not develop symptoms.
Another man, who had suffered gunshot wounds, became infected with Zika after receiving multiple blood transfusions that included blood donated by an infected person in April 2015, Carvalho said.

Carvalho said that infection probably was caused by the transfusion but genetic tests have not yet been conducted to confirm it. He said it was very unlikely the infection was caused by a mosquito bite because the patient was in a hospital intensive care unit for three months.

Florida Governor Rick Scott on Thursday expanded a Zika public health emergency in the state, adding a fifth locale, Broward County, to the four counties he announced on Wednesday. "With over 20 million residents and 100 million tourists, we must stay ahead of the possible spread of the Zika virus and take immediate action to ensure Florida is prepared," Scott said.

Florida Senator Bill Nelson, a Democrat, called for President Barack Obama to appoint a Zika "czar" to coordinate the federal government's response as Obama did during the Ebola outbreak last year.

Sexual contact and blood transfusions as modes of transmission have been matters of concern for experts since the Zika outbreak's outset, said infectious diseases expert Dr. William Schaffner of the Vanderbilt University School of Medicine in Nashville, TN.

But Schaffner questioned whether either will lead to widespread Zika transmission.

Procedures for blood donations have been tightened in countries including Brazil to protect blood supplies from Zika. U.S. health officials are still working on national guidelines.

Following word of the Texas case on Tuesday, U.S. health officials urged the use of

condoms to prevent spreading sexually transmitted infections.

Brazil said it was reinforcing instructions to blood banks that people infected with Zika or dengue not be permitted to donate blood for 30 days after full recovery from the active stage of Zika infection.

The American Red Cross has urged prospective donors who have visited Zika outbreak zones to wait at least 28 days before giving blood, but called the risk of transmitting it through blood donations "extremely" low in the continental United States.

In the Texas case, authorities said a person in Dallas became infected with Zika after having sex with another person who had traveled in Venezuela, where the virus is circulating. Local health officials said on Thursday both those people have fully recovered from the virus.

Schaffner said uncertainties remain about sexual transmission of the virus, including how long a person might be able to transmit it or whether an infected person must have had symptomatic Zika in order to be able to transmit Zika through sex. Most infected people do not develop any symptoms.

New York Governor Andrew Cuomo expanded his state's free Zika testing to include all pregnant women who have traveled to countries where people have been infected.

Visit Reuters for the article.

C.D.C. issues Zika advisory for pregnant women and sex partners

Pregnant women whose male sexual partners have spent time in a country with confirmed transmissions of the Zika virus should either abstain from sex or use condoms during intercourse for the duration of their pregnancy, the Centers for Disease Control and Prevention has announced.

The recommendation on Wednesday came a day after public health officials in Dallas reported the first case in the United States of the Zika virus being transmitted by sex. The disease, which is primarily transmitted by mosquitoes, has been recorded in more than 24 countries, primarily in Latin America and the Caribbean.

Global health officials are investigating a potential link between pregnant women infected with the virus and the development of birth defects, including brain and cranial abnormalities, in their newborns.

"The potential hazard to the fetus is so substantial and so tragic that this looks like a very prudent recommendation until we learn more," said Dr. William Schaffner, an infectious disease specialist from Vanderbilt University Medical School.

FBI probe at Broward Health allegedly blocked by district's lawyer

Broward's Health's general counsel failed to cooperate with the FBI and withheld evidence, according to an explosive e-mail sent last week by a private investigator hired by the late Dr. Nabil El Sanadi, to look into alleged corruption at the public hospital system.

The email, obtained by Floridabulldog.org, is from Wayne Black, a noted Miami-based investigator, and was received at Broward Health's headquarters on Friday, just hours after El Sanadi's memorial service following his death by suicide. El Sanadi had been president and chief executive of taxpayer-supported Broward Health for 14 months.

Black's email blasted Broward Health General Counsel Lynn Barrett. "I can no longer sit quietly while needed evidence and information is being withheld from the corruption squad at the FBI," Black told Barrett. Black wrote that Barrett had shut him out of "various investigations" and accused her of wrongfully asserting a claim of legal privilege to block law-enforcement access to a laptop used by an executive suspected of improprieties.

Black's email was sent to Barrett, with copies to members of Broward Health's board of commissioners. The day it arrived, Florida's chief inspector general also informed Broward Health that she has opened an inquiry into millions of dollars in contracts that the hospital district has awarded since July 2012.

Black's email states that El Sanadi hired him in April 2015 at the direction of David Di Pietro, the board chairman, to investigate "information and allegations of corruption at Broward Health" given to him by El Sanadi.

"I discovered the irregularities in the security RFP [request for proposals] and Nabil put a hold on the RFP process at my request. There was obvious corruption and the matter is still not resolved to this day. I later developed witnesses regarding kickbacks and other crimes and immediately referred the matter to the FBI corruption squad," Black wrote. "We [myself and FBI agents] promised witnesses that they would not be known unless they testified. We kept that promise and will continue to do so."

El Sanadi was informed and told Black to keep working. Black's frustrations with Barrett, who was hired last summer, began shortly after her arrival when "one of your outside attorneys demanded that I turn over the names of FBI witnesses in the ongoing federal investigation. I refused, of course."

The two "bumped heads" again later, Black wrote. "You had no experience with evidence handling in ongoing criminal investigations and I wrote you about that several times. Rather than turning over potential evidence to me for the FBI, your outside law firm, under some privilege argument, made copies and did their 'privilege research,' which I am sure, resulted in huge billings to the taxpayers of Broward County. I then wrote you that long memo about obstructing justice appearances."

Black and Ryan Stumphauzer, a former Miami federal prosecutor working with him, asked El Sanadi "to simply make a decision on who was doing the corruption investigation internally ... us or you and your Tampa law firm" - identified by Broward Health officials as Foley Lardner.
The email suggests a possible change of heart by El Sanadi for the corruption investigations he'd initiated.

Black indicated he's surprised the FBI has yet to serve subpoenas in the case.

Merit Medical acquires the HeRO Graft From CryoLife, Inc.

Merit Medical Systems, Inc., a manufacturer and marketer of proprietary disposable medical devices used in interventional and diagnostic procedures, particularly in

cardiology, radiology and endoscopy, announced that it has purchased the HeRO Graft device and related assets from CryoLife, Inc.

The HeRO Graft is a fully subcutaneous vascular access system that is intended for use in maintaining long-term vascular access for chronic hemodialysis patients who have exhausted peripheral venous access sites suitable for fistulas or grafts. The product has received 510(k) clearance from the FDA and has the CE marking. Additional information can be reviewed at www.merit.com/hero.

Merit believes that during 2015, HeRO Graft revenues were approximately $7.5 million, and gross margins were approximately 55%. Merit purchased the HeRO Graft assets for $18.5 million and financed the deal under existing banking agreements.

New ethics standards for DNA replacement therapies

In a news release medical researchers laid out ethical standards for clinical investigations into mitochondrial replacement therapy, or MRT. MRT is "ethically permissible" only when "significant conditions and principles are met," according to a new report from the National Academies of Sciences, Engineering, and Medicine.

Human MRT is not currently conducted in the United States, but the technology holds promise. The therapy involves the removal of nuclear DNA from the egg of a woman who is at risk of passing a mitochondrial DNA disease onto her child. The nuclear DNA is then transferred to a nuclear DNA-free egg provided by a woman with healthy mitochondria. The resulting egg would have genetic material from two women.

The new report suggests the FDA only review MRT clinical trials for women at risk of passing on a serious mitochondrial disease. Because mitochondrial DNA can only be passed on through the mother, researchers with the National Academies also recommend that only male embryos be implanted during initial clinical investigations to prevent heritability of changes.

"FDA could consider extending MRT research to include the transfer of female embryos if clear evidence of safety and efficacy from male cohorts using identical MRT procedures is available," researchers wrote.

Furthermore, the report recommends that only research clinics with "demonstrated expertise" be approved for such investigations -- and only after exhausting pretrial research options with in vitro tests, animal, and human embryos, nonviable whenever possible.
Researchers say strong standards need to be in place, as the stakes are high.

Untold cities across America have higher rates of lead poisoning than Flint

By now, the public health emergency resulting from lead-contaminated water in Flint, MI, has been made abundantly clear. The city changed its water source from the Detroit system to the Flint River in April 2014 as a cost-saving measure, exposing its residents to untreated water replete with lead leached from aging pipes. Last September, a local health center found that the proportion of children with elevated lead levels in their

blood had nearly doubled since the switch was made.

Flint has experienced "a man-made disaster," a press release from the city said last December. Similar official declarations of emergency followed from county commissioners, Michigan Gov. Rick Snyder (R) and, most recently, President Obama.

As attention grew around the issue, so too did the public alarm - with good reason. Photos showed Flint residents standing in long lines to collect bottled water and get their children's blood tested, or standing in court calling for compensation.

And then there were the photos of people holding up samples of the water that had come out of their taps for more than a year. The liquid appears a translucent yellow-brown instead of colorless and clear; if images could emit odor, these ones would be foul.

But the truly terrifying fact about the water crisis in Flint is invisible. It is the insidious effect of growing up or growing old while unknowingly allowing lead into your bloodstream. According to the World Health Organization, lead creates developmental and behavioral issues in children that are believed to be irreversible.

This is the real emergency for which city and state officials are bracing: the rising demand for special education and juvenile corrections programs that will emerge once lead is translated into reduced IQs, shortened attention spans and greater incidences of violence.

This is the poisoning that has occurred not just in Flint but all over the country, for decades - and not from water, but (primarily) from the paint that colors old homes.

Data collected by the Center for Disease Control and Prevention shows that over 40 percent of the states that reported lead test results in 2014 have higher rates of lead poisoning among children than Flint.

In Flint, 4 percent of kids aged five and under tested with blood-lead levels of at least 5 micrograms per deciliter, the threshold of lead intake that necessitates public health action, as defined by the federal government. Elsewhere in the country, 12 states reported that a greater percentage of kids under six years old met or surpassed that threshold. The most egregious example is Pennsylvania, where 8.5 percent of the children tested were found to have dangerously high levels of lead in their blood.

Only 27 states (including Washington, D.C.) reported childhood blood lead surveillance results to the CDC's national database for 2014, the most recent statistical set available.

These represent just a slice of the infant population. In Texas, for instance, only 184 kids were tested for lead poisoning. The state's population of kids under six exceeds 2 million.

On the federal level, then, there is no comprehensive understanding of the extent to which the population is being exposed to hazardous amounts of lead. While the percentage of children with more than 5 micrograms per deciliter of lead has been steadily declining, the CDC says no blood-lead level in children has been determined to be "safe."

Lead poisoning has a variety of sources, nearly all of them household items. The most common source of lead poisoning is paint peeling inside older houses or apartment buildings.
As Flint has raised the specter of lead, advocacy groups elsewhere are seizing on the

attention to raise awareness about contamination in their own jurisdictions.

At a press conference in Trenton, NJ, this week, a coalition of groups led by community development nonprofit Isles, Inc. urged Gov. Chris Christie (R) to devote $10 million towards the Lead Hazard Control Assistance Fund, which oversees the removal of lead from old homes and other lead abatement projects.

Using state data from New Jersey and Michigan, Isles pointed out that 11 New Jersey cities have a higher proportion of children with dangerous lead levels than Flint.

Meanwhile, in Michigan itself, reports from Detroit News and MLive have pointed out that several cities outside of Flint have higher rates of lead poisoning - again, not from water, but old paint and soil contaminated by factory emissions from yesteryears.

Visit the *Washington Post* for the article.

AHRQ study: Joint replacement to become the most common elective surgical procedure in the next decades

By 2030, about 11 million Americans will have either a hip or knee replacement, making it one of the nation's most common elective surgical procedures, according to an AHRQ-funded study.

Using data from AHRQ's Healthcare Cost and Utilization Project State Inpatient Database, researchers analyzed general population trends by year, state, gender and age group from 1990 to 2010. In 2010, researchers estimate that approximately 7 million Americans had had a total hip or knee replacement, including 620,000 individuals who had both procedures, according to the study.

Researchers attributed the increase in joint replacement surgeries to several factors: the aging of the baby boomer population, high rates of diagnosis and treatment of arthritis and demands for improved mobility and high quality of life.

Also contributing to the trend are younger individuals undergoing these procedures, coupled with improvements in life expectancy. In some cases, researchers said, younger patients will outlive their implants and require expensive revision surgeries with substantial cost implications. The majority of the individuals (70 percent) who have undergone total hip and/or knee replacement surgery are alive today. The study and abstract were published in *The Journal of Bone and Joint Surgery*.

Visit NIH for the study.

White House proposes new funding for heroin, prescription opioid abuse

President Obama will seek an extra $1.1 billion to pay for drug treatment for people addicted to opioid medications and heroin, which the White House says kills more people than automobile crashes, officials said Tuesday. The extra money will be included in the upcoming fiscal year 2017 budget request.

Prescription opiods - which are painkillers - and heroin are closely linked. Healthcare providers wrote 259 million prescriptions for painkillers in 2012, enough to give every American adult a bottle of pills, according to the Centers for Disease Control and Prevention. Many believe people addicted to prescription painkillers are turning to heroin

because it's cheaper and easier to get after government crackdowns on prescription drug abuse. Between 2002 and 2013, the rate of heroin-related overdose deaths nearly quadrupled, and more than 8,200 people died in 2013, CDC says.

This funding includes:

- $920 million to support cooperative agreements with states to expand access to medication-assisted treatment for opioid use disorders. States will receive funds based on the severity of the epidemic and their strategy to respond to it. States can use these funds to expand treatment capacity and make services more affordable.
- $50 million in National Health Service Corps funding to expand access to about 700 substance use treatment providers, including medication-assisted treatment, in areas across the country most in need of mental health treatment.
- $30 million to evaluate the effectiveness of treatment programs using medication-assisted treatment and help identify opportunities to improve treatment for patients with opioid use disorders.

The budget also includes about $500 million - an increase of more than $90 million - to build on efforts at the Justice Department and the Department of Health and Human Services to expand state prescription overdose prevention strategies, increase the availability of medication-assisted treatment programs, improve access to the overdose-reversal drug naloxone, and support enforcement activities. Part of the funding is directed specifically to rural areas. HHS Secretary Sylvia Burwell, who is from West Virginia, said the issue is a top priority of hers as her state is one of the most hard hit by drug abuse.

To: Cook, Rebecca (DTMB) <CookR6@michigan.gov>
Subject: RE: Armed Guard Deployment - Second Flint warehouse

Because we have State employees working as armed guards (MSP), we are required to get approval from the Civil Service Commission to hire outside of the State Classified Service. I can justify a one month emergency purchase order based on short term/temporary/intermittent needs as long as we stay under 832 hours. For a longer term, we need to show a cost savings for contracting the service, otherwise Civil Service will deny our request.

Subject: Armed Guard Deployment
Importance: High

Matt,

Request was received today to deploy an armed security guard for a second warehouse facility in the Flint region. Could you please coordinate deployment of an armed guard as per the following details? Advise if you have any questions or require any additional details. Please confirm assignment at your earliest opportunity.

Start date/time: Mon. 2/8/16 1900hr
Hours of Operation: 1900 – 0700hrs Sun – Sat.
Duration: Month-to-month
Location: Former Kroger store in Hallwood Plaza Northwest corner, 2629 W. Pierson Rd Post Order: Patrol warehouse interior to deter, detect and report suspicious and/or criminal activity.
Post Confirmation: Call made to DK Command Center start/end of shift and hourly while on duty Incident Reporting: suspicious/criminal activity - 911 Uniform & Equipment: Standard uniform, side arm, cellphone and flash light (Maglite Baton type 600 Lumens min. or equal).

Thanks,

Jeff

To: Christensen, Chris (DTMB)
Subject: RE: Flint Emergency Purchasing Procedures

Is this accurate? Especially the "helping track" part?
I'm giving Natalie a 24/7 phone list of me, my staff involved thus far, and vendors – so that she doesn't have to waste time calling me if she needs a phone number. I will still be a 24/7 resource for you and your team. She and her staff are already trained to look for existing state contracts as well, in their day to day work.

All,

I am just finishing a meeting with Jeff Brownlee, Natalie Spaniolo, and Rebecca Cook. They have indicated that all purchases need to go through Natalie Spaniolo (cell phone is 517-930-0153). They want us to call Natalie for things that we need to purchase with DTMB funds. Natalie's group is actually processing the purchase orders and helping track the purchases, so it makes sense to involve her upfront. One caveat is if a purchase is under $2,500; you can use known existing state contracts and then make sure you let Natalie know what you have purchased.

Either Natalie or Rebecca (cell phone is 517-930-4015) can help research whether there is an existing state contract. Please let them know if you'd like an existing state vendor to expedite requests, some vendors have provided special 24/7 contacts, like Home Depot and Grainger.

We have to follow the same procedures that Captain Kelenske and the Governor's office have laid out in the memo above.

Subject: FW: Flint Emergency Purchasing Procedures

Will you do your magic and play with the message below. I think I have it but I want to make sure I am alligning with what you heard. Please and thank you.

All,

I am just finishing a meeting with Jeff Brownlee, Natalie Spaniolo, and Rebecca Cook they have requested that all purchases need to go through Natalie Spaniolo her cell phone is 517-930-0153. They want to have us call Natalie and then she will call Rebecca for things that we need to purchase with DTMB funds. All services purchased must go though Natatlie. One caveat is if a purchased is under $2,500 and you can use the contracts that you know we have in place and then make sure you let Natalie know what you have purchased.

Also If you get a request from an agency about if we have a contract then we contact Rebecca Cook 517-930-4015.

We have to follow the same procedures that Captian Kelenske and the Governor's office have laid out in the memo above

Chris Christensen
Director of Infrastructure Protection

The concrete / fencing and the State contract that Melissa referenced are two different things. We are all set with the concrete / fencing project and have a PO in place for that.

Melissa is going to work with you and Airgas regarding the contract that you were sent with regard to the nitrogen; she said that she would be contacting you. Has she contacted you yet?

The ITRAC that she referenced is to add us to the State contract for nitrogen. I looked on the SOM Purchasing website and there are a couple different contracts with Airgas, but I believe she was looking to have us added to DNRE's contract, 071B0200274.
Melissa, can you please confirm that?

Good afternoon ladies!

Several times last week I went to respond to this email, but then was interrupted. Today I realize I never did respond.

Questions I have:
· An ITRAC was already done for this work (gave us authority to proceed without requesting bids). Do we need another one?
· Time frame – cement has been poured. Fencing should be coming. So, what is the next step? Are they good to go?

I think that is all I needed to answer. I look forward to hearing from you on this.

Carla:

Per your email and our conversation, you are correct in that we should add MDARD to the state contract and not sign any outside agreement. I will get in touch with Lisa regarding her time frame, infrastructure, and next steps. We'll have to have an iTRAC submitted too.

Thanks for touching base,

Our Laboratory Division has been in contact with Airgas as our current system does not allow for enough nitrogen to run all the laboratory equipment simultaneously and they sent them the attached agreement to sign. I am wondering:

- Should we be signing agreements like this when there is a State contract in place?
- Is a change notice needed like was done for DEQ (Change Notice No. 3)?
- Is there anything else we need to do?

Please let me know if we should sign this and if we need to do anything else. Thank you for your assistance in this matter.

Portland Works for Social Equity

'Community' Redefined as More Than a Shared Geography

By F. Alan Shirk

Portland, Ore., bills itself as "The city that works," and, in the early 21st Century, is a city that is working in spite of some tough challenges.

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet. Read this article

Portland's Diversity and Civic Leadership Organizing Project helped grantees develop culturally appropriate means to build community identity and maintain strong communication among community members and public agencies.

A good example is the cutting-edge Diversity and Civic Leadership (DCL) program introduced in 2006 and operated by the city's Office of Neighborhood Involvement (ONI). DCL's goal is to support efforts to build the organizational and communication capacity of community organizations of color, immigrant/refugee organizations and other agencies underrepresented in government.

The revolutionary DCL program is a marked departure from how Portland and other American cities have traditionally organized and served neighborhoods.

Following a major 2005 policy review, known as Community Connect, city officials and key leaders "determined that not everyone defines their community by their physical surroundings," according to an article written by Portland officials and published in the National Civic Review.

Manslaughter charges possible in Flint water crisis, says top investigator

As a probe begins into the water crisis gripping Flint, MI, a top investigator announced Tuesday that if officials are found to have been grossly negligent, they could face charges as serious as manslaughter.

"We're here to investigate what possible crimes there are, anything [from] involuntary manslaughter or death that may have happened to some young person or old person because of this poisoning, to misconduct in office," said Todd Flood, special counsel for the state attorney general's office who is in charge of the investigation. "We take this very seriously."

Since the city switched suppliers in April 2014, corrosive tap water has caused the level of lead in kids' blood to soar and has sparked fears of permanent neurological damage. In some cases, the water has been so poisoned by lead that it qualified as "toxic waste."

A spike in Legionnaires' disease led to 10 deaths during the same time period, although it's not clear whether the bacterial outbreak was linked to drinking the water, according to Mlive.

Outrage over those deaths and the possible long-term effects of lead poisoning hung over Tuesday's news conference. Flood was brought in to lead the investigation last month because Attorney General Bill Schuette is defending Gov. Rick Snyder (R) and various state departments against lawsuits brought by Flint residents.

Flood described a number of possible outcomes of the investigation. He said it could turn out that the crisis was simply a result of "honest mistakes," the Associated Press reported. But it could also turn out that city, county or state officials were guilty of a "breach of duty" or "gross negligence," exposing them to possible criminal or civil actions, he said.

Flood said that the severest possible charge, manslaughter, was "not far-fetched." He compared charging officials with manslaughter over the water crisis to charging construction workers with the same crime for leaving open manholes unattended, resulting in death.

He said he could also pursue restitution against both private companies and governments on behalf of Flint residents affected by the water crisis, according to the *Detroit News*.

Flood's team will consist of nine full-time investigators, including former state and Detroit police officers as well as Andrew Arena, former head of Detroit's FBI office.

A separate federal investigation also has been launched and will include prosecutors from the U.S. attorney's office in Detroit as well as the FBI, the U.S. Environmental Protection Agency's Office of Inspector General and the EPA's Criminal Investigation Division, Reuters reported last week.

So far, state and federal officials have been trading blame, often along political party

ESCMID experts gather data on the Zika virus as they prepare for potential outbreaks in Africa and southern Europe

Experts at the European Society of Clinical Microbiology and Infectious Diseases (ESCMID) - an organization promoting research, risk assessment, knowledge sharing and best practices in the fight against infectious diseases - are developing tools to monitor the spread of the Zika virus and are conducting research to gather more solid data to better assess the risks associated with the infection.

According to ESCMID experts, researchers need to find evidence on how the Zika virus affects the body, why it is spreading rapidly in the Americas, how else it can be transmitted apart from mosquito bites, and whether it is linked with congenital defects in babies and nervous system diseases.

In a review published late last week, researchers including the ESCMID network discussed the rapid spread of Zika virus in the Americas and concluded that the virus and other arboviruses may not only pose a threat to residents of Brazil, but also to attendees of the 2016 Olympic and Paralympic games in Rio de Janeiro.

Meanwhile, ESCMID researchers are also working hard on the development of better diagnostic tools and on improving the monitoring of the virus' spread, as they are preparing for a possible outbreak in Europe and the return of the virus to the African continent where it was first isolated in the Zika Forest in Uganda in 1947.

Prof. Hakan Leblebicioglu, chairperson of ESGITM, added: "Emerging and re-emerging infections usually arise from resource-limited countries and since the infrastructure for diagnostics is not well-established, the timely diagnosis and control of outbreaks are usually late. For this reason, an international collaboration for capacity building of the laboratories and technology transfer is essential."

ESGITM board member Dr. Nick Beeching from the Liverpool School of Tropical Medicine notes that Aedes mosquitoes are widespread in the tropics, including both *Aedes aegypti*, implicated in the outbreak in Latin America and *Aedes albopictus*, which is increasingly found in southern Europe. These mosquitoes are already responsible for huge epidemics of fevers due to dengue and chikungunya viruses in the tropics and for smaller outbreaks in Italy and France, so there may be potential for transmission of Zika in parts of Europe too. It is not known whether other types of mosquito that are more common in Europe can act as vectors for Zika virus and research on this is urgently needed.

One of the main questions to be answered is why the virus was able to spread so rapidly now and why such huge outbreaks did not occur before. The problem with current prevention techniques is that researchers are working with empirical and epidemiological data, and until the RNA of the virus is analyzed - which will take several months - we will not know if it is a mutation in the virus or other factors that play a role in the apparent increased occurrence of microcephaly and Guillain-Barré syndrome in the affected regions, according to researchers.
Investigations into the associations with central nervous system complications may prove particularly important, including follow-up of patients and babies born to infected mothers.

Walgreens to roll out kiosks that dispense drug antidote without prescription

Walgreens has announced a plan to roll out kiosks that dispense over-the-counter naloxone, the heroin overdose drug that users can inhale or inject, in over half of its U.S. locations.
Last week, the Illinois-based company introduced the stations in New York, and it will start the program in Indiana and Ohio in late February, UPI.com reported.

Many doctors have praised naloxone, which the World Health Organization (WHO) has estimated could prevent 20,000 overdose deaths in the United States. CVS has also made naloxone, as well as Narcan, a similar heroin overdose drug, available to customers without a prescription in states where it is legal to do so.

Walgreens plans to make naloxone available mainly in its 24-hour locations, in more than 500 drugstores across 39 states and Washington D.C. Later, Walgreens plans to expand its prescription-free naloxone program to more than 5,800 stores- more than half of its nearly 8,200 stores.

Walgreens said it would coordinate with drug regulators in states that do not permit the sale of naloxone without a prescription to expand the antidote's availability.

According to the CDC, drug overdoses killed a reported 47,055 people in 2014, a 6.5 percent increase from 2013.

Johns Hopkins approved to perform first HIV-positive to HIV-positive organ transplants in U.S.

Johns Hopkins recently received approval from the United Network for Organ Sharing to be the first hospital in the United States to perform HIV-positive to HIV-positive organ transplants.

The institution will be the first in the nation to do an HIV-positive kidney transplant and the first in the world to execute an HIV-positive liver transplant.

"This is an unbelievably exciting day for our hospital and our team, but more importantly for patients living with HIV and end-stage organ disease. For these individuals, this means a new chance at life," says Dorry Segev, associate professor of surgery at the Johns Hopkins University School of Medicine.

This announcement brings to fruition the two-year effort Segev put into helping draft the 2013 HOPE Act-a bill signed by President Obama that made it possible for HIV-positive individuals to donate organs, and one of only 57 bills passed in 2013.

Approximately 122,000 people are on the U.S. transplant waiting list at any one time. Thousands die each year, many of whom may have lived had they gotten the organ they needed. Meanwhile, Segev estimates that each year, about 500 to 600 HIV-positive would-be organ donors had organs that could have saved more than 1,000 people-if only the medical community had been allowed to use the organs for transplant.

The antiquated law, which the HOPE Act reversed, prevented doctors from using organs from HIV-positive donors, even if they were intended to be given to an HIV-positive

patient desperately in need of the organ. Despite the positive outcomes of non-HIV transplants in HIV-positive recipients and the proven results of HIV-positive to HIV-positive kidney transplants in South Africa, HIV-positive to HIV-positive transplantation in the United States was not a possibility until now.

The first approved HIV-positive to HIV-positive transplant could take place as soon as a suitable organ should become available and a recipient is successfully identified and prepared.

Visit Johns Hopkins for the announcement.

HIMSS Supply Chain Special Interest Group Meeting: UDIs & EHRs - The Ins & Outs of Medical Device Data

Implantable medical devices are essential to quality healthcare, yet questions abound about their real world performance. Better data can help physicians (and their patients) make decisions about which device to use, and what to do if something goes wrong, while hospitals can better source and track these high cost items.

The FDA's Unique Device Identification (UDI) rule and Meaningful Use regulations are aimed at increasing visibility around use and performance of implantable devices. The benefits of UDI are widespread - from greater supply chain efficiencies to comparative effectiveness research. Yet, to realize these benefits, hospitals and healthcare systems need to populate EHRs with accurate product data and then access data on product usage to ascertain effectiveness.

A panel of experts will discuss what hospitals must do to comply with new regulations, changes in Meaningful Use requirements, and the value of UDI-generated research to support value-based healthcare.

Confirmed speakers include:

- Andrew Gettinger, MD, Chief Medical Information Officer, Office of the National Coordinator for Health IT
- Ben Moscovitch, Officer, Medical Devices | The Pew Charitable Trusts

Please join us at HIMSS Supply Chain Management Special Interest Group meeting Wednesday, March 2nd from 10-11:00 AM in Delfino 4001. Email editor@hpnonline.com for more information.

Closing of Chicago Heights hospital stirs protest over lack of transparency

A Catholic health system's proposal to close a south suburban hospital that has served the community for more than a century has residents and local leaders trying to save emergency medical services.

Arnie Kimmel, Franciscan St. James Health's CEO, says it's too expensive to continue to operate hospitals in Chicago Heights and Olympia Fields, which are about 5 miles apart, because they have too many beds and not enough patients. He plans to shutter the Chicago Heights hospital, parts of which are more than 100 years old, and expand and renovate the 35-year-old Olympia Fields campus to accommodate patients from Chicago Heights and other nearby towns.

Afraid of losing some emergency services, residents and local leaders have spent months discussing and protesting the planned closing, culminating in a hearing before a state health planning board, which is scheduled to vote on the proposal next month. The Illinois Health Facilities and Services Review Board has scheduled a five-hour hearing to accommodate what it expects will be a large turnout.

Part of the public disapproval stems from complaints that Kimmel and Franciscan St. James have been less than upfront about their plans and the need to close the Chicago Heights hospital. Chicago Heights Mayor David Gonzalez, who is leading the opposition, said the nonprofit health system has exaggerated its poor financial health and provided conflicting statements to regulators and the public.

Franciscan St. James paints a bleak picture of its financial health in documents provided to state regulators. The health system said the two hospitals had a combined operating loss of $66.5 million for the four years that ended in 2014. The health system did not provide regulators with a year-by-year breakdown of its operating results.

But Franciscan St. James, by Kimmel's own admissions, has "dramatically" improved its financial performance in the last two years. The health system issued a news release June 5, headlined "Franciscan St. James' Financial Recovery Continues." In it, Kimmel said, "The improved financial performance trend that began in 2014 has continued into early 2015."

Despite the financial improvement, Franciscan St. James has to consolidate services to ensure its future, Kimmel said. The project would boost Franciscan St. James' profits by $20 million a year, he added.

Under the proposal, the Olympia Fields hospital would grow from 158 beds to 214 beds to help offset the loss of 312 beds in Chicago Heights. The expansion would include new obstetrics and rehabilitation departments, which are currently in Chicago Heights.

If approved, more than a quarter of the patients who would be served by the Olympia Fields hospital would come from Chicago Heights, according to regulatory papers.

Kimmel plans to demolish two-thirds of the Chicago Heights campus. The remaining facility would become an outpatient center to provide more primary care and add services to treat chronic conditions such as diabetes and obesity.

Visit the *Chicago Tribune* for the story.

TeleTracking celebrates 25 year anniversary

TeleTracking Technologies, Inc. has been named Patient Flow Category Leader for the 5th consecutive year by U.S. healthcare market research leader KLAS. TeleTracking is honored to have been awarded this prestigious recognition of excellence for 9 out of the past 10 years.
The award kicks off TeleTracking's 25th anniversary, and is the continuation of a successful 2015 during which more than 100 new solutions were implemented across client sites.
Collaboration was a central theme of 2015, with the establishment of partnerships with GE Healthcare in June and Allscripts Healthcare Solutions, Inc. in December.

Another milestone in 2015 was the sponsorship of a comprehensive study by RAND Corporation and the resulting report, Improving Hospital Efficiency Through Data-Driven Management: A Case Study of Health First, Florida. The study found that combining information technology, lean methodologies and patient flow principles may help

hospitals improve throughput, reduce wait times for hospital beds, increase patient transfers, and save money.

TeleTracking also received attention abroad, with our solutions being included in an independent report for the Department of Health by Lord Carter of Coles - Operational Productivity and Performance in English NHS Acute Hospitals: Unwarranted variations. Specifically, the SafeHands program at The Royal Wolverhampton NHS Trust was recognized for its use of real-time locating system (RTLS) technology to improve patient safety. The system allows the Trust to track staff to patient contact time, which help plan rotations and redeploy staff as patient acuity requires. The Royal Wolverhampton NHS Trust achieved another significant milestone in 2015 by centralizing their patient placement process-a pioneering development for the UK market and the NHS.

TeleTracking will showcase its award-winning patient flow solutions at the HIMSS16 Conference & Exhibition, February 29 - March 4, 2016 in Las Vegas. Clients from MedStar Georgetown University Hospital and Health First will present their success stories in TeleTracking booth #7410.

To learn more about TeleTracking visit www.teletracking.com.

FDA Class I Recall: Oxylog 2000 Plus, 3000, and 3000 Plus Emergency Transport Ventilators by Dräger Medical

Dräger is recalling the Oxylog Emergency Transport Ventilators because an electrical issue may cause the device to stop working if the control knobs (adjustment potentiometers) are not regularly used. See the Recall Notice for affected devices and catalog numbers.

If the device operator does not intervene, the patient may not receive enough oxygen and could suffer serious adverse health consequences, including injury or death.

The Dräger Oxylog Emergency Transport Ventilators provide constant breathing support for adults and children. These ventilators are used in hospitals or during patient transport.

Dräger sent a letter to all customers with affected devices on December 21, 2015, informing them of this issue. The letter provides the following instructions to release the electrical contact resistance in the control knobs: Turn the device off; Rotate all control knobs at least 10 times to the left and right stop (minimum and maximum value).

Visit the FDA for the recall.

Steve

Are there PO releases against the Gordon's contract, or do you think Jeanette is referring to stand alone transactions? FYI in case you need to review credit limits and remaining contract balance.

Rebecca

Subject: Re: Flint Emergency Purchasing Procedures

Jeanette,

This means that EVERY purchase we make not just P-cards Natalie needs to be aware of.
The caveat in the email I think is very important here. If it's under $2,500 and you are aware of an existing contract you can proceed NEVERTHELESS you must inform Natalie as well.

I have looped in Natalie for further clarification.

Perhaps we could come up with a solution where the daily updates have the information about what's been purchased and I could send the information to Natalie at that time, Natalie what do you think of that idea?

Thanks Chris

On Feb 10, 2016, at 7:09 PM, Doll, Jeanette (DTMB) <dollj@michigan.gov> wrote:
Chris –

Does this mean that every purchase we make using the P-card we need to call Natalie before proceeding? Gordon's Food Service, Grainger, Start Truck Rental, etc.?

Jeanette

Cc: Christensen, Chris (DTMB) <christensenc4@michigan.gov>
Subject: FW: Flint Emergency Purchasing Procedures

All,

I am just finishing a meeting with Jeff Brownlee, Natalie Spaniolo, and Rebecca Cook. They have indicated that all purchases need to go through Natalie Spaniolo (cell phone is 517-930-0153). They want us to now call Natalie for things that we need to purchase with DTMB funds. Natalie's group is actually processing the purchase orders and helping track the purchases, so it makes sense to involve her upfront. One caveat is if a purchase is under $2,500; you can use known existing state contracts and then make sure you let Natalie know what you have purchased.

Either Natalie or Rebecca (cell phone is 517-930-4015) can help research whether there is an existing state contract. Please let them know if you'd like an existing state vendor to expedite requests, some vendors have provided special 24/7 contacts, like Home Depot and Grainger.

We have to follow the same procedures that Captain Kelenske and the Governor's office have laid out in the memo above.

Please reply to this email so that I know you have read and understand the direction.

Thanks,

Chris Christensen
Director of Infrastructure Protection
Office: (517) 241-2188

THIS WEEK IN POLITICS

Top Officials at Risk and Unresolved 2016 Election Maps

BY ALAN GREENBLATT

Statewide Officials Find Themselves at Risk

Executive branch jobs are generally more stable than legislative positions. But some didn't seem too secure this week.

In Michigan, the drumbeat of complaints about Republican Gov. Rick Snyder just keep getting louder. On Monday, the Board of State Canvassers approved one of many recall petitions, which gives Snyder's critics a green light to collect signatures to put a recall measure on the November ballot. The approved petition has to do with education, but any recall campaign will focus squarely on how Snyder has handled the Flint water crisis.

In Indiana, Republican Gov. Mike Pence, who is up for re-election this fall, picked a new running mate this week after his quit. Lt. Gov. Sue Ellspermann is up for a job running a community college system, so Pence turned to Eric Holcomb, a former chair of the state GOP, to shore up his ties with party activists.

"By selecting Holcomb as his running mate, Pence sent a clear message about how endangered his political career is," wrote Matthew Tully, a columnist with the *Indianapolis Star*.

Pence is being challenged by Democrat John Gregg, a former House speaker.

TOP NEWS

FERC issues positive EA for Cameron LNG expansion project
2/12/2016 12:51 PM ET -- Cameron LNG's proposed expansion project to add natural gas liquefaction trains to its LNG terminal received a positive environmental assessment from FERC staff.

MarketWeek: Era of change in US utility landscape attracts foreign investment, consolidation
2/12/2016 12:51 PM ET -- Continuing a trend in power and utility M&A in recent years, the week of Feb. 8 brought two new acquisitions of U.S. companies by Canadian ones as the industry continues along a steady path of consolidation.

'Disappointment' in Peabody shows up in market as company scrambles for relief
2/12/2016 12:49 PM ET -- Poor earnings results have hammered Peabody Energy stocks, putting further pressure on a company that is already battening down the hatches as it heads toward a potential bankruptcy.

Fish 'living in the street': Norfolk awaits funding solution for climate change woes
2/12/2016 12:32 PM ET -- The Virginia General Assembly has killed a bill that would have directed the state to join RGGI while its coastal cities struggle to adapt to sea level rise.

The Gas Meter: Oil, gas price collapse effects rippling through producers, MLPs, investors
2/12/2016 12:27 PM ET -- Persistently low commodity prices appear to be creating a chain reaction of exploration and production sector contraction, falling master limited partnership revenues, and oil and gas investor tax woes.

The Coal Scoop: Coal finds reason to celebrate with high court stay, but challenges remain
2/12/2016 12:13 PM ET -- After a near constant barrage of set-backs, the U.S. Supreme Court offered a rare, but welcome bit of good news for U.S. coal producers this week, granting a stay of the U.S. EPA's much-maligned Clean Power Plan.

Financial Focus: Company Report: SCANA Corp. ---- With Summer settlement, future brighter
2/12/2016 11:20 AM ET -- Recent resolution of the Summer-related issues had a distinct positive effect on the stock, which was down 15% in 2015 before the settlement, but ended the year flat.

Black Hills ups earnings outlook on generation sale, completion of SourceGas deal
2/12/2016 11:10 AM ET -- Black Hills is targeting higher earnings this year after it said it completed the purchase of SourceGas Holdings and entered an agreement to sell a minority interest in Black Hills Colorado IPP to an infrastructure fund.

Buckeye Partners' Q4, FY'15 results soar on marine terminals, merchant services gains
2/12/2016 10:36 AM ET -- Buckeye Partners LP reported fourth-quarter 2015 income from continuing operations of $135.1 million, or $1.03 per diluted unit, compared to $64 million, or 50 cents per diluted unit, in the prior-year period.

Appalachian coal miner Xinergy emerges from bankruptcy as White Forest Resources
2/12/2016 9:55 AM ET -- Xinergy Corp., a metallurgical and thermal coal producer based in Central Appalachia, announced it has emerged from Chapter 11 bankruptcy reorganization.

Warm weather hampers propane sales; cost savings provide upshot
2/12/2016 9:52 AM ET -- Warm weather in the last three months of 2015 severely reduced the number of gallons of propane sold by distributors and put pressure on propane prices, however flexibility and lower costs helped to cushion the impact on their bottom lines.

TransCanada CEO foresees dividend growth in spite of Keystone XL setback
2/12/2016 9:43 AM ET -- The rejection of the Keystone XL pipeline that put a C$2.9 billion dent in TransCanada Corp.'s fourth-quarter earnings won't stop its determination to grow its dividend through the end of the decade.

The Daily Dose: Carbon rule planning ends in some states; Top-producing mines report deep production cuts
2/12/2016 8:50 AM ET -- Also in today's edition: New York ISO identifies a statewide resource deficiency starting in 2019; opponents plan to appeal Sabal Trail pipeline proposal; and UPS opposes Canadian Pacific Railway's takeover of Norfolk Southern.

AM Power Report: Dailies could unwind ahead of long weekend
2/12/2016 7:09 AM ET -- Power prices at the daily markets could end the workweek with losses Friday, Feb. 12, as expectations of weakening demand in much of the country through the Presidents Day weekend conspire with an ongoing downdraft at the natural gas futures complex.

March gas futures drift aimlessly amid ongoing bearish fundamentals
2/12/2016 7:08 AM ET -- After ending the prior session down another 5.2 cents at $1.994/MMBtu, March natural gas futures meandered overnight ahead of the Friday, Feb. 12, open amid persistent fundamental pressure.

EPA's McCarthy 'revved up' and ready to move forward despite Clean Power Plan stay
2/11/2016 6:58 PM ET -- In her first public appearance since the Supreme Court put a halt to her signature carbon rule, the EPA Administrator expressed disappointment but vowed to continue the clean energy mission.

Senate energy bill kicked down road as Flint negotiations drag on
2/11/2016 6:25 PM ET -- Work on the U.S. Senate's broad energy bill looks likely to extend into late February as lawmakers wrangle over funding to address the water crisis in Flint, Mich.

PUCT see merits in tax-sharing for Hunt acquisition, REIT conversion of Oncor
2/11/2016 6:10 PM ET -- Texas regulators could push for a corporate structure in which ratepayers share in the benefits of a Real Estate Investment Trust's tax benefits should they approve the proposed acquisition of Oncor by an investor group led by Hunt Consolidated Inc.

Thursday's Energy Stocks: Generator equities tumble as ISO-NE auction results underwhelm
2/11/2016 6:01 PM ET -- Merchant generator stocks tumbled Thursday, Feb. 11, as clearing prices in ISO New England Inc.'s 10th annual capacity auction for delivery year 2019/2020 cleared at a price more than 25% below last year's auction price and below most expectations.

CAPITAL OFFERINGS

Foresight again delays bondholder negotiation deadline
2/12/2016 9:31 AM ET -- Foresight Energy LP has again extended the deadline to negotiate an agreement with the trustee of its 7.875% senior notes due 2021.

EARNINGS AND GUIDANCE

Hawaiian Electric beats Q4, FY'15 earnings expectations
2/12/2016 11:43 AM ET -- Hawaiian Electric Industries beat fourth-quarter 2015 earnings estimates after posting core net income of $44.5 million, or 41 cents per share, up 1 cent on the S&P Global Market Intelligence normalized consensus EPS estimate of 40 cents.

PGE Q4 earnings miss estimates, but rise slightly with new generation in service
2/12/2016 10:15 AM ET -- Portland General Electric Co. on Feb. 12 reported net income of $51 million, or 57 cents per share, for the fourth quarter ended Dec. 31, 2015.

Hedging strategy bolsters Calpine's Q4, FY'15 results
2/12/2016 8:22 AM ET -- Calpine's hedging strategy helped improve its adjusted EBITDA and adjusted free cash flow year over year during the fourth quarter of 2015.

IN THE BOARDROOM

Pacific Coal Resources changes name to Caribbean Resources
2/11/2016 6:01 PM ET -- The company will start trading on the TSX Venture Exchange under its new name and trading symbol CRC.

MARKETS

Nuclear update: Total US plant availability tops 92% as units return
2/12/2016 11:43 AM ET -- Total U.S. nuclear plant availability ran higher early Feb. 12 to 92.38%, up from 91.89% on Feb. 11 but still below the 92.99% noted on the same day in 2015.

Returning cold props up US gas demand in week to Feb. 10
2/12/2016 8:19 AM ET -- Cold weather drove total natural gas demand in the United States higher during the week ended Feb. 10, as rising production and imports boosted overall supply, the EIA said.

OPERATIONS AND STRATEGY

Global coal roundup: A weekly review of top international stories
2/12/2016 12:36 PM ET -- A roundup of international coal news from Feb. 5 to Feb. 12.

Federal court awards Dominion $21M in damages for 'non-conforming coal'
2/12/2016 11:58 AM ET -- The U.S. District Judge John Gibney Jr. has ordered Bransen Energy Inc. to pay Virginia Electric and Power Co., d/b/a Dominion Virginia Power, nearly $21 million in order to compensate for the damages it caused the utility by providing "non-conforming coal."

Peabody unit delays ramp up of Colo. coal mine amid market and regulatory forces
2/12/2016 11:21 AM ET -- Peabody Energy Corp.'s Twentymile Coal Company appealed to the Routt County Board of Commissioners for a 10-year extension for both mining and coal hauling permits at the its Sage Creek mine, Steamboat Today of Steamboat Springs, Colo. reported Feb. 11.

Dominion receives Va. regulatory approval to develop transmission lines
2/12/2016 10:35 AM ET -- Dominion Virginia Power has secured Virginia State Corporation Commission approval to develop a series of 230-kV transmission lines.

RATES AND TARIFFS

New Jersey BPU: Energy savings under annual auction 'tempered' by PJM capacity costs
2/12/2016 12:44 PM ET -- New Jersey has held its annual Basic Generation Service auction, which produced stable rates for three out of four of the state's regulated electric utilities, but regulators say their enthusiasm over the lower prices have been 'tempered' by PJM's Capacity Performance costs.

REGULATORY AND LEGAL DEVELOPMENTS

CFTC sets out 2016 agenda, seeks $330 million for FY'17
2/12/2016 10:21 AM ET -- The CFTC is requesting $330 million in the President's fiscal year 2017 budget request to focus more efforts on surveillance capabilities, enforcement efforts, infrastructure analysis, information technology capabilities and to be more responsive to the

concerns of market participants and commercial end-users.

WHO reports rise of neurological disorder in Zika outbreak

HPN Blogline

Mysterious and fast-moving, Zika virus has world's health leaders scrambling

Global health authorities and government officials are mobilizing to battle the fast-spreading Zika virus, sending rapid-response teams to affected regions, issuing travel warnings for pregnant women, accelerating vaccine trials and even deploying mosquito-fighting troops to hard-hit areas in Brazil.

Stung by criticism that the world's response to the Ebola epidemic was halting and disjointed, officials in Latin America, the United States and Europe say they are determined to do better against a new foe that, in some ways, is more daunting than the hemorrhagic virus that killed 11,000 people in West Africa.

But their efforts are being hobbled by a fundamental lack of understanding of a disease that has spread to nearly three dozen countries and is moving so quickly that some experts estimate it could infect as many as 3 million to 4 million people within 12 months.

Unlike the highly lethal Ebola, which had been studied extensively by the time it emerged in Guinea in late 2013, Zika wasn't considered a menace. Most infected people didn't even show symptoms. For decades, Zika got little scrutiny before showing up in Brazil last May.

The mystery surrounding the virus - officials aren't sure what will turn up next - makes it "much more insidious, cunning and evil" than Ebola, said Bruce Aylward, a World Health Organization official who helped coordinate the organization's Ebola response and is now leading the Zika effort.

The urgency to understand the virus, along with pressure not to repeat its slow-footed reaction to the devastating Ebola crisis, prompted the WHO to move faster this time to declare a global public health emergency.

But declaring an emergency is just the beginning, and many public health experts are pressing for quick and aggressive steps. There has been no public announcement yet of a strategic plan with a timetable and cost estimate to make it work, said Lawrence Gostin, a global health law professor at Georgetown University.

On Saturday, the WHO said it plans to soon release an "overview of needs and requirements" to fight the epidemic. As the WHO works to detail the threat to affected countries, some government officials and others are planning for worst-case scenarios.

Scientists around the world are scrambling to learn why so many people are getting sick and how those illnesses are related to the virus, particularly for pregnant women and others at greatest risk. So far, only Brazil has reported a surge in cases of microcephaly. Brazil, Colombia, El Salvador, Suriname and Venezuela have all reported increases in people with Guillain-Barré syndrome.

Some involved in the Zika response say the international coordination is already much better than it was during the Ebola crisis. Part of that has less to do with the institutions involved than with the people who work for them, many of whom formed tight bonds during the last epidemic.

Because Zika is spread primarily by the Aedes aegypti mosquito, curbing the epidemic is more complicated. Much depends on individual governments - and citizens - mounting aggressive efforts to kill mosquitoes and deprive them of breeding grounds.
Peter Hotez, dean of the National School of Tropical Medicine at Baylor College of Medicine, said it's worth considering a "military-style campaign," such as the effort in the middle of the past century in which authorities eradicated Aedes aegypti in much of South America and parts of the Caribbean in a bid to stop dengue fever. But he knows that won't be fast or easy.

The Centers for Disease Control and Prevention is sending teams to affected regions to research Zika and help with mosquito control. In its Atlanta-based emergency operations center, which is on the highest level of activation, hangs an enormous photo of the Aedes aegypti mosquito.

Diagnosing Zika in pregnant women also is challenging. The virus stays in the blood only for about a week. After that, it's difficult to know if a woman was infected because the tests used aren't sensitive enough to differentiate between Zika and two related viruses on a routine basis. Those other viruses, dengue and chikungunya, are transmitted by the same type of mosquito, and many of the Zika-affected countries continue to battle outbreaks of those viruses.

The CDC has sent out material to state labs and health departments to perform 30,000 tests for Zika. It's getting ready to send out material for tens of thousands more tests. But that's not going to be enough to promptly test all the pregnant women who will be returning from Zika-affected countries, Frieden said during recent congressional testimony.

Today's Health With CMT, Beyond Flint: A Healthcare Moment of Truth...

Although the recent "outbreak" of lead exposure in Flint, Michigan has captured widespread attention, the problem of lead intoxication is hardly new or limited to Flint, MI. At least as far back as World War II, it was recognized that lead can be ingested from a variety of sources including paint, soil and water drawn from lead pipes. Other recent articles show that lead intoxication is a widespread community health concern as well.

With the reignited public light on this population health concern, Care Management Technologies (CMT), a North Carolina-based leader in population health management and data analytics, quickly developed new measures to assist healthcare systems and municipalities in identifying children at high risk for lead exposure. CMT used its clinical and data protocols to incorporate guidelines from the CDC and the American Academy of Pediatrics and added the ability to incorporate local guidelines for

immediate use.

When elevated blood levels are detected, the CMT measures assist healthcare managers to ensure that children at risk of exposure, or those who have already been exposed, do not "fall through the cracks." The guidelines also make sure that schedules are maintained for recommended repeat tests and assessments for the elevated risk population. The CMT measures assist the healthcare system by providing a registry of high risk children for easy identification and follow up with evidence-based assessments and interventions.

It is clear that no amount of lead exposure is benign. Lead is a neurotoxin and exposure to it can lead to a variety of neuropsychological problems. These consequences, which may not become evident until years later, include reduced IQ scores, impaired academic achievement, problems with attention and impulsivity and even risky behaviors in adolescence like smoking and drinking.

Catching elevated lead levels early is critical for the use of chelating drugs for treatment of very high lead levels although, even with their use, these drugs may not reverse the brain damage leading to these problems.

Health Care Homes and other health systems can utilize the lessons and painful reminders of Flint, MI to get in front of this public health concern by putting in place the practice protocols for identifying those at risk of lead exposure.

Dallas can now test for Zika virus, thanks to gear purchased during 2014 Ebola scare

Dallas County has a leg up on containing the Zika virus, thanks to a laboratory set up during the 2014 Ebola scare. The county will begin its own testing for the virus Monday after a test run this week that confirmed a third case of the disease in Dallas.

"The ability to test for the Zika virus is a game changer for the area," said Dallas County health director Zachary Thompson.
Thompson led a tour Friday of the county lab to show how microbiologists will test blood samples for the virus. The lab is capable of testing specimens for the Zika virus because of equipment purchased in 2014 to test for the Ebola virus.

The lab will only test specimens sent by doctors and medical professionals. Localized testing will give patients results within 24 hours. It can take up to three weeks to receive test results sent to the Centers for Disease Control and Prevention. County officials are still awaiting results for four patients sent last week to the CDC.

A quicker turnaround is especially useful for pregnant women. Health officials recommend testing for anyone who has recently traveled to the outbreak countries if they exhibit at least two of the virus's flulike symptoms.

Though North Texas is home to the type of mosquitoes that can transmit the Zika virus, humans are the carriers. The concern is whether a traveler from the outbreak region is bit by a mosquito and that mosquito then passes it on locally.

Government finally to look into possible link between artificial turf and cancer

In 2014, NBC looked into the potential link between the rubber crumbs used in artificial turf and female soccer players getting cancer. The broadcast focused on Amy Griffin, associate head coach for the University of Washington's women's soccer team. Griffin, in her words, has discovered "a stream of kids" that have played on artificial turf and soon gotten cancer.

Griffin has compiled a list of 38 American soccer players-34 of them goalies-who have been diagnosed with cancer. At least a dozen played in Washington, but the geographic spread is nationwide. Blood cancers like lymphoma and leukemia dominate the list.

The growing use of turf fields layered with rubber crumbs has raised health concerns centered mostly on whether players face increased risk of injury, skin infection or cancer. The U.S. has more than 11,000 artificial turf fields, which can cost $1 million to replace."

A year later, the network followed up with a report that said "despite a series of NBC News reports on the growing debate about the safety of crumb rubber artificial turf, the federal agencies that regulate the product have remained largely silent. Earlier this month, in fact, the head of the Environmental Protection Agency would not answer a direct on-camera question about whether the surface found on playgrounds and athletic fields across the country is safe for kids to play on."

In response to a NBC News investigation, the House Energy and Commerce Committee sent a letter to the EPA Administrator looking for more information about the safety of crumb rubber fields. Congress gave the EPA a November 6, 2015 deadline, which the EPA failed to meet.

Apparently, the government is now taking the matter seriously. Friday Reuters reported that three U.S. government agencies will team up to study whether artificial turf fields and playgrounds that use bits of recycled tires are exposing children to dangerous chemicals. The Environmental Protection Agency, the Consumer Product Safety Commission and the Centers for Disease Control and Prevention announced they will study the issue, CPSC Chairman Elliot Kaye said in a statement.

California hospital pays $3.2 million to settle self-reported stark violations

Tri-City Medical Center in Oceanside, California has agreed to pay $3.28 million to settle allegations that its payment arrangements with doctors and physician groups violated the Stark Law. Tri-City self-reported the potential violations, which date back to its 2009-2010 fiscal year, in 2011 and had been negotiating a settlement ever since.

Subject to certain exceptions, the Stark Law generally prohibits hospitals from billing Medicare for services referred by physicians with whom it has a financial relationship. The exceptions require, among other things, that the financial arrangements do not exceed fair market value, are commercially reasonable, and do not take into account the volume or value of any referrals. Additionally, compensation arrangements with non-employed physicians must be in writing and satisfy a number of other technical requirements.

Tri-City's self-disclosure to OIG involved almost 100 physician agreements that were not compliant with Stark. Five of the 97 compensation arrangements at issue, which were with the former chief of the hospital's medical executive committee, exceeded fair market value, and the remaining 92 contracts were allegedly expired, unsigned, or could not be located.

Unlike several of the major settlements recently entered into by hospital systems to resolve allegations related to excessive physician compensation, all of which arose from whistleblower suits, this settlement was a direct result of Tri-City's compliance with OIG's self-disclosure protocol and serves as an important reminder that even accepted self-disclosures do not always preclude FCA lawsuits.

Florida hospital cited for forcing woman who died from ER

The hospital where a woman died after she was forcibly removed from the emergency room by a police officer was cited for 10 "deficiencies," including failing to properly examine the woman when she complained of difficulty breathing, state health officials said.

Elizabeth Dudek, the secretary for Florida's Agency for Health Care Administration, said Friday the violations at Calhoun-Liberty Hospital in Blountstown were "egregious."

The hospital must submit correction plans by next Friday and if the problems are not fixed by March 1, it could be suspended from the Medicaid program. The 25-bed facility is also facing fines that could total $100,000.

The review comes after the death of Barbara Dawson, a 57-year-old woman who was treated in the emergency room Dec. 21 but refused to leave when she was discharged because she didn't think she was OK.
She was handcuffed by a Blountstown Police Officer g5and collapsed when he tried to put her in a patrol car. She died about 90 minutes later.
Three hospital staffers were placed on unpaid administrative leave. A nursing supervisor is still on leave, a paramedic who was working in the ER that night resigned and another employee returned to work but has not been put back on patient care.

Hospital CEO Ruth Attaway told CBS affiliate WCTV the hospital has started to take steps to fix the problems, especially involving the emergency room.

"Yes it was a negative report but we'll use it as a springboard. From this we will shore up our defenses. We will correct the issues that are out there and we will come out of this better than ever before," Attaway said.

During its investigation, the Florida agency reviewed 24 emergency room visits and found violations with two of them, including Dawson's. The names of both patients were redacted, but the details of Dawson's case make it easy to identify her as Patient 10 in the report.

The 79-page report cited the nursing staff for failing to follow hospital policy when it didn't notify a physician or conduct an assessment to address Dawson's complaints and released her without her concerns being properly documented.

In the other case, a patient in the emergency room was never treated. The ER was staffed by a nurse practitioner, who was not able to dispense medication. The patient told investigators that they never saw a physician or the nurse practitioner during the visit.

Changes at the hospital include hiring a nationally certified emergency nurse to manage the ER, hiring a licensed risk manager who will monitor patient complaints and a new chief nursing officer. The agency has also mandated that a physician certified in emergency care be hired as a consultant.

Martin Shkreli hit with $4.6M IRS tax lien

How much would Martin Shkreli pay for the rights to the Beatles' song "Taxman"? The pharma bad boy Shkreli might find it a bit tougher to afford that old tune nowadays after getting slapped by the IRS with a new lien for $4,628,928 in unpaid taxes.

The tax agency whipped up that lien against Shkreli's property in midtown Manhattan on Dec. 18, a day after he was arrested by the FBI on federal securities fraud charges.

The IRS actually filed the lien Jan. 11 with the Office of the City Register in New York, according to the website Gawker.com, which first reported the lien.

The vast majority of Shkreli's unpaid taxes, $4.625 million, was incurred in 2014, according to a copy of a filing on record at the register's office that Gawker posted online. Another $3,431 in unpaid taxes were incurred in 2013, according to the lien. The lien gives the IRS the right to its cut of any proceeds of a sale of Shkreli's property. The lien does not identify the source of income that Shkreli owes taxes for.

Shkreli has said he is innocent of the criminal case, in which prosecutors claim he looted his former pharma company Retrophin to pay off investors he was suspected of previously defrauding in a hedge fund he ran.

Last week, during a hearing in that case in Brooklyn federal court, it was revealed that Shkreli's E-Trade account, which had been used to secure his $5 million release bond, had dramatically fallen in value. That account, which had held $46 million when it was used to secure the bond in January, since had fallen to about $4 million, federal prosecutors revealed.

The steep drop was due to the plunge in price of the stock of KaloBios Pharmaceuticals, whose shares comprised the majority of the E-Trade account. Shkreli briefly ran KaloBios after obtaining a controlling share of the company, but was booted as CEO after he was indicted. KaloBios' stock tanked on the heels of his arrest.

Ironically, Shkreli's tax lien has come to light at the same time he brazenly offered to buy Kanye West's forthcoming album "The Life of Pablo" for $10 million if the superstar singer agreed to "sell this recording solely to me."

Shkreli's company Turing Pharmaceuticals raised the price of that drug, Daraprim, from $13.50 per pill to $750 per pill after buying the medication last year. Shkreli stepped down as CEO of Turing after his indictment.

WHO reports rise of neurological disorder in Zika outbreak

A rare neurological disorder is on the rise in several Latin American countries that are also seeing an outbreak of the Zika virus, the World Health Organization said Saturday.

The U.N. health body in Geneva said in a weekly report that Guillain-Barre syndrome (GBS), which can cause temporary paralysis, has been reported in Brazil, Colombia, El Salvador, Suriname and Venezuela. The increase in Guillain-Barre cases is appearing in conjunction with the spread of the Zika virus to 34 countries and also with increasing cases of microcephaly, a rare condition in which infants are born with abnormally small heads.

However, the health agency said "the cause of the increase in GBS incidence ... remains unknown, especially as dengue, chikungunya and Zika virus have all been circulating simultaneously in the Americas."

In Brazil, which has been hardest hit by the current Zika outbreak, the state of Bahia in July reported 42 cases of GBS, 26 of them in patients with a history of symptoms consistent with Zika virus infection. In November, seven patients in Brazil presenting GBS were confirmed by laboratory tests to have a Zika virus infection, WHO reported.

"In 2015, a 19 percent increase in GBS cases was reported in comparison to the previous year" in the state of Bahia, the WHO said.

Hi Chris-
Even if there is not a contract and it is under $2500 we don't need to know about those purchases unless it is a service - if you put a service on a Pcard then I need to know that so it can be properly reported.

Once you get over $2500 then you are in the area where under normal circumstances those purchases would require a purchase order prior to purchase - but what you are supporting are not normal circumstances. For the purchases over

$2500 (and not on contract) - please keep us in the loop and if at all possible contact me or Lacey prior to the purchase and we can try to assist.

Thanks,
Natalie

Subject: FW: Flint Emergency Purchasing Procedures

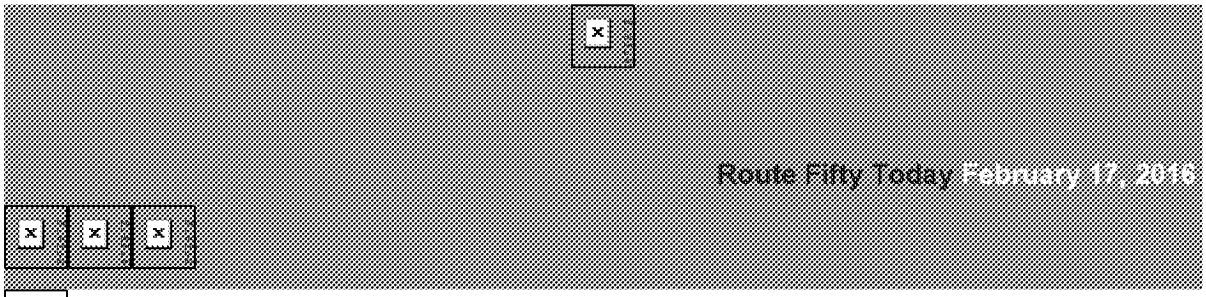
All,

I am just finishing a meeting with Jeff Brownlee, Natalie Spaniolo, and Rebecca Cook. They have indicated that all purchases need to go through Natalie Spaniolo (cell phone is 517-930-0153). They want us to now call Natalie for things that we need to purchase with DTMB funds. Natalie's group is actually processing the purchase orders and helping track the purchases, so it makes sense to involve her upfront. One caveat is if a purchase is under $2,500; you can use known existing state contracts and then make sure you let Natalie know what you have purchased.

Either Natalie or Rebecca (cell phone is 517-930-4015) can help research whether there is an existing state contract. Please let them know if you'd like an existing state vendor to expedite requests, some vendors have provided special 24/7 contacts, like Home Depot and Grainger.

We have to follow the same procedures that Captain Kelenske and the Governor's office have laid out in the memo above.

Please reply to this email so that I know you have read and understand the direction.



Thanks,

Chris Christensen

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Sue

Please get this list to J&B first thing Monday as a rush request. Need price and lead times. Work with DHHS Purchasing, who would be issuing the PO. Melissa will conduct concurrent research with VWR, just in case. Hopefully one or both vendors sell all items.

Make sure to ask J&B for a 24/7 phone number in case there are more rush requests.

Could we have someone look into the water purifier (attached) to see if it meets NSF standards? The unit was already installed in a couple locations within Flint (below) and would like to make sure the units will not need to be replaced.

Thank you –

Jeanette

Jeanette

As we previously discussed, you are my contact to triage and route external inquiries. Bluewater called me this morning, and I requested an email with more information.

It is unclear to me whether this unit meets the standards used for the faucet water filter sourcing. Can a resource be identified to check? If not, someone may want to consider reaching out to the two locations that received donated units.

Thanks for routing this into the correct hands.

Rebecca

Subject: Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today http://healthycures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminates we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

Pro 400C-HF(high flow) (this is the model we donated to Flint) $1920 + shipping
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)
- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor
- Calibration of cleanliness
- Advanced leak protection system
-Clean water per kWh: 433L/kWh (114.3gallon/kWh) -Clean water rate: 222L/hour (58.6 gallons/hour)
-Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)
-Weight: 29kgs (64lb)
-Water recovery rate: 60-70%

The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:

Spirit 300-HF(high flow) $1350 + shipping
Compact design that fits into any contemporary kitchen

- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Spirit 300Cp-HR(high rejection) $1500 + shipping
Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

Chris

Were you looped in on this back when the request was made? Just confirming. Anything you need from us before this proceeds?

Initial rate was $65. Purchasing staff asked a long term rate be renegotiated, and rate decreased to $43. I think Jeff negotiated. Still higher than contract rates in the mid 30's.

Rebecca

Subject: FW: Emergency - Flint Warehouse Guard

Rebecca,

MSP made an emergency request for an armed guard for after-hours patrols of the warehouse where supplies for the Flint water emergency are being stored. Attached is revised pricing for the armed guard in support of the State emergency operations in Flint. Jeff Pratt's original email with the previous pricing is also attached.

My understanding is Jeff Pratt spoke to you on Sunday, January 17th and you instructed him to contact DK Security for emergency deployment of an armed guard.

I estimate the 4 week cost on the previous MOU from DK to be $25,676 and the 4 week cost for the revised pricing to be $16,573.60. Do you approve the revised pricing for this emergency purchase order?

Thank you,
Denice

Subject: Flint Emergency Guard Request
Attachments: SOM Armed.doc

Ladies,

On Sunday Jan. 17th we received a request from the State Emergency Operation Center to deploy an armed security guard in support of State emergency operations in Flint. The details of the deployment are contained in the attached MOU provided by DK Security. I am requesting your assistance with the creation and issuance of an emergency purchase order. We informed DK Security that the deployment would be on a month-to-month basis to start. The deployment commenced on Jan. 17th at 3:30pm. The hours of operations are 7p to 7a Sunday through Saturday.

Hopeful I have provided you with the appropriate details required for the PO. Please contact me if there is anything further you need or actions that I need to take.

Thanks,

Jeff

After talking with David, why does DHHS think that $8M worth of filters were ordered over MLK weekend? Who is questioning this that raised the red flag or what did they see? David isn't aware of $8M worth of filters ordered over MLK weekend.

I have attached the most recent spreadsheet that shows $8.5M in purchases, but not $8M over MLK weekend.

MICHIGAN DEPARTMENT OF CORRECTIONS

"Expecting Excellence Every Day"

MEMORANDUM

DATE:

TO: Julie Hamp, Procurement Manager

FROM: Lisa Lehnert, Proposal Manager/Buyer

SUBJECT: Award Recommendation for 047214B0001865 Prisoner Clothing and Linens

BACKGROUND INFORMATION/GENERAL:
This Request for Proposal (RFP) is for the Michigan Department of Corrections (MDOC), Michigan State Industries (MSI) to obtain bids from qualified vendors to provide prisoner clothing and linens.

The contract period is three years, with two additional one year options.

BID EVALUATION METHOD:
Proposals for this solicitation were evaluated by a Joint Evaluation Committee (JEC).
State names and department, program area or title for voting members and non-voting advisors.

BIDDERS:
The RFP was posted on Buy4Michigan on April 18, 2014, and was available for 41 days with a published due date of May 29, 2014. On May 22, 2014, Amendment #3 was posted on Buy4Michigan to revise the bid opening date to June 12, 2014. The following bidders submitted proposals in response to this RFP:

Bidder	City, State	Michigan Business	SDVOB
American Textile Systems	Cerritos, CA	No	No
Keefe Commissary Network, LLC	Strongsville, OH	No	No
Lockett Enterprises, LLC	Flint, MI	Yes	Yes
Tabb Textiles Co., Inc.	Opelika, AL	No	No
Grand Strategy LLC	South Haven, MI	Yes	Yes
Uniforms Manufacturing, Inc.	Scottsdale, AZ	No	No
Northwest Woolen Mills	Woonsocket, RI	No	No
Charm Tex	Brooklyn, NY	No	No
OD Taragin & Bros. LLC	Baltimore, MD	No	No
Bob Barker Company Inc.	Fuguay Varina, NC	No	No
Holmdel Footwear LLC	Marlboro, NJ	No	No
Just In Trend	Johnston, IA	No	No

Paradise Pillow Inc.	Philadelphia, PA	No	No
Scion Industries	Springfield, IL	No	No
Robinson Textiles	Gardena, CA	No	No
Carolina Textiles	Charlotte, NC	No	No

SELECTION CRITERIA AND EVALUATION:

3.4.1 Method of Evaluation

Proposals will be evaluated by a JEC.

3.4.2 Evaluation Criteria

Step 1

Technical evaluation of written bid proposal

The following chart represents the scoring of the particular factors:

	Technical Evaluation Criteria	Weight
1.	Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35
2.	Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	15
3.	Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20
4.	Bidder Information: Article 4.1.1, Company Information	5
5.	Bidder Information: Article 4.1.9 Prior Experience	20
6.	Bidder Information: Article 4.1.10 Contract Performance	5
	Total	100

Step 2

For those bidders with a passing technical score of 80 or more in Step 1, their pricing will be evaluated. The State reserves the right to perform price negotiations as part of Step 2. In its sole discretion, the State will determine which bidders are in a competitive price range to proceed to Step 3.

Step 3

Samples will be evaluated for the bidder or bidders with a passing technical score in Step 1, and who are determined to be within a competitive price rage in Step 2. Evaluation of samples will be pass/fail, on an item by item basis. Sample evaluation forms are included as Attachment C, Bath Linens Evaluation Form; Attachment D, Clothing Evaluation Form; and Attachment E, Bed Linens Evaluation Form.

Step 4

Best value determination based on those who pass Steps 1, 2, and 3 above.

3.4.3 Technical and Price Evaluation

(a) Proposals receiving a score of 80 points or more will be considered for award.

(b) Price proposals will only be evaluated from those bidders that the State considers for award in accordance with subsection (a). Evaluation of price proposals includes consideration of a qualified disabled veteran preference. MCL 18.1261 establishes a preference of up to 10% for businesses owned by qualified disabled veterans that are considered for award in accordance with subsection (a).

3.4.4 Award Recommendation
The award recommendation will be made for the bidder that: (a) is considered for award in accordance with Section 3.4.3(a), Technical and Price Evaluation; (b) has its price proposal evaluated under Section 3.4.3(b), Technical and Price Evaluation; and (c) in the State's determination, offers the best value to the State.

3.4.5 Reservations
The State reserves the right to:

(a) consider total cost of ownership in the final award recommendation (i.e. transition costs, training costs, etc.);
(b) award by item or part of an item;
(c) reject any proposals in whole or in part;
(d) award multiple, optional-use contracts. The State may evaluate offers based on advantages and disadvantages that may result from making more than one award;
(e) consider overall economic impact. This includes considering principal place of performance, number of Michigan citizens employed or potentially employed, money paid to Michigan residents, Michigan capital investments, etc;
(f) award to another bidder if the recommended bidder does not accept the award;
(g) give a preference for products manufactured or services offered by Michigan-based firms if all other things are equal and if consistent with federal statutes. (MCL 18.1261);
(h) disqualify any bid based on the failure to complete the Vendor Categories in the Buy4Michigan registration; and
(i) disqualify any bid based on the information provided in the Vendor Categories in the Buy4Michigan registration.

3.4.6 Award Decision
Award recommendation will be made to the Director of MDOC.

3.4.7 Protests
If a bidder wishes to protest the award recommendation, the bidder must submit a written protest by the date and time stated in the attachment provided with the recommendation (bid tab). The bidder must include the RFP number and clearly state the facts believed to constitute error in the award recommendation along with the desired remedy. More information about the bidder protest process is available at www.michigan.gov/contractconnect; click on the "Vendor Information" link.

3.4.8 State Administrative Board
State Administrative Board (SAB) approval is required for all Contracts or Purchase Orders of $250,000.00 or more. The decision of the SAB is final; however, SAB approval does not constitute a Contract. The award process is complete when the bidder receives a properly executed Contract or Purchase Order from MDOC-Procurement.

3.5.5 Past Performance
The State may evaluate the bidder's prior performance with the State in making its award decision.

3.5.6 Financial Stability
The State may evaluate the bidder's financial stability in making its award decision. The State may seek financial information from the bidder and from third parties.

EVALUATION RESULTS SUMMARY (100 points possible):

Bidder	Step 1 – Technical	Step 2 - Pricing	Step 3 - Samples
American Textile Systems	Passed – 89 points	See below	See below

It was determined by the JEC that the following items on Attachment A-1 would not be awarded to any Contractors: colored t-shirts, boxers, women's briefs, bras and sports bras. The MDOC currently has a contract for women's undergarments, which the department will continue to utilize.

It was determined by the JEC that the following items on Attachment A-3 would not be awarded: tear-away shirts and tear-away pants.

The JEC determined that the following items on Attachment A-4 "Prisoner Outerwear" would not be award to any Contractors: kitchen cap, baseball cap, cold weather hat, mittens, jacket (winter), hood for work crew jacket, bib coveralls, raincoat and rain pants.

The JEC determined that the mattress covers noted on Attachment A-5 "Bed Linens" would not be awarded to any Contractors.

INDIVIDUAL BIDDER EVALUTIONS:

American Textile Systems

Comment [RC1]: We would put the points in each section heading, with a total at the top or bottom of that bidder's evaluation.

Step 1: Criteria	Weight Received
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	15/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20/20
Bidder Information: Article 4.1.1, Company Information	1/5
Bidder Information: Article 4.1.9 Prior Experience	13/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**89/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section. Or, The bidder met the requirements of this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The JEC did not find any deficiencies in this section. Were there any responses above and beyond requirements? Special incentives offered?

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The JEC did not find any deficiencies in this section.

Article 4.1.1, Company Information

- The JEC could not find the Bidder's gross annual sales for the last five years.

Article 4.1.9 Prior Experience

- The Bidder provided a list of two prior experiences, instead of the required three.
- The JEC could only find one of the required three Attachment F "Reference Forms."

Comment [RC2]: Were all references checked? Were they positive?

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing was in the competitive range.

Comment [RC3]: Were any negotiations conducted as part of Step 2?

Comment [RC4]: Is there an attachment with the evaluation data? Should be included in the synopsis attachments.

Step 3 – Sample Evaluation	**Pass/Fail**
Wool blanket	Pass
Cotton blanket	Pass
Flat sheet (54" x 90" minimum)	Pass
Flat sheet (66" x 104" minimum)	Pass
Bath towel	Pass
Wash cloth	Pass

Keefe Commissary Network, LLC

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	11/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	18/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**94/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The customer service hours were not evident in the RFP.
- The Bidder's warranty has limited product return. Bidder must be notified within thirty days of purchase for the product to be eligible under warranty.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The JEC did not find any deficiencies in these sections of the RFP.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience
- The JEC could only find two of the required three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance
- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation
The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item.

Comment [RC5]: Why is the language different in different bidders sections? What was the process to assess competitive range?

It was determined by the JEC that the price for the following items that this Bidder's bid price was crew socks was too high compared to the MDOC's current price; therefore, this item was not evaluated in Step 3.
Bullet list of products here

It was determined by the JEC that the Bidder's price on the items on Attachment A-2 "Prisoner Sleepwear" were too costly; therefore, these items were not evaluated in Step 3.

It was determined by the JEC that the price for this Bidder's bath towels was too high compared to the MDOC's current price; therefore, this item was not evaluated in Step 3.

Step 3 – Sample Evaluation	**Pass/Fail**
T-Shirt	Failed Step 8 of Attachment D – Product specifications stated that hem of shirt and sleeves must be cleanly finished with no raw edges. The raw edge in the hem is sticking out all around the seam.
Briefs – Men's	Pass
Thermal top (white) – Women's	Pass
Thermal top (off white) – Men's	Pass
Thermal bottom (white) – Women's	Pass
Thermal bottom (off white) – Men's	Pass
Wash cloth	Failed Step 3 of Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ½" x 12".

Lockett Enterprises, LLC

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	30/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	11/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	15/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	18/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**84/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports
- The JEC could not find the Bidder's sizing chart.

Comment [RC6]: How did this impact sample evaluation?

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives
- The customer service hours were not evident in the RFP.
- The RFP lacked specific details of its quality assurance program.

- The Bidder's response stated that most garments do not come with any warranties.
- The process for reporting warranty issues was not evident in the RFP.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The Bidder's response stated it would work closely with the MDOC to fulfill all requests within the scope of the contract. The Bidder did not acknowledge acceptance of the requested minimum order.
- The JEC could not find the Bidder's acknowledgement any of the packaging requirements listed in Article 1.4.3.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC could only find two of the required three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item.

It was determined by the JEC that the prices for this Bidder's briefs and crew socks were too high compared to the MDOC's current price and proposed pricing of other Bidders; therefore, these samples were not evaluated in Step 3.

It was determined by the JEC that the price for this Bidder's shorts (mesh and smooth) were too high compared to the MDOC's current price; therefore, these items were not evaluated in Step 3.

The JEC determined that the price for this Bidder's wool blankets were too high compared to the MDOC's current price; therefore, these items were not evaluated in Step 3.

Step 3 – Sample Evaluation	**Pass/Fail**
Thermal top – Women's	No pricing provided – sample not evaluated
Thermal bottom – Women's	No pricing provided – sample not evaluated
Thermal top – Men's (red)	No pricing provided – sample not evaluated
Thermal bottom – Men's (off white)	No pricing provided – sample not evaluated
Knit hat	Pass
Gloves (knit – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was knit gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Gloves (fleece – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was fleece gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the

	item must have a label. This product did not have a label.
Flat sheet (54" x 90" minimum)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet (66" x 104" minimum)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow case	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow protector	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Bath towel	Failed Step 8 on Attachment C – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.5 oz.
Wash cloth	Pass

Tabb Textiles Co., Inc.

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	11/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	14/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	20/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**90/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The Bidder confirmed that it is able to receive orders by fax or e-mail. The Bidder does not appear to accept orders via telephone or written orders.
- The RFP lacked details of the warranty.

Comment [RC7]: Were any bidder clarifications sent out?

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The Bidder's response specified that it would need 30 to 75 days to build inventory levels.
- The Bidder is requesting that orders are placed in increments of "full case" quantities. The MDOC is requesting a no minimum order.

Comment [RC8]: Above, text implied there was a minimum order. Make consistent?

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation
The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation of Provided Samples	**Pass/Fail**
Wool blanket	Pass
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet	Pass
Pillow case	Pass
Bath towel	Failed Step 2 on Attachment C – The terrycloth had some missed loops in the middle of the item (approximately ½" wide). There was also a major snag in the item.
Wash cloth	Failed Step 3 on Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ¾" in one spot, so the item was not square.

Knit hat	Pass
Jacket (winter)	Failed – The product specifications listed on Attachment A-4 "Prisoner Outerwear" stated this item must have ribbed bottom and ¾ lengths. The product sample submitted did not have a ribbed bottom and it was not ¾ lengths.
Jacket (work crew)	Pass

Northwest Woolen Mills

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	30/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	5/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	12/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	20/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**77/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The RFP lacked details of the Bidder's reporting capabilities.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The State of Michigan account representative was not evident in the RFP.
- The RFP lacked details of its quality assurance program.
- The RFP lacked details of the warranty and the process for reporting warranty issues was not evident in the RFP.
- The Bidder acknowledged it had special incentives; however, the JEC could not find any special incentives listed.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- Section 1.4.1 states "The Bidder must provide its plan for guaranteeing that the deliverables will be delivered within the above time frame(s)." The JEC could not find the Bidder's plan for guaranteeing that deliverables would be

delivered on time.

- The Bidder stated that Article 1.4.5 "Delivery Term" was not applicable, since a carrier would be making the deliveries. The Bidder is still responsible for notifying its carriers of the contract delivery terms, such as, process for obtaining LEIN clearance, possibility of mobilizations, delivery hours, MDOC rules, etc.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the Bidder not passing Step 1 - Technical.

- The Bidder's warranty has limited product return. Bidder must be notified within thirty days for the product to be eligible under warranty.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The MDOC requested that stock items be delivered within 14 calendar days of receipt of order. The Bidder's response specified the delivery time frame would be 5-30 days.
- The Bidder has a minimum order requirement for certain items. The MDOC is requesting a no minimum order.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The Bidder provided a list of five prior experiences; however, the JEC could not find the total project costs, deliverables and dates for each experience.
- The JEC could not find the requested three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt	Failed Step 7 on Attachment D – The JEC was unable to find the sizing chart for this item.
Briefs – Men's	Pass
Crew socks	Pass
Thermal top – unisex	Failed Step 7 on Attachment D – The sleeves were too short. Measurements?
Thermal bottom – unisex	Pass
Shirt – Men's (short sleeve)	Pass for men only. Sample does not pass for women since it does not contain a modesty panel or darts at the bust line as specified on Attachment A-3. Also, the pocket is located on the breast instead of on the sleeve as specified for the women's shirt.
Pants – Men's	Failed Step 3 on Attachment D – Item must have one back pocket. Item did not have a pocket.
Jumpsuit – non-insulated (short sleeve)	Pass
Knit hat	Pass
Wool blanket	Pass
Cotton blanket	Failed Step 2 on Attachment E – The item had some see through spots in the middle of the blanket, holes in the selvage sides of the fabric and loose strings in the hem.
Flat sheet (54" x 90" minimum, T180)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow case (T180)	Failed Step 3 of Attachment E - The minimum size requirement is 22" x 30". Item measured 20" x 29 ½".
Bath towel	Failed Step 8 on Attachment C - – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.25 oz.
Wash cloth	Failed Step 2 on Attachment C – The hems on the item were coming apart.

Comment [RC10]: What did they submit? Were points deducted for incomplete sizing chart?

Comment [RC11]: Make above language consistent?

Bidder Information: Article 4.1.9 Prior Experience	16/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**92/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The customer service days and hours are limited. The account manager is available 9:00 – 1:30 p.m. EST, Monday-Thursday.
- The RFP lacked details of the Bidder's quality assurance program.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The JEC did not find any deficiencies in these sections of the RFP.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC could only find one of the required three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	**Pass/Fail**
T-Shirt (white)	Pass
Briefs – Men's	Pass
Crew socks	Pass

Just In Trend

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	12/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	14/20
Bidder Information: Article 4.1.1, Company Information	1/5
Bidder Information: Article 4.1.9 Prior Experience	8/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**75/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The RFP lacked details of the Bidder's quality assurance program.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The Bidder's response specified that it would need 50 to 90 days to build its inventory levels at the beginning of the contract. The Bidder also requested that a rough forecast of the demand be provided.
- The Bidder agreed to the no minimum order; however, it requested a token minimum order value of $250.00. The MDOC is requesting a no minimum order.

Comment [RC12]: Are we scoring them down for each of these?

Article 4.1.1, Company Information

- The Bidder has been in business for five years. Its gross annual sales for the last five years have ranged from $11,000.00 to $170,000.00. The State's account has the potential of representing 25% or more of the Bidder's total sales. The JEC could not find where the Bidder fully described in its proposal how the company would be scaling up to serve the State's account. The JEC is concerned that the Bidder is not large enough to service the MDOC.

Comment [RC13]: Rephrase?

Article 4.1.9 Prior Experience

- The Bidder provided three prior experiences; however, the prior experiences were not of similar size. The JEC is concerned that the Bidder will not be able to provide service to the entire MDOC.
- The Bidder provided three Attachment F "Reference Forms." One of the references stated that the vendor took too long to process orders and had a minimum order that the customer did not satisfy. The reference stated that they would not extend its contract because of the minimum order requirement and that they had to cancel a year-end purchase order because the vendor did not supply items in a timely manner. The other two references were happy with the Bidder; however, they were not of similar size either.

Comment [RC14]: Vendor or customer?

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the Bidder not passing Step 1 - Technical.

Paradise Pillow Inc.

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	25/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	8/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	0/20

MICHIGAN DEPARTMENT OF CORRECTIONS

"Expecting Excellence Every Day"

MEMORANDUM

DATE:

TO: Julie Hamp, Procurement Manager

FROM: Lisa Lehnert, Proposal Manager/Buyer

SUBJECT: Award Recommendation for 047214B0001865 Prisoner Clothing and Linens

BACKGROUND INFORMATION/GENERAL:
This Request for Proposal (RFP) is for the Michigan Department of Corrections (MDOC), Michigan State Industries (MSI) to obtain bids from qualified vendors to provide prisoner clothing and linens.

The contract period is three years, with two additional one year options.

BID EVALUATION METHOD:
Proposals for this solicitation were evaluated by a Joint Evaluation Committee (JEC).

BIDDERS:
The RFP was posted on Buy4Michigan on April 18, 2014, and was available for 41 days with a published due date of May 29, 2014. On May 22, 2014, Amendment #3 was posted on Buy4Michigan to revise the bid opening date to June 12, 2014. The following bidders submitted proposals in response to this RFP:

Bidder	City, State	Michigan Business	SDVOB
American Textile Systems	Cerritos, CA	No	No
Keefe Commissary Network, LLC	Strongsville, OH	No	No
Lockett Enterprises, LLC	Flint, MI	Yes	Yes
Tabb Textiles Co., Inc.	Opelika, AL	No	No
Grand Strategy LLC	South Haven, MI	Yes	Yes
Uniforms Manufacturing, Inc.	Scottsdale, AZ	No	No
Northwest Woolen Mills	Woonsocket, RI	No	No
Charm Tex	Brooklyn, NY	No	No
OD Taragin & Bros. LLC	Baltimore, MD	No	No
Bob Barker Company Inc.	Fuguay Varina, NC	No	No
Holmdel Footwear LLC	Marlboro, NJ	No	No
Just In Trend	Johnston, IA	No	No

Paradise Pillow Inc.	Philadelphia, PA	No	No
Scion Industries	Springfield, IL	No	No
Robinson Textiles	Gardena, CA	No	No
Carolina Textiles	Charlotte, NC	No	No

SELECTION CRITERIA AND EVALUATION:

3.4.1 Method of Evaluation

Proposals will be evaluated by a JEC.

3.4.2 Evaluation Criteria

Step 1
Technical evaluation of written bid proposal
The following chart represents the scoring of the particular factors:

	Technical Evaluation Criteria	Weight
1.	Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35
2.	Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	15
3.	Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20
4.	Bidder Information: Article 4.1.1, Company Information	5
5.	Bidder Information: Article 4.1.9 Prior Experience	20
6.	Bidder Information: Article 4.1.10 Contract Performance	5
	Total	100

Step 2
For those bidders with a passing technical score of 80 or more in Step 1, their pricing will be evaluated. The State reserves the right to perform price negotiations as part of Step 2. In its sole discretion, the State will determine which bidders are in a competitive price range to proceed to Step 3.

Step 3
Samples will be evaluated for the bidder or bidders with a passing technical score in Step 1, and who are determined to be within a competitive price rage in Step 2. Evaluation of samples will be pass/fail, on an item by item basis. Sample evaluation forms are included as Attachment C, Bath Linens Evaluation Form; Attachment D, Clothing Evaluation Form; and Attachment E, Bed Linens Evaluation Form.

Step 4
Best value determination based on those who pass Steps 1, 2, and 3 above.

3.4.3 Technical and Price Evaluation

(a) Proposals receiving a score of 80 points or more will be considered for award.

(b) Price proposals will only be evaluated from those bidders that the State considers for award in accordance with subsection (a). Evaluation of price proposals includes consideration of a qualified disabled veteran preference. MCL 18.1261 establishes a preference of up to 10% for businesses owned by qualified disabled veterans that are considered for award in accordance with subsection (a).

3.4.4 Award Recommendation

The award recommendation will be made for the bidder that: (a) is considered for award in accordance with Section 3.4.3(a), Technical and Price Evaluation; (b) has its price proposal evaluated under Section 3.4.3(b), Technical and Price Evaluation; and (c) in the State's determination, offers the best value to the State.

3.4.5 Reservations

The State reserves the right to:

(a) consider total cost of ownership in the final award recommendation (i.e. transition costs, training costs, etc.);
(b) award by item or part of an item;
(c) reject any proposals in whole or in part;
(d) award multiple, optional-use contracts. The State may evaluate offers based on advantages and disadvantages that may result from making more than one award;
(e) consider overall economic impact. This includes considering principal place of performance, number of Michigan citizens employed or potentially employed, money paid to Michigan residents, Michigan capital investments, etc;
(f) award to another bidder if the recommended bidder does not accept the award;
(g) give a preference for products manufactured or services offered by Michigan-based firms if all other things are equal and if consistent with federal statutes. (MCL 18.1261);
(h) disqualify any bid based on the failure to complete the Vendor Categories in the Buy4Michigan registration; and
(i) disqualify any bid based on the information provided in the Vendor Categories in the Buy4Michigan registration.

3.4.6 Award Decision

Award recommendation will be made to the Director of MDOC.

3.4.7 Protests

If a bidder wishes to protest the award recommendation, the bidder must submit a written protest by the date and time stated in the attachment provided with the recommendation (bid tab). The bidder must include the RFP number and clearly state the facts believed to constitute error in the award recommendation along with the desired remedy. More information about the bidder protest process is available at www.michigan.gov/contractconnect; click on the "Vendor Information" link.

3.4.8 State Administrative Board

State Administrative Board (SAB) approval is required for all Contracts or Purchase Orders of $250,000.00 or more. The decision of the SAB is final; however, SAB approval does not constitute a Contract. The award process is complete when the bidder receives a properly executed Contract or Purchase Order from MDOC-Procurement.

3.5.5 Past Performance

The State may evaluate the bidder's prior performance with the State in making its award decision.

3.5.6 Financial Stability

The State may evaluate the bidder's financial stability in making its award decision. The State may seek financial information from the bidder and from third parties.

EVALUATION RESULTS SUMMARY (100 points possible):

Bidder	Step 1 – Technical	Step 2 - Pricing	Step 3 - Samples
American Textile Systems	Passed – 89 points	See below	See below

Robinson Textiles	Failed – 44 points	Not evaluated	Not evaluated
Carolina Textiles	Passed – 80 points	See below	See below

It was determined by the JEC that the following items on Attachment A-1 would not be awarded to any Contractors: colored t-shirts, boxers, women's briefs, bras and sports bras. The MDOC currently has a contract for women's undergarments, which the department will continue to utilize.

It was determined by the JEC that the following items on Attachment A-3 would not be awarded: tear-away shirts and tear-away pants.

The JEC determined that the following items on Attachment A-4 "Prisoner Outerwear" would not be award to any Contractors: kitchen cap, baseball cap, cold weather hat, mittens, jacket (winter), hood for work crew jacket, bib coveralls, raincoat and rain pants.

The JEC determined that the mattress covers noted on Attachment A-5 "Bed Linens" would not be awarded to any Contractors.

INDIVIDUAL BIDDER EVALUTIONS:

American Textile Systems

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	15/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20/20
Bidder Information: Article 4.1.1, Company Information	1/5
Bidder Information: Article 4.1.9 Prior Experience	13/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**89/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The JEC did not find any deficiencies in this section.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The JEC did not find any deficiencies in this section.

Article 4.1.1, Company Information

- The JEC could not find the Bidder's gross annual sales for the last five years.

Article 4.1.9 Prior Experience

- The Bidder provided a list of two prior experiences, instead of the required three.
- The JEC could only find one of the required three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC

determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
Wool blanket	Pass
Cotton blanket	Pass
Flat sheet (54" x 90" minimum)	Pass
Flat sheet (66" x 104" minimum)	Pass
Bath towel	Pass
Wash cloth	Pass

Keefe Commissary Network, LLC

Step 1: Criteria	Weight Received
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	11/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	18/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**94/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The customer service hours were not evident in the RFP.
- The Bidder's warranty has limited product return. Bidder must be notified within thirty days of purchase for the product to be eligible under warranty.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The JEC did not find any deficiencies in these sections of the RFP.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC could only find two of the required three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item.

It was determined by the JEC that the price for this Bidder's crew socks was too high compared to the MDOC's current price; therefore, this item was not evaluated in Step 3.

It was determined by the JEC that the Bidder's price on the items on Attachment A-2 "Prisoner Sleepwear" were too costly; therefore, these items were not evaluated in Step 3.

It was determined by the JEC that the price for this Bidder's bath towels was too high compared to the MDOC's current price; therefore, this item was not evaluated in Step 3.

Step 3 – Sample Evaluation	**Pass/Fail**
T-Shirt	Failed Step 8 of Attachment D – Product specifications stated that hem of shirt and sleeves must be cleanly finished with no raw edges. The raw edge in the hem is sticking out all around the seam.
Briefs – Men's	Pass
Thermal top (white) – Women's	Pass
Thermal top (off white) – Men's	Pass
Thermal bottom (white) – Women's	Pass
Thermal bottom (off white) – Men's	Pass
Wash cloth	Failed Step 3 of Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ½" x 12".

Lockett Enterprises, LLC

Step 1: Criteria	**Weight Received**
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	30/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	11/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	15/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	18/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**84/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC could not find the Bidder's sizing chart.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The customer service hours were not evident in the RFP.
- The RFP lacked specific details of its quality assurance program.
- The Bidder's response stated that most garments do not come with any warranties.
- The process for reporting warranty issues was not evident in the RFP.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The Bidder's response stated it would work closely with the MDOC to fulfill all requests within the scope of the contract. The Bidder did not acknowledge acceptance of the requested minimum order.
- The JEC could not find the Bidder's acknowledgement any of the packaging requirements listed in Article 1.4.3.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC could only find two of the required three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item.

It was determined by the JEC that the prices for this Bidder's briefs and crew socks were too high compared to the MDOC's current price and proposed pricing of other Bidders; therefore, these samples were not evaluated in Step 3.

It was determined by the JEC that the price for this Bidder's shorts (mesh and smooth) were too high compared to the MDOC's current price; therefore, these items were not evaluated in Step 3.

The JEC determined that the price for this Bidder's wool blankets were too high compared to the MDOC's current price; therefore, these items were not evaluated in Step 3.

Step 3 – Sample Evaluation	**Pass/Fail**
Thermal top – Women's	No pricing provided – sample not evaluated
Thermal bottom – Women's	No pricing provided – sample not evaluated
Thermal top – Men's (red)	No pricing provided – sample not evaluated
Thermal bottom – Men's (off white)	No pricing provided – sample not evaluated
Knit hat	Pass
Gloves (knit – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was knit gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Gloves (fleece – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was fleece gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet (54" x 90" minimum)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet (66" x 104" minimum)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow case	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow protector	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Bath towel	Failed Step 8 on Attachment C – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.5 oz.
Wash cloth	Pass

Tabb Textiles Co., Inc.

Step 1: Criteria	Weight Received
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	11/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	14/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	20/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**90/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The Bidder confirmed that it is able to receive orders by fax or e-mail. The Bidder does not appear to accept orders via telephone or written orders.
- The RFP lacked details of the warranty.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The Bidder's response specified that it would need 30 to 75 days to build inventory levels.
- The Bidder is requesting that orders are placed in increments of "full case" quantities. The MDOC is requesting a no minimum order.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation of Provided Samples	Pass/Fail
Wool blanket	Pass
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet	Pass
Pillow case	Pass
Bath towel	Failed Step 2 on Attachment C – The terrycloth had some missed loops in the middle of the item (approximately ½" wide). There was also a major snag in the item.
Wash cloth	Failed Step 3 on Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ¾" in one

	spot, so the item was not square.

Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	20/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**77/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The RFP lacked details of the Bidder's reporting capabilities.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The State of Michigan account representative was not evident in the RFP.
- The RFP lacked details of its quality assurance program.
- The RFP lacked details of the warranty and the process for reporting warranty issues was not evident in the RFP.
- The Bidder acknowledged it had special incentives; however, the JEC could not find any special incentives listed.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- Section 1.4.1 states "The Bidder must provide its plan for guaranteeing that the deliverables will be delivered within the above time frame(s)." The JEC could not find the Bidder's plan for guaranteeing that deliverables would be delivered on time.
- The Bidder stated that Article 1.4.5 "Delivery Term" was not applicable, since a carrier would be making the deliveries. The Bidder is still responsible for notifying its carriers of the contract delivery terms, such as, process for obtaining LEIN clearance, possibility of mobilizations, delivery hours, MDOC rules, etc.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the Bidder not passing Step 1 - Technical.

Step 1 – Technical Evaluation Score	**82/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section of the RFP.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The customer service hours were not evident in the RFP.
- The RFP lacked details of the Bidder's quality assurance program.
- The Bidder's warranty has limited product return. Bidder must be notified within thirty days for the product to be eligible under warranty.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The MDOC requested that stock items be delivered within 14 calendar days of receipt of order. The Bidder's response specified the delivery time frame would be 5-30 days.
- The Bidder has a minimum order requirement for certain items. The MDOC is requesting a no minimum order.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The Bidder provided a list of five prior experiences; however, the JEC could not find the total project costs, deliverables and dates for each experience.
- The JEC could not find the requested three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	**Pass/Fail**
T-Shirt	Failed Step 7 on Attachment D – The JEC was unable to find the sizing chart for this item.
Briefs – Men's	Pass
Crew socks	Pass
Thermal top – unisex	Failed Step 7 on Attachment D – The sleeves were too short.
Thermal bottom – unisex	Pass
Shirt – Men's (short sleeve)	Pass for men only. Sample does not pass for women since it does not contain a modesty panel or darts at the bust line as specified on Attachment A-3. Also, the pocket is located on the breast instead of on the sleeve as specified for the women's shirt.
Pants – Men's	Failed Step 3 on Attachment D – Item must have one back pocket. Item did not have a pocket.
Jumpsuit – non-insulated (short sleeve)	Pass
Knit hat	Pass
Wool blanket	Pass
Cotton blanket	Failed Step 2 on Attachment E – The item had some see through spots in the middle of the blanket, holes in the

	selvage sides of the fabric and loose strings in the hem.
Flat sheet (54" x 90" minimum, T180)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow case (T180)	Failed Step 3 of Attachment E - The minimum size requirement is 22" x 30". Item measured 20" x 29 ½".
Bath towel	Failed Step 8 on Attachment C - – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.25 oz.
Wash cloth	Failed Step 2 on Attachment C – The hems on the item were coming apart.

Holmdel Footwear LLC

Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	11/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20/20
Bidder Information: Article 4.1.1, Company Information	5/5
Bidder Information: Article 4.1.9 Prior Experience	16/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**92/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The customer service days and hours are limited. The account manager is available 9:00 – 1:30 p.m. EST, Monday-Thursday.
- The RFP lacked details of the Bidder's quality assurance program.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The JEC did not find any deficiencies in these sections of the RFP.

Article 4.1.1, Company Information

- The JEC did not find any deficiencies in this section of the RFP.

Article 4.1.9 Prior Experience

- The JEC could only find one of the required three Attachment F "Reference Forms."

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	**Pass/Fail**
T-Shirt (white)	Pass
Briefs – Men's	Pass
Crew socks	Pass

Just In Trend

Step 1: Criteria	Weight Received
Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35/35
Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	12/15
Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	14/20
Bidder Information: Article 4.1.1, Company Information	1/5
Bidder Information: Article 4.1.9 Prior Experience	8/20
Bidder Information: Article 4.1.10 Contract Performance	5/5
Step 1 – Technical Evaluation Score	**75/100**

Section 1.2.2, Deliverables; Section 1.3.2, Reports

- The JEC did not find any deficiencies in this section.

Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives

- The RFP lacked details of the Bidder's quality assurance program.

Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term

- The Bidder's response specified that it would need 50 to 90 days to build its inventory levels at the beginning of the contract. The Bidder also requested that a rough forecast of the demand be provided.
- The Bidder agreed to the no minimum order; however, it requested a token minimum order value of $250.00. The MDOC is requesting a no minimum order.

Article 4.1.1, Company Information

- The Bidder has been in business for five years. Its gross annual sales for the last five years have ranged from $11,000.00 to $170,000.00. The State's account has the potential of representing 25% or more of the Bidder's total sales. The JEC could not find where the Bidder fully described in its proposal how the company would be scaling up to serve the State's account. The JEC is concerned that the Bidder is not large enough to service the MDOC.

Article 4.1.9 Prior Experience

- The Bidder provided three prior experiences; however, the prior experiences were not of similar size. The JEC is concerned that the Bidder will not be able to provide service to the entire MDOC.
- The Bidder provided three Attachment F "Reference Forms." One of the references stated that the vendor took too long to process orders and had a minimum order that the customer did not satisfy. The reference stated that they would not extend its contract because of the minimum order requirement and that they had to cancel a year-end purchase order because the vendor did not supply items in a timely manner. The other two references were happy with the Bidder; however, they were not of similar size either.

Article 4.1.10 Contract Performance

- The JEC did not find any deficiencies in this section of the RFP.

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the Bidder not passing Step 1 - Technical.

Paradise Pillow Inc.

Investigation Conclusions 19
Recommendations 20
Appendix A 23

Introduction

Snow and ice-covered roads can pose significant risks to public safety and can negatively impact economic activity. Many areas of the country, including Michigan, have historically relied upon the application of road salt to allow safe passage for travelers. The efficacy of road salt is well established. For example, a Marquette University study examined highway accidents occurring in winter-road conditions and found that road salt reduced the instances of crashes by 88 percent while injuries and accident costs were reduced by 85 percent.[1]

However, like any commodity, the cost of road salt can vary, and such changes in cost structure can impact normal business operations and budgets. Recent market prices for road salt have done just that and the price increase warrants the Attorney General's close scrutiny to ensure it is not a result of illegal activity.

Our office previously reviewed road salt pricing in 2009 after receiving complaints of higher prices and possible anticompetitive conduct by the salt suppliers. Following an investigation, which included reviewing the suppliers' extensive responses to our civil investigative demands; we found that the evidence did not support an outcome that anticompetitive conduct was the cause. Rather, the concerns were explained by what appeared to be a legitimate salt shortage.

In 2014, prices for entities buying road salt through the MiDEAL purchasing program for the 2014-2015 winter season rose by more than 46 percent from the previous year.[2] Our office received a number of complaints from state and local agencies questioning the high price of road salt, and some local agencies complained of large price differences between neighboring communities. Upon receipt of these recent complaints, we again conducted a thorough investigation into road salt pricing. In addition to using the information obtained from our 2009 investigation, we reviewed all the road salt bids and awards for the MiDEAL program for the past two years; reviewed other relevant documents related to the 2014-2015 request for proposals (RFPs); interviewed representatives from the four road salt suppliers for the 2014-2015 MiDEAL RFPs; spoke with representatives from local municipalities, as well as Michigan Department of Transportation (MDOT), Michigan Department

of Technology, Management and Budget (DTMB), Federal Trade Commission (FTC), and county roads associations; spoke with other states' attorney generals' offices to discuss road salt prices; toured a salt supplier's production facility; and conducted additional research.

Findings

Our investigation focused on anticompetitive conduct. This report summarizes the information obtained during this investigation and supports the conclusion we reached as a result.

- We did not uncover any evidence of illegal price-fixing by road salt suppliers. The most recent price increase was due to legitimate market conditions caused by last winter's harsh weather. Road salt suppliers and government agencies depleted existing inventories at the end of last winter, which was one of the harshest on record. Suppliers consequently had less road salt to supply for this season while agencies were simultaneously purchasing above-average amounts in order to restock. In addition, due to heavy market demand, fewer road-salt suppliers were willing to bid for supply contracts under the MiDEAL program, which adversely influenced pricing for purchasers.

- Additionally, it appears there are legitimate explanations for the noted price differences between certain municipalities. The decrease in road salt inventories and less willing bidders resulted in more limited bidding in certain counties and cities. And it appears the timing of the MiDEAL bid played a role in some suppliers' decisions not to bid for certain contracts. Also, some entities locked into lower prices well before the current increase, but neighboring municipalities did not.

- Moving forward, we recommend that DTMB review the timing of its MiDEAL bidding process to see if it may be beneficial to issue requests for bids earlier in the year which may alleviate similar bidding situations in future years. Based on our investigation, it appears that opening bids earlier in the year may generate more bids and at lower bid prices. However, following mild winters, it may not be beneficial to issue bids earlier, especially if there is a large supply of salt. Additionally, we recommend that DTMB and MDOT continue to review ways in which MiDEAL can further utilize alternative products, such as sand, and implement technology improvements to potentially reduce road salt usage, and thereby lower costs. Finally, we recommend seeking opportunities to better utilize the Detroit Salt Mine, a significant Michigan resource.

- See recommendations at the end of this report.

Price-Gouging Versus Price-Fixing

"Price-gouging" and "price-fixing" are terms that need some explanation. People often talk about price-gouging whenever prices for goods or services suddenly increase. But the Michigan Consumer Protection Act (MPCA) does not use the term "price-gouging." Rather the section in the statute that most directly prohibits high pricing says that it is unlawful to charge "a *consumer* a price that is *grossly in excess* of the price at which similar property or services are sold." [3]

The specific language of the statute includes some major limitations in this case. It applies to prices charged to consumers, which means that it limits prices charged for products "primarily for personal, family, or household purposes." [4] And the price charged must be grossly in excess of prices charged by other suppliers for the same or similar product. That means that the statute's limit on pricing does not apply if all businesses are charging the same or nearly the same price for a product, even if the price is high.

Price-fixing, on the other hand, is an antitrust violation. Under the Michigan Antitrust Reform Act (MARA) it is unlawful to enter into "[a] contract, combination, or conspiracy between 2 or more persons in restraint of, or to monopolize, trade or commerce in a relevant market...."[5] MARA was modeled on federal antitrust statutes, primarily the Sherman Act.[6] While there are many intricacies in these statutes, antitrust law is basically about preserving competition in the marketplace. When two or more suppliers of competing products agree to limit the competition between them, for instance by agreeing to maintain or raise the price of their product, it may be an antitrust violation. Proving that competitors fixed prices requires having proof of their agreement to do so. Documents that formalize the agreement or show that an agreement existed are strong proof, but often difficult to obtain or non-existent. But other circumstantial evidence may also show that a price-fixing agreement existed, including facts showing that the competitors had a meeting and shortly thereafter they raised prices in a similar fashion.

In the context of this investigation, price-fixing was the appropriate analysis for review, not price-gouging. As the buyers at issue under the MiDEAL program are governmental agencies, not consumers, the MCPA's limitation on pricing is not

applicable. Moreover, simply being charged a high price does not mean that the amount charged is grossly in excess of prices charged by others for road salt. And, as further detailed in this report, our investigation did not find evidence of price-fixing or other illegal anti-competitive conduct.

Road Salt and Mining Information

Road salt is one of the most popular methods of deicing roadways because of its ease of use, effectiveness, and relatively low cost compared to alternative de-icing methods. Road salt, also known as rock salt, is larger and heavier than table salt. Both are the same molecule—sodium chloride—but table salt is ground, purified, and often has additives like iodine and anti-clumping agents.[7] Road salt's size and weight keep it from being easily pushed off the road, and it is used to keep roads and bridges free of snow and ice during wintery weather. Driven by an increased public expectation for safe and clear roads, and fueled by relatively low costs, Michigan has steadily increased its use of road salt over the last 30 years. It was recently reported that public agencies in Michigan use nearly 2 million tons of salt annually to clear snow and ice.[8]

There are approximately 15 salt mines in the U.S. One is owned by Detroit Salt Company and is located in Detroit, Michigan. The salt under Detroit was first discovered in 1895. Development of the resource proceeded slowly until 1914, when the salt mine produced 8,000 tons of rock salt each month. Because of this local resource, Detroit was the first city in the world to apply salt to its roads in 1940.[9] Two mines are located in Ohio, two in New York, and the remainders are in Kansas, Louisiana, Utah, and Nevada.[10] Overall, approximately 35-40 million metric tons of

Note: There are two salt mines in Ontario, Canada, that produce deicing salt. Morton Salt, which is owned by K+S AG, operates a mine in Windsor, Ontario, and Sifto Canada, which is wholly owned by Compass Minerals, operates a mine in Godderich, Ontario

salt are mined annually in the U.S., of which rock salt for ice control accounts for approximately 30 percent.[11]

Mining takes place about 1,000-2,000 feet below the ground. Most rock salt mines use the "room and pillar" system of mining. Shafts are sunk down to the floor of the mine, and rooms are carefully constructed by drilling, cutting and blasting between the shafts, creating a checkerboard pattern.[12] The salt is then crushed and screened to the desired size and brought to the surface to be bagged or shipped in bulk to the customer via railroad cars, trucks, river barges, or lake boats.[13]

MiDEAL Road Salt Program and Other Procurement Methods

In Michigan there are multiple avenues for a government agency to procure road salt. The agency can solicit its own bids or it can join a consortium of local governments to give it added purchasing power.

MiDEAL is an extended purchasing program that allows Michigan local units of government to use state contracts to buy goods and services, including road salt. MCL 18.1263. Through MiDEAL, municipalities across Michigan order salt in two rounds: early fill and seasonal fill. The first "early fill" delivery arrives in December and by December 31 agencies must take delivery of 100% of the early fill tonnage that they ordered. For seasonal fill awards, the agencies can take as little as 70% of the amount they ordered or as much as 130%. The agencies must take delivery of at least 70% of the seasonal fill road salt by the following October.

DTMB has contracts with four road salt suppliers: Cargill, Compass Minerals (f/k/a North American Salt), Detroit Salt Company, and Morton. The contracts expire on August 31, 2016, with two 1-year options, but prices are rebid every spring. The contracts serve MDOT, and approximately 300 local public entities.

On an annual basis, DTMB collects the salt requirements for MiDEAL participants for the upcoming season and supplies the requirements to DTMB for inclusion in the RFP. Suppliers bid county by county for both the early and seasonal fills.

Wayne County is handled somewhat differently than other counties. For the seasonal fill, Wayne County is divided into over 50 separate "drop points," and salt suppliers can bid on any or all of those areas.

Besides MiDEAL, some local agencies contract directly with suppliers or through purchasing consortiums. For example, Genesee County Road Commission (GCRC) has a contract with Detroit Salt.[14] The Michigan Inter-governmental Trade Network (MITN) is a purchasing consortium comprised of over 100 local government agencies that also purchases road salt. And another group salt purchaser is the Downriver Community Conference (DCC), which has approximately 20 members.[15]

Road Salt Pricing

Because of its solubility and the difficulty of large scale storage, surface salt inventories are usually kept at minimal levels.[16] Inventories kept underground in salt mines are stored for short-term imminent sale, such as near winter use for highway de-icing. The basic difference between salt production and salt sold or used is the mathematical change in inventory.[17]

Generally, road salt prices are based on the costs of mining, transportation, and distribution. Mining costs include labor, energy, heavy equipment, explosives, and the purchase of mineral rights.[18] Transportation costs vary considerably across road salt suppliers, given that the suppliers transport the salt to customers via shipping vessels, barges, trains, and trucks, depending on the location of the mines and the suppliers' stockpiles.[19] Since shipping vessels and barges can carry larger

amounts of salt than trains or trucks, moving salt by water is usually the least expensive method of transport. As such, delivery locations nearer to the Great Lakes may see cheaper road salt prices. The price of gas/fuel is another important factor in pricing.

Suppliers' prices are presumably also impacted by market forces, including the prices charged by competitors and information available regarding industry inventory. Competitor pricing is somewhat transparent as governmental RFP bid awards are generally public information.

Supplier bidding is also impacted with uncertainty caused by the bid process. Nine Midwest states, including Michigan, typically open their bids in a short span of time, between May and July. This causes uncertainty because suppliers will not know the tonnage they will be required to supply until the awards are made.

After awards are made, suppliers still face uncertainty because most states require suppliers to commit to supplying anywhere between 70% and 130% of the actual amount of road salt awarded. Some salt suppliers consider spreading their bids out over a wide geography, in spite of transportation costs, because of the 70-130 contract requirements and the unpredictability of snow. If any single geographic area ends up with little to no snow, suppliers run the risk of the community taking only 70% of what was ordered.

Thus, the timing of the bids in other states, the 70-130 structure of the contracts, and the supply left over from the previous season are factors affecting bids as they are developed.[20]

2014-2015 Winter Season Road Salt Prices

According to MDOT, the 2014-2015 winter season average cost of road salt for the state and local road agencies was $65.81 per ton, an increase of about 46 percent over the 2013-2014 average of $44.99 per ton.[21] According to news reports, Washtenaw County reported a 46 percent and 122 percent price hike in 2014 for early and seasonal fills, respectively. And Oakland County expected to pay 25 percent more to get ready for the 2014-2015 winter.[22]

[22] Greenwood, *Detroit Metro Counties Feel Pinch of Salt*, Detroit News (September 24, 2014). Available at

Wayne County reported that in 2013 it was paying $32.67 a ton from Morton Salt for early fill through the MiDEAL program. In 2014, Wayne County ordered 33,000 tons from Compass Minerals for the early fill at a price per ton of $74.42, representing a cost increase to the county of about $1.5 million over last year. Wayne County's 2014 seasonal fill RFP through the MiDEAL program was for 168,800 tons. Detroit Salt bid $47.01 in 11 drop points and won all 11, while Compass bid $58.95 in all 50 drop points and won the drop points where Detroit Salt did not bid. According to Wayne County representatives, the fact that Compass quoted higher prices for the early fill compared to the late fill – $74.42 versus $58.95 – is very unusual.

The City of Dearborn reports that it was paying $74.42 per ton in 2014 for road salt through the MiDEAL program while the Downriver Community Conference (DCC) was paying $50.71 per ton. Jim Perry, the DCC Executive Director, explained that DCC does not obtain its road salt through the MiDEAL program. Rather, the DCC is in the third year of a three-year contract directly with Detroit Salt. Hence, the DCC locked into the $50.71 price two years before prices went up.

Missaukee County has also raised concerns about the high costs of road salt it purchased through MiDEAL, particularly relative to surrounding counties. Compass was the only bidder in 2014 in all of the counties in the top half of the Lower Peninsula. Missaukee County is paying $82 per ton for the early fill while some neighboring counties are paying just under $70 per ton. For the 2014 late fill, Missaukee County is paying $78.61 per ton, while other nearby counties are paying under $70.

The City of Grand Haven reported that its 2014 price through the MiDEAL program went from $48.28 per ton in 2013 to $64.89 per ton in 2014, a 34% increase.

Most recently, the City of Jackson complained to the Attorney General about high road salt prices. Under the MiDEAL program for the 2014 season, the City is paying $80.22 per ton, a 75 percent increase from the $45.98 it paid in 2013. Conversely, Jackson County, which did not participate in the MiDEAL program in 2014, paid $56.17 per ton.

Investigation

The Michigan Attorney General's Corporate Oversight Division took the following actions to investigate road salt prices:

- Reviewed emails between DTMB and the four road salt suppliers for the 2014-2015 RFP.
- Reviewed bid amounts, prices, and awards for 2013-2014 and 2014-2015 RFPs.
- Reviewed the Civil Investigative Demand responses from the four salt suppliers relating to out 2009 road salt investigation.
- Reviewed materials relating to concerns raised by Wayne County, City of Dearborn, and Missaukee County about road salt prices.
- Interviewed each of the four suppliers that submitted MiDEAL bids.
- Toured the Detroit Salt mine production facility.
- Communicated with staff at DTMB.
- Communicated with staff at MDOT.
- Communicated with a representative from the County Roads Association of Michigan.
- Communicated with a representative from the Downriver Community Conference (DCC).
- Communicated with representatives from Wayne County.
- Communicated with other state AAGs to discuss road salt prices.
- Communicated with an attorney at the FTC.
- Reviewed and followed road salt news.
- Conducted independent research on road salt pricing.

2014-2015 Winter Season Road Salt Bids

According to DTMB, two factors combined to create scarce supply and significantly higher prices. Vendors had not sufficiently rebuilt their stockpiles from last year's unusually harsh winter, and some states went out to bid before Michigan. Therefore, bids for the 2014-2015 winter season came in unusually high. DTMB actually conducted second round pricing negotiations, had discussions with all bidders, and then conducted "Best and Final Offer" (BAFO)/third round negotiations in an attempt to get lower prices.

The 2014-2015 road salt bids for the Midwest states were opened in this order:

1.	Minnesota	April 29
2.	Iowa	May 7
3.	Wisconsin	May 13
4.	Ohio early fill	May 13
5.	Pennsylvania	May 28
6.	Indiana	May 30
7.	Missouri early	June 10
8.	**Michigan**	**June 16**
9.	Illinois	July 1
10.	Ohio seasonal fill	July 8
11.	Missouri seasonal	July 22

Notably, Minnesota, Iowa, Wisconsin, Ohio-early fill, and Pennsylvania did not experience the significant price increases seen in Indiana, Missouri, Michigan, Illinois, and Ohio-seasonal fill.

For Michigan's 2014-2015 winter season, DTMB posted the RFP on May 15, 2014, opened the bids on June 16, 2014, and posted the awards on July 24, 2014. The bids were opened over a week later than the year before. And, as mentioned earlier and explained in more detail below, the date of the bid opening appears to be an important date that can influence road salt suppliers' pricing and whether to bid for certain locations.

For the 2014-2015 MiDEAL RFP seeking 1,459,879 tons of road salt:

Cargill bid 0 tons, which is 554,335 tons less than last year.
Detroit Salt bid 226,820 tons, which is 401,680 tons less than last year.
Morton bid 348,295, which is 539,720 tons less than last year.
Compass bid 1,291,079, which is 292,240 tons more than last year.

The Suppliers

Cargill

Cargill, headquartered in Minneapolis, Minnesota, is a privately owned business that provides food, agriculture, financial, and industrial products and services. Cargill Deicing Technology operates three salt mines in the U.S. The mines are located in Cleveland, Ohio; Avery Island, Louisiana; and Lansing, New York. The Cleveland mine, which services Michigan and other Great Lakes states, produces approximately 3.6 million tons of road salt annually. Cargill stockpiles its road salt in the Great Lakes region in Cleveland, Duluth, South Chicago, Green Bay, Milwaukee, Burns Harbor IN, Detroit, and Gladstone, MI.

In Michigan, in response to the 2013-2014 MiDEAL RFP, Cargill bid 236,100 tons of road salt for the early fill and 318,235 in the seasonal fill (but was awarded only a nominal amount). Cargill did not bid any of the 2014-2015 MiDEAL RFP.

In the Midwest, Cargill bid on 4.956 million tons of salt in 2013-2014 and was awarded 2.434 million tons. Cargill bid on 2.808 million tons for the Midwest states in 2014-2015 and was awarded 2.8 million.

Cargill reported that it had very little supply left over after last winter. It also notes that the 2014 demand for salt was high because many expected this to be another rough winter, and states raced to restock their supplies. According to a Cargill representative, crews worked all summer, including on Saturdays, at the company's three salt mines, and the company has even imported salt from Chile to replenish its supply.

Compass Minerals

Compass Minerals, formally North American Salt, is headquartered in Overland Park, Kansas. Compass operates two salt mines that service the U.S. Compass' Godderich, Ontario mine is located on Lake Huron. The mine produces 7.5 million tons of salt annually. It serves areas surrounding the Great Lakes in both the U.S. and Canada and areas that border the St. Lawrence Seaway. Salt is transported to customers via the Great Lakes and the St. Lawrence Seaway. Compass serves Michigan from three stockpiles located on the east coast of Lake Michigan and four stockpiles located on the Detroit River and the west coasts of Lake Huron and Lake Erie.

Compass' second mine is located in Cote Blanch, Louisiana, and services southern states and the southern portions of Indiana, Ohio, and Pennsylvania, plus Wisconsin, Minnesota, and Missouri. Salt is transported from this mine to customers via the Mississippi, Ohio, and Tennessee Rivers.

Compass normally has substantial inventory at the end of a season but had virtually none after the 2013-2014 season. Nonetheless, Compass submitted a bid for every agency on the MiDEAL RFP for both the early and seasonal fills, albeit at higher prices than last year. It appears that their practice is to bid on everything for every RFP with the expectation that they will only get part of the award. In 2014 Compass bid 551,285 tons in the early fill and 739,794 tons in the seasonal fill. Compass was awarded significant tonnage because of the reduced number of tons bid by Morton, Detroit Salt, and Cargill.

Compass was the only bidder for the Wayne County 2014 early fill, priced at $74.42 per ton. Compass quoted $58.95 per ton for all of the Wayne County seasonal drop points and was awarded the drop points not bid on by Detroit Salt. Wayne County representatives explained that it is unusual to see an early fill price higher than a seasonal price. However, as evidenced by the email from Compass asking to have its award reduced, it is apparent that Compass did not expect to win as much of the award as it did. In the 2013-2014 season, Morton Salt won the Wayne County early fill contract and Detroit Salt and Compass won the Wayne County seasonal fill drop points. In a repeat of previous season, for the 2014-2015 season Compass may have bid higher on the Wayne County early fill because it expected to lose and lower on the Wayne County seasonal drop points because it expected to win.

Compass was also the only bidder in 2014-2015 in all of the counties in the top half of the Lower Peninsula, including Missaukee County. As mentioned previously, Missaukee is paying $82 per ton for the early fill while some neighboring counties are paying just under $70 per ton, and for the late fill Missaukee County is paying $78.61 per ton, while some neighbors are paying under $70. A possible reason for the difference in prices between counties this season can be found in last season's prices. In 2013-2014, Compass won almost all of the early fill bids in the North and Grand Regions,[23] except Detroit Salt won those in Missaukee, Roscommon, Osceola, and Montcalm. Hence, it is likely that Compass bid higher in those counties in 2014-2015, expecting to lose to Detroit Salt, but if Compass won it would be able to command higher prices. Compass did win, given that it was the only bidder in those counties.

---

[23] The North Region consists of those counties north of Oceana, Newaygo, Mecosta, Clare, Gladwin, and Arenac. The Grand Region consists of Oceana, Newaygo, Mecosta, Muskegon, Ottawa, Kent, Montcalm, and Ionia counties.

The same is true for the seasonal fill bids. Compass won almost all of the seasonal bids in 2013-2014 for the North and Grand Regions, except Detroit Salt won Missaukee, Morton won Roscommon, Osceola, Oceana, Newaygo, and Muskegon, and Cargill won Kent. Compass bid higher in the counties of Missaukee, Newaygo, and Kent, apparently expecting to lose to Cargill (Kent), Detroit Salt (Missaukee), and Newaygo (Morton).

Similar to the situation in Missaukee County, Compass was the only MiDEAL bidder for the City of Grand Haven in 2014-2015. Compass' prices increased everywhere across the State year over year, and Grand Haven's increased by 34%, which was typical. The increase is explained by the inventory shortages discussed previously.

In total, Compass was awarded over 1 million tons of salt in Michigan for the 2014-2015 season. Because the amount awarded was higher than Compass expected, they requested a reduction in the amount of their award which DTMB denied.

Detroit Salt Company

The Kissner Group, a privately held equity group out of Cambridge, Ontario, purchased the Detroit Salt Company from the Ferrantino family in 2010. Kissner made some investments in the mine this past year with additional contract employees and equipment, so production may increase. The mine is currently running at full capacity. It produces more than one million tons of salt annually. Detroit Salt stockpiles salt for delivery to Michigan customers in Detroit and a new facility (as of November 2013) in Lansing. Detroit Salt delivers salt to its Michigan stockpiles via truck.

In 2014 a substantial portion of Detroit Salt's production was slated for renewal contracts with the City of Chicago, the State of Illinois, Livingston County, Genesee County, and Ft. Wayne, Indiana. Additionally, Detroit Salt provides at least five percent of its production to Kissner for retail sales every year.

For the 2014-2015 season, Detroit Salt bid on the Indiana and Ohio-early fill RFPs before the MiDEAL RFP. The MITN RFP was also opened before the MiDEAL RFP, and MITN awarded 280,000 tons to Detroit Salt. Detroit Salt backed out of the Indiana bid, citing lack of inventory, when Indiana asked it to correct a technicality.

On the MiDEAL RFP, Detroit Salt bid 628,500 tons for the 2013-2014 season and only 226,820 tons for the 2014-2015 season, which is a decrease of 401,680 tons. Detroit Salt was awarded 214,070 tons for the 2014-2015 season. Detroit Salt's representative says that it had virtually no inventory at the end of the 2013-2014 season so all of the salt produced now is being shipped directly to customers. Where

Detroit Salt did bid, their prices were lower than their competition. For example, Detroit Salt bid $47.01 per ton on the MiDEAL Wayne County seasonal fill drop points, while Compass bid $58.95 and Morton bid $65.07. (Cargill did not bid).

Detroit Salt chose not to bid on the City of Jackson's request for 4,525 tons through the MiDEAL program, so the City had to go with the Compass quote of $80.22 per ton it received through MiDEAL. However, Detroit Salt contracted directly with Jackson County for 30,000 tons of road salt at $56.17 per ton. Detroit Salt's choice to bid on Jackson County's RFP but not on the Jackson local units in the MiDEAL RFP appears to be attributable to the timing of the RFPs and the location of the bidder. Just two weeks before the MiDEAL bid was opened, Detroit Salt was awarded the 30,000 ton RFP in Jackson County and another 11,000 ton award in Calhoun County. Detroit Salt did not have enough inventory to bid on all of the MiDEAL requests. It chose not to bid on the City of Jackson's MiDEAL request because it did not want to commit to delivering an even larger amount of salt in the same geographic area, especially in the event of a significant snow event.

During our interview with Detroit Salt's representative, he recommended that the State bid as early as possible following a harsh winter because depleted inventories will push prices higher. In contrast, he recommended the State bid later following a mild winter, when inventories are closer to capacity.

Morton Salt

Morton is headquartered in Chicago, Illinois. It operates the Ojibway mine in Windsor, Ontario, Canada, which can produce approximately 2.569 million tons of road salt per year, and a mine in Fairport, Ohio that can produce approximately 1.4 million tons annually. Morton can stockpile road salt for delivery to Michigan in Benton Harbor, Detroit, Muskegon, Saginaw, and Toledo. Morton transports salt from its mines to its stockpiles by truck.

In Michigan, for the 2013-2014 MiDEAL RFP, Morton bid 888,015 tons and was awarded 162,400 but actually sold 194,856 tons to Michigan agencies because of the harsh winter. In 2014-2015, Morton no-bid the early fill and bid 348,295 tons in the seasonal fill. Morton was awarded only 30,000 tons. In the Midwest states, Morton bid 4.502 million tons in 2013-2014 and sold 1.82 million tons. In 2014-2015, Morton bid 3.147 million tons and was awarded 1.473 million tons. Morton reported it cannot take additional business due to its inventory levels, salt production capacity, and service commitment goals.[24]

[24] Shaver, *Morton Unable to Provide Bulk Road Salt to Wellston*, Jackson County Daily (October 16, 2014). Available at http://www.jacksoncountydaily.com/news/article_72b82f86-436b-570d-abfd-7eb76eba90bc.html.

2014-2015 Winter Season Road Salt Prices in Other Midwest States and Canada

The issue of high road salt prices for the 2014-2015 winter season was not unique to Michigan:

Ohio

Increased salt prices appeared to hit hardest in Ohio, where most counties paid between 43 percent and 128 percent more for salt in 2014 compared to 2013. Some counties rejected bids that were too expensive or received none. The state has stepped in to try to help those counties by buying 170,000 additional tons of salt from an Indiana supplier, Midwest Salt.[25] Midwest Salt reported that it plans to obtain the salt from Morocco and bring it in through the port of Toledo.[26]

Ohio used more than 1 million tons of salt on state roads during the 2013-2014 winter season, which was a nearly 60 percent increase over the average. In 2014, the road salt prices, which are bid on by county, were higher for the first round of bidding for early fill between $36 a ton and $81 a ton, compared to the state average of $35 per ton in 2013. Some communities waited until the second round of bidding for the seasonal fill in hopes of getting a better price, but prices went up, including one quote of $165 per ton. Furthermore, 15 counties received bids of more than $100 per ton, and 10 counties received no bids from suppliers.[27]

Cargill and Morton are the only two companies with salt mines in Ohio. And they have been the only two suppliers of road salt to Ohioans since 1997; probably because Ohio has a "Buy Ohio" law that favors companies that mine salt in Ohio over out-of-state competitors (Ohio miners received a 5% pricing advantage). ODOT only awarded contracts to one of these two companies, even if a non-Ohio salt company submitted a lower bid. This practice discouraged out-of-state vendors from bidding on Ohio salt contracts.[28]

The Ohio Attorney General filed a state antitrust case against Cargill and Morton in Ohio state court in 2012. *State of Ohio v Cargill et al*, Docket No. 12-cv-030268,

[27] *Id.*

[28] See *Erie County v Morton Salt, Inc.*, 2011 WL 4361615, *1-2, (ND Ohio 2011).

Tuscarawas County Court of Common Pleas. The complaint alleges that the two vendors allocated public purchasers, including ODOT, geographically, and therefore were able to raise prices. The State of Ohio survived a motion to dismiss its claim. Discovery is ongoing, and a trial is scheduled for May 12, 2015.

Another complaint making similar allegations was filed by Erie County, Ohio, on behalf of itself and other Ohio counties, in 2011. *Erie County v Morton Salt, Inc et al*, 2011 WL 4361615 (ND Ohio 2011). The district court granted Morton's and Cargill's motions to dismiss, opining that the suppliers' duopoly and increased profits were the result of "'marketplace dysfunction' caused by ODOT's erroneous interpretation of the Buy Ohio law, not of any wrongdoing by the defendants."[29] Erie County appealed to the U.S. Court of Appeals for the Sixth Circuit. While the appeal was pending, Erie County discovered that the counties have never been bound by the Buy Ohio law.[30] The Sixth Circuit affirmed on other grounds, holding that while it appeared that the salt companies engaged in parallel conduct, plaintiffs did not "allege facts sufficient to raise a plausible inference of an unlawful agreement to restrain trade."[31]

Had the counties been bound by the Buy Ohio law, however, the Sixth Circuit court opined that facts were sufficient to raise an inference that the companies engaged in sham bidding.[32] That is because under the Buy Ohio law, for one of the two defendants to automatically win, there has to be bids from at least two suppliers that mine salt in Ohio. As a result, the suppliers bid everywhere, but it appeared that they purposefully submitted losing bids in each other's historical territories.[33]

Indiana

An Indiana procurement agent supplied DTMB with copies of the Indiana road salt awards for 2013-2014 and 2014-2015. Those awards show that Indiana paid between $48.75 and $79 per ton in 2013 and between $71 and $106 per ton in 2014. All four suppliers responded to the initial 2014-2015 RFP, but Detroit Salt withdrew its bid during an initial clarification round. For the past five years, the state has used on average 352,000 tons of salt. During the 2013-2014 winter season, which saw heavy snow and bitterly cold temperatures, the state used more than 437,000 tons of salt.[34]

Illinois

Illinois officials said the 2014-2015 season's prices ranged from $75 a ton to more than $130 per ton, up from the previous year's statewide average of about $55. Like other states, Illinois offered centralized purchasing to local governments, but many did not receive bids. Illinois said that it is continuing to work with those communities by connecting them with vendors, and believes that those who need salt ultimately will be able to get it.[35]

Illinois reported to DTMB that it coordinates road salt bids for over 500 local entities, with RFPs requested for half of the locals each year, in alternating years. One of the two-year contracts in their portfolio has a cap on price escalations during the second year. That vendor did honor the 5% escalation contract cap for the usage specified ($55-$60/ton) for the 2014-2015 season.

The locations being taken to market for 2014-2015 pricing had a different experience. In the initial round of bidding, 195 of the local public entities received no bids. Of the locations bid, pricing ranged from approximately $70 - $140 per ton. Illinois chose to issue a second bid, along with 90 local entities, and only 20 locals received bids. Some pricing was over $140.

Missouri

MoDOT said the department paid an average of $80 per ton for road salt for the 2014-2015 winter season. In 2013, it was paying an average of $60 per ton. The department headed into this winter with 220,000 tons of road salt, and on average it uses 180,000 per winter. During the 2013-2014 winter, however, the department used 215,000 tons and bought additional road salt during the season.[36]

Pennsylvania

Pennsylvania reported a modest 8 to 9 percent increase in salt prices for the 2014-2015 winter season. State transportation officials said they used about 1.2 million tons of road salt during the previous winter, a 43 percent increase over the five-year average.[37] Pennsylvania opened its bid before Indiana, Illinois, Michigan, Missouri, and Ohio-seasonal.

Wisconsin

Officials in Wisconsin paid on average 14 percent more for salt in 2014. A Wisconsin state highways official said he knew the increase was coming but was grateful the state was able to secure salt for all of Wisconsin's 72 counties and hundreds of municipalities.[38] Wisconsin was the third of the Midwest states to open its bid.

Iowa

Iowa officials said that planning ahead enabled the state to lock in a good price for the 2014-2015 season. The Iowa DOT was proactive in putting together a contract for the year and no supply issues were reported.

Statewide prices went up an average of $10 per ton, depending upon which part of the state. The overall average price per ton is $82, about a 13 percent increase over 2013.[39] Iowa was the second state to open its bid.

Minnesota

Minnesota communities paid about 4 percent more on average in 2014 for salt, which the state is crediting to securing prices in early spring before prices jumped. Some local governments paid about 15 percent more, but most increases were more moderate.[40] Minnesota was the first of the Midwest states to open their bid.

Canada

Governmental agencies in Canada did not experience the price increases and shortages that we saw in the U.S for the 2014-2015 winter season. In Canada, regional and provincial government agencies typically contract with private entities to provide winter services. The services include plowing, salt application, sidewalk clearing, etc. These private entities have contracts with the road salt suppliers that are typically multi-year agreements for the purchase of a specified amount of salt. The contracts contain negotiated annual price provisions, which specify the size of a price increase, irrespective of any significant fluctuation in year-to-year demand. Additionally, the salt suppliers' contracts have staggered end dates, so they start each bid season with a known, "committed" amount of salt to be sold to Canadian purchasers.

Investigation Conclusions

Our investigation did not find evidence of price-fixing or other illegal anti-competitive conduct. The 2013-2014 winter was the snowiest winter on record in many Great Lakes states. Michigan's four suppliers report that they depleted their inventories by spring 2014, which is highly unusual as they typically have 15-20 percent inventory remaining at the end of a season. In addition, many states, counties and local municipalities depleted their inventories as well, so the tonnage they requested increased.

A review of road salt contracting in eight other Midwest states indicates that road salt prices increased as the states' bids were opened between May and July 2014. In other words, the later the bid was opened, the higher the price of salt. This timing issue is consistent with salt suppliers having insufficient inventories to cover the demand.

When salt suppliers bid for states' business, they try to win only as much business as they can serve with their expected inventories, and this year their inventories were low. They might bid higher prices in areas where they don't expect to win and lower prices in areas that they want to win. With decreased inventory, they bid higher in a greater number of areas than usual. If they win the higher priced bids, they can meet their obligation with higher cost product, such as salt mined in South America. Due to heavy market demand, fewer road-salt suppliers were willing to bid for supply contracts under the MiDEAL program, which adversely affected pricing for purchasers.

---

http://bigstory.ap.org/article/7623d35d1a6145e9b88ec6ade6db229e/summary-snow-states-road-salt-problems

It also appears that there are legitimate explanations for the salt pricing issues raised by Missaukee County, the City of Grand Haven, the City of Jackson, Wayne County, and the City of Dearborn. Due to low salt supplies, only one supplier bid in Missaukee County and City of Grand Haven for the 2014-2015 winter season. This same rationale also applies to the City of Jackson. Detroit Salt did not bid for Jackson under the MiDEAL program in 2014 due to low salt supplies and a need to not overextend itself in the area, since two weeks before the MiDEAL bid was opened Detroit Salt was awarded a 30,000 ton contract with Jackson County and an 11,000 ton contract with Calhoun County. Likewise, Wayne County's pricing anomalies were likely caused by low inventories and the fact that only one supplier bid on the 2014 early fill. Lastly, the City of Dearborn's higher prices compared to the Downriver Community Conference are a result of DCC's three-year contract with a salt supplier.

Recommendations

1) Consider updates to the State bidding process

While this investigation focused on anticompetitive conduct, based on our findings, it appears the timing of the bidding is a crucial factor affecting road salt prices. Understanding that pricing of road salt is a complex process, we recommend further discussions with DTMB and MDOT to identify ways to improve Michigan's position in MiDEAL's road salt bidding process. One potential option is to set an earlier bid date to enable local governments to buy salt earlier in the season and to negotiate multiyear contracts. It appears that opening bids earlier in the year can generate more bids and at lower prices. We understand, however, that following mild winters it may be advantageous to delay the bidding process since stockpiles are high and prices may be lower. Accordingly, we recommend that DTMB review the timing of the bid process and work closely with municipalities to lock in competitive road salt prices.

2) Consider alternatives to road salt and modifying distribution methods

During our investigation we learned that one way to stretch the limited supply of salt is to combine it with other materials. Sand is most commonly used, but it is not the only option. It is our understanding that public works agencies are working with local businesses to obtain manufacturing byproducts to mix in with the salt. They are experimenting with additives such as cheese brine and molasses, rum and vodka distillery leftovers, and sugar beet juice.[41] We recommend that DTMB and MDOT reevaluate how MiDEAL can further utilize alternative products, including products already available under the MiDEAL program.

[41] This report does not address any environmental issues concerning the use of road salt or alternative road de-icing materials.

MDOT is already looking for ways to make salt distribution more efficient and implement techniques to reduce "bounce and scatter" and we encourage this continued review. Properly calibrated dispensing equipment can cut waste by nearly 35%.[42] Washtenaw County, for example, is having salt trucks drive slower and pre-wetting the salt to prevent bounce and scatter.[43]

Combined, new materials and efficient distribution can potentially reduce usage, and thereby lower costs.

According to Mackinac Center for Public Policy, there is no single "silver bullet," but rather a collection of practices that improve overall efficiency and effectiveness. The Center recommends improved plowing technologies, greater focus on calibration procedures, operator training, materials-placement strategies, greater use of liquids, advanced forecasting of weather and pavement conditions, improved material-spreading equipment, and greater public awareness.[44]

3) Evaluate ways to better utilize the Detroit Salt Mine

A major Michigan salt resource is the Detroit Salt Mine. This mine has been in operation for almost 100 years and the Detroit Salt Company appears to have potential to improve its delivery and production methods. Such improvements may potentially result in lower salt prices for the State of Michigan and its citizens. The mine is located 1,200 feet beneath Detroit's surface, spreads out more than 1,500 acres and has over 100 miles of underground roads.[45] As stated previously, it produces more than one million tons of salt annually. This is a smaller operation compared to the other mines in the area.

We recommend that the appropriate state agency meet with Detroit Salt to see if there may be ways to encourage better use of this resource. The company provides jobs to Michigan citizens and the mine is part of Detroit's history. One area to address is Detroit Salt's current delivery methods. It delivers salt to its Michigan stockpiles via truck, and does not use shipping or rail for Michigan deliveries. Increasing Detroit Salt's access to Michigan docks, thereby improving their ability to deliver its salt may allow it to bid in more Michigan communities. Due to its close proximity there may be an opportunity to reduce transportation costs if

delivery methods improve. In theory, increased competitive bids will result in better pricing. We also recommend discussing ways that the State can support improving Detroit Salt's production methods. An increase in production may allow Detroit Salt to bid in more Michigan localities.

MICHIGAN DEPARTMENT OF CORRECTIONS

"Expecting Excellence Every Day"

MEMORANDUM

DATE:

TO: Julie Hamp, Procurement Manager

FROM: Lisa Lehnert, Proposal Manager/Buyer

SUBJECT: Award Recommendation for 047214B0001865 Prisoner Clothing and Linens

BACKGROUND INFORMATION/GENERAL:
This Request for Proposal (RFP) is for the Michigan Department of Corrections (MDOC), Michigan State Industries (MSI) to obtain bids from qualified vendors to provide prisoner clothing and linens.

The contract period is three years, with two additional one year options.

BID EVALUATION METHOD:
Proposals for this solicitation were evaluated by a Joint Evaluation Committee (JEC) comprised of:

Voting Members	Advisory Members
Jeri Ann Sherry, Deputy Director Department of Corrections	Lisa Lehnert, Buyer Department of Corrections
Jeffrey Woods, Warden Dept. of Corrections	Norma Killough, Administrative Assistant Department of Corrections
Linda Rubingh, Assistant Business Manager- Jackson Office Department of Corrections	

BIDDERS:
The RFP was posted on Buy4Michigan on April 18, 2014, and was available for 41 days with a published due date of May 29, 2014. On May 22, 2014, Amendment #3 was posted on Buy4Michigan to revise the bid opening date to June 12, 2014. The following bidders submitted proposals in response to this RFP:

Bidder	City, State	Michigan Business	SDVOB
American Textile Systems	Cerritos, CA	No	No
Keefe Commissary Network, LLC	Strongsville, OH	No	No
Lockett Enterprises, LLC	Flint, MI	Yes	Yes
Tabb Textiles Co., Inc.	Opelika, AL	No	No
Grand Strategy LLC	South Haven, MI	Yes	Yes
Uniforms Manufacturing, Inc.	Scottsdale, AZ	No	No
Northwest Woolen Mills	Woonsocket, RI	No	No

Charm Tex	Brooklyn, NY	No	No
OD Taragin & Bros. LLC	Baltimore, MD	No	No
Bob Barker Company Inc.	Fuguay Varina, NC	No	No
Holmdel Footwear LLC	Marlboro, NJ	No	No
Just In Trend	Johnston, IA	No	No
Paradise Pillow Inc.	Philadelphia, PA	No	No
Scion Industries	Springfield, IL	No	No
Robinson Textiles	Gardena, CA	No	No
Carolina Textiles	Charlotte, NC	No	No

SELECTION CRITERIA AND EVALUATION:

3.4.1 Method of Evaluation

Proposals will be evaluated by a JEC.

3.4.2 Evaluation Criteria

Step 1
Technical evaluation of written bid proposal
The following chart represents the scoring of the particular factors:

	Technical Evaluation Criteria	Weight
1.	Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35
2.	Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	15
3.	Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20
4.	Bidder Information: Article 4.1.1, Company Information	5
5.	Bidder Information: Article 4.1.9 Prior Experience	20
6.	Bidder Information: Article 4.1.10 Contract Performance	5
	Total	100

Step 2
For those bidders with a passing technical score of 80 or more in Step 1, their pricing will be evaluated. The State reserves the right to perform price negotiations as part of Step 2. In its sole discretion, the State will determine which bidders are in a competitive price range to proceed to Step 3.

Step 3
Samples will be evaluated for the bidder or bidders with a passing technical score in Step 1, and who are determined to be within a competitive price rage in Step 2. Evaluation of samples will be pass/fail, on an item by item basis. Sample evaluation forms are included as Attachment C, Bath Linens Evaluation Form; Attachment D, Clothing Evaluation Form; and Attachment E, Bed Linens Evaluation Form.

Step 4
Best value determination based on those who pass Steps 1, 2, and 3 above.

3.4.3 Technical and Price Evaluation

(a) Proposals receiving a score of 80 points or more will be considered for award.

(b) Price proposals will only be evaluated from those bidders that the State considers for award in accordance with subsection (a). Evaluation of price proposals includes consideration of a qualified disabled veteran preference. MCL 18.1261 establishes a preference of up to 10% for businesses owned by qualified disabled veterans that are considered for award in accordance with subsection (a).

3.4.4 Award Recommendation

The award recommendation will be made for the bidder that: (a) is considered for award in accordance with Section 3.4.3(a), Technical and Price Evaluation; (b) has its price proposal evaluated under Section 3.4.3(b), Technical and Price Evaluation; and (c) in the State's determination, offers the best value to the State.

3.4.5 Reservations

The State reserves the right to:

(a) consider total cost of ownership in the final award recommendation (i.e. transition costs, training costs, etc.);
(b) award by item or part of an item;
(c) reject any proposals in whole or in part;
(d) award multiple, optional-use contracts. The State may evaluate offers based on advantages and disadvantages that may result from making more than one award;
(e) consider overall economic impact. This includes considering principal place of performance, number of Michigan citizens employed or potentially employed, money paid to Michigan residents, Michigan capital investments, etc;
(f) award to another bidder if the recommended bidder does not accept the award;
(g) give a preference for products manufactured or services offered by Michigan-based firms if all other things are equal and if consistent with federal statutes. (MCL 18.1261);
(h) disqualify any bid based on the failure to complete the Vendor Categories in the Buy4Michigan registration; and
(i) disqualify any bid based on the information provided in the Vendor Categories in the Buy4Michigan registration.

3.4.6 Award Decision

Award recommendation will be made to the Director of MDOC.

3.4.7 Protests

If a bidder wishes to protest the award recommendation, the bidder must submit a written protest by the date and time stated in the attachment provided with the recommendation (bid tab). The bidder must include the RFP number and clearly state the facts believed to constitute error in the award recommendation along with the desired remedy. More information about the bidder protest process is available at www.michigan.gov/contractconnect; click on the "Vendor Information" link.

3.4.8 State Administrative Board

State Administrative Board (SAB) approval is required for all Contracts or Purchase Orders of $250,000.00 or more. The decision of the SAB is final; however, SAB approval does not constitute a Contract. The award process is complete when the bidder receives a properly executed Contract or Purchase Order from MDOC-Procurement.

3.5.5 Past Performance

The State may evaluate the bidder's prior performance with the State in making its award decision.

3.5.6 Financial Stability

The State may evaluate the bidder's financial stability in making its award decision. The State may seek financial information from the bidder and from third parties.

EVALUATION RESULTS SUMMARY (100 points possible):

Bidder	Step 1 – Technical	Step 2 - Pricing	Step 3 - Samples
American Textile Systems	Passed – 89 points	See below	See below
Keefe Commissary Network, LLC	Passed – 94 points	See below	See below
Lockett Enterprises, LLC	Passed – 84 points	See below	See below
Tabb Textiles Co., Inc.	Passed – 90 points	See below	See below
Grand Strategy LLC	Passed – 98 points	See below	See below
Uniforms Manufacturing, Inc.	Passed – 98 points	See below	See below
Northwest Woolen Mills	Failed – 77 points	Not evaluated	Not evaluated
Charm Tex	Passed – 87 points	See below	See below
OD Taragin & Bros. LLC	Failed - 74 points	Not evaluated	Not evaluated
Bob Barker Company Inc.	Passed – 81 points	See below	See below
Holmdel Footwear LLC	Passed – 92 points	See below	See below
Just In Trend	Failed – 73 points	Not evaluated	Not evaluated
Paradise Pillow Inc.	Failed – 52 points	Not evaluated	Not evaluated
Scion Industries	Not evaluated – non-responsive	Not evaluated	Not evaluated
Robinson Textiles	Failed – 44 points	Not evaluated	Not evaluated
Carolina Textiles	Passed – 83 points	See below	See below

It was determined by the JEC that the following items on Attachment A-1 would not be awarded to any Contractors: colored t-shirts, boxers, women's briefs, bras and sports bras. The MDOC currently has a contract for women's undergarments, which the department will continue to utilize.

It was determined by the JEC that the following items on Attachment A-3 would not be awarded: tear-away shirts and tear-away pants.

The JEC determined that the following items on Attachment A-4 "Prisoner Outerwear" would not be award to any Contractors: kitchen cap, baseball cap, cold weather hat, mittens, jacket (winter), hood for work crew jacket, bib coveralls, raincoat and rain pants.

The JEC determined that the mattress covers noted on Attachment A-5 "Bed Linens" would not be awarded to any Contractors.

INDIVIDUAL BIDDER EVALUTIONS:

American Textile Systems

The JEC determined that American Textile Systems passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 35/35

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 15/15

- The bidder met the requirements of this section.
- The bidder offered a 1/2% payment discount if paid within 10 days.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 20/20

- The bidder met the requirements of this section.

Company Information (4.1.1) Score: 1/5

- The JEC could not find the Bidder's gross annual sales for the last five years.

Prior Experience (4.1.9) Score: 13/20

- The Bidder provided two prior experiences (from the same entity) in Section 4.1.9, instead of the required three. The entity was contacted for a reference and the reference was positive.
- The JEC could only find one of the required three Attachment F "Reference Forms." The reference is satisfied with the

bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 89/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
Wool blanket	Pass
Cotton blanket	Pass
Flat sheet (54" x 90" minimum)	Pass
Flat sheet (66" x 104" minimum)	Pass
Bath towel	Pass
Wash cloth	Pass

Keefe Commissary Network, LLC

The JEC determined that Keefe Commissary Network, LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service hours were not evident in the RFP.
- The Bidder's warranty has limited product return. Bidder must be notified within thirty days of purchase for the product to be eligible under warranty.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 20/20**

- The bidder met the requirements of this section.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 18/20**

- The bidder provided three prior experiences as requested in Section 4.1.9. Two of entities completed the Attachment F "Reference Forms."
- The JEC could only find two of the required three Attachment F "Reference Forms." The two references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 94/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's price(s) for the following items when compared to the MDOC's current pricing and pricing of other bidders were not in the competitive range; therefore, the item was not evaluated in Step 3:

1. Crew socks
2. Bathrobes

3. Bath towels

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt	Failed Step 8 of Attachment D – Product specifications stated that hem of shirt and sleeves must be cleanly finished with no raw edges. The raw edge in the hem is sticking out all around the seam.
Briefs – Men's	Pass
Thermal top (white) – Women's	Pass
Thermal top (off white) – Men's	Pass
Thermal bottom (white) – Women's	Pass
Thermal bottom (off white) – Men's	Pass
Wash cloth	Failed Step 3 of Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ½" x 12".

Lockett Enterprises, LLC

The JEC determined that Lockett Enterprises, LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 30/35**

- The JEC could not find the Bidder's sizing chart. However, the items that passed Step 2 to proceed to Step 3 did not require a sizing chart for evaluation purposes.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service hours were not evident in the RFP.
- The RFP lacked specific details of its quality assurance program.
- The Bidder's response stated that most garments do not come with any warranties.
- The process for reporting warranty issues was not evident in the RFP.
- The bidder offered a 5% payment discount if paid within 10 days.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 15/20**

- Section 1.4.1 states "The State requests no minimum order." The Bidder's response stated it would work closely with the MDOC to fulfill all requests within the scope of the contract. The Bidder did not acknowledge acceptance of the "no minimum order."
- The JEC could not find the Bidder's acknowledgement any of the packaging requirements listed in Article 1.4.3.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 18/20**

- The bidder provided two prior experiences in Section 4.1.9, instead of the required three. The entities completed the Attachment F "Reference Forms."
- The JEC could only find two of the required three Attachment F "Reference Forms." The two references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Score: 84/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's price(s) for the following items when compared to the MDOC's current pricing and pricing of other bidders for that item, were not in the competitive range; therefore, the item was not evaluated in Step 3:

1. Men's briefs
2. Crew socks

3. Shorts (mesh and smooth)
4. Wool blankets

Step 3 – Sample Evaluation	**Pass/Fail**
Thermal top – Women's	No pricing provided – sample not evaluated
Thermal bottom – Women's	No pricing provided – sample not evaluated
Thermal top – Men's (red)	No pricing provided – sample not evaluated
Thermal bottom – Men's (off white)	No pricing provided – sample not evaluated
Knit hat	Pass
Gloves (knit – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was knit gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Gloves (fleece – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was fleece gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet (54" x 90" minimum)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet (66" x 104" minimum)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow case	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow protector	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Bath towel	Failed Step 8 on Attachment C – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.5 oz.
Wash cloth	Pass

Tabb Textiles Co., Inc.

The JEC determined that Tabb Textiles Co., Inc. passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5)

Score: 11/15

- The Bidder confirmed that it is able to receive orders by fax or e-mail. The Bidder does not appear to accept orders via telephone or written orders.
- The RFP lacked details of the warranty.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing(1.4.4); Delivery Term (1.4.5) Score: 14/20

- The Bidder's response specified that it would need 30 to 75 days to build inventory levels.
- Section 1.4.2 states "The State requests no minimum order." The Bidder is requesting that orders are placed in increments of "full case" quantities. The MDOC is requesting a no minimum order.

Company Information (4.1.1) Score: 5/5

- The bidder met the requirements of this section.

Prior Experience (4.1.9) Score: 20/20

- The bidder met the requirements of this section. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) Score: 5/5

- The bidder met the requirements of this section.

Total Score: 90/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation of Provided Samples	Pass/Fail
Wool blanket	Pass
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet	Pass
Pillow case	Pass
Bath towel	Failed Step 2 on Attachment C – The terrycloth had some missed loops in the middle of the item (approximately ½" wide). There was also a major snag in the item.
Wash cloth	Failed Step 3 on Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ¾" in one spot, so the item was not square.

Grand Strategy LLC

The JEC determined that Grand Strategy LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 35/35

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 15/15

- The bidder met the requirements of this section.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 18/20

- Section 1.4.2 states "The State requests no minimum order." The Bidder is requesting that orders are placed in increments of "full case" quantities. The MDOC is requesting a no minimum order.

Company Information (4.1.1) Score: 5/5

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 20/20**

- The bidder met the requirements of this section. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 98/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the Bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
Wool blanket	Pass
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet	Pass
Pillow case	Pass
Bath towel	Failed Step 3 on Attachment C - The minimum size requirement is 20" x 40". Item measured 19 ¼" x 41".
Wash cloth	Pass

Uniforms Manufacturing, Inc.

The JEC determined that Uniform Manufacturing, Inc. passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 15/15**

- The bidder met the requirements of this section.
- The bidder states that some quantity discounts may become available within the course of the contract.
- The bidder states that should any price breaks arise, the savings will be passed on to the State.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 19/20**

- Standard stock items, such as t-shirts and shorts, may possibly not be wrapped in plastic.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 19/20**

- The bidder provided the three prior experiences; however, the JEC could not find the dates for each experience. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 98/100

Step 2 – Pricing Evaluation

The pricing proposals for bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt (white)	Pass
Briefs – Men's	Failed Step 2 on Attachment D – Fabric was see through and some of the seams were not finished neatly. Some of the seams were puckered.
Crew socks	Pass
Thermal top – unisex	Pass
Thermal bottom – unisex	Failed Step 2 on Attachment D - One leg is wider than the other (5 ¼ inches and 6 inches). One leg is longer than the other (27 inches and 27 ¾ inches). The waistband was missing some stitching.
Shorts	Pass
Shirt – Women's (long sleeve)	Pass
Shirt – Women's (short sleeve)	Pass
Pants – Women's	Pass
Shirt – Men's (long sleeve)	Pass
Shirt – Men's (short sleeve)	Pass
Pants – Men's	Pass
Shirt – Unisex (Dress-out)	Pass
Pants – Men's (Dress-out)	Pass
Pants – Women's (Dress-out)	Pass
Jumpsuit – insulated (long sleeve)	Pass
Jumpsuit – non-insulated (short sleeve)	Pass
Knit hat	Pass
Jacket (winter)	Failed – The product specifications listed on Attachment A-4 "Prisoner Outerwear" stated this item must have ribbed bottom and ¾ lengths. The product sample submitted did not have a ribbed bottom and it was not ¾ lengths.
Jacket (work crew)	Pass

Northwest Woolen Mills

The JEC determined that Northwest Woolen Mills failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 30/35**

- The RFP lacked details of the bidder's reporting capabilities.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5)
Score: 5/15

- The State of Michigan account representative was not evident in the RFP.
- The RFP lacked details of its quality assurance program.
- The RFP lacked details of the warranty and the process for reporting warranty issues was not evident in the RFP.
- The bidder acknowledged it had special incentives; however, the JEC could not find any special incentives listed.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 12/20**

- Section 1.4.1 states "The bidder must provide its plan for guaranteeing that the deliverables will be delivered within the above time frame(s)." The JEC could not find the bidder's plan for guaranteeing that deliverables would be delivered on time.
- The bidder stated that Article 1.4.5 "Delivery Term" was not applicable, since a carrier would be making the deliveries. The bidder is still responsible for notifying its carriers of the contract delivery terms, such as, process for obtaining LEIN clearance, possibility of mobilizations, delivery hours, MDOC rules, etc.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 20/20**

- The bidder met the requirements of this section. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 77/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Charm Tex

The JEC determined that Charm Tex passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service hours were not evident in the RFP.
- The toll-free telephone number was not evident in the RFP.
- The process for reporting warranty issues was not evident in the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 20/20**

- The bidder met the requirements of this section.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 11/20**

- The bidder provided a list of four prior experiences; however, the JEC could not find the total project costs and dates for each experience. The entities were contacted and two responded back. Both were satisfied with the bidder.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 87/100

Step 2 – Pricing Evaluation

The pricing proposals for bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
Briefs – Men's	Failed Step 2 of Attachment D – The sides of the item were not even. One side was 7 inches and the other side was 7 ½ inches.
Crew socks	Pass
Wool blanket	Failed Step 1 of Attachment E – Product requirement must be a minimum of 80% wool. Item was only 70% wool.
Cotton blanket	Pass
Flat sheet	Failed Step 2 of Attachment E – The item had snags and holes in the fabric.
Flat sheet	Pass – The item met the size requirement for the 54" x 90" flat sheet. Item measured 59" x 100".
Pillow case	Failed Step 3 of Attachment E - The minimum size

	requirement is 22" x 30". Item measured 19 ½" x 30".
Bath towel	Failed Step 3 of Attachment C - The minimum size requirement is 20" x 40". Item measured 19 ½" in one location and 21 ¾" in another location. The edge of the item was cut in a "wavy" fashion.
Wash cloth	Failed Step 2 of Attachment C – The item was dingy and had some major snags.

OD Taragin & Bros. LLC

The JEC determined that OD Taragin & Bros. LLC failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 32/35

- The JEC could not find the bidder's sizing chart for T-shirts, thermal tops and thermal bottoms. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 10/15

- The RFP lacked details of its quality assurance program.
- The process for reporting warranty issues was not evident in the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 12/20

- Section 1.4.1 "Time Frames" states "The bidder must provide its plan for guaranteeing that the deliverables will be delivered within the above time frame(s). This must include meeting the delivery time frame even during the specific holidays, plant shutdowns, etc., listed above." The JEC could not find the bidder's plan for guaranteeing that deliverables would be delivered on time, including when its suppliers are closed or shutdown.
- The bidder stated that all its deliveries will be made by common carriers, such as FedEx or UPS. The JEC could not find where the bidder acknowledged that it would notify its carriers of the contract delivery terms, such as, process for obtaining LEIN clearance, possibility of mobilizations, delivery hours, MDOC rules, etc.

Company Information (4.1.1) Score: 1/5

- The JEC could not find the bidder's gross annual sales for the last five years.

Prior Experience (4.1.9) Score: 14/20

- The bidder provided three prior experiences; however, the references were not contacted since the bidder did not pass technical.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) Score: 5/5

- The bidder met the requirements of this section.

Total Score: 74/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Bob Barker Company Inc.

The JEC determined that Bob Barker Company Inc. passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 34/35

- The JEC could not find the bidder's sizing chart for T-shirts. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 8/15

- The customer service hours were not evident in the RFP.
- The RFP lacked details of the bidder's quality assurance program.

- The bidder's warranty has limited product return. Bidder must be notified within thirty days for the product to be eligible under warranty.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 18/20

- The MDOC requested that stock items be delivered within 14 calendar days of receipt of order. The bidder's response specified the delivery time frame would be 5-30 days.
- The bidder has a minimum order requirement for certain items. The MDOC is requesting a no minimum order.

Company Information (4.1.1) Score: 5/5

- The bidder met the requirements of this section.

Prior Experience (4.1.9) Score: 11/20

- The bidder provided a list of five prior experiences; however, the JEC could not find the total project costs, deliverables and dates for each experience. The entities were contacted and two responded back. Both were satisfied with the bidder.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) Score: 5/5

- The bidder met the requirements of this section.

Total Score: 81/100

Step 2 – Pricing Evaluation

The pricing proposals for bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt	Failed Step 7 on Attachment D – The JEC was unable to find the sizing chart for this item.
Briefs – Men's	Pass
Crew socks	Pass
Thermal top – unisex	Failed Step 7 on Attachment D – The sleeves were only 19 inches long on a sample of the large size. The sleeves are too short.
Thermal bottom – unisex	Pass
Shirt – Men's (short sleeve)	Pass for men only. Sample does not pass for women since it does not contain a modesty panel or darts at the bust line as specified on Attachment A-3. Also, the pocket is located on the breast instead of on the sleeve as specified for the women's shirt.
Pants – Men's	Failed Step 3 on Attachment D – Item must have one back pocket. Item did not have a pocket.
Jumpsuit – non-insulated (short sleeve)	Pass
Knit hat	Pass
Wool blanket	Pass
Cotton blanket	Failed Step 2 on Attachment E – The item had some see through spots in the middle of the blanket, holes in the selvage sides of the fabric and loose strings in the hem.
Flat sheet (54" x 90" minimum, T180)	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Pillow case (T180)	Failed Step 3 of Attachment E - The minimum size requirement is 22" x 30". Item measured 20" x 29 ½".
Bath towel	Failed Step 8 on Attachment C - – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.25 oz.
Wash cloth	Failed Step 2 on Attachment C – The hems on the item were coming apart.

Holmdel Footwear LLC

The JEC determined that Holmdel Footwear LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service days and hours are limited. The account manager is available 9:00 – 1:30 p.m. EST, Monday-Thursday.
- The RFP lacked details of the bidder's quality assurance program.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 20/20**

- The bidder met the requirements of this section.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 16/20**

- The bidder provided the three prior experiences. The entities were contacted and one responded back that it was satisfied with the bidder.
- The JEC could only find one of the required three Attachment F "Reference Forms." The reference form was positive and the entity is satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 92/100

Step 2 – Pricing Evaluation

The pricing proposals for bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt (white)	Pass
Briefs – Men's	Pass
Crew socks	Pass

Just In Trend

The JEC determined that Just In Trend failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 33/35**

- The JEC could not find the bidder's sizing chart for prisoner shirts and prisoner pants. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 12/15**

- The RFP lacked details of the bidder's quality assurance program.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 14/20**

- The bidder's response specified that it would need 50 to 90 days to build its inventory levels at the beginning of the contract.
- Although the JEC did not deduct any points for this, the JEC is concerned with the bidder's request for a rough forecast of the MDOC's demand.

- The bidder agreed to the no minimum order; however, it requested a token minimum order value of $250.00. The MDOC is requesting a no minimum order.

Company Information (4.1.1) **Score: 1/5**

- The bidder has been in business for five years. Its gross annual sales for the last five years have ranged from $11,000.00 to $170,000.00. The State's account has the potential of representing 25% or more of the bidder's total sales. The JEC could not find where the bidder fully described in its proposal how the company would be scaling up to serve the State's account. The JEC is concerned that the bidder does not have the capacity to serve the MDOC population within the required timeframes.

Prior Experience (4.1.9) **Score: 8/20**

- The bidder provided three prior experiences; however, the prior experiences were not of similar size as the MDOC. The JEC is concerned that the bidder will not be able to serve the entire MDOC prisoner population.
- The bidder provided three Attachment F "Reference Forms." One of the references stated that the vendor took too long to process orders and had a minimum order that the customer did not satisfy. The reference stated that they would not extend its contract because of the minimum order requirement and that they had to cancel a year-end purchase order because the vendor did not supply items in a timely manner. The other two references were satisfied with the bidder; however, they were not of similar size of the MDOC either.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 73/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Paradise Pillow Inc.

The JEC determined that Paradise Pillow Inc. failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 25/35**

- The RFP lacked details of the bidder's reporting capabilities.
- The RFP lacked details on if the bidder would provide a review of contract usage and provide process improvement opportunities.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 8/15**

- The JEC could not find a toll free customer service telephone number.
- The RFP lacked details of the bidder's quality assurance program.
- The bidder's warranty has limited product return. Bidder must be notified within thirty days for the product to be eligible under warranty.
- The bidder offered a prompt payment discount of 1.5% 10 days and a 1% 20 days, net 30 days.
- The bidder offered quantity discounts.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 0/20**

- The RFP lacked responses for Sections 1.4.1, 1.4.2, 1.4.3, 1.4.4 and 1.4.5 of the RFP.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 14/20**

- The bidder provided three prior experiences; however, the references were not contacted since the bidder did not pass technical.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) **Score: 0/5**

- The RFP lacked a response for this section of the RFP.

Total Score: 52/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Robinson Textiles

The JEC determined that Robinson Textiles failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 25/35

- The JEC could not find the bidder's sizing chart.
- The RFP lacked details of the bidder's reporting capabilities.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 0/15

- The RFP lacked responses for Sections 1.6.1, 1.6.3, 1.6.4 and 1.6.5 of the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 0/20

- The RFP lacked responses for Sections 1.4.1, 1.4.2, 1.4.3, 1.4.4 and 1.4.5 of the RFP.

Company Information (4.1.1) Score: 1/5

- The JEC could not find the bidder's gross annual sales for the last five years.

Prior Experience (4.1.9) Score: 13/20

- The bidder provided a list of three prior experiences; however, the JEC could not find the total project costs for each experience. The references were not contacted since the bidder did not pass technical.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) Score: 5/5

- The bidder met the requirements of this section.

Total Score: 44/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Carolina Textiles

The JEC determined that Carolina Textiles passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 33/35

- The JEC could not find the bidder's sizing chart for men's briefs and women's briefs. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 8/15

- The toll free telephone number was not evident in the RFP.
- The customer service hours were not evident in the RFP.
- The RFP lacked details of the bidder's quality assurance program.
- The process for reporting warranty issues was not evident in the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 16/20

- The MDOC requested that stock items be delivered within 14 calendar days of receipt of order. The bidder's response specified the delivery time frame would be thirty days.
- The JEC could not find the bidder's plan for guaranteeing that deliverables would be delivered on time.

Company Information (4.1.1) Score: 5/5

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 16/20**

- The bidder provided the three prior experiences. One of the entities completed the Attachment F "Reference Form." The entity was satisfied with the bidder.
- The JEC could only find one of the required three Attachment F "Reference Forms."

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 83/100

Step 2 – Pricing Evaluation

The pricing proposals for bidders that passed Step 1 were compared to the MDOC's current price for each item. The JEC determined that the bidder's pricing when compared to the MDOC's current pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt	Pass
Briefs – Men's	Failed Step 1 of Attachment D – Product must be a minimum of 50% cotton. Product sample was only 35% cotton.
Crew socks	Pass
Thermal top	Pass
Thermal bottom	Pass

Scion Industries

The bidder did not complete the RFP document or provide the required samples. The bidder only supplied pricing attachments on the Buy4Michigan bidding site. The bidder is considered non-responsive, and its electronic submission of its pricing was not evaluated.

STEP 2 PRICING SUMMARY FOR ALL BIDDERS PASSING STEP 1:

See Step 2 attachments (Excel spreadsheets). Pricing was evaluated on a per item basis.

AWARD RECOMMENDATION:

Based on the above information, award recommendations for each item will be made to the bidder that offers the BEST VALUE to the State as noted below.

Item	Awarded Bidder	Unit Price	Color

Overview: Grainger in Michigan

The commitment of Grainger to Michigan resonates in its nearly eight decades as a member of and its service to its communities. Since opening its first branch in Troy in 1936, Grainger helps its public and commercial customers keep their facilities up and running and their people safe. Grainger supplies high standard Maintenance, Repair, and Operational (MRO) products to businesses and agencies throughout Michigan. Team members bring expertise and experience in delivering products and assisting customers in determining what best fulfills the need. Grainger helps customers take cost out of operations by saving time, money, and effort and to operate efficiently and safely. Grainger serves state agencies, counties and municipalities throughout Michigan, particularly in time sensitive emergency circumstances.

History

W. W. Grainger, Inc. has been a part of the Michigan community for nearly 80 years. It operates 20 facilities in the state; Ann Arbor, Bay City, Detroit, Farmington Hills, Flint, Grand Rapids (2), Holland, Lansing (2), Kalamazoo (2), Madison Heights, Romulus, Saginaw, Shelby (2), Sterling Heights, Traverse City, and Warren.

Grainger employs more than 500 team members who live and work in Michigan. In 2013, the company remitted approximately $7.2 million to State of Michigan and local governments.

Grainger invests in Michigan businesses by purchasing over $52 million in products and services from 454 Michigan-based suppliers in 2013. These businesses employ more than 220,000 Michigan citizens.

In 2013, Grainger acquired Sterling Heights-based E&R Industrial Sales, Inc. E&R Industrial distributes metalworking, production supplies and MRO materials to manufacturers and industrial customers in the Midwest and Northeast. E&R Industrial provides more than 100,000 products to 4,000 customers across the aerospace, automotive and general industries. The company employs more than 350 team members, including metalworking and product management specialists who possess unique technical expertise.

Grainger in the Community

In 2013, Grainger donated more than $22 million to nonprofit organizations nationally through products, cash, and employee matching gifts. Grainger donated nearly $48,000 to 50 Michigan nonprofit organizations in 2013. Organizations such as the American Cancer Society of East Lansing, the Special Olympics of Michigan and the Capuchin Soup Kitchen of Detroit benefit from the Grainger Matching Charitable Gifts Program. Grainger's philanthropic program offers a three-to-one match of individual employee donations up to $7,500. Grainger is one of the less than 1% of US companies with such a program.

Grainger donates cash and product to the American Red Cross. Our support includes financial, assistance to its supply chain challenges and meeting demands of specific incidents. We are a National Founding Sponsor of the Ready When the Time Comes® volunteer program which recruit, train, and engage large groups of corporate volunteers.

The Grainger Tools for Tomorrow® scholarship program awards financial assistance to outstanding students in the Skilled Trade fields. In 2013–2014, Grainger provided 100 community colleges two, $2,000 scholarships. Half of all scholarships are offered to veterans of the Armed Forces. Michigan participating schools include Henry Ford Community College and Macomb Community College.

A critical element of any relationship is Grainger's long history of providing products and services in emergency circumstances. Grainger's continuity planning addresses any situation that might interrupt normal operations, ranging from a short-term inconvenience (water main break or other maintenance disruption) to a longer-term interruption (e.g., terrorist incident, natural disaster or public health urgency). Grainger plans are revised over and over, taking in lessons learned after each incident. Emergency personnel are provided direct access to Grainger, allowing the delivery of real-time solutions to urgent needs. Grainger has demonstrated ability to mobilize and dispersed employees from around the country to assist public agencies during an emergency.

MICHIGAN DEPARTMENT OF CORRECTIONS

"Expecting Excellence Every Day"

MEMORANDUM

DATE:

TO: Julie Hamp, Procurement Manager

FROM: Lisa Lehnert, Proposal Manager/Buyer

SUBJECT: Award Recommendation for 047214B0001865 Prisoner Clothing and Linens

BACKGROUND INFORMATION/GENERAL:
This Request for Proposal (RFP) is for the Michigan Department of Corrections (MDOC), Michigan State Industries (MSI) to obtain bids from qualified vendors to provide prisoner clothing and linens.

The contract period is three years, with two additional one year options.

BID EVALUATION METHOD:
Proposals for this solicitation were evaluated by a Joint Evaluation Committee (JEC) comprised of:

Voting Members	Advisory Members
Jeri Ann Sherry, Deputy Director Department of Corrections	Lisa Lehnert, Buyer Department of Corrections
Jeffrey Woods, Warden Dept. of Corrections	Norma Killough, Administrative Assistant Department of Corrections
Linda Rubingh, Assistant Business Manager- Jackson Office Department of Corrections	

BIDDERS:
The RFP was posted on Buy4Michigan on April 18, 2014, and was available for 41 days with a published due date of May 29, 2014. On May 22, 2014, Amendment #3 was posted on Buy4Michigan to revise the bid opening date to June 12, 2014. The following bidders submitted proposals in response to this RFP:

Bidder	City, State	Michigan Business	SDVOB
American Textile Systems	Cerritos, CA	No	No
Keefe Commissary Network, LLC	Strongsville, OH	No	No
Lockett Enterprises, LLC	Flint, MI	Yes	Yes
Tabb Textiles Co., Inc.	Opelika, AL	No	No
Grand Strategy LLC	South Haven, MI	Yes	Yes
Uniforms Manufacturing, Inc.	Scottsdale, AZ	No	No
Northwest Woolen Mills	Woonsocket, RI	No	No

Charm Tex	Brooklyn, NY	No	No
OD Taragin & Bros. LLC	Baltimore, MD	No	No
Bob Barker Company Inc.	Fuguay Varina, NC	No	No
Holmdel Footwear LLC	Marlboro, NJ	No	No
Just In Trend	Johnston, IA	No	No
Paradise Pillow Inc.	Philadelphia, PA	No	No
Scion Industries	Springfield, IL	No	No
Robinson Textiles	Gardena, CA	No	No
Carolina Textiles	Charlotte, NC	No	No

SELECTION CRITERIA AND EVALUATION:

3.4.1 Method of Evaluation

Proposals will be evaluated by a JEC.

3.4.2 Evaluation Criteria

Step 1
Technical evaluation of written bid proposal
The following chart represents the scoring of the particular factors:

	Technical Evaluation Criteria	Weight
1.	Scope of Work and Deliverables: Section 1.2.2, Deliverables; Section 1.3.2, Reports	35
2.	Commodity Requirements: Article 1.6.1, Customer Service; Article 1.6.3 Quality Assurance Program; Article 1.6.4, Warranty for Deliverables; Article 1.6.5, Special Incentives	15
3.	Delivery and Acceptance: Article 1.4.1, Time Frames; Article 1.4.2, Minimum Order; Article 1.4.3, Packaging; Article 1.4.4, Palletizing; Article 1.4.5, Delivery Term	20
4.	Bidder Information: Article 4.1.1, Company Information	5
5.	Bidder Information: Article 4.1.9 Prior Experience	20
6.	Bidder Information: Article 4.1.10 Contract Performance	5
	Total	100

Step 2
For those bidders with a passing technical score of 80 or more in Step 1, their pricing will be evaluated. The State reserves the right to perform price negotiations as part of Step 2. In its sole discretion, the State will determine which bidders are in a competitive price range to proceed to Step 3.

NOTE: To determine if a Bidder's price was in a competitive price range to proceed to Step 3, the JEC evaluated the Bidders' prices for the companies that passed Step 1, based on the following:

1. Bidder's item price may not be more than 20% higher than the average of the bid prices of all companies passing Step 1; and
2. Must not be higher than the MDOC's current cost.

For an item with multiple sizes, samples were evaluated if prices for some of the sizes passed Step 2.

Step 3
Samples will be evaluated for the bidder or bidders with a passing technical score in Step 1, and who are determined to be within a competitive price rage in Step 2. Evaluation of samples will be pass/fail, on an item by item basis. Sample evaluation forms are included as Attachment C, Bath Linens Evaluation Form; Attachment D, Clothing Evaluation Form; and Attachment E, Bed Linens Evaluation Form.

Step 4
Best value determination based on those who pass Steps 1, 2, and 3 above.

3.4.3 Technical and Price Evaluation

(a) Proposals receiving a score of 80 points or more will be considered for award.

(b) Price proposals will only be evaluated from those bidders that the State considers for award in accordance with subsection (a). Evaluation of price proposals includes consideration of a qualified disabled veteran preference. MCL 18.1261 establishes a preference of up to 10% for businesses owned by qualified disabled veterans that are considered for award in accordance with subsection (a).

3.4.4 Award Recommendation

The award recommendation will be made for the bidder that: (a) is considered for award in accordance with Section 3.4.3(a), Technical and Price Evaluation; (b) has its price proposal evaluated under Section 3.4.3(b), Technical and Price Evaluation; and (c) in the State's determination, offers the best value to the State.

3.4.5 Reservations

The State reserves the right to:

(a) consider total cost of ownership in the final award recommendation (i.e. transition costs, training costs, etc.);
(b) award by item or part of an item;
(c) reject any proposals in whole or in part;
(d) award multiple, optional-use contracts. The State may evaluate offers based on advantages and disadvantages that may result from making more than one award;
(e) consider overall economic impact. This includes considering principal place of performance, number of Michigan citizens employed or potentially employed, money paid to Michigan residents, Michigan capital investments, etc;
(f) award to another bidder if the recommended bidder does not accept the award;
(g) give a preference for products manufactured or services offered by Michigan-based firms if all other things are equal and if consistent with federal statutes. (MCL 18.1261);
(h) disqualify any bid based on the failure to complete the Vendor Categories in the Buy4Michigan registration; and
(i) disqualify any bid based on the information provided in the Vendor Categories in the Buy4Michigan registration.

3.4.6 Award Decision

Award recommendation will be made to the Director of MDOC.

3.4.7 Protests

If a bidder wishes to protest the award recommendation, the bidder must submit a written protest by the date and time stated in the attachment provided with the recommendation (bid tab). The bidder must include the RFP number and clearly state the facts believed to constitute error in the award recommendation along with the desired remedy. More information about the bidder protest process is available at www.michigan.gov/contractconnect; click on the "Vendor Information" link.

3.4.8 State Administrative Board

State Administrative Board (SAB) approval is required for all Contracts or Purchase Orders of $250,000.00 or more. The decision of the SAB is final; however, SAB approval does not constitute a Contract. The award process is complete when the bidder receives a properly executed Contract or Purchase Order from MDOC-Procurement.

3.5.5 Past Performance

The State may evaluate the bidder's prior performance with the State in making its award decision.

3.5.6 Financial Stability

The State may evaluate the bidder's financial stability in making its award decision. The State may seek financial information from the bidder and from third parties.

EVALUATION RESULTS SUMMARY (100 points possible):

Bidder	Step 1 – Technical	Step 2 - Pricing	Step 3 - Samples
American Textile Systems	Passed – 89 points	See below	See below

Robinson Textiles	Failed – 44 points	Not evaluated	Not evaluated
Carolina Textiles	Passed – 83 points	See below	See below

It was determined by the JEC that the following items on Attachment A-1 would not be awarded to any Contractors: colored t-shirts, boxers, women's briefs, bras and sports bras. The MDOC currently has a contract for women's undergarments, which the department will continue to utilize.

It was determined by the JEC that the following item on Attachment A-2 would not be awarded: women's bathrobes.

It was determined by the JEC that the following items on Attachment A-3 would not be awarded: tear-away shirts and tear-away pants.

The JEC determined that the following items on Attachment A-4 "Prisoner Outerwear" would not be award to any Contractors: kitchen cap, baseball cap, cold weather hat, mittens, jacket (winter), hood for work crew jacket, bib coveralls, raincoat and rain pants.

The JEC determined that the mattress covers noted on Attachment A-5 "Bed Linens" would not be awarded to any Contractors.

INDIVIDUAL BIDDER EVALUTIONS:

American Textile Systems

The JEC determined that American Textile Systems passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 35/35

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 15/15

- The bidder met the requirements of this section.
- The bidder offered a 1/2% payment discount if paid within 10 days.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 20/20

- The bidder met the requirements of this section.

Company Information (4.1.1) Score: 1/5

- The JEC could not find the Bidder's gross annual sales for the last five years.

Prior Experience (4.1.9) Score: 13/20

- The Bidder provided two prior experiences (from the same entity) in Section 4.1.9, instead of the required three. The entity was contacted for a reference and the reference was positive.
- The JEC could only find one of the required three Attachment F "Reference Forms." The reference is satisfied with the

bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 89/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
Wool blanket	Pass
Cotton blanket	Pass
Flat sheet (54" x 90" minimum)	Pass
Flat sheet (66" x 104" minimum)	Pass
Bath towel	Pass
Wash cloth	Pass

Keefe Commissary Network, LLC

The JEC determined that Keefe Commissary Network, LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service hours were not evident in the RFP.
- The Bidder's warranty has limited product return. Bidder must be notified within thirty days of purchase for the product to be eligible under warranty.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 20/20**

- The bidder met the requirements of this section.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 18/20**

- The bidder provided three prior experiences as requested in Section 4.1.9. Two of entities completed the Attachment F "Reference Forms."
- The JEC could only find two of the required three Attachment F "Reference Forms." The two references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 94/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's price(s) for the following items were not in the competitive range; therefore, the item was not evaluated in Step 3:

1. Crew socks
2. Bathrobes
3. Bath towels

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt	Failed Step 8 of Attachment D – Product specifications stated that hem of shirt and sleeves must be cleanly finished with no raw edges. The raw edge in the hem is sticking out all around the seam.
Briefs – Men's	Pass
Thermal top (white) – Women's	Pass
Thermal top (off white) – Men's	Pass
Thermal bottom (white) – Women's	Pass
Thermal bottom (off white) – Men's	Pass
Wash cloth	Failed Step 3 of Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ½" x 12".

Lockett Enterprises, LLC

The JEC determined that Lockett Enterprises, LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 30/35**

- The JEC could not find the Bidder's sizing chart. However, the items that passed Step 2 to proceed to Step 3 did not require a sizing chart for evaluation purposes.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service hours were not evident in the RFP.
- The RFP lacked specific details of its quality assurance program.
- The Bidder's response stated that most garments do not come with any warranties.
- The process for reporting warranty issues was not evident in the RFP.
- The bidder offered a 5% payment discount if paid within 10 days.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 15/20**

- Section 1.4.1 states "The State requests no minimum order." The Bidder's response stated it would work closely with the MDOC to fulfill all requests within the scope of the contract. The Bidder did not acknowledge acceptance of the "no minimum order."
- The JEC could not find the Bidder's acknowledgement any of the packaging requirements listed in Article 1.4.3.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 18/20**

- The bidder provided two prior experiences in Section 4.1.9, instead of the required three. The entities completed the Attachment F "Reference Forms."
- The JEC could only find two of the required three Attachment F "Reference Forms." The two references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Score: 84/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's price(s) for the following items (all sizes) were not in the competitive range; therefore, the item was not evaluated in Step 3:

1. Men's briefs
2. Crew socks
3. Shorts (mesh and smooth)

4. Knit hat
5. Wool blankets
6. Cotton blankets
7. Flat sheets (both sizes)
8. Pillow case
9. Wash cloths

Step 3 – Sample Evaluation	**Pass/Fail**
Thermal top – Women's	No pricing provided – sample not evaluated
Thermal bottom – Women's	No pricing provided – sample not evaluated
Thermal top – Men's (red)	No pricing provided – sample not evaluated
Thermal bottom – Men's (off white)	No pricing provided – sample not evaluated
Gloves (knit – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was knit gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Gloves (fleece – blue) - RFP requested mittens, not gloves	Failed Step 1 on Attachment D – Step 1 stated that the State will review the label to verify item meets the product requirements listed on the appropriate Attachment(s) A-1through A-6, such as cotton and/or cotton polyester, fabric content, waterproof and water resistant. The product requirements were for quilt nylon mittens with insulation, and that were waterproof. The product sample received was fleece gloves, which did not meet the fabric content or the waterproof requirement. It was also gloves instead of mittens.
Bath towel	Failed Step 8 on Attachment C – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.5 oz.

Tabb Textiles Co., Inc.

The JEC determined that Tabb Textiles Co., Inc. passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The Bidder confirmed that it is able to receive orders by fax or e-mail. The Bidder does not appear to accept orders via telephone or written orders.
- The RFP lacked details of the warranty.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing(1.4.4); Delivery Term (1.4.5) **Score: 14/20**

- The Bidder's response specified that it would need 30 to 75 days to build inventory levels.
- Section 1.4.2 states "The State requests no minimum order." The Bidder is requesting that orders are placed in increments of "full case" quantities. The MDOC is requesting a no minimum order.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 20/20**

- The bidder met the requirements of this section. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 90/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation of Provided Samples	Pass/Fail
Wool blanket	Pass
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet	Pass
Pillow case	Pass
Bath towel	Failed Step 2 on Attachment C – The terrycloth had some missed loops in the middle of the item (approximately ½" wide). There was also a major snag in the item.
Wash cloth	Failed Step 3 on Attachment C - The minimum size requirement is 12" x 12". Item measured 11 ¾" in one spot, so the item was not square.

Grand Strategy LLC

The JEC determined that Grand Strategy LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 15/15**

- The bidder met the requirements of this section.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 18/20**

- Section 1.4.2 states "The State requests no minimum order." The Bidder is requesting that orders are placed in increments of "full case" quantities. The MDOC is requesting a no minimum order.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 20/20**

- The bidder met the requirements of this section. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 98/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
Wool blanket	Pass
Cotton blanket	Failed Step 1 on Attachment E – Step 1 stated that the item must have a label. This product did not have a label.
Flat sheet	Pass
Pillow case	Pass
Bath towel	Failed Step 3 on Attachment C - The minimum size requirement is 20" x 40". Item measured 19 ¼" x 41".
Wash cloth	Pass

Uniforms Manufacturing, Inc.

The JEC determined that Uniform Manufacturing, Inc. passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 15/15**

- The bidder met the requirements of this section.
- The bidder states that some quantity discounts may become available within the course of the contract.
- The bidder states that should any price breaks arise, the savings will be passed on to the State.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 19/20**

- Standard stock items, such as t-shirts and shorts, may possibly not be wrapped in plastic.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 19/20**

- The bidder provided the three prior experiences; however, the JEC could not find the dates for each experience. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 98/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt (white)	Pass
Briefs – Men's	Failed Step 2 on Attachment D – Fabric was see through and some of the seams were not finished neatly. Some of the seams were puckered.
Crew socks	Pass
Thermal top – unisex	Pass
Thermal bottom – unisex	Failed Step 2 on Attachment D - One leg is wider than the other (5 ¼ inches and 6 inches). One leg is longer than the other (27 inches and 27 ¾ inches). The waistband was missing some stitching.
Shorts	Pass
Shirt – Women's (long sleeve)	Pass
Shirt – Women's (short sleeve)	Pass

Pants – Women's	Pass
Shirt – Men's (long sleeve)	Pass
Shirt – Men's (short sleeve)	Pass
Pants – Men's	Pass
Shirt – Unisex (Dress-out)	Pass
Pants – Men's (Dress-out)	Pass
Pants – Women's (Dress-out)	Pass
Jumpsuit – insulated (long sleeve)	Pass
Jumpsuit – non-insulated (short sleeve)	Pass
Knit hat	Pass
Jacket (winter)	Failed – The product specifications listed on Attachment A-4 "Prisoner Outerwear" stated this item must have ribbed bottom and ¾ lengths. The product sample submitted did not have a ribbed bottom and it was not ¾ lengths.
Jacket (work crew)	Pass

Northwest Woolen Mills

The JEC determined that Northwest Woolen Mills failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 30/35**

- The RFP lacked details of the bidder's reporting capabilities.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 5/15**

- The State of Michigan account representative was not evident in the RFP.
- The RFP lacked details of its quality assurance program.
- The RFP lacked details of the warranty and the process for reporting warranty issues was not evident in the RFP.
- The bidder acknowledged it had special incentives; however, the JEC could not find any special incentives listed.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 12/20**

- Section 1.4.1 states "The bidder must provide its plan for guaranteeing that the deliverables will be delivered within the above time frame(s)." The JEC could not find the bidder's plan for guaranteeing that deliverables would be delivered on time.
- The bidder stated that Article 1.4.5 "Delivery Term" was not applicable, since a carrier would be making the deliveries. The bidder is still responsible for notifying its carriers of the contract delivery terms, such as, process for obtaining LEIN clearance, possibility of mobilizations, delivery hours, MDOC rules, etc.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 20/20**

- The bidder met the requirements of this section. The references provided are satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 77/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Charm Tex

The JEC determined that Charm Tex passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service hours were not evident in the RFP.
- The toll-free telephone number was not evident in the RFP.
- The process for reporting warranty issues was not evident in the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 20/20**

- The bidder met the requirements of this section.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 11/20**

- The bidder provided a list of four prior experiences; however, the JEC could not find the total project costs and dates for each experience. The entities were contacted and two responded back. Both were satisfied with the bidder.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 87/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's price(s) for the following items (all sizes) were not in the competitive range; therefore, the item was not evaluated in Step 3:

1. Bath towels

Step 3 – Sample Evaluation	Pass/Fail
Briefs – Men's	Failed Step 2 of Attachment D – The sides of the item were not even. One side was 7 inches and the other side was 7 ½ inches.
Crew socks	Pass
Wool blanket	Failed Step 1 of Attachment E – Product requirement must be a minimum of 80% wool. Item was only 70% wool.
Cotton blanket	Pass
Flat sheet	Failed Step 2 of Attachment E – The item had snags and holes in the fabric.
Flat sheet	Pass – The item met the size requirement for the 54" x 90" flat sheet. Item measured 59" x 100".
Pillow case	Failed Step 3 of Attachment E - The minimum size requirement is 22" x 30". Item measured 19 ½" x 30".
Wash cloth	Failed Step 2 of Attachment C – The item was dingy and had some major snags.

OD Taragin & Bros. LLC

The JEC determined that OD Taragin & Bros. LLC failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 32/35**

- The JEC could not find the bidder's sizing chart for T-shirts, thermal tops and thermal bottoms. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 10/15**

- The RFP lacked details of its quality assurance program.
- The process for reporting warranty issues was not evident in the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 12/20

- Section 1.4.1 "Time Frames" states "The bidder must provide its plan for guaranteeing that the deliverables will be delivered within the above time frame(s). This must include meeting the delivery time frame even during the specific holidays, plant shutdowns, etc., listed above." The JEC could not find the bidder's plan for guaranteeing that deliverables would be delivered on time, including when its suppliers are closed or shutdown.
- The bidder stated that all its deliveries will be made by common carriers, such as FedEx or UPS. The JEC could not find where the bidder acknowledged that it would notify its carriers of the contract delivery terms, such as, process for obtaining LEIN clearance, possibility of mobilizations, delivery hours, MDOC rules, etc.

Company Information (4.1.1) **Score: 1/5**

- The JEC could not find the bidder's gross annual sales for the last five years.

Prior Experience (4.1.9) **Score: 14/20**

- The bidder provided three prior experiences; however, the references were not contacted since the bidder did not pass technical.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 74/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Bob Barker Company Inc.

The JEC determined that Bob Barker Company Inc. passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 34/35**

- The JEC could not find the bidder's sizing chart for T-shirts. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 8/15**

- The customer service hours were not evident in the RFP.
- The RFP lacked details of the bidder's quality assurance program.
- The bidder's warranty has limited product return. Bidder must be notified within thirty days for the product to be eligible under warranty.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 18/20

- The MDOC requested that stock items be delivered within 14 calendar days of receipt of order. The bidder's response specified the delivery time frame would be 5-30 days.
- The bidder has a minimum order requirement for certain items. The MDOC is requesting a no minimum order.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 11/20**

- The bidder provided a list of five prior experiences; however, the JEC could not find the total project costs, deliverables and dates for each experience. The entities were contacted and two responded back. Both were satisfied with the bidder.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 81/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's price(s) for the following items (all sizes) were not in the competitive range; therefore, the item was not evaluated in Step 3:

1. Flat sheets (both sizes)
2. Pillow cases

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt	Failed Step 7 on Attachment D – The JEC was unable to find the sizing chart for this item.
Briefs – Men's	Pass
Crew socks	Pass
Thermal top – unisex	Failed Step 7 on Attachment D – The sleeves were only 19 inches long on a sample of the large size. The sleeves are too short.
Thermal bottom – unisex	Pass
Shirt – Men's (short sleeve)	Pass for men only. Sample does not pass for women since it does not contain a modesty panel or darts at the bust line as specified on Attachment A-3. Also, the pocket is located on the breast instead of on the sleeve as specified for the women's shirt.
Pants – Men's	Failed Step 3 on Attachment D – Item must have one back pocket. Item did not have a pocket.
Jumpsuit – non-insulated (short sleeve)	Pass
Knit hat	Pass
Wool blanket	Pass
Cotton blanket	Failed Step 2 on Attachment E – The item had some see through spots in the middle of the blanket, holes in the selvage sides of the fabric and loose strings in the hem.
Bath towel	Failed Step 8 on Attachment C - – Item must weigh a minimum 5 lbs. per dozen (6.67 oz. each). Item weighed 6.25 oz.
Wash cloth	Failed Step 2 on Attachment C – The hems on the item were coming apart.

Holmdel Footwear LLC

The JEC determined that Holmdel Footwear LLC passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 35/35**

- The bidder met the requirements of this section.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 11/15**

- The customer service days and hours are limited. The account manager is available 9:00 – 1:30 p.m. EST, Monday-Thursday.
- The RFP lacked details of the bidder's quality assurance program.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 20/20**

- The bidder met the requirements of this section.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 16/20**

- The bidder provided the three prior experiences. The entities were contacted and one responded back that it was satisfied with the bidder.
- The JEC could only find one of the required three Attachment F "Reference Forms." The reference form was positive and the entity is satisfied with the bidder.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 92/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's pricing was in the competitive range.

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt (white)	Pass
Briefs – Men's	Pass
Crew socks	Pass

Just In Trend

The JEC determined that Just In Trend failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 33/35**

- The JEC could not find the bidder's sizing chart for prisoner shirts and prisoner pants. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 12/15**

- The RFP lacked details of the bidder's quality assurance program.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 14/20**

- The bidder's response specified that it would need 50 to 90 days to build its inventory levels at the beginning of the contract.
- Although the JEC did not deduct any points for this, the JEC is concerned with the bidder's request for a rough forecast of the MDOC's demand.
- The bidder agreed to the no minimum order; however, it requested a token minimum order value of $250.00. The MDOC is requesting a no minimum order.

Company Information (4.1.1) **Score: 1/5**

- The bidder has been in business for five years. Its gross annual sales for the last five years have ranged from $11,000.00 to $170,000.00. The State's account has the potential of representing 25% or more of the bidder's total sales. The JEC could not find where the bidder fully described in its proposal how the company would be scaling up to serve the State's account. The JEC is concerned that the bidder does not have the capacity to serve the MDOC population within the required timeframes.

Prior Experience (4.1.9) **Score: 8/20**

- The bidder provided three prior experiences; however, the prior experiences were not of similar size as the MDOC. The JEC is concerned that the bidder will not be able to serve the entire MDOC prisoner population.
- The bidder provided three Attachment F "Reference Forms." One of the references stated that the vendor took too long to process orders and had a minimum order that the customer did not satisfy. The reference stated that they would not extend its contract because of the minimum order requirement and that they had to cancel a year-end purchase order because the vendor did not supply items in a timely manner. The other two references were satisfied with the bidder; however, they were not of similar size of the MDOC either.

Contract Performance (4.1.10) **Score: 5/5**

- The bidder met the requirements of this section.

Total Score: 73/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Paradise Pillow Inc.

The JEC determined that Paradise Pillow Inc. failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 25/35**

- The RFP lacked details of the bidder's reporting capabilities.
- The RFP lacked details on if the bidder would provide a review of contract usage and provide process improvement opportunities.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 8/15**

- The JEC could not find a toll free customer service telephone number.
- The RFP lacked details of the bidder's quality assurance program.
- The bidder's warranty has limited product return. Bidder must be notified within thirty days for the product to be eligible under warranty.
- The bidder offered a prompt payment discount of 1.5% 10 days and a 1% 20 days, net 30 days.
- The bidder offered quantity discounts.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) **Score: 0/20**

- The RFP lacked responses for Sections 1.4.1, 1.4.2, 1.4.3, 1.4.4 and 1.4.5 of the RFP.

Company Information (4.1.1) **Score: 5/5**

- The bidder met the requirements of this section.

Prior Experience (4.1.9) **Score: 14/20**

- The bidder provided three prior experiences; however, the references were not contacted since the bidder did not pass technical.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) **Score: 0/5**

- The RFP lacked a response for this section of the RFP.

Total Score: 52/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Robinson Textiles

The JEC determined that Robinson Textiles failed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) **Score: 25/35**

- The JEC could not find the bidder's sizing chart.
- The RFP lacked details of the bidder's reporting capabilities.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) **Score: 0/15**

- The RFP lacked responses for Sections 1.6.1, 1.6.3, 1.6.4 and 1.6.5 of the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 0/20

- The RFP lacked responses for Sections 1.4.1, 1.4.2, 1.4.3, 1.4.4 and 1.4.5 of the RFP.

Company Information (4.1.1) Score: 1/5

- The JEC could not find the bidder's gross annual sales for the last five years.

Prior Experience (4.1.9) Score: 13/20

- The bidder provided a list of three prior experiences; however, the JEC could not find the total project costs for each experience. The references were not contacted since the bidder did not pass technical.
- The JEC could not find the requested three Attachment F "Reference Forms."

Contract Performance (4.1.10) Score: 5/5

- The bidder met the requirements of this section.

Total Score: 44/100

Steps 2 and 3 – The JEC did not evaluate the pricing or samples due to the bidder not passing Step 1 - Technical.

Carolina Textiles

The JEC determined that Carolina Textiles passed Step One "Technical Evaluation" of the evaluation criteria. This determination was accomplished be evaluating its responses to the selection criteria noted in the table above.

Deliverables (1.2.2); Reports (1.3.2) Score: 33/35

- The JEC could not find the bidder's sizing chart for men's briefs and women's briefs. Sizing charts for the other items bid were provided.

Customer Service (1.6.1); Quality Assurance Program (1.6.3); Warranty for Deliverables (1.6.4); Special Incentives (1.6.5) Score: 8/15

- The toll free telephone number was not evident in the RFP.
- The customer service hours were not evident in the RFP.
- The RFP lacked details of the bidder's quality assurance program.
- The process for reporting warranty issues was not evident in the RFP.

Time Frames (1.4.1); Minimum Order (1.4.2); Packaging (1.4.3); Palletizing (1.4.4); Delivery Term (1.4.5) Score: 16/20

- The MDOC requested that stock items be delivered within 14 calendar days of receipt of order. The bidder's response specified the delivery time frame would be thirty days.
- The JEC could not find the bidder's plan for guaranteeing that deliverables would be delivered on time.

Company Information (4.1.1) Score: 5/5

- The bidder met the requirements of this section.

Prior Experience (4.1.9) Score: 16/20

- The bidder provided the three prior experiences. One of the entities completed the Attachment F "Reference Form." The entity was satisfied with the bidder.
- The JEC could only find one of the required three Attachment F "Reference Forms."

Contract Performance (4.1.10) Score: 5/5

- The bidder met the requirements of this section.

Total Score: 83/100

Step 2 – Pricing Evaluation

The pricing proposals for Bidders that passed Step 1 were evaluated. Second round pricing was requested from all Bidders that passed Step 1. The JEC determined that the Bidder's price(s) for the following items (all sizes) were not in the competitive range; therefore, the item was not evaluated in Step 3:

1. Thermal tops – women's

2. Thermal bottoms – women's

Step 3 – Sample Evaluation	Pass/Fail
T-Shirt	Pass
Briefs – Men's	Failed Step 1 of Attachment D – Product must be a minimum of 50% cotton. Product sample was only 35% cotton.
Crew socks	Pass
Thermal top – Men's	Pass
Thermal bottom – Men's	Pass

Scion Industries

The bidder did not complete the RFP document or provide the required samples. The bidder only supplied pricing attachments on the Buy4Michigan bidding site. The bidder is considered non-responsive, and its electronic submission of its pricing was not evaluated.

STEP 2 PRICING SUMMARY FOR ALL BIDDERS PASSING STEP 1:

See Step 2 attachments (Excel spreadsheets). Pricing was evaluated on a per item basis.

AWARD RECOMMENDATION:

Based on the above information, award recommendations for each item will be made to the bidder that offers the BEST VALUE to the State as noted below.

Item	Awarded Bidder	Unit Price	Color

Introduction

Snow and ice-covered roads can pose significant risks to public safety and can negatively impact economic activity. Many areas of the country, including Michigan, have historically relied upon the application of road salt to allow safe passage for travelers. The efficacy of road salt is well established. For example, a Marquette University study examined highway accidents occurring in winter-road conditions and found that road salt reduced the instances of crashes by 88 percent while injuries and accident costs were reduced by 85 percent.[1]

However, like any commodity, the cost of road salt can vary, and such changes in cost structure can impact normal business operations and budgets. Recent market prices for road salt have done just that and the price increase warrants the Attorney General's close scrutiny to ensure it is not a result of illegal activity.

Our office previously reviewed road salt pricing in 2009 after receiving complaints of higher prices and possible anticompetitive conduct by the salt suppliers. Following an investigation, which included reviewing the suppliers' extensive responses to our civil investigative demands; we found that the evidence did not support an outcome that anticompetitive conduct was the cause. Rather, the concerns were explained by what appeared to be a legitimate salt shortage.

In 2014, prices for entities buying road salt through the MiDEAL purchasing program for the 2014-2015 winter season rose by more than 46 percent from the previous year.[2] Our office received a number of complaints from state and local agencies questioning the high price of road salt, and some local agencies complained of large price differences between neighboring communities. Upon receipt of these recent complaints, we again conducted a thorough investigation into road salt pricing. In addition to using the information obtained from our 2009 investigation, we reviewed all the road salt bids and awards for the MiDEAL program for the past two years; reviewed other relevant documents related to the 2014-2015 request for proposals (RFPs); interviewed representatives from the four road salt suppliers for the 2014-2015 MiDEAL RFPs; spoke with representatives from local municipalities, as well as Michigan Department of Transportation (MDOT), Michigan Department

of Technology, Management and Budget (DTMB), Federal Trade Commission (FTC), and county roads associations; spoke with other states' attorney generals' offices to discuss road salt prices; toured a salt supplier's production facility; and conducted additional research.

Findings

Our investigation focused on anticompetitive conduct. This report summarizes the information obtained during this investigation and supports the conclusion we reached as a result.

- We did not uncover any evidence of illegal price-fixing by road salt suppliers. The most recent price increase was due to legitimate market conditions caused by last winter's harsh weather. Road salt suppliers and government agencies depleted existing inventories at the end of last winter, which was one of the harshest on record. Suppliers consequently had less road salt to supply for this season while agencies were simultaneously purchasing above-average amounts in order to restock. In addition, due to heavy market demand, fewer road-salt suppliers were willing to bid for supply contracts under the MiDEAL program, which adversely influenced pricing for purchasers.

- Additionally, it appears there are legitimate explanations for the noted price differences between certain municipalities. The decrease in road salt inventories and less willing bidders resulted in more limited bidding in certain counties and cities. And it appears the timing of the MiDEAL bid played a role in some suppliers' decisions not to bid for certain contracts. Also, some entities locked into lower prices well before the current increase, but neighboring municipalities did not.

- Moving forward, we recommend that DTMB review the timing of its MiDEAL bidding process to see if it may be beneficial to issue requests for bids earlier in the year which may alleviate similar bidding situations in future years. Based on our investigation, it appears that opening bids earlier in the year may generate more bids and at lower bid prices. However, following mild winters, it may not be beneficial to issue bids earlier, especially if there is a large supply of salt. Additionally, we recommend that DTMB and MDOT continue to review ways in which MiDEAL can further utilize alternative products, such as sand, and implement technology improvements to potentially reduce road salt usage, and thereby lower costs. Finally, we recommend seeking opportunities to better utilize the Detroit Salt Mine, a significant Michigan resource.

- See recommendations at the end of this report.

Price-Gouging Versus Price-Fixing

"Price-gouging" and "price-fixing" are terms that need some explanation. People often talk about price-gouging whenever prices for goods or services suddenly increase. But the Michigan Consumer Protection Act (MPCA) does not use the term "price-gouging." Rather the section in the statute that most directly prohibits high pricing says that it is unlawful to charge "a *consumer* a price that is *grossly in excess* of the price at which similar property or services are sold." [3]

The specific language of the statute includes some major limitations in this case. It applies to prices charged to consumers, which means that it limits prices charged for products "primarily for personal, family, or household purposes." [4] And the price charged must be grossly in excess of prices charged by other suppliers for the same or similar product. That means that the statute's limit on pricing does not apply if all businesses are charging the same or nearly the same price for a product, even if the price is high.

Price-fixing, on the other hand, is an antitrust violation. Under the Michigan Antitrust Reform Act (MARA) it is unlawful to enter into "[a] contract, combination, or conspiracy between 2 or more persons in restraint of, or to monopolize, trade or commerce in a relevant market...."[5] MARA was modeled on federal antitrust statutes, primarily the Sherman Act.[6] While there are many intricacies in these statutes, antitrust law is basically about preserving competition in the marketplace. When two or more suppliers of competing products agree to limit the competition between them, for instance by agreeing to maintain or raise the price of their product, it may be an antitrust violation. Proving that competitors fixed prices requires having proof of their agreement to do so. Documents that formalize the agreement or show that an agreement existed are strong proof, but often difficult to obtain or non-existent. But other circumstantial evidence may also show that a price-fixing agreement existed, including facts showing that the competitors had a meeting and shortly thereafter they raised prices in a similar fashion.

In the context of this investigation, price-fixing was the appropriate analysis for review, not price-gouging. As the buyers at issue under the MiDEAL program are governmental agencies, not consumers, the MCPA's limitation on pricing is not

applicable. Moreover, simply being charged a high price does not mean that the amount charged is grossly in excess of prices charged by others for road salt. And, as further detailed in this report, our investigation did not find evidence of price-fixing or other illegal anti-competitive conduct.

Road Salt and Mining Information

Road salt is one of the most popular methods of deicing roadways because of its ease of use, effectiveness, and relatively low cost compared to alternative de-icing methods. Road salt, also known as rock salt, is larger and heavier than table salt. Both are the same molecule—sodium chloride—but table salt is ground, purified, and often has additives like iodine and anti-clumping agents.[7] Road salt's size and weight keep it from being easily pushed off the road, and it is used to keep roads and bridges free of snow and ice during wintery weather. Driven by an increased public expectation for safe and clear roads, and fueled by relatively low costs, Michigan has steadily increased its use of road salt over the last 30 years. It was recently reported that public agencies in Michigan use nearly 2 million tons of salt annually to clear snow and ice.[8]

There are approximately 15 salt mines in the U.S. One is owned by Detroit Salt Company and is located in Detroit, Michigan. The salt under Detroit was first discovered in 1895. Development of the resource proceeded slowly until 1914, when the salt mine produced 8,000 tons of rock salt each month. Because of this local resource, Detroit was the first city in the world to apply salt to its roads in 1940.[9] Two mines are located in Ohio, two in New York, and the remainders are in Kansas, Louisiana, Utah, and Nevada.[10] Overall, approximately 35-40 million metric tons of

Note: There are two salt mines in Ontario, Canada, that produce deicing salt. Morton Salt, which is owned by K+S AG, operates a mine in Windsor, Ontario, and Sifto Canada, which is wholly owned by Compass Minerals, operates a mine in Godderich, Ontario

salt are mined annually in the U.S., of which rock salt for ice control accounts for approximately 30 percent.[11]

Mining takes place about 1,000-2,000 feet below the ground. Most rock salt mines use the "room and pillar" system of mining. Shafts are sunk down to the floor of the mine, and rooms are carefully constructed by drilling, cutting and blasting between the shafts, creating a checkerboard pattern.[12] The salt is then crushed and screened to the desired size and brought to the surface to be bagged or shipped in bulk to the customer via railroad cars, trucks, river barges, or lake boats.[13]

MiDEAL Road Salt Program and Other Procurement Methods

In Michigan there are multiple avenues for a government agency to procure road salt. The agency can solicit its own bids or it can join a consortium of local governments to give it added purchasing power.

MiDEAL is an extended purchasing program that allows Michigan local units of government to use state contracts to buy goods and services, including road salt. MCL 18.1263. Through MiDEAL, municipalities across Michigan order salt in two rounds: early fill and seasonal fill. The first "early fill" delivery arrives in December and by December 31 agencies must take delivery of 100% of the early fill tonnage that they ordered. For seasonal fill awards, the agencies can take as little as 70% of the amount they ordered or as much as 130%. The agencies must take delivery of at least 70% of the seasonal fill road salt by the following October.

DTMB has contracts with four road salt suppliers: Cargill, Compass Minerals (f/k/a North American Salt), Detroit Salt Company, and Morton. The contracts expire on August 31, 2016, with two 1-year options, but prices are rebid every spring. The contracts serve MDOT, and approximately 300 local public entities.

On an annual basis, DTMB collects the salt requirements for MiDEAL participants for the upcoming season and supplies the requirements to DTMB for inclusion in the RFP. Suppliers bid county by county for both the early and seasonal fills.

Wayne County is handled somewhat differently than other counties. For the seasonal fill, Wayne County is divided into over 50 separate "drop points," and salt suppliers can bid on any or all of those areas.

Besides MiDEAL, some local agencies contract directly with suppliers or through purchasing consortiums. For example, Genesee County Road Commission (GCRC) has a contract with Detroit Salt.[14] The Michigan Inter-governmental Trade Network (MITN) is a purchasing consortium comprised of over 100 local government agencies that also purchases road salt. And another group salt purchaser is the Downriver Community Conference (DCC), which has approximately 20 members.[15]

Road Salt Pricing

Because of its solubility and the difficulty of large scale storage, surface salt inventories are usually kept at minimal levels.[16] Inventories kept underground in salt mines are stored for short-term imminent sale, such as near winter use for highway de-icing. The basic difference between salt production and salt sold or used is the mathematical change in inventory.[17]

Generally, road salt prices are based on the costs of mining, transportation, and distribution. Mining costs include labor, energy, heavy equipment, explosives, and the purchase of mineral rights.[18] Transportation costs vary considerably across road salt suppliers, given that the suppliers transport the salt to customers via shipping vessels, barges, trains, and trucks, depending on the location of the mines and the suppliers' stockpiles.[19] Since shipping vessels and barges can carry larger

amounts of salt than trains or trucks, moving salt by water is usually the least expensive method of transport. As such, delivery locations nearer to the Great Lakes may see cheaper road salt prices. The price of gas/fuel is another important factor in pricing.

Suppliers' prices are presumably also impacted by market forces, including the prices charged by competitors and information available regarding industry inventory. Competitor pricing is somewhat transparent as governmental RFP bid awards are generally public information.

Supplier bidding is also impacted with uncertainty caused by the bid process. Nine Midwest states, including Michigan, typically open their bids in a short span of time, between May and July. This causes uncertainty because suppliers will not know the tonnage they will be required to supply until the awards are made.

After awards are made, suppliers still face uncertainty because most states require suppliers to commit to supplying anywhere between 70% and 130% of the actual amount of road salt awarded. Some salt suppliers consider spreading their bids out over a wide geography, in spite of transportation costs, because of the 70-130 contract requirements and the unpredictability of snow. If any single geographic area ends up with little to no snow, suppliers run the risk of the community taking only 70% of what was ordered.

Thus, the timing of the bids in other states, the 70-130 structure of the contracts, and the supply left over from the previous season are factors affecting bids as they are developed.[20]

2014-2015 Winter Season Road Salt Prices

According to MDOT, the 2014-2015 winter season average cost of road salt for the state and local road agencies was $65.81 per ton, an increase of about 46 percent over the 2013-2014 average of $44.99 per ton.[21] According to news reports, Washtenaw County reported a 46 percent and 122 percent price hike in 2014 for early and seasonal fills, respectively. And Oakland County expected to pay 25 percent more to get ready for the 2014-2015 winter.[22]

---

[21] Michigan Department of Transportation, *Salt Prices Jump Nearly 50 Percent as Road Agencies Prepare for Winter*, 11/6/14 bulletin. Available at http://www.michigan.gov/mdot/0,4616,7-151--340721--,00.html

[22] Greenwood, *Detroit Metro Counties Feel Pinch of Salt*, Detroit News (September 24, 2014). Available at

Wayne County reported that in 2013 it was paying $32.67 a ton from Morton Salt for early fill through the MiDEAL program. In 2014, Wayne County ordered 33,000 tons from Compass Minerals for the early fill at a price per ton of $74.42, representing a cost increase to the county of about $1.5 million over last year. Wayne County's 2014 seasonal fill RFP through the MiDEAL program was for 168,800 tons. Detroit Salt bid $47.01 in 11 drop points and won all 11, while Compass bid $58.95 in all 50 drop points and won the drop points where Detroit Salt did not bid. According to Wayne County representatives, the fact that Compass quoted higher prices for the early fill compared to the late fill – $74.42 versus $58.95 – is very unusual.

The City of Dearborn reports that it was paying $74.42 per ton in 2014 for road salt through the MiDEAL program while the Downriver Community Conference (DCC) was paying $50.71 per ton. Jim Perry, the DCC Executive Director, explained that DCC does not obtain its road salt through the MiDEAL program. Rather, the DCC is in the third year of a three-year contract directly with Detroit Salt. Hence, the DCC locked into the $50.71 price two years before prices went up.

Missaukee County has also raised concerns about the high costs of road salt it purchased through MiDEAL, particularly relative to surrounding counties. Compass was the only bidder in 2014 in all of the counties in the top half of the Lower Peninsula. Missaukee County is paying $82 per ton for the early fill while some neighboring counties are paying just under $70 per ton. For the 2014 late fill, Missaukee County is paying $78.61 per ton, while other nearby counties are paying under $70.

The City of Grand Haven reported that its 2014 price through the MiDEAL program went from $48.28 per ton in 2013 to $64.89 per ton in 2014, a 34% increase.

Most recently, the City of Jackson complained to the Attorney General about high road salt prices. Under the MiDEAL program for the 2014 season, the City is paying $80.22 per ton, a 75 percent increase from the $45.98 it paid in 2013. Conversely, Jackson County, which did not participate in the MiDEAL program in 2014, paid $56.17 per ton.

Investigation

The Michigan Attorney General's Corporate Oversight Division took the following actions to investigate road salt prices:

- Reviewed emails between DTMB and the four road salt suppliers for the 2014-2015 RFP.
- Reviewed bid amounts, prices, and awards for 2013-2014 and 2014-2015 RFPs.
- Reviewed the Civil Investigative Demand responses from the four salt suppliers relating to out 2009 road salt investigation.
- Reviewed materials relating to concerns raised by Wayne County, City of Dearborn, and Missaukee County about road salt prices.
- Interviewed each of the four suppliers that submitted MiDEAL bids.
- Toured the Detroit Salt mine production facility.
- Communicated with staff at DTMB.
- Communicated with staff at MDOT.
- Communicated with a representative from the County Roads Association of Michigan.
- Communicated with a representative from the Downriver Community Conference (DCC).
- Communicated with representatives from Wayne County.
- Communicated with other state AAGs to discuss road salt prices.
- Communicated with an attorney at the FTC.
- Reviewed and followed road salt news.
- Conducted independent research on road salt pricing.

2014-2015 Winter Season Road Salt Bids

According to DTMB, two factors combined to create scarce supply and significantly higher prices. Vendors had not sufficiently rebuilt their stockpiles from last year's unusually harsh winter, and some states went out to bid before Michigan. Therefore, bids for the 2014-2015 winter season came in unusually high. DTMB actually conducted second round pricing negotiations, had discussions with all bidders, and then conducted "Best and Final Offer" (BAFO)/third round negotiations in an attempt to get lower prices.

The 2014-2015 road salt bids for the Midwest states were opened in this order:

1.	Minnesota	April 29
2.	Iowa	May 7
3.	Wisconsin	May 13
4.	Ohio early fill	May 13
5.	Pennsylvania	May 28
6.	Indiana	May 30
7.	Missouri early	June 10
8.	**Michigan**	**June 16**
9.	Illinois	July 1
10.	Ohio seasonal fill	July 8
11.	Missouri seasonal	July 22

Notably, Minnesota, Iowa, Wisconsin, Ohio-early fill, and Pennsylvania did not experience the significant price increases seen in Indiana, Missouri, Michigan, Illinois, and Ohio-seasonal fill.

For Michigan's 2014-2015 winter season, DTMB posted the RFP on May 15, 2014, opened the bids on June 16, 2014, and posted the awards on July 24, 2014. The bids were opened over a week later than the year before. And, as mentioned earlier and explained in more detail below, the date of the bid opening appears to be an important date that can influence road salt suppliers' pricing and whether to bid for certain locations.

For the 2014-2015 MiDEAL RFP seeking 1,459,879 tons of road salt:

Cargill bid 0 tons, which is 554,335 tons less than last year.
Detroit Salt bid 226,820 tons, which is 401,680 tons less than last year.
Morton bid 348,295, which is 539,720 tons less than last year.
Compass bid 1,291,079, which is 292,240 tons more than last year.

The Suppliers

Cargill

Cargill, headquartered in Minneapolis, Minnesota, is a privately owned business that provides food, agriculture, financial, and industrial products and services. Cargill Deicing Technology operates three salt mines in the U.S. The mines are located in Cleveland, Ohio; Avery Island, Louisiana; and Lansing, New York. The Cleveland mine, which services Michigan and other Great Lakes states, produces approximately 3.6 million tons of road salt annually. Cargill stockpiles its road salt in the Great Lakes region in Cleveland, Duluth, South Chicago, Green Bay, Milwaukee, Burns Harbor IN, Detroit, and Gladstone, MI.

In Michigan, in response to the 2013-2014 MiDEAL RFP, Cargill bid 236,100 tons of road salt for the early fill and 318,235 in the seasonal fill (but was awarded only a nominal amount). Cargill did not bid any of the 2014-2015 MiDEAL RFP.

In the Midwest, Cargill bid on 4.956 million tons of salt in 2013-2014 and was awarded 2.434 million tons. Cargill bid on 2.808 million tons for the Midwest states in 2014-2015 and was awarded 2.8 million.

Cargill reported that it had very little supply left over after last winter. It also notes that the 2014 demand for salt was high because many expected this to be another rough winter, and states raced to restock their supplies. According to a Cargill representative, crews worked all summer, including on Saturdays, at the company's three salt mines, and the company has even imported salt from Chile to replenish its supply.

Compass Minerals

Compass Minerals, formally North American Salt, is headquartered in Overland Park, Kansas. Compass operates two salt mines that service the U.S. Compass' Godderich, Ontario mine is located on Lake Huron. The mine produces 7.5 million tons of salt annually. It serves areas surrounding the Great Lakes in both the U.S. and Canada and areas that border the St. Lawrence Seaway. Salt is transported to customers via the Great Lakes and the St. Lawrence Seaway. Compass serves Michigan from three stockpiles located on the east coast of Lake Michigan and four stockpiles located on the Detroit River and the west coasts of Lake Huron and Lake Erie.

Compass' second mine is located in Cote Blanch, Louisiana, and services southern states and the southern portions of Indiana, Ohio, and Pennsylvania, plus Wisconsin, Minnesota, and Missouri. Salt is transported from this mine to customers via the Mississippi, Ohio, and Tennessee Rivers.

Compass normally has substantial inventory at the end of a season but had virtually none after the 2013-2014 season. Nonetheless, Compass submitted a bid for every agency on the MiDEAL RFP for both the early and seasonal fills, albeit at higher prices than last year. It appears that their practice is to bid on everything for every RFP with the expectation that they will only get part of the award. In 2014 Compass bid 551,285 tons in the early fill and 739,794 tons in the seasonal fill. Compass was awarded significant tonnage because of the reduced number of tons bid by Morton, Detroit Salt, and Cargill.

Compass was the only bidder for the Wayne County 2014 early fill, priced at $74.42 per ton. Compass quoted $58.95 per ton for all of the Wayne County seasonal drop points and was awarded the drop points not bid on by Detroit Salt. Wayne County representatives explained that it is unusual to see an early fill price higher than a seasonal price. However, as evidenced by the email from Compass asking to have its award reduced, it is apparent that Compass did not expect to win as much of the award as it did. In the 2013-2014 season, Morton Salt won the Wayne County early fill contract and Detroit Salt and Compass won the Wayne County seasonal fill drop points. In a repeat of previous season, for the 2014-2015 season Compass may have bid higher on the Wayne County early fill because it expected to lose and lower on the Wayne County seasonal drop points because it expected to win.

Compass was also the only bidder in 2014-2015 in all of the counties in the top half of the Lower Peninsula, including Missaukee County. As mentioned previously, Missaukee is paying $82 per ton for the early fill while some neighboring counties are paying just under $70 per ton, and for the late fill Missaukee County is paying $78.61 per ton, while some neighbors are paying under $70. A possible reason for the difference in prices between counties this season can be found in last season's prices. In 2013-2014, Compass won almost all of the early fill bids in the North and Grand Regions,[23] except Detroit Salt won those in Missaukee, Roscommon, Osceola, and Montcalm. Hence, it is likely that Compass bid higher in those counties in 2014-2015, expecting to lose to Detroit Salt, but if Compass won it would be able to command higher prices. Compass did win, given that it was the only bidder in those counties.

---

[23] The North Region consists of those counties north of Oceana, Newaygo, Mecosta, Clare, Gladwin, and Arenac. The Grand Region consists of Oceana, Newaygo, Mecosta, Muskegon, Ottawa, Kent, Montcalm, and Ionia counties.

The same is true for the seasonal fill bids. Compass won almost all of the seasonal bids in 2013-2014 for the North and Grand Regions, except Detroit Salt won Missaukee, Morton won Roscommon, Osceola, Oceana, Newaygo, and Muskegon, and Cargill won Kent. Compass bid higher in the counties of Missaukee, Newaygo, and Kent, apparently expecting to lose to Cargill (Kent), Detroit Salt (Missaukee), and Newaygo (Morton).

Similar to the situation in Missaukee County, Compass was the only MiDEAL bidder for the City of Grand Haven in 2014-2015. Compass' prices increased everywhere across the State year over year, and Grand Haven's increased by 34%, which was typical. The increase is explained by the inventory shortages discussed previously.

In total, Compass was awarded over 1 million tons of salt in Michigan for the 2014-2015 season. Because the amount awarded was higher than Compass expected, they requested a reduction in the amount of their award which DTMB denied.

Detroit Salt Company

The Kissner Group, a privately held equity group out of Cambridge, Ontario, purchased the Detroit Salt Company from the Ferrantino family in 2010. Kissner made some investments in the mine this past year with additional contract employees and equipment, so production may increase. The mine is currently running at full capacity. It produces more than one million tons of salt annually. Detroit Salt stockpiles salt for delivery to Michigan customers in Detroit and a new facility (as of November 2013) in Lansing. Detroit Salt delivers salt to its Michigan stockpiles via truck.

In 2014 a substantial portion of Detroit Salt's production was slated for renewal contracts with the City of Chicago, the State of Illinois, Livingston County, Genesee County, and Ft. Wayne, Indiana. Additionally, Detroit Salt provides at least five percent of its production to Kissner for retail sales every year.

For the 2014-2015 season, Detroit Salt bid on the Indiana and Ohio-early fill RFPs before the MiDEAL RFP. The MITN RFP was also opened before the MiDEAL RFP, and MITN awarded 280,000 tons to Detroit Salt. Detroit Salt backed out of the Indiana bid, citing lack of inventory, when Indiana asked it to correct a technicality.

On the MiDEAL RFP, Detroit Salt bid 628,500 tons for the 2013-2014 season and only 226,820 tons for the 2014-2015 season, which is a decrease of 401,680 tons. Detroit Salt was awarded 214,070 tons for the 2014-2015 season. Detroit Salt's representative says that it had virtually no inventory at the end of the 2013-2014 season so all of the salt produced now is being shipped directly to customers. Where

Detroit Salt did bid, their prices were lower than their competition. For example, Detroit Salt bid $47.01 per ton on the MiDEAL Wayne County seasonal fill drop points, while Compass bid $58.95 and Morton bid $65.07. (Cargill did not bid).

Detroit Salt chose not to bid on the City of Jackson's request for 4,525 tons through the MiDEAL program, so the City had to go with the Compass quote of $80.22 per ton it received through MiDEAL. However, Detroit Salt contracted directly with Jackson County for 30,000 tons of road salt at $56.17 per ton. Detroit Salt's choice to bid on Jackson County's RFP but not on the Jackson local units in the MiDEAL RFP appears to be attributable to the timing of the RFPs and the location of the bidder. Just two weeks before the MiDEAL bid was opened, Detroit Salt was awarded the 30,000 ton RFP in Jackson County and another 11,000 ton award in Calhoun County. Detroit Salt did not have enough inventory to bid on all of the MiDEAL requests. It chose not to bid on the City of Jackson's MiDEAL request because it did not want to commit to delivering an even larger amount of salt in the same geographic area, especially in the event of a significant snow event.

During our interview with Detroit Salt's representative, he recommended that the State bid as early as possible following a harsh winter because depleted inventories will push prices higher. In contrast, he recommended the State bid later following a mild winter, when inventories are closer to capacity.

Morton Salt

Morton is headquartered in Chicago, Illinois. It operates the Ojibway mine in Windsor, Ontario, Canada, which can produce approximately 2.569 million tons of road salt per year, and a mine in Fairport, Ohio that can produce approximately 1.4 million tons annually. Morton can stockpile road salt for delivery to Michigan in Benton Harbor, Detroit, Muskegon, Saginaw, and Toledo. Morton transports salt from its mines to its stockpiles by truck.

In Michigan, for the 2013-2014 MiDEAL RFP, Morton bid 888,015 tons and was awarded 162,400 but actually sold 194,856 tons to Michigan agencies because of the harsh winter. In 2014-2015, Morton no-bid the early fill and bid 348,295 tons in the seasonal fill. Morton was awarded only 30,000 tons. In the Midwest states, Morton bid 4.502 million tons in 2013-2014 and sold 1.82 million tons. In 2014-2015, Morton bid 3.147 million tons and was awarded 1.473 million tons. Morton reported it cannot take additional business due to its inventory levels, salt production capacity, and service commitment goals.[24]

[24] Shaver, *Morton Unable to Provide Bulk Road Salt to Wellston*, Jackson County Daily (October 16, 2014). Available at http://www.jacksoncountydaily.com/news/article_72b82f86-436b-570d-abfd-7eb76eba90bc.html.

2014-2015 Winter Season Road Salt Prices in Other Midwest States and Canada

The issue of high road salt prices for the 2014-2015 winter season was not unique to Michigan:

Ohio

Increased salt prices appeared to hit hardest in Ohio, where most counties paid between 43 percent and 128 percent more for salt in 2014 compared to 2013. Some counties rejected bids that were too expensive or received none. The state has stepped in to try to help those counties by buying 170,000 additional tons of salt from an Indiana supplier, Midwest Salt.[25] Midwest Salt reported that it plans to obtain the salt from Morocco and bring it in through the port of Toledo.[26]

Ohio used more than 1 million tons of salt on state roads during the 2013-2014 winter season, which was a nearly 60 percent increase over the average. In 2014, the road salt prices, which are bid on by county, were higher for the first round of bidding for early fill between $36 a ton and $81 a ton, compared to the state average of $35 per ton in 2013. Some communities waited until the second round of bidding for the seasonal fill in hopes of getting a better price, but prices went up, including one quote of $165 per ton. Furthermore, 15 counties received bids of more than $100 per ton, and 10 counties received no bids from suppliers.[27]

Cargill and Morton are the only two companies with salt mines in Ohio. And they have been the only two suppliers of road salt to Ohioans since 1997; probably because Ohio has a "Buy Ohio" law that favors companies that mine salt in Ohio over out-of-state competitors (Ohio miners received a 5% pricing advantage). ODOT only awarded contracts to one of these two companies, even if a non-Ohio salt company submitted a lower bid. This practice discouraged out-of-state vendors from bidding on Ohio salt contracts.[28]

The Ohio Attorney General filed a state antitrust case against Cargill and Morton in Ohio state court in 2012. *State of Ohio v Cargill et al*, Docket No. 12-cv-030268,

[28] See *Erie County v Morton Salt, Inc.*, 2011 WL 4361615, *1-2, (ND Ohio 2011).

Tuscarawas County Court of Common Pleas. The complaint alleges that the two vendors allocated public purchasers, including ODOT, geographically, and therefore were able to raise prices. The State of Ohio survived a motion to dismiss its claim. Discovery is ongoing, and a trial is scheduled for May 12, 2015.

Another complaint making similar allegations was filed by Erie County, Ohio, on behalf of itself and other Ohio counties, in 2011. *Erie County v Morton Salt, Inc et al*, 2011 WL 4361615 (ND Ohio 2011). The district court granted Morton's and Cargill's motions to dismiss, opining that the suppliers' duopoly and increased profits were the result of "'marketplace dysfunction' caused by ODOT's erroneous interpretation of the Buy Ohio law, not of any wrongdoing by the defendants."[29] Erie County appealed to the U.S. Court of Appeals for the Sixth Circuit. While the appeal was pending, Erie County discovered that the counties have never been bound by the Buy Ohio law.[30] The Sixth Circuit affirmed on other grounds, holding that while it appeared that the salt companies engaged in parallel conduct, plaintiffs did not "allege facts sufficient to raise a plausible inference of an unlawful agreement to restrain trade."[31]

Had the counties been bound by the Buy Ohio law, however, the Sixth Circuit court opined that facts were sufficient to raise an inference that the companies engaged in sham bidding.[32] That is because under the Buy Ohio law, for one of the two defendants to automatically win, there has to be bids from at least two suppliers that mine salt in Ohio. As a result, the suppliers bid everywhere, but it appeared that they purposefully submitted losing bids in each other's historical territories.[33]

Indiana

An Indiana procurement agent supplied DTMB with copies of the Indiana road salt awards for 2013-2014 and 2014-2015. Those awards show that Indiana paid between $48.75 and $79 per ton in 2013 and between $71 and $106 per ton in 2014. All four suppliers responded to the initial 2014-2015 RFP, but Detroit Salt withdrew its bid during an initial clarification round. For the past five years, the state has used on average 352,000 tons of salt. During the 2013-2014 winter season, which saw heavy snow and bitterly cold temperatures, the state used more than 437,000 tons of salt.[34]

Illinois

Illinois officials said the 2014-2015 season's prices ranged from $75 a ton to more than $130 per ton, up from the previous year's statewide average of about $55. Like other states, Illinois offered centralized purchasing to local governments, but many did not receive bids. Illinois said that it is continuing to work with those communities by connecting them with vendors, and believes that those who need salt ultimately will be able to get it.[35]

Illinois reported to DTMB that it coordinates road salt bids for over 500 local entities, with RFPs requested for half of the locals each year, in alternating years. One of the two-year contracts in their portfolio has a cap on price escalations during the second year. That vendor did honor the 5% escalation contract cap for the usage specified ($55-$60/ton) for the 2014-2015 season.

The locations being taken to market for 2014-2015 pricing had a different experience. In the initial round of bidding, 195 of the local public entities received no bids. Of the locations bid, pricing ranged from approximately $70 - $140 per ton. Illinois chose to issue a second bid, along with 90 local entities, and only 20 locals received bids. Some pricing was over $140.

Missouri

MoDOT said the department paid an average of $80 per ton for road salt for the 2014-2015 winter season. In 2013, it was paying an average of $60 per ton. The department headed into this winter with 220,000 tons of road salt, and on average it uses 180,000 per winter. During the 2013-2014 winter, however, the department used 215,000 tons and bought additional road salt during the season.[36]

Pennsylvania

Pennsylvania reported a modest 8 to 9 percent increase in salt prices for the 2014-2015 winter season. State transportation officials said they used about 1.2 million tons of road salt during the previous winter, a 43 percent increase over the five-year average.[37] Pennsylvania opened its bid before Indiana, Illinois, Michigan, Missouri, and Ohio-seasonal.

Wisconsin

Officials in Wisconsin paid on average 14 percent more for salt in 2014. A Wisconsin state highways official said he knew the increase was coming but was grateful the state was able to secure salt for all of Wisconsin's 72 counties and hundreds of municipalities.[38] Wisconsin was the third of the Midwest states to open its bid.

Iowa

Iowa officials said that planning ahead enabled the state to lock in a good price for the 2014-2015 season. The Iowa DOT was proactive in putting together a contract for the year and no supply issues were reported.

Statewide prices went up an average of $10 per ton, depending upon which part of the state. The overall average price per ton is $82, about a 13 percent increase over 2013.[39] Iowa was the second state to open its bid.

Minnesota

Minnesota communities paid about 4 percent more on average in 2014 for salt, which the state is crediting to securing prices in early spring before prices jumped. Some local governments paid about 15 percent more, but most increases were more moderate.[40] Minnesota was the first of the Midwest states to open their bid.

Canada

Governmental agencies in Canada did not experience the price increases and shortages that we saw in the U.S for the 2014-2015 winter season. In Canada, regional and provincial government agencies typically contract with private entities to provide winter services. The services include plowing, salt application, sidewalk clearing, etc. These private entities have contracts with the road salt suppliers that are typically multi-year agreements for the purchase of a specified amount of salt. The contracts contain negotiated annual price provisions, which specify the size of a price increase, irrespective of any significant fluctuation in year-to-year demand. Additionally, the salt suppliers' contracts have staggered end dates, so they start each bid season with a known, "committed" amount of salt to be sold to Canadian purchasers.

Investigation Conclusions

Our investigation did not find evidence of price-fixing or other illegal anti-competitive conduct. The 2013-2014 winter was the snowiest winter on record in many Great Lakes states. Michigan's four suppliers report that they depleted their inventories by spring 2014, which is highly unusual as they typically have 15-20 percent inventory remaining at the end of a season. In addition, many states, counties and local municipalities depleted their inventories as well, so the tonnage they requested increased.

A review of road salt contracting in eight other Midwest states indicates that road salt prices increased as the states' bids were opened between May and July 2014. In other words, the later the bid was opened, the higher the price of salt. This timing issue is consistent with salt suppliers having insufficient inventories to cover the demand.

When salt suppliers bid for states' business, they try to win only as much business as they can serve with their expected inventories, and this year their inventories were low. They might bid higher prices in areas where they don't expect to win and lower prices in areas that they want to win. With decreased inventory, they bid higher in a greater number of areas than usual. If they win the higher priced bids, they can meet their obligation with higher cost product, such as salt mined in South America. Due to heavy market demand, fewer road-salt suppliers were willing to bid for supply contracts under the MiDEAL program, which adversely affected pricing for purchasers.

---

http://bigstory.ap.org/article/7623d35d1a6145e9b88ec6ade6db229e/summary-snow-states-road-salt-problems

It also appears that there are legitimate explanations for the salt pricing issues raised by Missaukee County, the City of Grand Haven, the City of Jackson, Wayne County, and the City of Dearborn. Due to low salt supplies, only one supplier bid in Missaukee County and City of Grand Haven for the 2014-2015 winter season. This same rationale also applies to the City of Jackson. Detroit Salt did not bid for Jackson under the MiDEAL program in 2014 due to low salt supplies and a need to not overextend itself in the area, since two weeks before the MiDEAL bid was opened Detroit Salt was awarded a 30,000 ton contract with Jackson County and an 11,000 ton contract with Calhoun County. Likewise, Wayne County's pricing anomalies were likely caused by low inventories and the fact that only one supplier bid on the 2014 early fill. Lastly, the City of Dearborn's higher prices compared to the Downriver Community Conference are a result of DCC's three-year contract with a salt supplier.

Recommendations

1) Consider updates to the State bidding process

While this investigation focused on anticompetitive conduct, based on our findings, it appears the timing of the bidding is a crucial factor affecting road salt prices. Understanding that pricing of road salt is a complex process, we recommend further discussions with DTMB and MDOT to identify ways to improve Michigan's position in MiDEAL's road salt bidding process. One potential option is to set an earlier bid date to enable local governments to buy salt earlier in the season and to negotiate multiyear contracts. It appears that opening bids earlier in the year can generate more bids and at lower prices. We understand, however, that following mild winters it may be advantageous to delay the bidding process since stockpiles are high and prices may be lower. Accordingly, we recommend that DTMB review the timing of the bid process and work closely with municipalities to lock in competitive road salt prices.

2) Consider alternatives to road salt and modifying distribution methods

During our investigation we learned that one way to stretch the limited supply of salt is to combine it with other materials. Sand is most commonly used, but it is not the only option. It is our understanding that public works agencies are working with local businesses to obtain manufacturing byproducts to mix in with the salt. They are experimenting with additives such as cheese brine and molasses, rum and vodka distillery leftovers, and sugar beet juice.[41] We recommend that DTMB and MDOT reevaluate how MiDEAL can further utilize alternative products, including products already available under the MiDEAL program.

[41] This report does not address any environmental issues concerning the use of road salt or alternative road de-icing materials.

MDOT is already looking for ways to make salt distribution more efficient and implement techniques to reduce "bounce and scatter" and we encourage this continued review. Properly calibrated dispensing equipment can cut waste by nearly 35%.[42] Washtenaw County, for example, is having salt trucks drive slower and pre-wetting the salt to prevent bounce and scatter.[43]

Combined, new materials and efficient distribution can potentially reduce usage, and thereby lower costs.

According to Mackinac Center for Public Policy, there is no single "silver bullet," but rather a collection of practices that improve overall efficiency and effectiveness. The Center recommends improved plowing technologies, greater focus on calibration procedures, operator training, materials-placement strategies, greater use of liquids, advanced forecasting of weather and pavement conditions, improved material-spreading equipment, and greater public awareness.[44]

3) Evaluate ways to better utilize the Detroit Salt Mine

A major Michigan salt resource is the Detroit Salt Mine. This mine has been in operation for almost 100 years and the Detroit Salt Company appears to have potential to improve its delivery and production methods. Such improvements may potentially result in lower salt prices for the State of Michigan and its citizens. The mine is located 1,200 feet beneath Detroit's surface, spreads out more than 1,500 acres and has over 100 miles of underground roads.[45] As stated previously, it produces more than one million tons of salt annually. This is a smaller operation compared to the other mines in the area.

We recommend that the appropriate state agency meet with Detroit Salt to see if there may be ways to encourage better use of this resource. The company provides jobs to Michigan citizens and the mine is part of Detroit's history. One area to address is Detroit Salt's current delivery methods. It delivers salt to its Michigan stockpiles via truck, and does not use shipping or rail for Michigan deliveries. Increasing Detroit Salt's access to Michigan docks, thereby improving their ability to deliver its salt may allow it to bid in more Michigan communities. Due to its close proximity there may be an opportunity to reduce transportation costs if

delivery methods improve. In theory, increased competitive bids will result in better pricing. We also recommend discussing ways that the State can support improving Detroit Salt's production methods. An increase in production may allow Detroit Salt to bid in more Michigan localities.

Subject: Water Filters

Tom

Per our phone conversation, the State would like information as to whether Home Depot could supply water filters. Water filters should be National Sanitation Foundation (NSF) certified to remove lead and meet ANSI standard 53.

DHHS is looking for up to 25,000, to be delivered to the DHHS offices in Flint. They would like an initial shipment in the next day or two.

Please contact Steve and I with any questions. We look forward to your update tomorrow morning, possibly around 9:30 am?

Thank you.

Under the counter filters from Grainger are going to be priced around $150 each, their supplier stock is low at 860 units (3M Company out of Minnesota), and could be difficult for some to install.

The Home Depot faucet filters are much easier to install and priced at $17. 47 each with a 2-pack of replacement filters available for $24.87.

Home Depot will have 20,000 filters shipped to one of their local Flint stores on Saturday and can be delivered on Sunday to the GCCARD if someone is available, otherwise will be delivered on Monday. Dave from Home Depot has already been in contact with Matt Purcell from GCCARD.

DHHS just signed the purchase order for the 5,000 filters. We are moving on this now.

DTMB- when can we say that Home Depot or Grainger will be delivering the filters?

On Oct 2, 2015, at 2:09 PM, Hanley, Farah (DHHS) <hanleyf@michigan.gov> wrote:

We appreciate everyone staying so patient as we make this happen and recognize that this is an evolving issue.

To that point we will now be issuing over and under counter filters (assuming most people will pursue the over counter faucet filters). Let's pursue 2/3 of the 5,000 for over counter and 1/3 of the 5,000 for under counter filter.

After further discussion with others, we believe we can start with 5,000 filters and go from there.

If we have to purchase more we'll do that.

Feel free to tell them 5,000. Thanks Kris.

On Oct 2, 2015, at 12:26 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

All,

Now that option #2 is a go, here are the questions we need to have answered:

1. Will you be offering the under the counter filters that were offered from Grainger or just the Brita filters from Home Depot?

Latest: We will not be offering under the counter filters

   a. No pricing yet from Grainger on the under the counter filters until they know quantity. However, Brent did say that manufacture's inventory is low.
   b. Home Depot pricing was $17.47 each on the Brita faucet filter and $24.87 for a 2-pack replacement cartridge.
   c. Specs for Brita faucet filter is attached.
   d. Specs for the Pentair under the counter filters are attached.
2. What is the quantity of filters needed? If offering both faucet and under the counter, will need quantities of each

Since this is potentially a bigger non DHHS population, we don't have immediate access to census info. Wouldn't City of Flint have this?

Amy- Is there a DEQ contact over there to get Steve an estimate?

Steve- Can we start with a number like 20,000 and go from there? We need to start with a number until we get a better estimate and go from there.

3. Will you be offering cartridge replacements? If yes, how many?

I don't think anyone knows. We want to just start w the filters and worry about replacements a little later.

3. Who is going to be the main contact person that Home Depot and/or Grainger will be working with that will cut the PO and place the order?
    a. The main contact person for Home Depot is David Khanuja – cell number 248-826-8907
    b. The main contact person for Grainger is Brent Zinn – cell number 313-701-5454

Chris Sanches

4. What is the physical location that items will be delivered to?

It's the CAA in Genesee county. Elizabeth - Per your convos with the CAA does it go straight to their office? Also is there a contact person that can be reached?

If it goes to their office, their address is 601 North Saginaw Street, Suite 1B, Flint, 48502

Finally just to reinforce, we are still waiting on an answer / confirmation of the voucher option.

Thanks

It is my opinion that the best thing to do right now is identify the main contact person so that he/she can contact David from Home Depot and/or Brent from Grainger to get moving on orders.

Side Note: David from Home Depot is telling me that the United Way purchased 4,000 filters from Home Depot to be donated. I don't know any more detail than that.

Let me know what else you need from DTMB. Thanks.

Subject: Flint Water Update
Importance: High

I am adding everyone from DHHS, DTMB, and DEQ who I understand is helping out with the Flint Water issue to this email so we can all be on the same page. Please forward this email to anyone you believe needs to be in the loop so we can get all-hands-on-deck.

Here is the latest:

1. We will move forward with the vouchers to be distributed at local county offices for DHHS clients only. DHHS Purchasing is going to reach out to DTMB to help us make copies of water marked, colored and other authentic detailed documents to get out to local offices as soon as possible. We will figure out costs and DTMB charges to DHHS later.
    a. Latest change : From a budget/accounting perspective, we will not receive $1 million from DEQ for this purpose. The $1 million from DEQ will be for item #2. Instead, for this purpose, funding will come from a work project that our budget office will advance to SBO. Our budget office is working on that now.

2. There is now a new thing we will do to address the broader population - NON-DHHS or DHHS clients - per the DHHS and DEQ front offices. DHHS will work with DTMB to get water filters to the Community Action Agency in Genesee county to distribute. This will be paid for with the $1 million DHHS will receive from DEQ.

This is the plan for now. Elizabeth -- Please confirm have this right.

Everyone is encouraged to ask questions. Sorry for including so many people but the left hand needs to know what the right hand is doing here.

Thanks

Yvon Dufour – Recently received a special thank you from the DTMB State Emergency Response Center for his assistance during the storm clean up in Grand Traverse County. Yvon quickly answered multiple rounds of questions, helping facilitate clarification of options and next steps to source clean up goods and services.

Steve Rigg – Steve is providing ongoing assistance to source water filters for the citizens of Flint. With vendor partner Home Depot, they had 20k in the city within 48-72 hours – just for the initial shipment.

Let's quickly discuss please. There is an existing bottled water contract – not with Home Depot. Let's evaluate the best option.
Also, according to the new webpage dedicated to Flint water info, the schools water is being tested – do we know the results of that.

Subject: water for Department of Education

FYI. Marla Moss from the Office of School Support Services (MDE) called me about getting bottled water from a State contract for the Flint public schools. The school lunch program requires that potable water be available for students on the program. I put her in touch with David from Home Depot. I knew they had emergency services for this and wanted to keep this going with 1 contact/vendor.

I have already talked to David from Home Depot. Home Depot is going to donate 10 pallets of water to the schools, 4 pallets to Fire, and 4 pallets to police. David is also getting me pricing if they need more than that.

Once I hear back from David and/or Marla I will let you know.

Steve

This is excellent, thanks for taking the lead and for the briefing. I'm looping Sharon in since she'll be back up while I'm on vacation the 9th – 15th.

Can you please help me with three things?

- Can you make sure that Sharon has David/Home Depot's and your cell phone numbers, just in case. If you have Farah's or Chris Sanches' that would be helpful for Sharon as well.
- Can you draft an email to Chris/Farah/David that I'll be out on the above dates, and let them know that you are the primary contact and Sharon is back up while I'm out. Please provide Sharon's work cell for any night or weekend emergency calls
- Can you please email Marla Moss the location and contact name where Home Depot dropped off their water donation at Flint Public Schools?

I'll include the MDE contact info here, just in case anything comes up while I'm out.

- I've spoken with Marla Moss (373-2313 CELL 269-274-3015) and Diane Volzinski at MDE.
- They were trying to obtain a USDA waiver for Flint schools to not have to serve water during meals. The USDA wants to know how long the waiver would be needed, and Marla can't provide them specifics, so the waiver is still pending.
- Flint Public Schools have received bottled water donations from multiple sources, including Home Depot. As of 10-6, Flint Schools was still assessing how much water was needed per day, how much had been received, and whether they needed to purchase more, possibly through a MiDEAL contract.
- DEQ was in Flint testing the schools water on 10/5, no results were available as of our last conversation on 10/6
- As of 10/6, Marla was still working to establish her primary contact at Flint Public Schools to assess what assistance MDE could provide.

Subject: water filter update

Rebecca,

- DHHS is moving forward with purchasing the 9,000 replacement filters for the Brita faucet filter. Price confirmed at $15.97. Approximately delivered by Friday.
- DHHS is moving forward with purchasing replacement filters for the 720 Zero Water water pitchers. The filter capacity is only 15 gallons on these. Dave is working on how many in stock at supplier and when they can be shipped. The price is $29.97 for a pack of two.
- Farah Hanley had requested and been given confirmation that Home Depot is supplying Brita Model #SAFF-100 for the faucet filter and the pitcher they are supplying is the ZeroWater ZD-013D (8-cup). Both units are certified for lead reduction. The filter capacity of the Brita is 100

gallons and the filter capacity of the ZeroWater water pitcher is only 15 gallons before needing replacement. Specs for the Brita filter were sent to all and the link below shows the claim for lead reduction for the ZeroWater pitcher. http://info.nsf.org/Certified/DWTU/Listings.asp?Company=1K760&

- Dave from Home Depot is now working directly with DHHS to process PO and get things ordered.

Nothing further at this time.

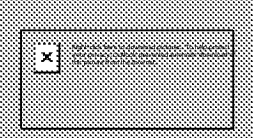
MIRS BREAKING NEWS: Flint To Return To Detroit Water, Gov Asks Lawmakers To Help Cover Costs -- 11:18 a.m.

http://www.mirsnews.com/alert.php?alert_id=2106

(FLINT) -- The city of Flint will transition back to getting its water from Detroit within weeks, and Gov. Rick **SNYDER** said today he is in "full support" of the move.

In addition to that, Snyder said he would be asking the Legislature for $6 million to assist with the move, which will make up half of the estimated $12 million it will cost Flint to go back to its old water supply, as estimated through next summer.

The other $6 million will be divided up between Flint itself ($2 million) and from a donation from the Mott Foundation ($4 million).



The cost estimate is based on the time it will take to complete the connection to Flint's new permanent water supply, the Karegnondi Water Authority. That's expected to go live in June 2016.

Snyder said the decision to support the move back to Detroit water -- something he said the city is ultimately in charge of deciding -- was based in part by a recommendation made by a meeting of technical experts Wednesday.

Joining Snyder at the press conference today were some of his cabinet officials and Flint leaders, as well as Senate Minority Leader Jim **ANANICH** (D-Flint), who described today's actions as a step in the right direction, but going forward, he said there must be more transparency and that the state's action plan be implemented fully.

Subject: NEWS UPDATE--Snyder Asks Legislature For $6M To Reconnect Flint To Detroit Water

Thursday, October 8, 2015, 10:21 AM

Snyder Asks Legislature For $6M To Reconnect Flint To Detroit Water

FLINT – Governor Rick Snyder said today that Flint will reconnect to the Detroit water system and no longer draw water for its residents and businesses from the Flint River, a move that comes in response to insufficient corrosion treatment for the river water causing unsafe levels of lead to leach into the water.

The announcement follows one of the most serious environmental crises to confront the state and a major outcry that Mr. Snyder's administration, and the man he appointed to run the city when it was in a financial emergency, failed to assure the river water – more corrosive than the water from Lake Huron, where the Detroit system draws its water – was properly treated before making the switch to the river. Testing has shown rising levels of lead in the blood of some children in the city and pockets of the city with lead levels in the water that exceed recognized limits for safety.

Mr. Snyder said it will cost $12 million to shift Flint to Detroit water through next summer, when a new pipeline to Lake Huron is expected to be completed to supply Flint and surrounding areas with its water. He said he is asking the Legislature to supply $6 million. The Mott Foundation will contribute $4 million and the city of Flint will chip in $2 million.

Gongwer News Service will have more on this story in today's Michigan Report.

Questions/Discussions in PLT....

1. Do we Dtmb or other agencies always issue POs for purchases PRIOR to receiving goods or allowing ordering verbally....or are emergency pos been issued after the fact?
2. Is there any accountability or record keeping for all orders issued by agencies and us?
3. Is it true Home Depot we have $20M?
4. What is FEMAs role regarding purchasing?
5. How are we communicating to other agencies?
6. Has there been any direction re: what agencies are to be tracking.....including overtime? What have we tracked for Dtmb central.

Mdoc and DHHS asking questions.

May suggest quick call between Dtmb and mdoc DHhs, plus others? Thx.

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Subject: RE: Warehouse for Sample Storage

Attached is a copy of the rental agreement that Paul has signed and sent to DTMB Real Estate for their signature and finalization. We will have access 2/1/2016 which is next Tuesday. I will work with Carol Smith and the landlord/Real Estate on the details of gaining keys/access to the site.

The DEQ's intention is to only use the garage space so we will be securing that space separately from the house. DTMB Real Estate is in discussions with DHHS regarding some of their staff utilizing the house for the same criteria, Flint related and temporary. If in fact they decide they have interest in entering into this agreement, we would discuss any concerns prior to creating an MOU with DHHS. I have made it clear what we want to keep the spaces secured separately and that we would need the driveway free and clear to allow access to the garage bays for the daily activity of the pallets of water samples form the Lab. I will keep you posted if that progresses any further.

I will pass along the FINAL rental agreement once we receive it.

Please let me know if you have any questions or concerns.

Thanks

MK

Agreement #11870 - 2016

RENTAL AGREEMENT

Between

GAMUT GROUP LLC

A Michigan Limited, Liability Company

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Gamut Group LLC**, a **Michigan Limited Liability Company**, as Landlord, whose address is **5591 Creekwood Lane, Haslett, Michigan 48840**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 3B, Dimondale, MI 48821, for the Department of **Environmental Quality (MDEQ)**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. Premises & Rent –
   - 1.1 Landlord hereby rents to Tenant approximately **1,600** usable square feet of warehouse space and **1,200** usable square feet of office space for a total of **2,800** usable square feet, as further described in Attachment "A" to this Agreement, in the building commonly known as **3306 N. MLK, Lansing, MI 48906** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, hallways, and the restroom facilities of the Premises in common with the Landlord and/or other tenants of the Premises.

   - 1.2 Tenant shall pay to Landlord rent at the rate of **One Thousand Two Hundred and 00/100 Dollars ($1,200.00)** per month. Rent consideration installment payments shall be made during the month for which the installment applies.

2. Term - The term of this Agreement begins on **February 1, 2016** and ends on **January 31, 2017**, subject to the cancellation provisions of this Agreement.

3. Holding Over - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement (not to exceed 6 months), it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

4. Cancellation - This Agreement may be cancelled by the Tenant upon ninety (90) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall clean the Premises to "broom-clean condition", and shall remove all Tenant furnishings from the Premises. Furnishings remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

5. Services and Responsibilities of Landlord - **Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling (office space only), capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall.
   - 5.2 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level. Replacement of light bulbs and tubes as needed.
   - 5.3 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.4 Kitchen/break-room access
   - 5.5 Commercial grade, heavy duty locking hardware. Prior to Tenant possession, all doors providing access to the Premises shall be rekeyed and two (2) keys per lock combination shall be provided to the Tenant. **Landlord shall be able to access all perimeter gates in case of emergency (MDEQ shall provide keys).**

6. Services and Responsibilities of Tenant - **Tenant shall furnish the following at its own expense:**
   - 6.1 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - 6.2 Janitorial supplies, equipment, personnel, and supervision to provide cleaning services".
   - 6.3 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - 6.4 Removal of trash and refuse from the dumpsters on Premises.
   - 6.5 Pest Control.
   - 6.6 Telecommunication & Internet services, desk-top telephones, usage of printer/copier/fax machines
   - 6.7 Desktop supplies, postage, and office equipment/furniture (if applicable).

7. Repair and Maintenance -
   - 7.1 The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - 7.2 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - 7.3 The Tenant shall be responsible for the following repair and maintenance operations: NONE.

7.4 Alterations & Improvements – **MDEQ to provide a gate on the SW Corner of the leased property at their discretion.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the

register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	Tenant
GAMUT GROUP LLC	Director, Real Estate Division
Attn: Jim Stoll	Department of Technology, Management & Budget
5591 Creekwood Ln	*For private carrier delivery:*
Haslett, MI 48840	General Office Building

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision

shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. Attachments -

12.1 Attachment "A" – Floor Plan, 2 page(s)

I wanted to loop you in on one of the finance issues, below we have a director in DNR who wants to use services being offered by Accenture, (I am assuming the services will NOT be free). The problem is unless this goes through the right channels the SEOC will not be paying for them. I am working with Tom to make sure that doesn't happen.

One of the other things we may need to address in the letter is when vendors are offering "free" services. I think their definition of "free" and ours will be different.

Tom,

If any of the work is to be paid for from the emergency funds you HAVE to go through the SEOC. We are meeting today with the SEOC finance team, procurement team, and DTMB to ensure everyone is going through the correct channels in acquiring services for Flint. If Director Creagh is planning on paying for this out of his own budget then please let me know.

Thanks,

I told Tom Weston this morning that we could possibly help in the following ways:

- Volunteer labor (distribute water/filters, cleanse and organize data, other)
- Lead pipe identification (maybe…..we might be building a system for this. I am getting more info.)
- Develop data collection systems (unstructured data, multiple sources, data quality/reliability, etc.)
    - Household data on pipes, filters, water tests
    - Public health data on lead poisonining case management
- Analyze data
- Program management

- Social Media sentiment analysis to supplement the JIC and Mercury LLC (not directly solving the problem, but could help in managing the situation, setting priorities, or developing communication plans)

We want to understand where the needs are, and then see how we can help. I'll work with Tom, and anyone who contacts me from the SEOC. Please guide me so we can be most helpful!

Jay,

The SEOC is now actually out at the secondary complex, we moved in on Saturday, before it was just off of Collins road. They follow the ICS (Incident Command System) for coordination of any emergency. I am sure your information has been passed to the Logistics section and I will verify that today. Perhaps you could tell me about what type of help you would like to provide and I can make sure the right person is in the loop.

Subject: RE: Armed Guard Deployment - Second Flint warehouse

Denice

Do you plan on executing this as an emergency purchase order? Or do you want us to research the possibility of whether it can be added to a current contract?

Will you be working with DK to negotiate rates again? Hopefully $43/hr or lower.

Please let me know if you have questions.

Thank you.

Rebeca

Subject: RE: Flint - pallet jack

Ryan

Looks to me like there are a couple paths forward:
Pcard
Emergency purchase
Three quotes/purchase order

I asked Yvon to work with you and the quotes to look at the timeframe involved. How long will these units be needed? If we're going to bump up against the $2500 limit at some point, then Yvon can get one more quote (at that point we'll have three) and a purchase order may be able to be issued. He's working on it now, and his desk phone is 284-6996 if you'd like to speak directly with him.

Rebecca

Subject: RE: Flint - pallet jack

Ok. Just so I am clear and we're following purchasing procedures as much as possible.

The request was for electric pallet jacks. Manual pallet jacks will not hold the weight and forklifts require additional training. Since the contract cannot provide what we need, we can go outside the contract to make the emergency purchase (rental)? The prices we received so far are under the $2500 threshold for total cost of the two rentals on a monthly basis.

Thank you,

Ryan McKee

Yvon

Please call Hertz to check on their availability to lease an electric pallet jack for a new leased warehouse location in Flint. Ryan or Jeanette can provide specifics to enable you to obtain a quote.

Rebecca - We will handle the immediate request as an emergency purchase order. But we have CS138 issues with guard service.

Jeff – There is no pricing mentioned in this request. I need a cost estimate for the first month of service so I can enter an emergency CS138 ASAP.

Denice

Do you plan on executing this as an emergency purchase order? Or do you want us to research the possibility of whether it can be added to a current contract?

Will you be working with DK to negotiate rates again? Hopefully $43/hr or lower.

Please let me know if you have questions.

Thank you.

Rebeca

Matt,

Request was received today to deploy an armed security guard for a second warehouse facility in the Flint region. Could you please coordinate deployment of an armed guard as per the following details? Advise if you have any questions or require any additional details. Please confirm assignment at your earliest opportunity.

Thanks,

Jeff

Flint Emergency Purchasing Pro...

AGENDA

Recent guidelines memo from CPO
Discuss how this memo may supersede the current SEOC protocol (where all purchases go through one person). Current protocols did not contemplate such a broad emergency of long duration
Discuss agency purchasing roles and responsibilities to support SEOC members
Discuss how funding source may play a role in which purchasing staff assist
Discuss who determines whether a purchase is an emergency

Jeff, Chris and Natalie

Jeff asked that I set up a meeting to discuss purchasing roles to support OIP/SEOC for Flint response. If this is not a convenient time, please let Diane or Kathy know, and they can assist in us scheduling at a more convenient time.

Chris – I see your calendar is blocked off. We can pick a meeting location close to where you'll be if that would be helpful.

Please contact me if you have questions.
Thank you.
Rebecca

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

<< File: All DTMB Custodians of Correspondence Related to Flint.pdf >>
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

<< File: All DTMB Custodians of Correspondence Related to Flint - UPDATED.pdf >>

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Attachments

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

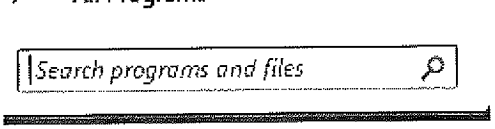
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

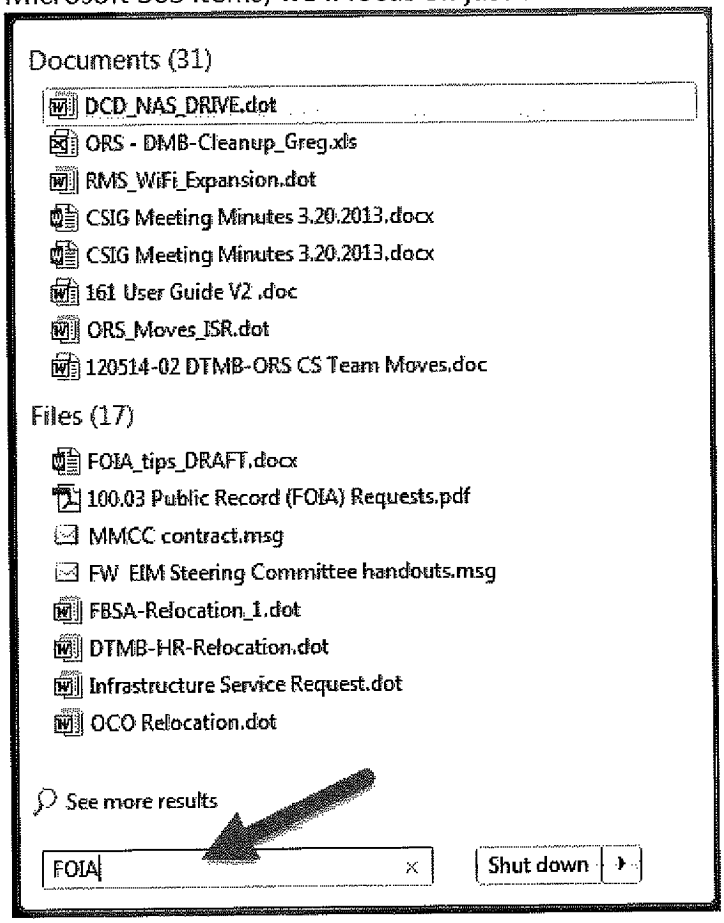
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

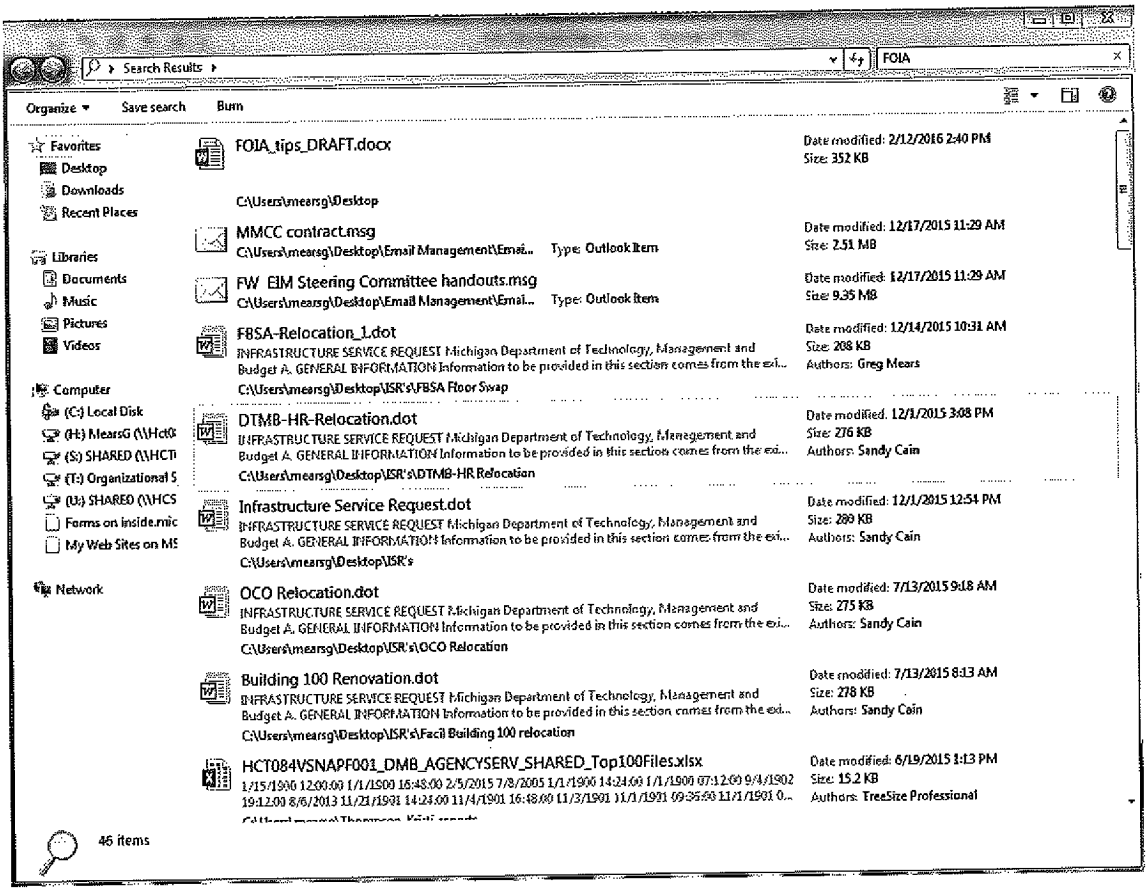
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Subject: Volunteer Opportunity in Flint

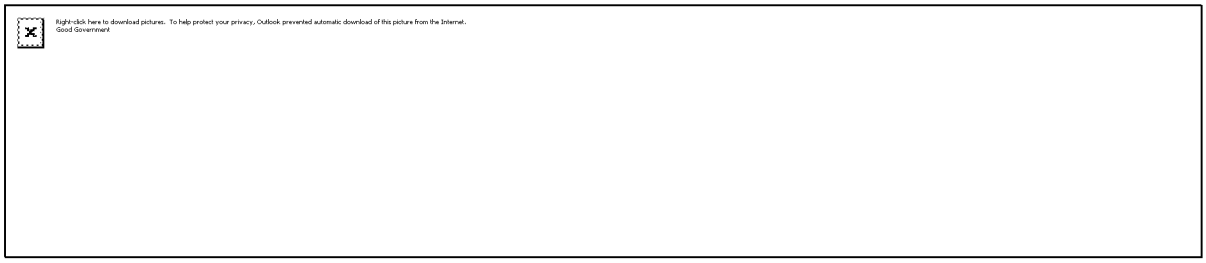
The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G



Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Flint water crises

Colleagues,

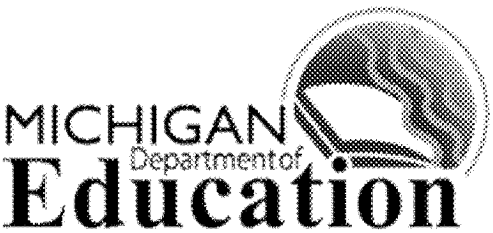
As you know, the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the City of Flint's drinking water. The State has established an incident command operations center at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, and other staff have been representing MDE at the SEOC. This is currently operating seven days a week. MDE leadership is being kept up to date of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

Any MDE staff conducting business in the Flint area should be aware that there is some resentment towards the State concerning the handling of the water crises. Staff should not travel in State-owned cars through Flint neighborhoods. Any MDE logo clothing should be avoided. (This is more an issue for uniformed staff of other state agencies.)

State officials from the Department of Environmental Quality have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. The State is actively coordinating water filter distribution, water quality testing, blood level testing, and distribution of bottled water with local county emergency managers. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE-approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

The State is maintaining an up-to-date website on the Flint water crises at http://Michigan.gov/Flintwater. The "Taking Action of Flint Water" link on the MDE Homepage (left side) will take you to the same webpage.

If you have any communication going out to the field that is related to the Flint water crises, you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.



If you have any questions on the Flint water crises, feel free to contact me or Louis. If you are interested in this issue, be aware that Dr. Eden Wells will be making a presentation on the Flint water crises tomorrow at the State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

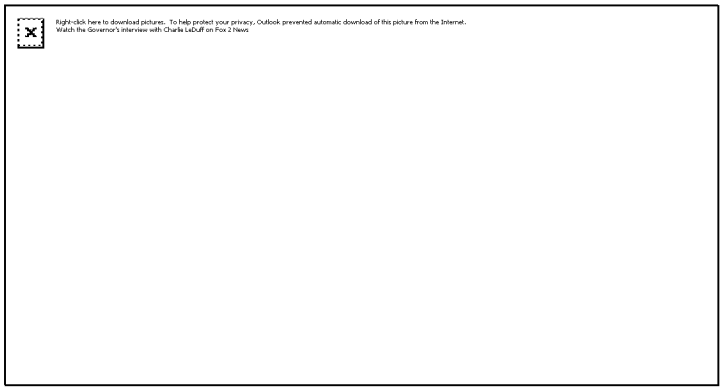
How we are fixing the Flint water crsis

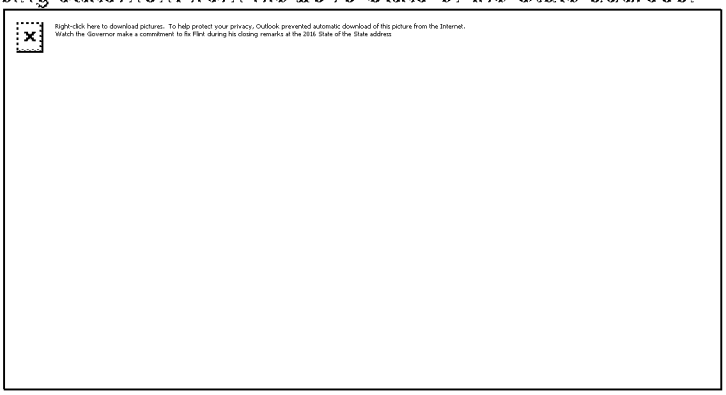
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



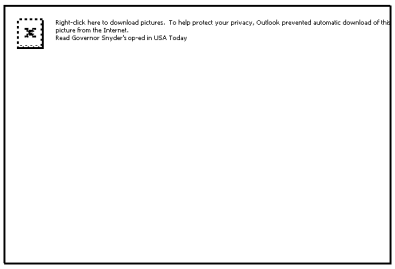
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



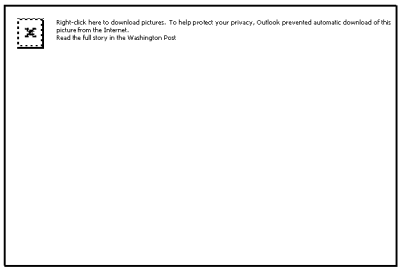
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Sent: Tuesday, January 26, 2016 8:39 AM
To: Dufour, Yvon (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

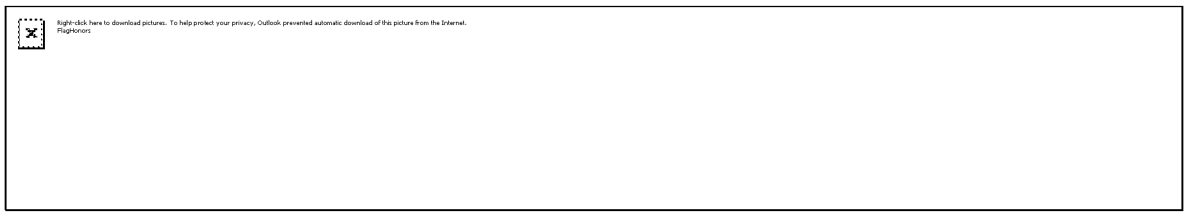
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

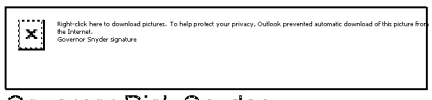
Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.



I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

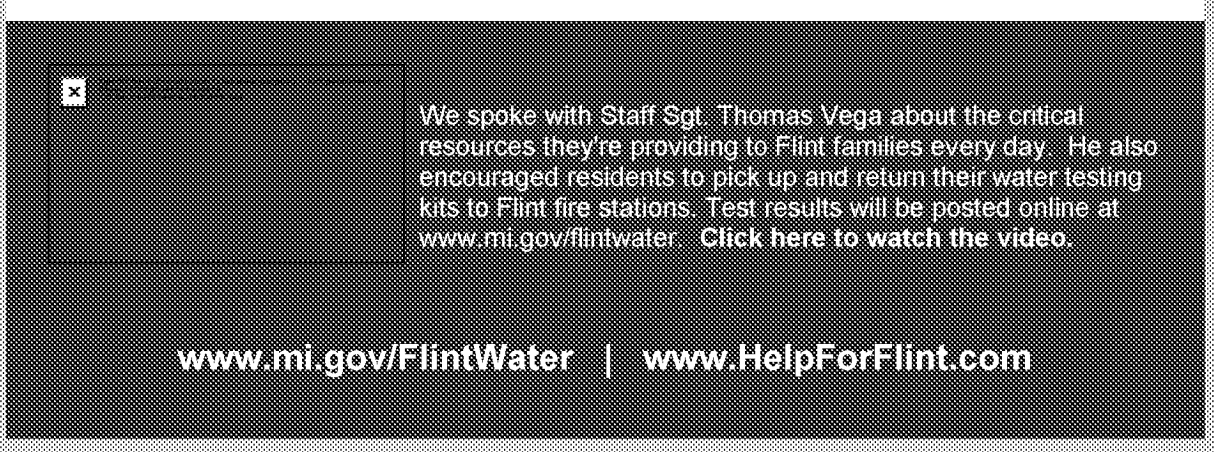
To: Dufour, Yvon (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Ryan

Looks to me like there are a couple paths forward:
Pcard
Emergency purchase
Three quotes/purchase order

I asked Yvon to work with you and the quotes to look at the timeframe involved. How long will these units be needed? If we're going to bump up against the $2500 limit at some point, then Yvon can get one more quote (at that point we'll have three) and a purchase order may be able to be issued. He's working on it now, and his desk phone is 284-6996 if you'd like to speak directly with him.

Subject: RE: Flint - pallet jack

Ok. Just so I am clear and we're following purchasing procedures as much as possible.

The request was for electric pallet jacks. Manual pallet jacks will not hold the weight and forklifts require additional training. Since the contract cannot provide what we need, we can go outside the contract to make the emergency purchase (rental)? The prices we received so far are under the $2500 threshold for total cost of the two rentals on a monthly basis.

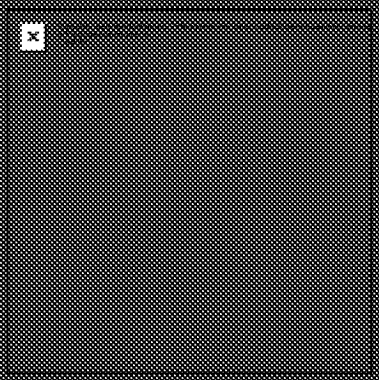
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

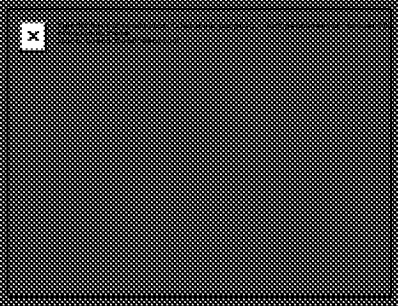
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☑ "Legionnaire"
- ☑ "Legionella"
- ☑ "boil water order" & "Flint"
- ☑ "coli" & "Flint"
- ☑ "bacteria" & "Flint"
- ☑ "microb" & "Flint"
- ☑ "TTHM" & "Flint"
- ☑ "Lead" & "Flint"
- ☑ "emergency" & "Flint"
- ☑ "Karegnondi"
- ☑ "Genesee County Health Department"
- ☑ "Flint" & "utilities"
- ☑ "Lead and Copper Rule"
- ☑ "Detroit Water and Sewerage Department" & "Flint"
- ☑ "DWSD" & "Flint"
- ☑ "Flint River"
- ☑ "Pb" & "water"
- ☑ "KWA"

Protest Activity

Date/Time:

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

Details:

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

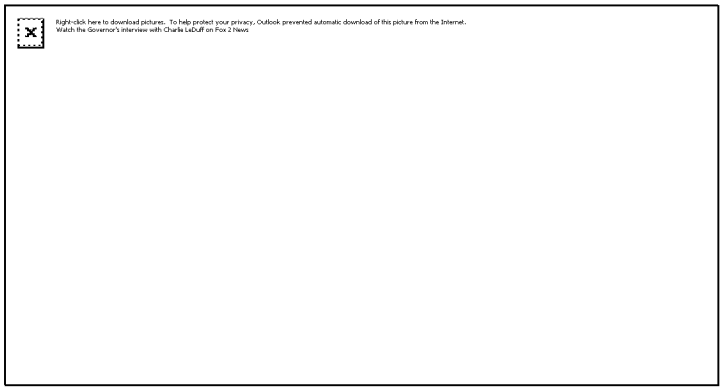
How we are fixing the Flint water crsis

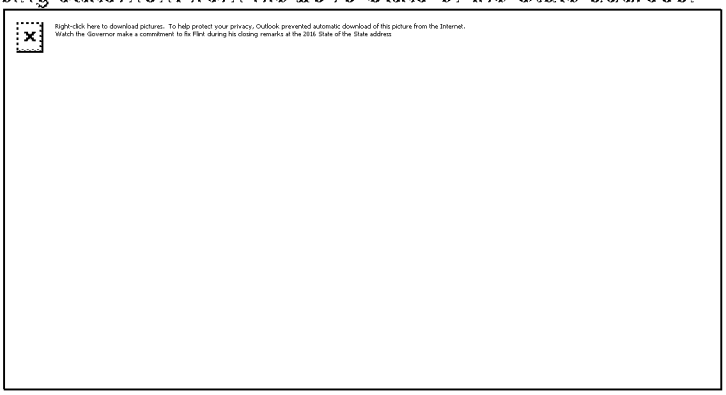
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



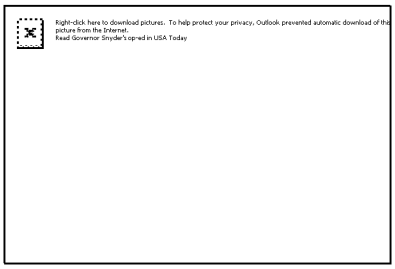
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



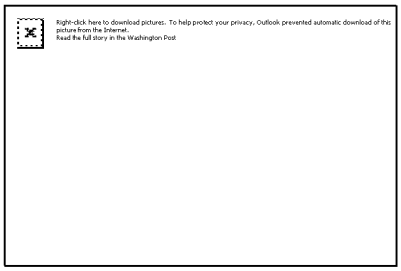
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

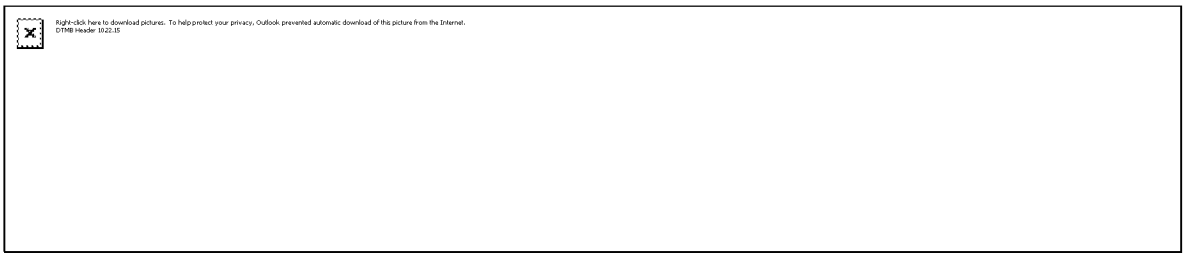
Subject: Flint Volunteer Efforts

Dear State Employees,

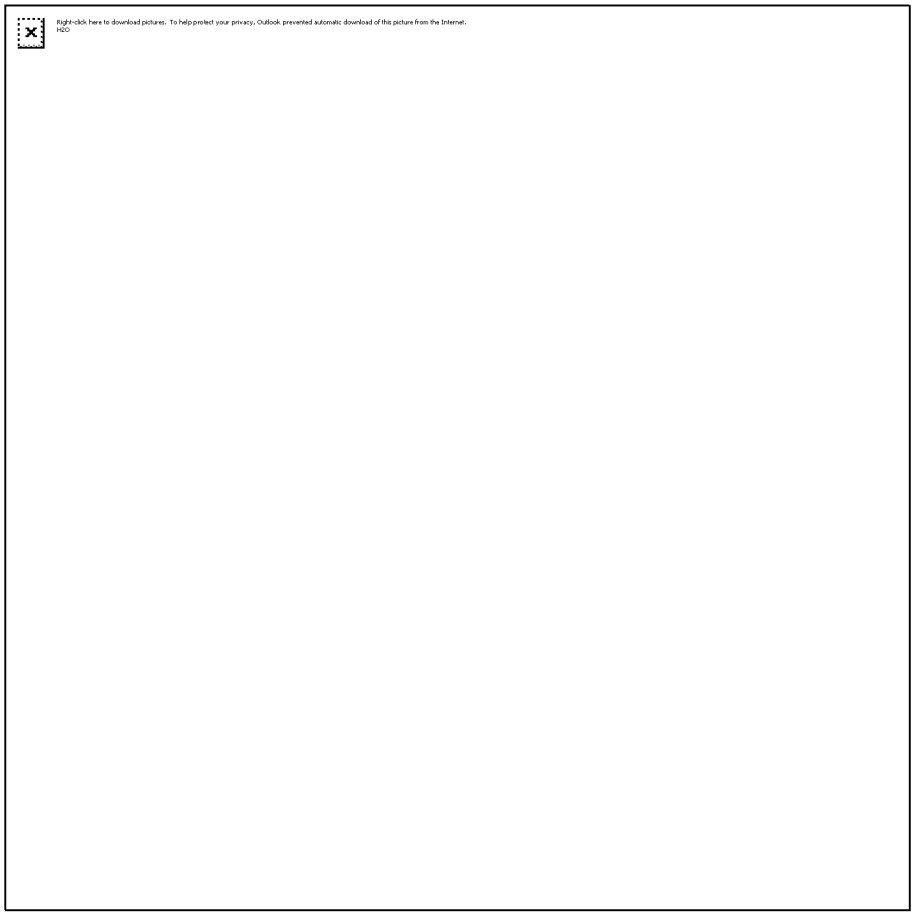
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

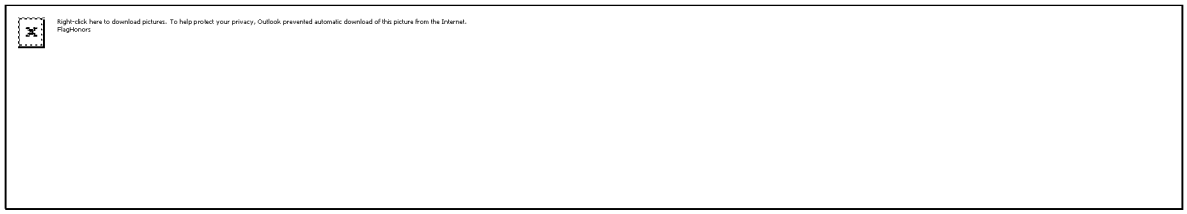
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

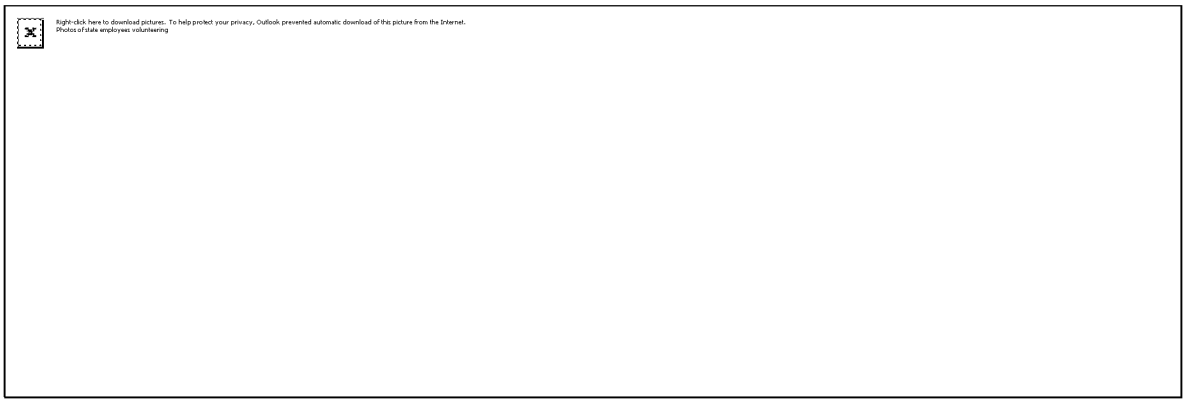
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

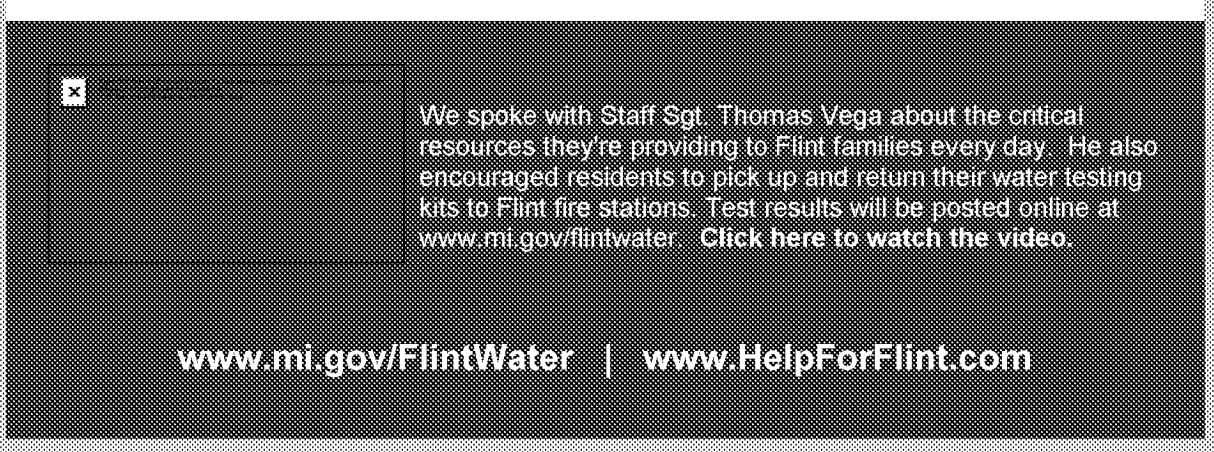
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Hey Steve,

A Red Cross worker in Flint was injured. According to the lease agreement the landlord is responsible for general liability. I don't know how the person was injured, but in this situation shouldn't they be seeking medical coverage from the landlord since the person is not an employee and simply a volunteer?

Best,

Subject: Injury Question

Hi Stephanie –

The State Emergency Operations Center is activated and DTMB has rental agreements in place for two facilities as part of the Flint Water Emergency Response. The facilities are staffed by state and federal employees, boot camp clients and volunteers. Attached is the rental agreement we have in place for the facility located at 4315 N. Clio Road.

Our question to you is that to-date we have had two employees and one volunteer hurt while at one of the facilities and other than reporting the incidents to our Public Safety Branch Chief within the SEOC we were unsure as to who is responsible for medical bills related to the injuries.

Section 11(2) of the Emergency Management Act provides that , "This state [along with political subdivisions and employees] are not liable for personal injury or property damage sustained by any person appointed or acting as a member of disaster relief forces." MCL 30.411. "Disaster relief forces" under the EMA is defined to include, "private and volunteer personnel . . . having duties or responsibilities under this act or pursuant to a lawful order or directive authorized by this act." MCL 30.402. However, this doesn't answer the policy question of whether the state should compensate volunteers who are injured assisting with a response, and I don't know whether the state carries insurance on this or other state buildings.

If you could give me a call on Monday and we could discuss the issue I would greatly appreciate it. Please call my cell, haven't seen my desk in over a month!

Thank you!

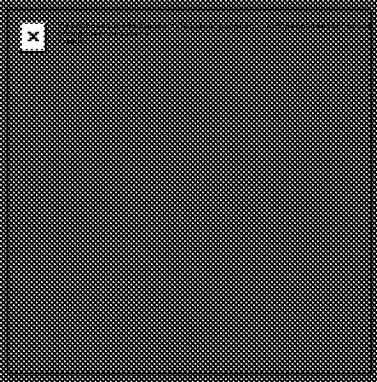
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: NEW DEADLINE - Time Sensitive Request

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16**.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

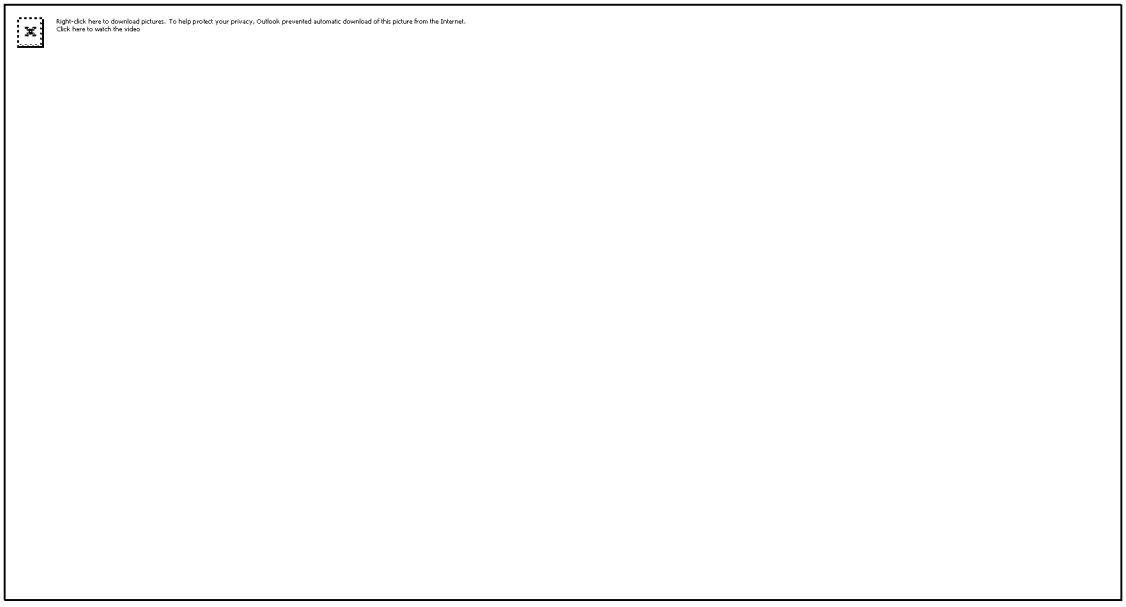
Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.



If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: FW: Injury Question
Attachments: Bell Warehouse Lease.pdf

Hey Steve,

A Red Cross worker in Flint was injured. According to the lease agreement the landlord is responsible for general liability. I don't know how the person was injured, but in this situation shouldn't they be seeking medical coverage from the landlord since the person is not an employee and simply a volunteer?

Best,

Stephanie Epps-Guzek

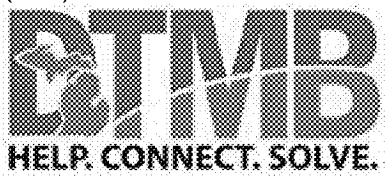
Subject: Injury Question

Hi Stephanie –

The State Emergency Operations Center is activated and DTMB has rental agreements in place for two facilities as part of the Flint Water Emergency Response. The facilities are staffed by state and federal employees, boot camp clients and volunteers. Attached is the rental agreement we have in place for the facility located at 4315 N. Clio Road.



Our question to you is that to-date we have had two employees and one volunteer hurt while at one of the facilities and other than reporting the incidents to our Public Safety Branch Chief within the SEOC we were unsure as to who is responsible for medical bills related to the injuries.

Section 11(2) of the Emergency Management Act provides that , "This state [along with political subdivisions and employees] are not liable for personal injury or property damage sustained by any person appointed or acting as a member of disaster relief forces." MCL 30.411. "Disaster relief forces" under the EMA is defined to include, "private and volunteer personnel . . . having duties or responsibilities under this act or pursuant to a lawful order or directive authorized by this act." MCL 30.402. However, this doesn't answer the policy question of whether the state should compensate volunteers who are injured assisting with a response, and I don't know whether the state carries insurance on this or other state buildings.

If you could give me a call on Monday and we could discuss the issue I would greatly appreciate it. Please call my cell, haven't seen my desk in over a month!

Thank you!

Jeanette Doll, Professional Emergency Manager

Agreement #11867 – 2016

RENTAL AGREEMENT

Between

Bell Warehousing & Manufacturing Services, Inc.

A Domestic Profit Corporation

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Bell Warehousing & Manufacturing Services, Inc.**, a **Domestic Profit Corporation**, as Landlord, whose address is **5510 Clio Road, Flint, Michigan 48504**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 2B, Dimondale, MI 48821, for the **Department of Technology, Management & Budget, (DTMB) Office of Infrastructure Protection**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. **Premises & Rent** –

   1.1 Landlord hereby rents to Tenant up to approximately **80,000** usable square feet of warehouse space, as further described in Attachment "A" to this Agreement, in the building commonly known as **4315 Clio Road, Flint, MI 48504** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, docks, and entrances, hallways, and the restroom facilities of the warehouse Premises in common with the Landlord and/or other tenants of the Premises.

   1.2 Tenant shall pay to Landlord $4.00 per square foot annually beginning on January 14, 2016, for up to 80,000 square feet. Rent consideration installment payments shall be made during the month for which the installment applies.

   1.3 In addition the Landlord will provide four fork trucks, fuel, and four personnel and labor to unload semi loads of pallets consisting of water and other materials (product), @ $75.00 per hour per fork lift and driver (all inclusive) for an 8 hour shift starting at 7:00 a.m. until 3:30 p.m. and overtime shall be paid @$90.00 per hour for the next four (4) hours for a total of twelve (12) hours a day and up to seven days a week that shall not exceed four (4) employees plus the supervisor. This work schedule shall be approved and substantiated by Jeannette Doll, or her counterpart from Department of Technology, Management & Budget, Office of Infrastructure Protection (DTMB, OIP), for an undetermined amount of time.

1.4 The State also agrees to pay for the Landlord to provide a Supervisor for his staff to coordinate the trucks and people from all agencies as deemed necessary by Jeanette Doll, DTMB/OIP, for not more than twelve (12) hours per day at a cost of $45.00 per hour with overtime billed at $67.50 per hour for four hours. The Landlord will indicate any overtime charged to the State, the hours, days and times of charges, as substantiated by DTMB/OIP.

1.5 **The Landlord shall supply the following information in an invoice to the State of Michigan, DTMB every month: (i) a running tally of the number of square feet of space used and (ii) overtime consideration, (iii) rent consideration installment payments and (iv) labor and overtime indicated in paragraphs 1.3 and 1.4 of this document. (v) all utility bills for heat and electric service to the Leased premise (vi) a one-time itemized charge listing the hours and equipment and personnel used to empty two offsite warehouses on January 14, 2016.**

1.6 **All items shall be itemized and submitted during the month for which the installment applies and may be on a per diem basis (if necessary).**

1.7 **It is understood by all parties, there is no management fee to be paid for these services.**

2. Term - The term of this Agreement begins on **January 14, 2016** and ends on **January 13, 2017**, subject to the cancellation provisions of this Agreement.

3. Holding Over - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement, it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement.

4. Cancellation - This Agreement may be cancelled by the Tenant upon thirty (30) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

   Upon cancellation, a satisfactory walk-thru inspection performed by DTMB Real Estate Division and the Landlord or the Landlord's representative; all keys and access cards returned to the Landlord.

5. **Services and Responsibilities of Landlord - Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling.
   - 5.2 Electric service for lights, and all other electrical equipment. Lighting shall be adequate for a warehouse facility. Replacement of light bulbs and tubes as needed.
   - 5.3 100% payment for water and/or sewer used in the premises
   - 5.4 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.5 Pest Control.
   - 5.6 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking,

litter removal, sidewalk surface and parking lot surface maintenance.

5.7 Removal of trash and refuse from the dumpsters on Premises.

6. **Services and Responsibilities of Tenant - Tenant shall furnish the following at its own expense:**

6.1- 100% payment for metered public utilities used for heating, cooling, illumination.

7. **Repair and Maintenance** -

The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.

7.1 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.

7.2 The Tenant shall be responsible for the following repair and maintenance operations: **NONE.**

7.3 Alterations & Improvements – **Deleted, Not Applicable.**

8. **Landlord Obligations** -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

8.6 First Right of Refusal - The Landlord shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Premises known as 5510 Clio Road, Flint, MI 48504 during the term of this Agreement, or any extensions

thereof, without first offering for a period of ten (10) days, the space to the Tenant at the Tenant's current rental rate, and under the same terms and conditions found in this Agreement.

9. **Public Policy Provisions** -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. **Notices** - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

Landlord	**Tenant**
Bell Warehousing & Manufacturing Services, Inc.	Director, Real Estate Division

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. Attachments -

Hey Steve,

A Red Cross worker in Flint was injured. According to the lease agreement the landlord is responsible for general liability. I don't know how the person was injured, but in this situation shouldn't they be seeking medical coverage from the landlord since the person is not an employee and simply a volunteer?

Best,

Stephanie Epps-Guzek

Subject: Injury Question

Hi Stephanie –

The State Emergency Operations Center is activated and DTMB has rental agreements in place for two facilities as part of the Flint Water Emergency Response. The facilities are staffed by state and federal employees, boot camp clients and volunteers. Attached is the rental agreement we have in place for the facility located at 4315 N. Clio Road.

Our question to you is that to-date we have had two employees and one volunteer hurt while at one of the facilities and other than reporting the incidents to our Public Safety Branch Chief within the SEOC we were unsure as to who is responsible for medical bills related to the injuries.

Section 11(2) of the Emergency Management Act provides that , "This state [along with political subdivisions and employees] are not liable for personal injury or property damage sustained by any person appointed or acting as a member of disaster relief forces." MCL 30.411. "Disaster relief forces" under the EMA is defined to include, "private and volunteer personnel . . . having duties or responsibilities under this act or pursuant to a lawful order or directive authorized by this act." MCL 30.402. However, this doesn't answer the policy question of whether the state should compensate volunteers who are injured assisting with a response, and I don't know whether the state carries insurance on this or other state buildings.

If you could give me a call on Monday and we could discuss the issue I would greatly appreciate it. Please call my cell, haven't seen my desk in over a month!

Thank you!

Subject: RE: Injury Question

I'm pretty sure it's premises related. It was a slip and fall—don't have the details, but I'm trying to pin down someone who has them—but they talked to me and real estate yesterday and Jeanette thought it was covered under their rental agreement with the landlord's insurance veering the claim. I'll keep you posted.

Stephanie – below is what Ryan provided on the volunteer. Jeanette

In speaking with DTMB Risk Management and DTMB Real Estate, State & Federal employees are covered under workman's composition. For volunteers and non-state/federal employees, they would be covered under the liability insurance provided by the landlord if the injury was caused by the building/property. For the injury to the Red Cross volunteer, we found out that she filed a report with Red Cross' insurance.

Thanks,
Ryan

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

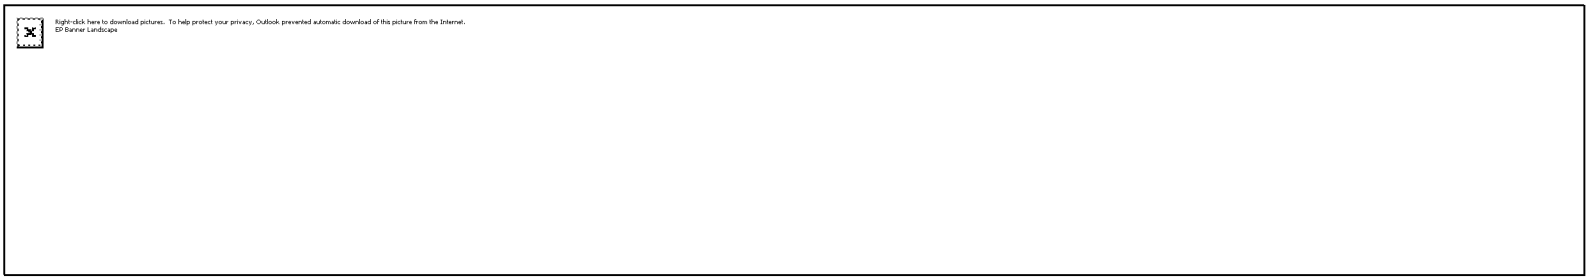
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

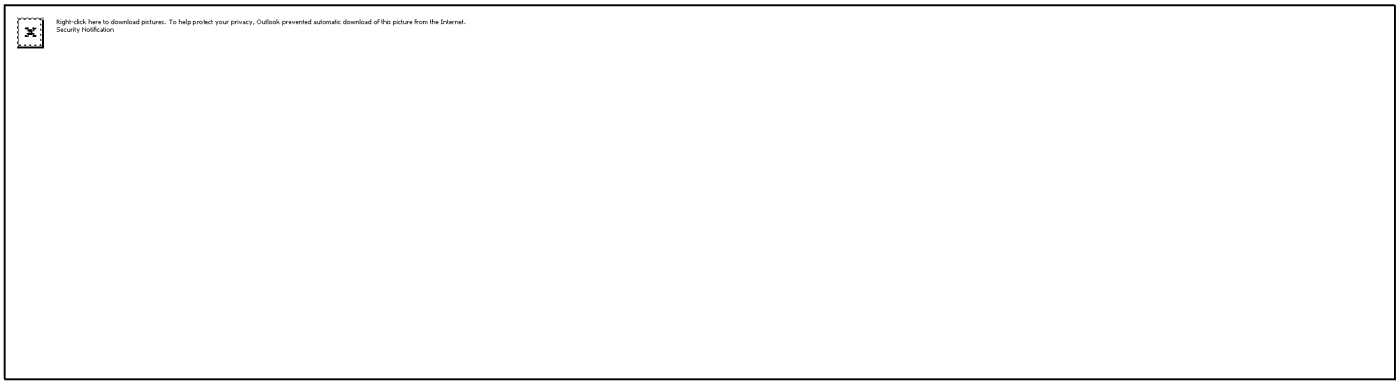
A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.



Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

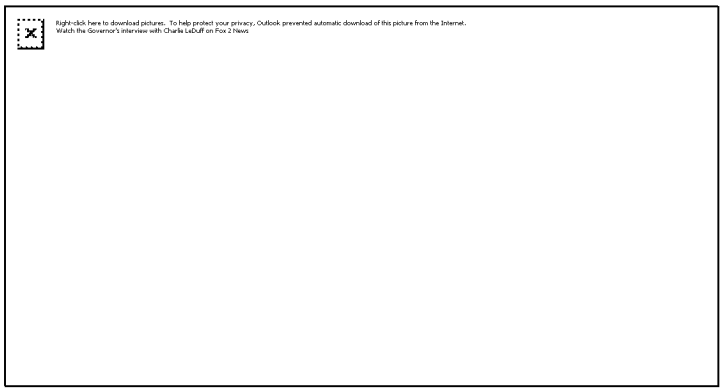
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

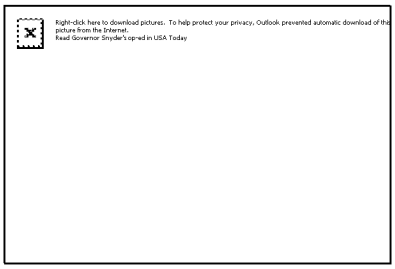


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

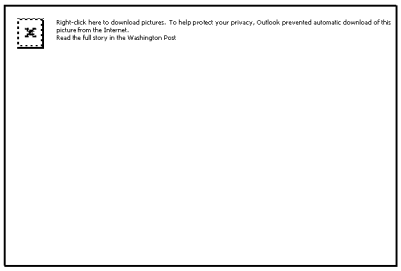
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.
Learn more about the $30 million request

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

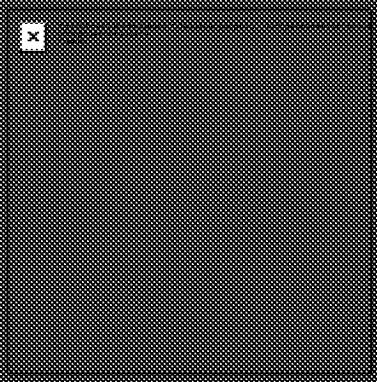
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

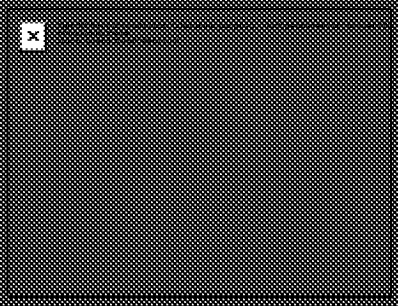
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

THIS WEEK IN POLITICS

Flint Fallout, Corruption in Court and One State's New Supermajority

BY ALAN GREENBLATT

This was a busy week in politics -- but then, practically every week is. That's why *Governing* is offering this new weekly newsletter.

We won't cover the presidential campaign -- you can find plenty of that elsewhere. Instead, we aim to share with you the most interesting and important developments in state and local politics each week.

You can sign up for a free subscription here.

ADVERTISEMENT . Content continues below

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

MORE POLITICS NEWS & COMMENTARY

A New Era for NGA's Relations With Congress?

The National Governors Association had seen its influence on federal legislation decline in the past decade. But things may be looking up.

2016's Top Legislative Issues to Watch

These are the biggest policies and problems that states will confront this year.

Rocky Roads Ahead for Governors With Failed Presidential Bids

Trying and failing to take the White House has historically spelled trouble for governors' future political careers. In 2016, however, there may be one

exception.

Bernie Sanders Wants the Health Plan His Own State Rejected

The presidential candidate wants America to create a single-payer health system -- something no U.S. state has done before.

Why Iowa's GOP Governor Wants Ted Cruz to Lose

"I believe it would be a big mistake for Iowa to support him," said Gov. Terry Branstad.

Iowa's Perennial Power Player

Republicans have the governorship and the state House in Iowa, but Democrats have Mike Gronstal, who adheres to the old-fashioned sense that voters elect politicians to work on policy before retreating to their respective partisan corners.

Milwaukee's Problems Leave Longtime Mayor Vulnerable

Most of the city's problems, the mayor argues, are out of his control. Will voters blame and oust him anyways?

After 30 Days in Jail, N.M.'s Ex-Secretary of State Freed

Dianna Duran prided herself on battling public corruption and voter fraud, even as she committed such crimes.

I apologize in advance for throwing a wrench into scheduling tomorrow but i had indicated that with State of the State tomorrow night, I would likely have calls I need to do during the day. With the Flint situation as it has developed as a State Emergency I have to attend a Governor's briefing from noon to 1:30 pm or so.

I will be at Constitution Hall with you at 8:30 am and we can figure out a way forward.

Thanks.

It is the Peter Buback Conference Room. This Conference Room is located on the 1st Floor, North end of Constitution Hall, near the hall and elevators. If you enter the east entrance by security, walk through the procurement office, heading west towards elevators.

We will meet from 8:30-4:30 pm each day, as needed. Be sure to bring your copies of the proposals and any other information you need.

We have a small deli located in the atrium level in regard to breaking for lunch if that works for everyone. You can build a sandwich as you like or they have daily specials such as taco Tuesday, some soups and salads too.

Regards,
Mary

Subject: Re: Flint response - Translation services

Hey Jeanette,

I've heard more from Linguistica. They've said as follows:

"Pricing will be based on the contract rates for all Standard requests.

The expedited time frames are as follows:

Standard Request
0 to 500 words document (48 hours turnaround)

501 to 3000 words document (72 hours turnaround)
>3000 will need to be evaluated to provide completion time frame.

Do you have any idea on the expected volume / frequency of requests?

Rush orders can be completed within 24 hours as long as word count is less than 500 words. Rush requests will be priced higher based on document specs as well as formatting / editing requirements."

If we had a sample document, we could get a particular quote (assuming it's similar things needing translating repeatedly).

Hope this helps further,

Will Camp

Subject: State of Michigan Contract Question

Good Morning,

I am reaching out today with a couple questions. Given the water issues in Flint, which have made national news, the State has additional translation needs. Various documents, including water filter instructions may need to be translated into a variety of languages for the residents of Flint. The State would need services provided with both standard and expedited lead times and a 24/7 contact for the Flint response teams. Are these items Linguistica could provide, and if so what languages could be provided? More details will be provided as we discuss further.

I look forward to hearing from you,

Yours,
Will Camp

Subject: Re: Flint response - Translation services

As an FYI, I had contacted Linguistica last week multiple times over the course of 4 days and didn't hear from them. Finally reached Francia on Friday afternoon. Sent her docs to quote and she was supposed to get back with me before close of business (they are in Utah). I never received the quote.

I am now working with a local company. If we need faster turnaround than 2-5 days, I'm happy to ask them. They've been very responsive so far.

Cc: Falik, Tom A. (DTMB) <FalikT@michigan.gov>
Subject: Re: Flint response - Translation services

Hey Jeanette,

I've heard more from Linguistica. They've said as follows:

"Pricing will be based on the contract rates for all Standard requests.

The expedited time frames are as follows:

Standard Request
0 to 500 words document (48 hours turnaround)
501 to 3000 words document (72 hours turnaround)
>3000 will need to be evaluated to provide completion time frame.

Do you have any idea on the expected volume / frequency of requests?

Rush orders can be completed within 24 hours as long as word count is less than 500 words. Rush requests will be priced higher based on document specs as well as formatting / editing requirements."

If we had a sample document, we could get a particular quote (assuming it's similar things needing translating repeatedly).

Hope this helps further,

Will Camp

Subject: RE: State of Michigan Contract Question

Rebecca –

LARA was able to send the documents for translation – it will take 2 – 5 days for each document. But they would be interested in in another company, especially if they provide a quicker turnaround time.

Subject: FW: State of Michigan Contract Question

Jeanette

There is a statewide contract for translation services. The buyer (Will Camp) and the Services Division Director (Tom Falik) are copied. Will can confirm whether the phone number for rushes operates outside of business hours. Linguistica may be able to fulfill any future needs for the SEOC.

Did they already take care of the need over the weekend for Hmong and Mandarin?

Dear William,

Yes, we are able to assist with document translation for over 250 different languages.

Our services are available with advance notice as well as rush translations.

For both advance notice and rush translations please email your document to translations@linguisticainternational.com

For rush translations you should also call us at (866) 908-5744 option 1 and ask to speak with Francia Delgado (francia@linguistica.com) or Miguel Tenorio (miguel@linguistica.com) the translation coordinators in charge of your account. By calling them you are ensuring that your expedited need is clearly understood and we can quickly give you a completion timeline.

Let me know if you have any questions. We will be happy to expedite any of your translation requests.

Thank you,

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

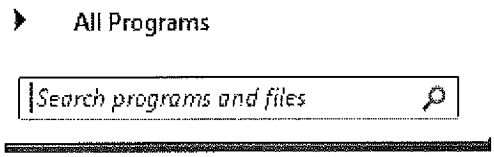
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

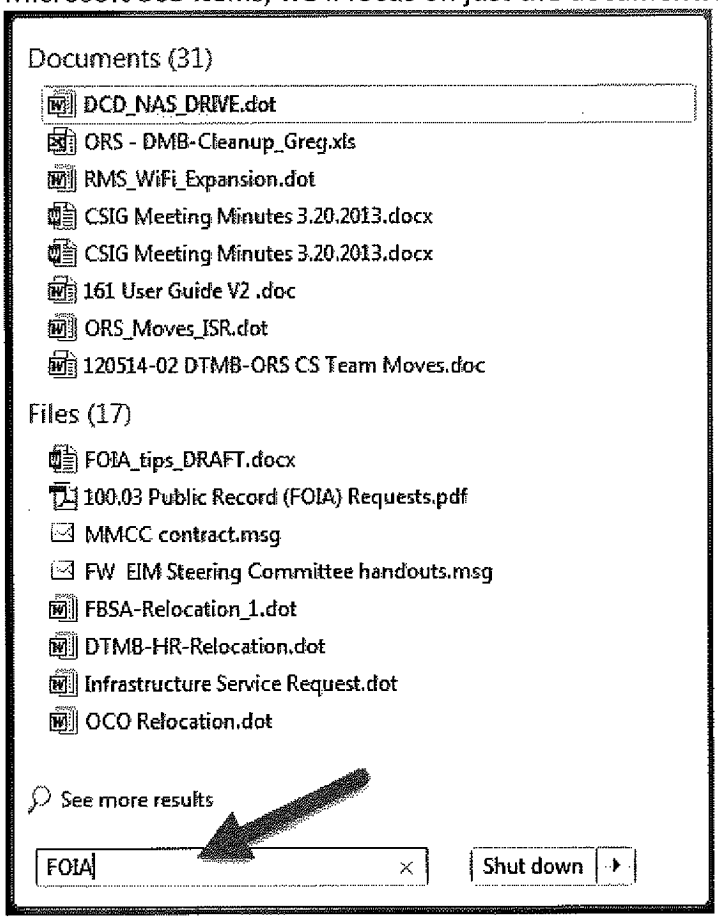
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

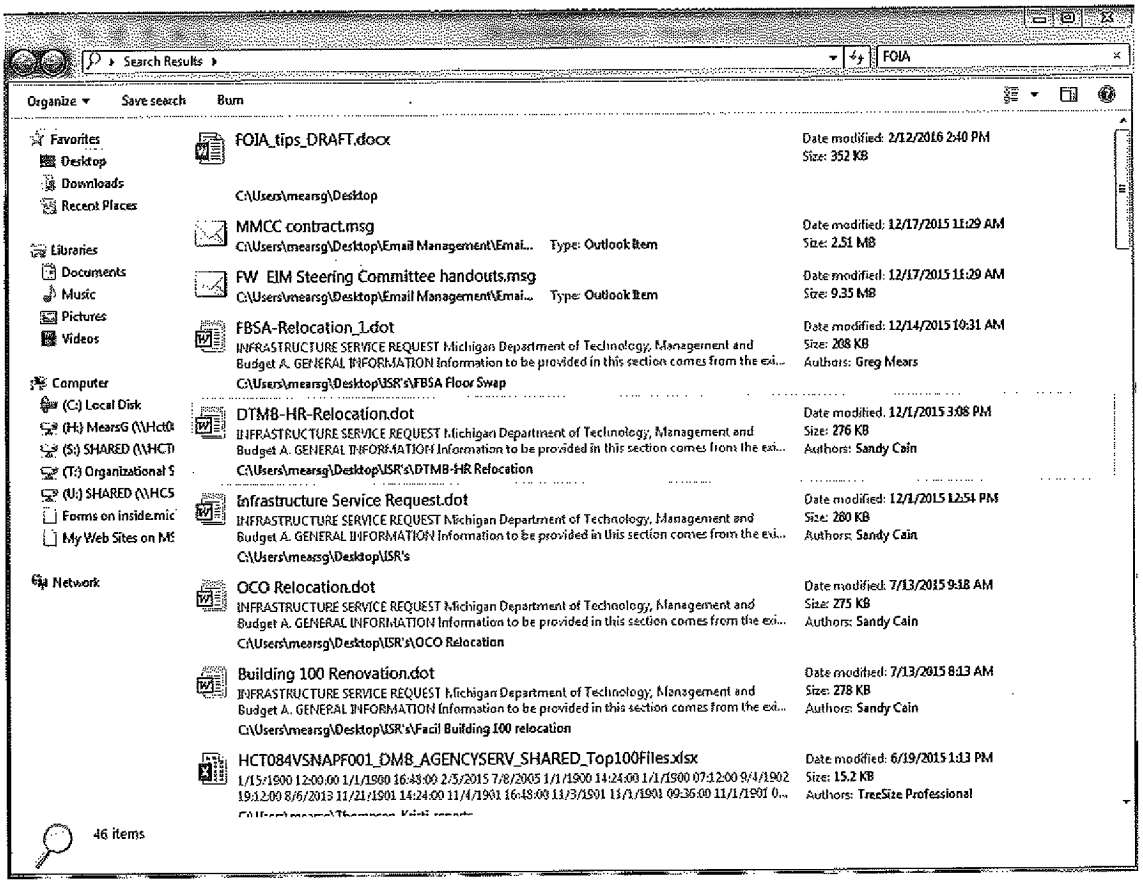
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

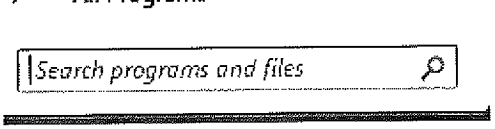
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

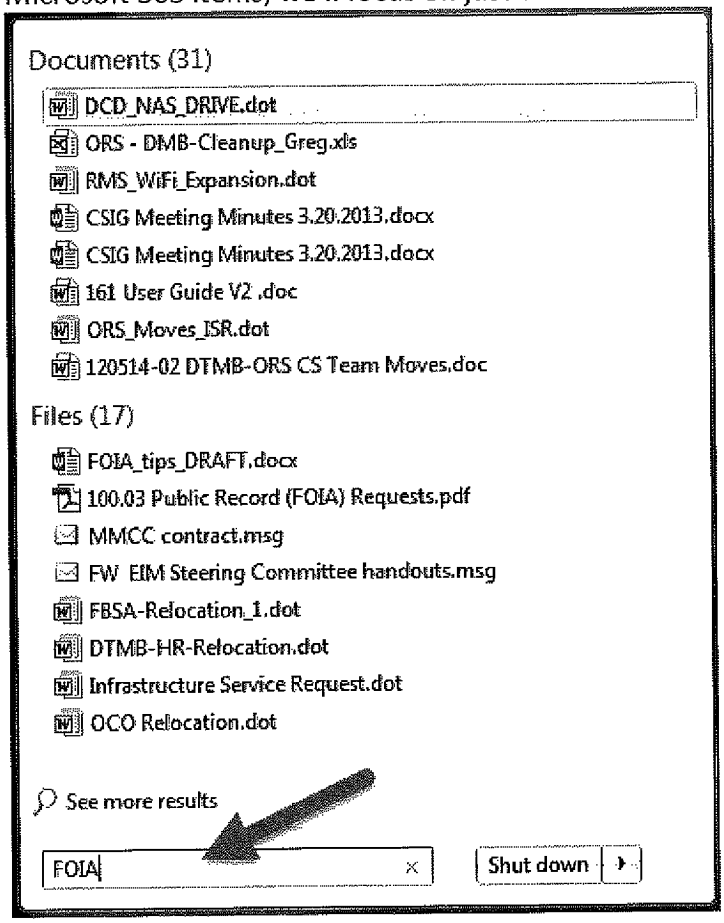
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

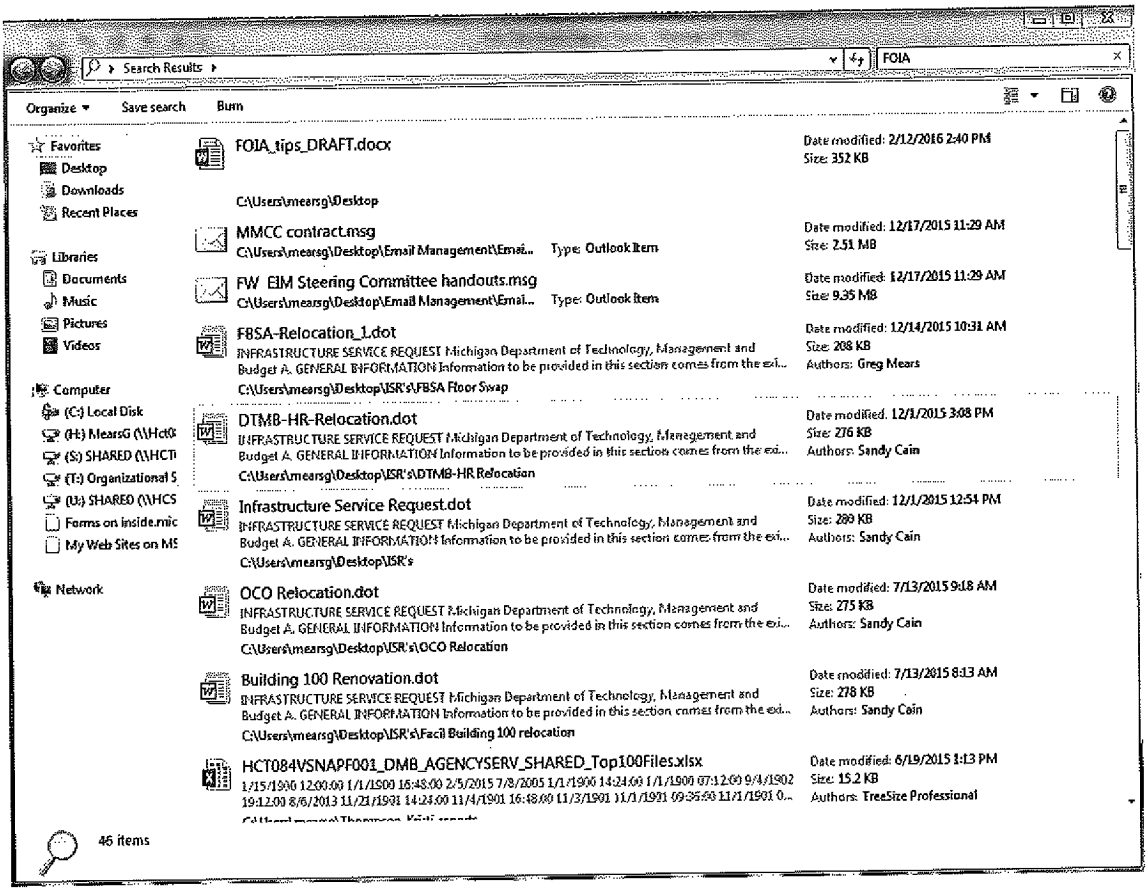
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Hi Penny (that is what others have said you go by),

I am touching base with you. Please see the email below which explains my assignment to assist in the reporting and tracking of the funding spent on the Flint Water Emergency Response.

Do you have time for a call today?

Thanks and I look forward to helping out!

Dave

Subject: DTMB-Procurement purchasing support for Flint Water Emergency Response...as assigned by Jeff Brownlee.

Hi Chris,

I left you a message a few minutes ago.

Jeff Brownlee has assigned me to help out on the purchasing side based on your conference call Friday with Jeff, Brom, and Kristi Etue.

I have talked with Chris Christensen (DTMB) and will reach out to Penny Berger (MSP), DHHS, DEQ, and other agencies to get a baseline understanding then get back to you.

If you have specific guidance for me or individuals to work with please let me know; otherwise I will work with the individuals above and from Jeff's guidance to:

- Understand the process/procedures for purchasing that all State agencies need to follow in this response
- Draft any necessary documentation
- Develop communications to the agency directors regarding process/procedures
- Understand how DTMB Procurement can support the agency SEOC representatives

- Communicate to the purchasing leaders of each agency

And any other procurement support I can offer.

Thanks,
Dave

Sent: Friday, January 29, 2016 11:16 AM
To: Wellman, Jeff (DTMB)
Subject: FW: Schedule this week...

Jeff,

I am reaching out to you for some help. In short, why is there such a problem for our office to pay buyers to get the work done when overtime is needed?

You can read my email to Bill and Sharon below. I have mentioned the subject to Jeff, but as you can see below it is not getting addressed. There is some big issue up in our management (or maybe HR) the keeps them from allowing the work to get done and compensating the buyers properly for doing it in regards to overtime when necessary. And we are even in the midst of one of the biggest State emergencies we have had to handle…..why is it so hard???

I don't have time to worry about this when I am trying to get my real work done. I have spent an hour on this today. I am getting caught in the crossfire of management indecision. If you can support them in making a decision and giving me clear direction then I can move along with my work

Subject: RE: Schedule this week...

Bill and Sharon,

How do we fix this quandary? I am stuck between you following Jeff's instructions and me following his instructions with no guidance on how to handle it. You give me the review, so if I don't follow your instructions then I get a bad review….but if I don't follow Jeff's instructions then I am letting almost the most important thing he is concerned with right now not be done right; and what are the consequences to me then?

I need you and Sharon to help me out and get an answer on how this is supposed to go.

You both know I am very willing to do all the work, but I just need to be compensated for it.

It is kind of like my legal clients who need an attorney now, that is the best time to get paid because it is important to them. When the issues are passed and the work has been done then there is no value to them to pay an the "expensive" attorney.

Right now Jeff is the person with the need – he needs to pay me upfront for this work. J

Can I just say that this issue is not mine alone? I see many other buyers who work significant overtime without pay (as far as I can tell). Brandon and Mary O are two that I am aware have done this. Simon is doing this or has. Right now I think Steve Rigg and Melissa Sambiagio and maybe Sue Ciewa are. I believe a dishonest employer takes advantage of their workers. This really needs to be fixed or else the work load needs to be balanced better.

Now I have spent way to long crafting this email three times to try and be politically correct in my response…..

Bill,

On 1/26 I came back in and worked from 7:00 – 10:00 pm review the DMVA SOW for a new salesforce application; and I spent most of the time communicating with Jeff about the Flint water emergency response.

So I have worked 7.5 hours so far of OT.

For the rest of the OT time I am planning:

1/27 – no OT – 8:00 am to 4 pm – came in ½ hr later due to to much OT.
1/28 – no OT – 7:30 am to 4 pm.
1/29 – no OT – 7:30 am to 4 pm.

I will still be 2 hours over, should I just roll that over to next week?

Dave,

Thanks for the information, we appreciate the effort you and Jennifer have put in. This puts us in a difficult position since we have communicated to our Board and Investors since early December that this contract would be completed by tomorrow, which is the end of our fiscal year. Have you had an opportunity to do your final review? We are confident that we can quickly get through any remaining issues and are standing by to address any concerns. We were under the impression your management was willing to review this over the weekend, is that still possible? Thanks.

Barton

Subject: Re: Digital Signature Contract Draft

Hi Mauricio,

Thank you for reaching out. There are two unfortunate circumstances we have run into.

First, I received last Monday an assignment related to the State of Michigan's Flint Water Emergency Response. That took about 20 hours of my time, of which several hours should have been devoted to finishing up this agreement. An unforeseen circumstance that I could not avoid.

Second, I need to apologize for not making our internal processes clear. Once I have done my final review then it is

reviewed by my management, and if there are not additional issues they spot it can be signed. If they spot any items that need to be taken care of then we have to do so. And periodically it will go to legal for review. Unfortunately I was not able to move my piece along sufficiently although Jennifer did extraordinary work helping to keep it moving.

We should be able to finish up our internal process no later than Wednesday next week.

Thanks,
Dave

Importance: High

David and Sharon,

We first of all want to thank and compliment Jennifer Hehl for a lot of work and professionalism under pressure this week. The DTMB is a pleasure to work with.

David has been tied up all day, so we're not clear if there is still a possibility or not of finalizing the contract this weekend. Our team is available and very willing to work tonight and tomorrow to get this done. As a bit of incentive for you, we are re-instating Section 14.5 for contractor administrative fee.
Our Legal Counsel, Bob Fougner, also found a few straggler modifications that didn't make the most recent document contract version, so he's gone ahead and red-lined them in the attached. This represents the most recent version for your review.

@David, you can reach out directly to Bob Fougner if you wish:
Robert B. Fougner, Esq., P.C.
Technology And Business Law
North County, San Diego
760-941-4464
760-613-6250 (mobile)
robertf839 (Skype)

Our understanding is that we would sign first, and we can use DocuSign to deliver the contract to Sharon over the weekend for her signature.

We still hope to still hear from you!

Regards,

Mauricio

Hi All,

Isn't this the version we all have been looking for? "The LAST ONE?" Okay I missed a few edits that the vendor caught - highlighted as follows:

1. Cross checked my math and addition of $ in the payment milestones and total costs tables
2. Cross checked getting all references to "Products" as appropriate, as it is Software and Hardware and was listed only as Software
3. Cross checked and caught a couple edits

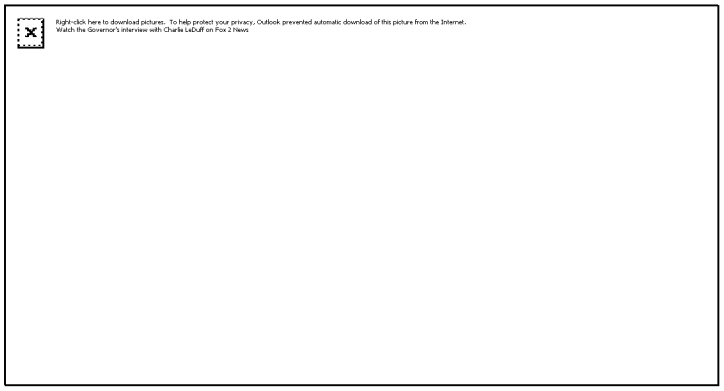
How we are fixing the Flint water crsis

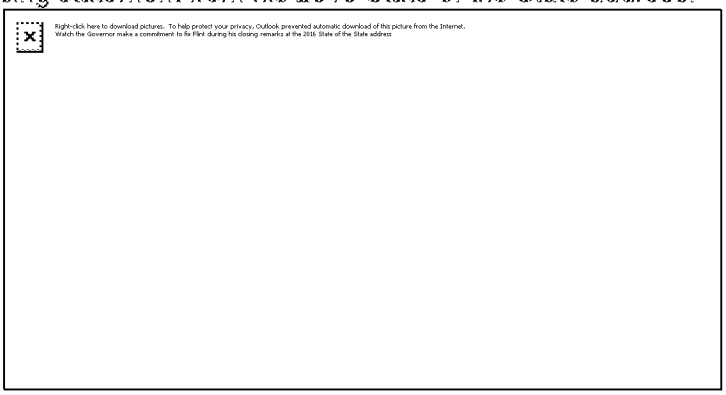
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



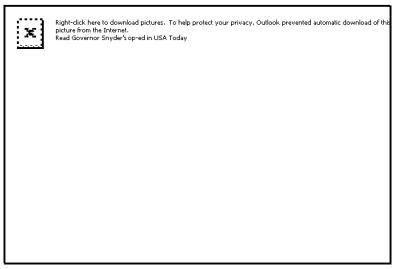
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



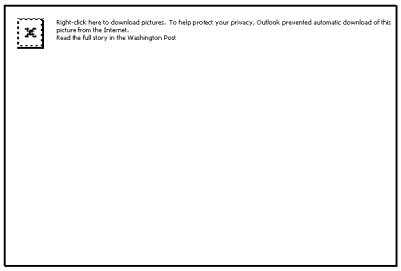
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Kim,

There wasn't an actual meeting with Home Depot and DHHS. Last week on Thursday I sent all the receipts and invoices from Home Depot to Jeff Sanford at DHHS. I got Jeff connected with David Khanuja from Home Depot and they have been working through those invoices and Jeff is consolidating that information.

FEMA – FYI. I have been informed from Home Depot that someone from FEMA ordered approximately $330,000 worth of filters last week and approximately another $1,000,000 worth of filters on Saturday night.

Hi Sharon,

Would it be possible for Rebecca to include me in her communication on this important matter? It is not clear to me from the e-mail below if she is still seeking clarification on this issue or if I should contact to Jeanette Doll and Chris Christensen myself to obtain answers.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing

some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,
Penny Burger

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available

etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

> Chris/Jeanette,
>
> My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of

these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the

person that Citi could set up an account with so that they could log in and download invoices for quicker processing?

11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

Kim,

I am not the correct person to answer any questions regarding FEMA and the financials of it all. The filters that FEMA is ordering are being delivered to the warehouse on Clio Rd. David from Home Depot is tracking what FEMA has ordered on a separate spreadsheet.

Chris Christensen,

Can you help answer Kim's question regarding FEMA billing and reimbursement?

Subject: Re: Flint Issue Questions from DTMB Procurement

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

Steve - can you please let Kim know which DHHS employees were present at the last Home Depot meeting, and copy her on emails relative to invoices in the future? Thank you for this and all of your hard work.

Hi Sharon,

Would it be possible for Rebecca to include me in her communication on this important matter? It is not clear to me from the e-mail below if she is still seeking clarification on this issue or if I should contact to Jeanette Doll and Chris Christensen myself to obtain answers.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <Kangas51@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,
Penny Burger

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

On Jan 21, 2016, at 11:36 AM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

> Chris/Jeanette,
>
> My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process

so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?

7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?

11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Subject: RE: Review of ARX, Inc - End User Software License Language

Jennifer -- Here's my analysis of the EULA you provided:

- The Notice at the top should be removed.
- #3 License Conditions: I am bothered by the statement that this license is conditioned. This implies automatic termination on breach, which goes against best practices. If the vendor has grounds to terminate our licenses, then they need to provide us notice with right to cure.
- #3 License Conditions: I am unsure of the applicability of us granting access to our software logs on a quarterly basis to audit the number of signatures/users. Does this make sense? Are the business & technical areas aware of this requirement? Are we able to comply?
- #5 Transfer Restrictions: What is meant by 'personal to the Licenses'?
- #9 Termination: This goes along with #3 abov3 and includes automatic termination for breach, which violates best practices. . If the vendor has grounds to terminate our licenses, then they need to provide us notice with right to cure.
- #10 Limited Warranty and Disclaimer of Liability: Is the warranty provided sufficient? Will we receive regulary software patch updates and documentation updates? If so, will they warrant to within 90 days of current-version documentation?
- #11 Exclusive Remedy: Does this make sense to you guys? Is this acceptable?
- #12 Limitation of Liability: LOL for Software is sometimes handled separately from general LOL in contracts, but it depends. What makes sense for this instance?
- #13 Privacy Policy: Has this been reviewed?
- #14. Third Party Software: Has anyone looked at any additional, third-party T&C's? Do we know what we are getting into?

- #15. General Provisions: This definitely needs to be revised, maybe even taken out. Contract needs to take precedence.

- #16. Governing Law and Jurisdicition: Take this out.

- #17 Government End Users: This applies to federal use of the software, and may not apply to us.

Thanx,

Reid

Hi Reid,

David Hatch just finished and RFP for a digital signature solution for MDOT. It is a SaaS solution. The vendor provided language for software agreement and end user license verbiage is pasted below. Could you please review for your approval and concurrence on the vendor provided language for the contract and provide any edits you deem appropriate? Thank you.

ARX, INC.

End User Software License
(the "Software")

NOTICE: *DO NOT INSTALL THIS SOFTWARE until you have read the License Agreement below. IF YOU DO NOT agree to the terms of the License Agreement, then return the Software within (10) working days of purchase to the company, which supplied it to you, and that company will refund or credit the full price of the Software to you. BY INSTALLING THIS Software you agree that you have read the License Agreement and you and all of your authorized users of the Software agree to its terms.*

License Agreement. The following Software license agreement is issued by and on behalf of ARX, Inc. and its affiliates, including Algorithmic Research Ltd (collectively "ARX").

"Software" means all of the contents of the files, including, but not limited to, related explanatory written materials or files ("Documentation"), which are delivered during the installation process following your acceptance of this Agreement. The term "Software" also includes any software licensed by ARX from third parties for distribution under this Agreement ("Third Party Software"). All updates and corrections provided to Licensee shall become part of the Software and shall be governed by the terms of this License Agreement.

1. **Grant of License:** This is a License Agreement and not a sale of the Software. ARX grants the purchaser (the "Licensee"), a personal, non-transferable, non-exclusive, limited copyright license to access, install and use of the Software, as follows:

(i) for multiple user licenses purchased by a single entity, the Software may be copied by the Licensee's network administrator solely for use by the individuals authorized by the network administrator, provided that the number of Licensee's authorized users is no greater than the number of licenses purchased by Licensee.

(ii) for a single user license, Licensee may use the Software on one single computer, at a single location within the territorial boundaries of the country where this Software was delivered to Licensee.

2. **Ownership:** Although Licensee is owner of any physical media on which Software is recorded or fixed, ARX together with its licensors, own all right, title, and interest including all worldwide copyrights in the Software. All trademarks, service marks, copyrights, trade secrets and other know how in or related to the Software are and will remain the exclusive property of ARX and its licensors, whether or not

specifically recognized or perfected under local applicable law. Licensee will not acquire any right in the Software except the limited use rights specified in this Agreement.

3. **License Conditions:** The grant and continuation of this license is conditioned on (i) Licensee's compliance with all of its terms and conditions (ii) payment of all license fees when due, and (iii) in the event Licensee's payment for use of this Software is determined by the number of digital signatures or number of users created by the Software during a given period of time, Licensee shall grant ARX access to Licensee's Software logs on a quarterly basis to audit the number of signatures and/or number of users created by Licensee with the Software.

4. **Copy Restrictions:** All copyrights in the Software are the property of ARX. Unauthorized copying of Software Programs and all accompanying user manuals and written material concerning the Software (the Documentation) is expressly forbidden. Licensee may be held legally responsible for any copyright infringement which is caused or encouraged by failure to abide by the terms of this License.

5. **Transfer Restrictions:** The License is personal to the Licensee. Licensee shall not copy, disclose, use, license, rent, sell, lease, assign or otherwise transfer or use all or any part of the Software or Documentation without the prior written permission of ARX.

6. **Modifications:** Licensee agrees not to modify, port, adapt, translate, decompile, disassemble, merge or reverse engineer ARX's Software, or otherwise attempt to discover the source code or create any derivative works to the Software.

7. **Use Restrictions**: The Software is not designed, tested, manufactured or intended for operation or use in any inherently dangerous, life endangering or life support applications, including but not limited to nuclear facilities or the flight, navigation or communication of aircraft, ground support equipment or life systems monitoring. Licensee represents and warrants that it will not use the Software for such applications. Licensee agrees that ARX is not and shall not be held liable, in whole or in part, for any claims or damages arising from such use, and that Licensee shall indemnify and hold ARX harmless from any claims for loss, cost, damage, expense or liability arising out of or in connection with any such use and performance.

8. **Export Control:** Licensee acknowledges that he is aware that the Software is subject to export control, and under terms of this control the Software should be used only for the purposes granted in this License, by the Licensee or employee of Licensee, within the territorial boundaries of the country where this Software was delivered. Customer may distribute the Software outside the United States solely to Customer's end users and not for sale, lease or license to third parties, provided Customer complies with all export laws of the United States.

specifically recognized or perfected under local applicable law. Licensee will not acquire any right in the Software except the limited use rights specified in this Agreement.

3. **License Conditions:** The grant and continuation of this license is conditioned on (i) Licensee's compliance with all of its terms and conditions (ii) payment of all license fees when due, and (iii) in the event Licensee's payment for use of this Software is determined by the number of digital signatures or number of users created by the Software during a given period of time, Licensee shall grant ARX access to Licensee's Software logs on a quarterly basis to audit the number of signatures and/or number of users created by Licensee with the Software.

4. **Copy Restrictions:** All copyrights in the Software are the property of ARX. Unauthorized copying of Software Programs and all accompanying user manuals and written material concerning the Software (the Documentation) is expressly forbidden. Licensee may be held legally responsible for any copyright infringement which is caused or encouraged by failure to abide by the terms of this License.

5. **Transfer Restrictions:** The License is personal to the Licensee. Licensee shall not copy, disclose, use, license, rent, sell, lease, assign or otherwise transfer or use all or any part of the Software or Documentation without the prior written permission of ARX.

6. **Modifications:** Licensee agrees not to modify, port, adapt, translate, decompile, disassemble, merge or reverse engineer ARX's Software, or otherwise attempt to discover the source code or create any derivative works to the Software.

7. **Use Restrictions**: The Software is not designed, tested, manufactured or intended for operation or use in any inherently dangerous, life endangering or life support applications, including but not limited to nuclear facilities or the flight, navigation or communication of aircraft, ground support equipment or life systems monitoring. Licensee represents and warrants that it will not use the Software for such applications. Licensee agrees that ARX is not and shall not be held liable, in whole or in part, for any claims or damages arising from such use, and that Licensee shall indemnify and hold ARX harmless from any claims for loss, cost, damage, expense or liability arising out of or in connection with any such use and performance.

8. **Export Control:** Licensee acknowledges that he is aware that the Software is subject to export control, and under terms of this control the Software should be used only for the purposes granted in this License, by the Licensee or employee of Licensee, within the territorial boundaries of the country where this Software was delivered. Customer may distribute the Software outside the United States solely to Customer's end users and not for sale, lease or license to third parties, provided Customer complies with all export laws of the United States.

9. **Termination:** The License is effective until terminated. This License will terminate automatically without notice from ARX if the Licensee violates or fails to comply with any provision of this License. Upon termination of this Agreement Licensee shall (A) return to ARX all copies of the Software or shall certify that all copies of the Software have been destroyed (B) Destroy any Documentation that accompanies the Software.

10. **Limited Warranty and Disclaimer of Liability**

ARX warrants that (A) Any media on which Software was distributed will be free from physical defect, and (B) the Software will operate substantially in accordance with the User Manual, for a period of ninety (90) days after its delivery to Licensee. This Limited Warranty does not apply to defects due directly or indirectly to misuse, abuse, negligence, accident, repairs or alterations made by Licensee or anyone else other than ARX or if copyright notices or Serial Numbers have been removed or defaced.

EXCEPT FOR THE EXPRESS WARRANTIES STATED IN THIS AGREEMENT, ALL WARRANTIES OF ANY KIND EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NONINFRINGEMENT, ARE HEREBY EXCLUDED. ARX SPECIFICALLY DISCLAIMS ANY WARRANTY OR REPRESENTATION THAT THE SOFTWARE IS FREE FROM BUGS OR ERRORS OF ANY KIND.

EXCEPT AS OTHERWISE MANDATED BY LAW, ARX SHALL HAVE NO LIABILITY WITH RESPECT TO ITS OBLIGATIONS UNDER THIS AGREEMENT FOR CONSEQUENTIAL, EXEMPLARY, PUNITIVE, SPECIAL OR INCIDENTAL DAMAGES RESULTING FROM ANY DEFECT IN THE PRODUCT OR ITS DOCUMENTATION INCLUDING DAMAGES FROM LOSS OF DATA, DOWNTIME, PROFITS, GOODWILL, DAMAGE TO OR REPLACEMENT OF EQUIPMENT OR PROPERTY, AND ANY COSTS OF RECOVERING, REPROGRAMMING, OR REPRODUCING ANY PROGRAM OR DATA USED WITH ARX'S PRODUCTS, EVEN IF ARX HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

11. **Licensee's Exclusive Remedy For Breach Of Warranty:** Licensee's exclusive remedy for any claims for breach of ARX's warranty shall be to first notify ARX within the warranty period and return the Software and media to ARX. At its option, and in its sole discretion, ARX shall then (i) repair or replace the non-conforming Software or media, or (ii) refund the purchase price or fee paid by Licensee.

12. **Limitation of Liability:** Licensee agrees that ARX's liability, whether arising out of contract, negligence, strict liability, warranty, or any other cause of action, shall not exceed any amount paid by Licensee for use of this Software. Any written or oral information or advice given by ARX's dealers, distributors, OEM customers, agents

or employees will in no way increase ARX's liability, nor may Licensee rely on such written or oral communication.

13. **Privacy Policy:** The Privacy Policy at http://www.arx.com/misc/privacy-policy/ governs any personal information you provide to us. By using this Software you agree to the terms of this Privacy Policy.

14. **Third Party Software:** The Software may contain third-party software subject to additional terms and conditions, if any, available at www.arx.com.

15. **General Provisions:** This agreement between ARX and Licensee, cannot be modified by any other documents, verbal discussions or customary practice, including purchase orders, advertising or other representations of anyone, unless a written amendment making specific reference to the terms of this License which are being modified is executed by one of ARX's officers.
In the event any provision of this License is determined by a court of competent jurisdiction to be unenforceable, the term shall be revised the minimum extent necessary to avoid it being deemed unenforceable, and such unenforceability shall not affect any other term or condition.

16. **Governing Law And Jurisdiction:** This agreement shall be governed by and construed in accordance with the laws of the State of California without regard to any rules of conflicts of laws that might otherwise apply. Any controversy or claim arising out of or relating to this License Agreement, or breach thereof, shall be resolved by arbitration in San Francisco, California. Subject to the foregoing arbitration agreement, if applicable, Licensee agrees to the exclusive jurisdiction of the federal and state courts located in San Francisco, California for all such disputes, and you agree to their personal jurisdiction over you for such purpose. Notwithstanding the foregoing, you agree we may apply for injunctive relief in any jurisdiction for any unauthorized use of the Software.

17. **Government End Users:** The Software and related documentation are "Commercial Items", as that term is defined at 48 C.F.R. §2.101, consisting of "Commercial Computer Software" and "Commercial Computer Software Documentation", as such terms are used in 48 C.F.R. §12.212 or 48 C.F.R. §227.7202, as applicable. Consistent with 48 C.F.R. §12.212 or 48 C.F.R. §227.7202-1 through 227.7202-4, as applicable, the Commercial Computer Software and Commercial Computer Software Documentation are being licensed to U.S. Government end users (a) only as Commercial Items and (b) with only those rights as are granted to all other end users pursuant to the terms and conditions herein. Unpublished-rights reserved under the copyright laws of the United States.

Subject: RE: Flint Issue Questions from DTMB Procurement

I will do what I can to address some of these questions.

1) Since FEMA arrived on-site in the SEOC, they have been procuring the water resources made available through the federal emergency declaration; water, faucet filters, replacement cartridges, filtered pitchers and water testing kits. If going through an established state contract gets a better price, that is how they are ordering items. If they have a better deal or resource, that is what they do.
2) All resources are being delivered to the warehouse located at 4315 N. Clio Road in Flint. Michigan Department of Corrections has warehouse management staff in place to manage the warehouse operations. Receipt of all resources, regardless of who ordered them, is being checked in to the warehouse with packaging slips and I have copies of the FEMA order form as well. We don't do anything special with FEMA purchased resources.
3) The State of Michigan has a 25% match requirement for the FEMA dollars spent. DHHS will not get a bill for 25% of anything from FEMA. I work directly with FEMA on the finances through EMHSD as the State Financial Officer, and at this point we have FEMA assistance for 90 days. We are nowhere close to getting a bill from FEMA yet and that is something that I will take care of working with the State Budget Office as needed. I have never sent a bill for match to another state agency.
4) At this point in time, we only have a federal declaration of emergency that brings FEMA procured resources for 90 days beginning on the date of declaration, which was January 16, 2016. We don't have any other federal awards that would allow for reimbursement of items purchased before the federal declaration. We have a few requests out at the federal level, but it is a long process and there are no guarantees. Our guarantee is that FEMA will buy water and filters for 90 days.
